Re: Invoice for GPS Receiver and Map Source Product

Dear Ethlene,

Enclosed please find an invoice from the Idaho Department of Water Resources (Department) to cover reimbursement for the purchase of one Garmin GPS receiver and accessories that have been delivered to Water District 29-D in care of Marshall Wheatley, watermaster. I delivered the GPS receiver and accessories to Marshall on May 17, 2010. The accessories include one neoprene carrying case and one MapSource US Topo DVD. The DVD contains topographic maps that I have since downloaded to the district's GPS receiver. These items are now the property of Water District 29-D.

These items were included on a Department invoice order since the Department (specifically my section) needed an additional GPS receiver. For your convenience and records, I am also including a copy of the original invoice sent to the Department. Please note that Water District 29-D is reimbursing the Department only for the cost of one Garmin GPS60 receiver, one carrying case, and one MapSource US Topo DVD. The Department covered the shipping cost.

Please give me a call at 208-287-4959 if you have any questions concerning the invoice.

Sincerely,

Tim Luke
Water Distribution Section
