RE: Delivery of Water Calls senior to Fuguey Storage.

3/19/14 John Fuguey - telephone 888-2518

John had questions regarding start dates on natural flow irrigation right senior to his storage (1931 priority) right. Discussed that the rights have start dates from 3/1, 3/15, & 4/1. SRBA Court decrees.

The watermaster wanted curtailment of Fuguey's diversion for the Murdock rights - some have start dates of 4/1. I discussed with John the delivery should only be for the rights that are senior to him with start dates of 3/1 and 3/15. He needed to work with the watermaster to let enough water by his diversion so the water calls were filled.

- He agreed to work with the watermaster.
- I agreed to send him a delivery list of the creek rights with start dates. -

JFW 3/31/14 Carol Gilbert telephone 250-1653

8:00 AM Talked with Mrs Gilbert - upset the Fuguey ditch shut off on Friday. Forces her to use her diversion upstream on creek. She is in the process of sand bagging diversion. Discussed that Fuguey needs to be off as a junior right. Stated she needed to work with Watermaster on issues. Was not happy! 57-108B, 85B, 100B, 102B - Wards have "A" portions.
