RE: Amendment to the Water District 36A Annual Report for 2014

Dear Mr. Cooper,

I inadvertently included the draft 2014 assessment worksheet in the 2014 Annual Report that was filed last month rather than the final worksheet. The draft did not include updated PCC and meter values. While preparing assessment invoices, we found an additional error on the worksheet due to information that was submitted on a 2012 flow report used to calculate the 2014 assessment for that particular facility. Tim Luke was able to correct the 2012 flow report in the database so that we could complete the assessment calculation. The flow report error resulted in a net decrease in expected assessment income for 2014. Because the District retains a contingency category in the approved budget, all budgetary obligations can still be met in 2014 without having to increase the approved budget. Please, add the enclosed Amended 2014 Assessment Worksheet to the WD36A Annual Report submitted last month.

The Watermaster has asked that a statement be added to the Addendum included with the 2014 Annual Report that summarized meter installations and checks preformed in 2013. Please, add this Second Addendum to the WD36A 2014 Annual Report.

Respectively Submitted,

Linda L. Lemmon
Secretary

Summary: WD36A Meter Installations and Checks during 2013
Prepared by Frank Erwin, WD36A Watermaster

(6) Following a site visit in June 2013, Frank Erwin and Cindy Yenter determined that the 2.5 square foot submerged orifice plate at the Hoagland Tunnel (WMIS No. 410069) needed to be replaced with a 2.0 square foot plate because the water flow across the original plate had decreased to the point that it could not be measured accurately. This change was accomplished in 2013.

Amended: Water District 36A Non-Consumptive-to-the-System Assessments for 2014.
