RE: February 20, 2007 Measurement and Control Order in Water District No. 170.

Mrs. Breckenridge:

This letter is a follow-up to our phone conversation today regarding your surface and groundwater diversions in the Stanley Basin. As we discussed, the Idaho Department of Water Resources (IDWR) issued an order dated February 20, 2007 requiring controlling works and measuring devices in Water District No. 170 (the Order). The Order listed seven diversions from which two water rights held by the Breckenridge Family Limited Partnership may legally divert. Because both of the water rights are currently leased from the Water Supply Bank to be delivered as instream flow, no diversion is expected to occur at the seven locations for a number of years. As such, no further action is required on your part to comply with the Order until diversion is resumed at the following points of diversion: ALC0A, ALC0B, ALC0C, GW11, GW12, GW13, GW14.

Thank you for your time on the phone today. If you have any further questions regarding this matter, please feel free to contact me.

Sincerely,

Nick Miller, P.E.
Water Distribution Section
