Dear Gentlemen;

This letter is a request to seek the administrative disconnection of Antelope Creek and the Big Lost River based on the following information.

On July 19, 2010 water from Antelope Creek stop reaching the Blaine Canal and the 3 & 1 point of diversion. As shown in the ditchrider logs of that week. On Tuesday Dean Andersen put water in the head of the 3 & 1 for those users who had been exchanging water use.

Both the main channel and the back channel had no water in them on Wednesday July 21, 2010.

Roger Totten measured the Hanrahan on Thursday July 24, 2010 at 36 CFS.

On Friday Nick and I measured the Hanrahan at 1.16 32.5 CFS.

With some the water users off cutting Hay in upper Antelope as shown in Rogers logs, the diversion rates are low enough to anticipate no flows returning to the river channel.

If you have any questions or need more information please call me.

Sincerely;
Jay Jensen
Watermaster
Water District 34
