

WATER DISTRICT MEETING NOTES

DISTRICT # 78C, GOOSE CREEK

March 27, 2006

I attended the annual meeting today in New Meadows. Attendance was better than recent years. Results follow:

Officers & Watermaster – same.

Advisory Committee – some changes: Dick Clay, Tim Farrell & Steve Campbell.

Funding – Current balance of about \$1090.

Budget – Adopted a budget based on assessments of \$1.25 per inch. Did not specify the total budget adopted but details will follow in secretary's report. Watermaster salary same as last year, \$30 day.

Provided them the watermaster oath and petition for watermaster services – they will complete and return these.

Some discussion followed about SRBA process, told them to expect preliminary recommendations in next few months, make sure to note deadlines in notice of error process.

2007 meeting - Last Monday of March (3/26/07) at same time & place.

Post-meeting discussion about inactive water district #78D, Campbell Swamp/Drain. Things remain about the same, same owners etc. No big problems to deal with at this time.
