RE: Amended Motion for Order of Interim Administration in Administrative Basin 37, Parts 2 and 3

Dear Water User:

The enclosed documents relate to the State of Idaho's Amended Motion for Order of Interim Administration, which seeks District Court authorization for administration of both surface water and ground water rights in the Idaho Department of Water Resources' (IDWR) Administrative Basin 37, Part 2 (Camas Creek Drainage) and Part 3 (Upper Big and Little Wood River drainages). The Snake River Basin Adjudication (SRBA) started over twenty years ago and is now nearing completion. IDWR completed its recommendations of Basin 37 Parts 2 and 3 area water right claims filed in the SRBA and nearly all of those claims have since been decreed by the SRBA District Court.

The purposes for the interim administration request are to obtain authority for the Director of IDWR to create or revise water districts, and to provide for long-term administration of surface and ground water rights from hydraulically connected sources. The first step in this process is the notification of potentially affected water right holders concerning the request and a hearing on the matter by the SRBA District Court. Therefore, this mailing is being sent to all recorded SRBA claimants in Administrative Basin 37, Parts 2 and 3, as well as holders of licensed and permitted rights in these areas that were not claimed in the SRBA. The list of affected claimants and other right holders is on file with the Court as Exhibit 1 to the Certificate of Service filed by the State.

This notice is provided for informational purposes as required by Section 42-1417(2), Idaho Code. This notice and the hearing scheduled by the SRBA District Court do not affect the status of your water right(s) on record with IDWR and the SRBA District Court, and will not result in any water rights being taken away, diminished or re-adjudicated. Any order issued by the SRBA District Court granting interim administration simply means that IDWR may proceed with future administration of water rights in Basin 37, Parts 2 and 3 in accordance with the individual water right decrees issued by the SRBA Court or recommendations pending before the SRBA Court.

Enclosed with this mailing are the following documents: (1) Amended Motion for Order of Interim Administration; (2) Brief in Support of Motion for Order of Interim Administration; (3) Affidavit of Tim Luke, IDWR Water Compliance Bureau Chief; and (4) Order Setting Hearing on State of Idaho's Amended Motion for Interim Administration. These documents can also be accessed, along with the Certificate of Service and accompanying Exhibit on the IDWR website.

If you have any questions, please call IDWR at 208-287-4800.

Sincerely,

for

_____	)	

On January 29, 2013, the State of Idaho filed a Motion for Order of Interim Administration of Surface Water Rights in Basin 37, Parts 2 and 3, and Request for Expedited Hearing (Motion). While the caption of the Motion mistakenly identified only surface water rights, the State of Idaho is moving this Court for an order of interim administration of water rights in the Snake River Basin Adjudication ("SRBA") for Basin 37, Parts 2 and 3, including

MOTION FOR INTERIM ADMINISTRATION OF SURFACE AND GROUND WATER
RIGHTS IN BASIN 37 PARTS 2 AND 3, AND NOTICE OF HEARING

both surface and ground water rights, pursuant to Idaho Code § 42-1417.¹ The grounds for this motion are as follows:

1. Idaho Code § 42-1417 provides that the District Court may, by order, permit the distribution of water pursuant to chapter 6, title 42, Idaho Code, through water districts in accordance with the Director's Report and the partial decrees for water rights acquired under State law or established under federal law. Idaho Code § 42-1417 provides that the District Court may enter the order after notice and hearing, if the District Court determines that interim administration of water rights is reasonably necessary to protect senior water rights.

2. Interim administration of surface and ground water rights in Basin 37, Parts 2 and 3 is reasonably necessary because an efficient means of administering some surface water rights and most ground water rights in Parts 2 and 3 does not exist. Interim administration and the establishment or expansion of water districts will provide the watermasters with the ability to administer water rights in accordance with the prior appropriation doctrine as established by Idaho law.

3. In accordance with Idaho Code § 42-1417(2)(b), notice of this motion is being provided to all affected surface and ground water claimants within Basin 37, Parts 2 and 3 by mailed notice.

THEREFORE, the State respectfully moves this Court for an order authorizing interim administration of surface and ground water rights in Basin 37, Parts 2 and 3, in accordance with the Director's Reports for this basin and the partial decrees that supersede the Director's Reports. *The Affidavit of Timothy J. Luke in Support of Motion for Interim Administration in Basin 37,*

¹ This motion does not seek authorization for interim administration of domestic and stock water rights as defined under Idaho Code §§ 42-111 and 42-1401A(11), or in-stream stockwater rights as defined under Idaho Code §§ 42-113(1).

Parts 2 and 3 and a brief in support of this motion are submitted herewith. The State respectfully requests an expedited hearing on this motion.

DESCRIPTIVE SUMMARY

This document is the State of Idaho's brief in support of its Motion for Order for Interim Administration, which seeks authorization for administration of water rights pursuant to chapter 6, title 42, Idaho Code, in Basin 37, Parts 2 and 3, in accordance with the most current Director's Report,¹ or in accordance with partial decrees that have superseded the Director's Reports.

