watermaster to manage the said Bell and Larson Ditch, and to dis-
tribute the water flowing therein to the respective parties en-
titled thereto; and it further appearing to this court, that it

Re: Bell & Larson Ditch
District No. 36

Mr. O. J. Norlinger,
Roberts, Idaho.

Dear Sir:

We are just in receipt of a copy of the Order of the Court of the Ninth Judicial District, in and for the County of Jefferson, regarding your watermaster appointment on the Bell and Larson Ditch for the current irrigation season - from June 1, 1924 to August 25, 1924.

Under separate cover we are mailing you four daily record books in which you should keep accurate record of the amounts of water delivered to the various water users along this ditch, each day, in order that at the close of the irrigation season you can prepare a report in acceptable form which will prorate your total expense for the season among the various water users in the proportion that each shares in the total delivery of water for the season.

We are also enclosing you four annual watermaster report blanks for use in preparing your final report. This report should be made up in duplicate, signed by yourself as watermaster, having your signature acknowledged and presented to the Court for its approval, after which one copy should be filed in this office and the other copy passed to the Board of County Commissioners for payment, if payment is to be made through the county for your services.

Mr. J. R. Sayer,
Clerk, Board of County Commissioners.
Rigby, Idaho

Dear Sir:

You will find enclosed copy of watermaster's report covering work and distribution of expense on the Bell and Larson ditch in Jefferson county.

You should be advised that this watermaster was appointed by the Honorable George W. Edgington, District Judge, as provided by law. The statutes also provide that watermasters thus placed in charge of distribution of water shall receive their salary in the same manner as other watermasters in the state, either elected or appointed.

I, therefore, understand that the board of county commissioners of your county should allow this claim in the same manner as others of like nature prepared for watermaster service.

Very truly yours,

Director of Water Resources.
