Re: Water District 110 Steering Committee Meeting

Dear Mr. Parker,

The Idaho Department of Water Resources ("IDWR") conducted a hearing in Terreton on December 5, 2005 regarding creation of a permanent water district in the Mud Lake area. IDWR proposes to designate the district as Water District No. 110, which includes Administrative Basins 31 and 32 overlying the Eastern Snake Plain Aquifer ("ESPA"). The boundaries of the district are proposed to be the same as the North ESPA Water Measurement District, except that portions of Basins 33 and 34 within the ESPA will not be included at this time.

At the hearing on December 5th, Director Dreher indicated that the Department would convene a steering committee comprised of representative water users within the proposed water district. The Director recommended that the committee meet once or twice prior to the Water District No. 110 annual meeting. A steering committee is needed to help water users prepare for the first annual water district meeting and provide orderly transition from the water measurement district to the water district. The committee will also need to develop resolutions for the upcoming annual meeting.

You are hereby invited to the first Water District No. 110 Steering Committee, to be held as follows:

Date: January 18, 2005
Time: 10:00 a.m. - Noon.
Location: West Jefferson High School Advanced Learning Center (former
LDS (former LDS Church site adjacent to High School)
Highway 93 North
Terreton, ID

The purpose of this first meeting is to address questions about creation of the water district, the scope and requirements of the district, and transition from the measurement district to the water district. A proposed meeting agenda is attached. Also attached is a list of invited attendees, *→ was not included in letter.* including the current North Water Measurement District advisory committee and other water user representatives from the Water District No. 110 area.

IDWR will try to schedule the first annual water district meeting on the same date reserved for the North ESPA Water Measurement District (February 8, 2006), pending a final order issued by the Director.

Questions, concerns or needs related to the scheduled meeting may be directed to Tim Luke by calling 208-287-4959, or by e-mail at tim.luke@idwr.idaho.gov. You may also contact Gene Hansen, North Measurement District Hydrographer at the IDWR Regional office in Idaho Falls at 208-525-7161, or by e-mail at gene.hansen@idwr.idaho.gov.

Sincerely,

Tim Luke
Manager, Water Distribution

Cc: Karl Dreher, Director, Idaho Department of Water Resources
Ron Carlson, IDWR Eastern Region Manager
Gene Hansen, North Measurement District, IDWR Eastern Region
