Hawell Creek

Name of Preser
Owner

REMARKS

4/14 Run a measuring test on
or 1.58 plus a estimated flow on main stream of 25" therefore the main
Channel flow estimated at 208 CPS - Hawell is slow at raising his head.
4/18 As usual every year at this time Ben Chubberson Smeyers gets away
with storing water in his Reservoir! Water Resources, has not done
a dam thing over the years at present - I estimate over a 100" is being
stored and a estimated 25" getting by - It will pick up as the head gets higher
in Res.

4/19 Rained most of the day then turned into snow around 2:30 his head
collected 3-3 1/2" had no calls for water other than what I have out
4/20 Power out for over 1 hr. my internal clock did not work this AM - We have
a est. 7" of Snow on top of it still raining & snowing this today -
Creeks are up & I turned off Starbuck ditch & Von Cam.

4/30 due to a lot of moisture dropped during the month of
April, voided calls for water on most creeks - Hawell
is a late riser, so they did not really take into effect except
for about 3 users -

Name of Preser Owner	REMARKS
Brim Ditch Sh.	5/17 It will be noted velocity of Creek
Brakkenburg	I had to start taking readings in Reverse
Kempston, Jim	" like from the top of weir to water level.
Bell, Leo	and follow up afterwards—
Bell, Leo (14)	Heavy Dept. got equipment out of
Droz, Ma Es.	Emorie Area (65 above)
	5/23 David went up to work on
	Brim ditch so they can pull
	the full dam— 600 CFS.
	I finally was able to get with ^{the} Mayor
	they had problems with their Reservoir—
	Sewage— spilled and complaints of overflow
	to Creek— He would check it out. Also, went
	over area apparently, to have damage.
	Note: Down at the Rock Dam, the Reservoir has
	dropped about 1 1/2 feet. Narrowed— Height
	of hole— 36" north side from 1st Storm and
	taking this and one really has almost washed
	it out.
	5/31 Howell Creek was the only
	Stream I had in delivery of water the
	whole month. Funny thing with all
	the water— I still have not received
	a call from Jeff Chatburn.
	On Sunday
	water was 45F

REMARKS

Summary - Hawell Creek was the only tributary of the Marsh Creek Water District that was not affected by all the moisture that proceeded through the month of June. Not everyone utilized the water as when Jeff Chatburn finally installed his call for water much later than the month. Also, it will be noted that the East side of the Albion Valley did not have any problems during the flooding stages of both Sand Creek & Marsh Creek in the previous month.
