Version 1.0 updated 4.27.2016

## OCT 17 2017

## DEPARTMENT OF WATER RESCURCES

## REQUEST FOR VARIANCE OF IDWR APPROVED FLOW METER REQUIREMENT FOR IRRIGATION WELLS

Please fill out a form for each affected well

A variance will only be considered or approved for simple systems, open discharge wells, or for non-approved flow meters installed prior to the date of an IDWR measurement order.

Please note: this request must be approved before you may use any alternate measurement method.

Owner/Operator:			BLF LAND LLC	
	Well Name:		418 & 424	
	IDWR site tag:		A0005859	
	Legal description:		8N 37E 29 SW	
	Water District:		WD 110	
	Reporting District:		JEFFERSON-CLARK GWD (ground water district, irrigation district or other entity)	
			(ground water district, irrigation district of other entity)	
Please i	ndicate t	he method of mea	surement you wish to use and have approved:	
	Power Consumption Coefficient (PCC) (only for irrigation diversions that consist of one well and of irrigation discharge point or one distinct flow and demand condition)			
	Hour Meter / Time Clock (one well, open discharge)			
	Existing operating flow meter (installed prior to the date of the effective order, and determined as acceptable by the Department)			
			Channel Device (one or multiple wells, open discharge, device must be read daily or ntinuously recorded)	
If you a	ire requ	esting a variance,	you <u>must</u> answer the following questions:	
1.	Does the well open discharge into a pond or ditch?Yes XX No (if YES, skip to #3)			
2.	Is the well interconnected to other wells?Yes _XX_No			
3.	What is the pump discharge line size? 10"			
			14	
4.	Please describe the irrigation equipment used with this well (example: center pivot with or without end gun, % mile wheel lines, solid set hand lines, etc. Please describe number and length of hand/wheel lines. Describe system as accurately or completely as possible, including different operating conditions if any).			
	CEN	TER PIVOT \	WO / END GUN. FARMED IN THE SAME CROP.	
	Does yo	our pivot(s) systen	operate with corner machines?Yes XX No	
	Does your pivot(s) operate with an end gun?Yes _XX No.  If a pivot has an end gun, estimate the percent time the end gun operates% time end gun is on			
	Approximate number of acres irrigated by this well: 236 acres			

5.	Is there a flow meter presently installed on your well?yes	xXno
	Туре:	(magnetic, propeller, insertable,etc)
	Manufacturer:	
	Installation date:	
	Is the meter operable?:YesNo	
6.	Are there multiple pumps or other electrical loads wired to the s (example: surface water pumps, booster pumps, pivots)	ame electrical demand meter? XX YesN
	If yes, please describe other electrical loads: PIVOT POW	ER
	How many are in-line pressure boosters?	
	Do in-line boosters always run with the well?Yes XX	No
7.	Does the system operate with a variable frequency drive?	Yes XX No
	On Well motor:	
	On Booster motor:	
	On Both:	
8.	Does the well supply water for use other than irrigation? (Example)	ple: stock water, commercial)
	Yes XX No If yes, please list uses:	
9.	Does the well production decrease over the irrigation season?	Yes XX No
	Does pumping water level decrease over the irrigation season?	Yes <b>XX</b> _No
	If yes, approximately how much does the level decrease (in feet	)?
	ou answered YES to any of the questions #6 through #9, your system is sumption Coefficient (PCC) method of measurement. You will be r	
	ne system is an OPEN DISCHARGE system (answer to #1 is YES) argation season (answer to #9 is NO), then the system may be a candidate.	
locati	quired for all systems: Please attach a diagram or photo of the wations of all proposed or existing flow meters, and the locations of bospacing between each.	
PLEA	EASE PROVIDE YOUR SIGNATURE AND CONTACT INFORMA	ATION, AND RETURN ALL FORMS TO:
	IDWR PO BOX 83720 BOISE ID 83720-0098	(*) A