¹ The Director's Report for Basin 37, Part 2 was filed with the SRBA district court on December 5, 2006. The Director's Report for Basin 37, Part 3 was filed with the SRBA district court on February 21, 2007. The vast majority of water rights within Basin 37 have reached partial decree, and Basin 37 will close to late claims on January 31, 2013. See *Order Establishing Deadline for Late Claim Filings in Basins 01, 02, 03, 31, 34, 35, 36, 37, 41, 45, 47 and 63* (October 12, 2012).

I. INTERIM ADMINISTRATION OF WATER RIGHTS IS REASONABLY NECESSARY TO PROTECT SENIOR WATER RIGHTS.

Administration of water rights is the distribution of water to water users in accordance with the prior appropriation doctrine as set forth in Idaho law. The primary mechanism for distribution of water in accordance with the prior appropriation doctrine in Idaho is through creation of a water district and the office of watermaster within that district under the supervision of the Director (“Director”) of the Idaho Department of Water Resources (“IDWR”). Idaho Code § 42-602 *et seq.*

The Director has the authority to create or expand a water district upon entry of a court decree that determines the water rights within the geographic boundaries of the proposed water district, Idaho Code § 42-604, or upon entry of an order from the district court that authorizes the use of a Director’s Report for purposes of interim administration. Idaho Code § 42-1417. Under Idaho Code § 42-1417, the SRBA district court may order interim administration in accordance with the Director’s Report upon a determination that administration is reasonably necessary to protect senior water rights.

A. Interim Administration is Reasonably Necessary for Efficient Administration of Water Rights.

Interim administration of water rights located within Basin 37, Parts 2 and 3 is reasonably necessary because an efficient means of administering most ground water sources and some surface water sources in the entirety of the basin does not exist.² The establishment or expansion of water districts for this basin will provide the watermasters with the ability to protect senior water rights through administration of water rights in accordance with the prior appropriation

² This court issued the *Order Granting State of Idaho’s Motion for Order of Interim Administration (Basin 37, Part I [Ground Water])* on November 19, 2002. This court issued the *Order Granting Motion for Interim Administration for Basin 37 Part I Surface Water* on December 13, 2005. The present motion seeks an order of interim administration for Basin 37, Parts 2 and 3, areas not included in the previous Basin 37 orders.

doctrine as established by Idaho law. In order to fully and adequately deliver water rights, the Director needs to have ground water rights and surface water rights organized into water districts pursuant to chapter 6 of title 42, Idaho Code. One purpose of this motion is to combine ground water rights and surface water rights in Basin 37, Parts 2 and 3 into a water district or districts so that they may be administered conjunctively.³

B. Facilitating the Implementation of Conjunctive Administration is a Major Purpose of the SRBA

Resolving the legal relationship between ground and surface waters was one of the main reasons for commencement of the SRBA. In the 1994 Interim Legislative Committee Report on the SRBA, the Committee stated the following goals of the SRBA:

All water rights within the Snake River Basin should be defined in accordance with Chapter 14, Title 42 so that all users can predict the risks of curtailment in times of shortage. It is vital to all water users that they have as high a degree of certainty as possible with respect to their water rights. Uncertainty discourages development, undermines the ability of agencies to protect stream systems and fosters further litigation.

1994 *Interim Legislative Committee on the Snake River Basin Adjudication* at 32. The Committee went on to state, “In fact, the [SRBA] was filed in 1987 pursuant to I.C. § 42-1406A, in large part to resolve the legal relationship between the rights of ground water pumpers on the Snake River Plain and the rights of Idaho Power at its Swan Falls Dam.” 1994 *Interim Legislative Committee* at 36.

The legislature recognized that there might be a need for earlier interim administration of water rights during the pendency of the general adjudication and, therefore, authorized the SRBA district court to “permit” the Director to distribute “water pursuant to chapter 6, title 42, Idaho Code” in accordance with applicable partial decree(s) and/or with Director’s Report(s) upon a

³ The State of Idaho’s motion for interim administration does not seek administration of domestic and stockwater rights as defined under Idaho Code §§ 42-111 and 42-1401A(11), or in-stream stockwater rights as defined under Idaho Code §§ 42-113(1).

finding that such administration is reasonably necessary to protect senior water rights. Idaho Code § 42-1417.

C. Creation or Enlargement of Water Districts is Reasonably Necessary to Protect Senior Water Rights.

Certain water rights and water sources within Basin 37, Parts 2 and 3 have not been subject to administration or regulation by water districts. *Affidavit of Timothy J. Luke at Id. at 2.* The formation or enlargement of water districts within Basin 37, Parts 2 and 3 will allow water to be distributed in accordance with the prior appropriation doctrine as established by Idaho law.

The creation or enlargement of the water districts is an important step in the administration of water rights. Water districts provide mechanisms for management, regulation, and enforcement of all water rights. *Id.* They also provide a means for incorporating regular measurement and reporting of diversions, including ground water diversions. *Id.* Water districts provide for local and timely response to calls for water distribution and provide a system whereby a watermaster can provide timely assistance and expertise to water users and respond to their complaints.

