

IDWR needs to
determine depletion.

We'll try

No plan shall
utilize gw pump

Curtailment should
be according to
priority.

Use historical
data to establish
curtailment.

Watermaster
Compensation

Report on $\frac{1}{3} / \frac{2}{3}$ provision Rotation Credits

Don't use gw
for mitigation

- recharge

What qualifies
for mitigation

Compliance

partial decree limits
general provisions

no unstacking

better accounting
& access

Enforcement

Management
Changes have made
things worse.

connect-disconnect
diversion above
Howell gage better
regulated.

Diversion on tribs
better regulated
