Dear Sir:

Enclosed herewith is a copy of the Watermaster's Annual Report for the past season; also a copy of the Watermaster's Proposed Budget for the ensuing season.

The same have been prepared by the Watermaster and approved by this Department, in conformity with Sections 42-614 and 42-615, Idaho Code.

The Secretary should see that these documents are submitted to the next Annual Watermaster's Election Meeting of your district.

Thanking you for your cooperation, we are,

Dear Mr. Thompson

I was told that if I had
water troubles to get in touch
with you.

I recently bought the McCrackin
place. In the beginning when
it was all one place there was
45 inches of decreed Cammen Creek
water. 30 of 1869 rights & 15
of 1896 water when the places
were divided 15 went to Staddon
and 50 stayed with the McCrackin
but no date was established as
to which.

I also would like to know

if a domestic right can be
stripped off if the owner has
no water right & keeping the
domestic right but the water is
lower, than that decreed, in the
creek.

Also is it considered that
a person has his water right
way below his right and has
to get after the water master
every day to get it back up &
have him act like you were
stealing water just because you
wanted your decreed right.

Thanks you.

Dear Mr. Thompson
Boise, Idaho.

Two years ago when
you were in Salmon Country
you said if we needed your
help to let you know.

Last year we had
a fair water year but this
year we are having the
same trouble & worse.

George Shaton our water
master will not honor our
water rights and we are
extra water to people with
smaller & later rights.

Today he ask John what
the hell he was doing
up the creek looking at
ditches.

In some of ditch. the
weir boards are out on
ditches running full yet
we are cut to our last
rights. Could you possibly
come and help us out

Wes. John Austin Jr.
has bought the Trinity
The Cracker have crossed
the road with oldest
rights on a creek and
we are just not getting our
water. Would you please
come and try and get
this matter settled as
we do not want a law
suit. Thanks

Dear Mrs. Austin:

We wish to acknowledge receipt of your letter of August 15, 1957, in which you state that you are having trouble in receiving your water from Carmen Creek.

It will not be possible for the writer to be in Carmen at any time during this week. However, will try and be in Carmen some time during the week of August 26th to 31st.

We are enclosing herewith a copy of letter written to the Water-master in regards to your complaint, giving him our instructions.

Mr. George Leaton, Watermaster
Water District No. 3-N
Carmen, Idaho

Dear Mr. Leaton:

We are in receipt of two (2) complaints in connection with the distribution of the water of Carmen Creek. One complaint by Mr. John Austin, and the other by Mr. John Austin, Jr., who has bought the McCracken place. The complaints state that they are not getting their full amount of water as called for by the decrees.

It is not possible for the writer to be in your vicinity this week. However, will try to be there some time next week, at the request of the Austins.

In the meantime we wish that you would see that the Austins' rights are filled, according to the priority of their decreed rights, if the supply of water in Carmen Creek is sufficient to supply said rights.

The complaint of Mr. John Austin states that you are delivering additional water to rights on the stream with later priorities than the water rights of the Austins.

Kindly report to this department immediately regarding water distribution on Carmen Creek.

Very truly yours,

Dear Mr. Austin:

We wish to acknowledge receipt of your letter received in this department August 19, 1957, stating that you are not receiving your rightful share of the water of Carmen Creek.

We are enclosing herewith a copy of the letter written to the watermaster in regard to the distribution of water from Carmen Creek.

Relative to the delivery of domestic water, the watermaster has no authority from this department to deliver to any water user domestic water when the water user is an owner of a decreed water right. In other words, the waters of Carmen Creek are to be distributed according to the decreed right only.

The writer will be unable to come to Carmen this week, but will try to make it during the week of August 26th to 31st.

Dear Sir-

I am in receipt of your letter of Aug 21 and to say I am surprised is to put it mildly. Mr Curtin has had more than his share of the extremely low water that is in Carmen Creek this ~~water~~ ^{season}.

If you can possibly make it I wish you would come in and make an investigation.

Mr Curtin has and has had his water right for all season which he will continue to receive as long as I am Watermaster

Dear Mr. Kulp:

After searching County Records records for the agreement for a period of years, I found the agreements in the old files of McNutt vs. Palmer et al.

Then some attorneys misplaced them after examining the agreements, and quite recently I found them.

I am enclosing certified copies of two agreements which I think you will need for your investigation.

Sorry to be so late in getting them to you and hope those people will get the matter straightened out.

Mr. George Seaton
Water-master
Water District No. 3-N
Carmen, Idaho

Dear Mr. Seaton:

Relative to the agreement entered into between the Carmen Creek people and the Big Flat people filed as of the 20th day of June, 1900.

We are enclosing a photo-copy of this agreement which was obtained last fall from the county auditor at Salmon. We also enclose a photo-copy of the referee's decision for your guidance.

As far as we can determine or as far as the referee's report states, they made no determination as to the distribution of the amount of water saved to Carmen Creek by the construction of the Salmon River Ditch and diversion.

Provided there is no additional record in the court house preceding the enclosed agreement, the waters saved by the construction of the Salmon River Ditch will have to be distributed to all the water users of Carmen Creek and not to any certain individual water user, as has been done in the past.

Until a future settlement is produced by court action or otherwise, you are hereby instructed to deliver the waters of Carmen Creek according to the decree entitled David McNutt, et al., vs. Thomas Palmer, et al.

With the exclusion of the rights now receiving water from Salmon River, we believe the water users of Carmen Creek that have been receiving certain amounts of the saved water by the construction of the Salmon River ditch will have objection to this order. So if you will take the matter up with them, they in all probability, will wish to take some future action in the matter.