II. THE DIRECTOR'S REPORTS AND PARTIAL DECREES PROVIDE AN ADEQUATE LIST OF WATER RIGHTS FOR PURPOSES OF INTERIM ADMINISTRATION.

Chapter 6 recognizes that distribution of water requires an accurate listing of water rights. Idaho Code § 42-604, providing for the creation of water districts, applies only to "streams or water supplies" whose priorities of appropriation have been adjudicated by courts having jurisdiction thereof. The Idaho Supreme Court has recognized the importance of an accurate list containing the description of the water rights to be administered. In *Nettleton v. Higginson*, 98 Idaho 87, 558 P.2d 1048 (1977), the Idaho Supreme Court stated: "Only by having a specific list reciting the names of water users, with their dates of priority, amounts, and points of diversion

can a system be administered.” *Id.* at 91, 558 P.2d at 1052, quoting *DeRousse v. Higginson*, 95 Idaho 173, 505 P.2d 321 (1973).

Before the court can issue the order of interim administration, it must find that the individual partial decrees that supersede the Director’s Report for individual recommendations and the latest filing of Director’s Reports where partial decrees have not been issued are an adequate listing of the owners and elements of the water rights for the purposes of interim administration of a water source. Idaho Code § 42-1417 contemplates that the Director’s Reports constitute an adequate listing, since all the claims have been investigated by state officials and reported to the court. The statute assures procedural due process by requiring notice to the claimants and by allowing the court to modify the Director’s Report for purposes of interim administration. The statute also contemplates that the partial decrees provide an adequate listing of water rights for purposes of interim administration because these rights have not only been investigated by state officials, but have also withstood the scrutiny of court review. Thus, the Director’s Reports and the partial decrees constitute an adequate listing of water rights for purposes of administration of water rights pending completion of the adjudication. Upon entry of an order for interim administration, the creation or enlargement of water districts and the distribution of water thereunder will occur in accordance with the normal administrative mechanism created by chapter 6, title 42, Idaho Code.

III. NOTICE IS BEING PROVIDED TO EACH CLAIMANT THAT WILL BE SUBJECT TO THE INTERIM ADMINISTRATION ORDER.

Idaho Code § 42-1417 requires that notice be given to “each claimant of water from the water system or portion thereof that could reasonably be determined to be adversely affected by entry of the order” The State of Idaho is mailing notice of this motion to all claimants who

may be subject to interim administration if this motion is granted. Therefore, the notice provisions of Idaho Code § 42-1417 are satisfied.

CONCLUSION

Interim administration, as requested in the State's motion, is reasonably necessary to protect senior water rights in Basin 37, Parts 2 and 3 as required by Idaho Code § 42-1417. The Director's Reports for this basin and the partial decrees that supersede the Director's recommendations are based on examination of the claims and the water system as required by Idaho Code § 42-1411. As such, the Director's Reports and the partial decrees constitute an adequate listing of water rights for purposes of administration of water rights pending entry of a final decree of the water rights. Therefore, the State requests that the Court enter an order permitting the administration of water rights pursuant to chapter 6, title 42, Idaho Code, in Basin 37, Parts 2 and 3 in accordance with the definition of water rights listed in the Director's Reports and, where superseded, in accordance with the partial decrees.

2. My primary responsibilities are the implementation and management of the water measurement program, providing assistance to water districts, periodic training of watermasters, and assistance or resolution of water distribution/water right disputes.

3. I have personal knowledge of the water supply conditions and water rights in the Camas Creek drainage located in Basin 37 Part 2, and the Upper Big and Little Wood River drainages located in Basin 37 Part 3 through my work with IDWR's Water Compliance Bureau.

4. Basin 37 is IDWR's designated administrative basin for the Big Wood River. It lies primarily within Blaine, Camas, Gooding, and Lincoln counties, but also includes small portions of Butte and Elmore counties. Basin 37, Part 1 is that portion of the basin overlying the Eastern Snake Plain Aquifer (ESPA). There are existing and active water districts in Basin 37, Parts 1, 2 and 3 that are responsible for administration and delivery of surface water rights from the Big Wood River and streams tributary to the Big Wood River, including Water District 37, Big Wood River, and Water District 37-M, the Little Wood River and Silver Creek drainage. Some ground water rights in Basin 37, Part 3 are included in Water Districts 37 and 37-M as a result of administrative water right conditions of approval. Ground water rights in Basin 37, Part 1 overlying the ESPA and surface water rights in Basin 37, Part 1 discharging from the ESPA are included in Water District 130. Some surface water rights and most ground water rights in Basin 37, Parts 2 and 3 are not included within a water district.

5. The reasons for the creation or enlargement of water districts in Basin 37, Parts 2 and 3 are:

- Provide a means for regular measurement and reporting of water diversions, including ground water diversions;
- Provide a mechanism for management, regulation, and enforcement of water rights. Existing water districts in this basin are largely limited to surface water sources and do not include most ground water sources. Additionally, some surface water sources in this basin may not be included in any water district.

- Provide a system whereby local watermasters or deputy watermasters can provide for local and timely responses to calls for water distribution.
