

WATERMASTER'S REPORT

From: March 1, 2020 To: March 1, 2021
Water Dist.: 31
Source: Beaver & Camas Creek, Mud Lake
Tributary to: Mud Lake
County: Clark & Jefferson
Secretary: Laurie Small

RECEIVED
JAN 19 2021
Department of Water Resources
Eastern Region

Watermaster: Gregory A. Shenton
PO Box 33
Dubois, Idaho 83423
(208)374-5274

Assistant Watermaster: Brett Murdock
PO Box 302
Dubois, Idaho 83423
(208) 374-5389

AFFIDAVIT OF WATERMASTER

STATE OF IDAHO
COUNTY OF CLARK

Gregory A. Shenton, being first duly sworn, deposes and says that he is Watermaster on Beaver, Camas Creek, Mud Lake in District 31, having been lawfully appointed by the Director, Department of Water Resources Gary Spackman and that the volumes of water, as stated in this report, prorated by him to the several users, are correct; that the sum of \$22,161.88 is justly due as stated.

Watermaster District No. 31

Subscribed and sworn to before me, this 19th day of January, 2021

Notary Public

My Commission expires 10/31/23

Boise, Idaho, _____, 2021

I HEREBY CERTIFY, That Greg Shenton
was lawfully appointed by me Deputy Watermaster of District No. 31, and that this bill for
services rendered prorated to the several users, as herein sworn to, is, to the best of my
knowledge and belief, correct.

Director, Department of Water Resources

By _____

WATER DISTRICT 31

MONTH(S) OF May - June - October, YEAR 2020

WATERMASTER GREGORY A. SHENTON, WATERMASTER
WATER DIST. # 31, 32-C, 32-D

ADDRESS P. O. BOX 33
DUBOIS, ID 83423

RECEIVED
JAN 19 2021

Department of Water Resources
Eastern Region

After the irrigation season the Watermaster must forward
record keeping information and the annual Watermaster
report to the appropriate IDWR Regional Office

Rules for Record Keeping

1. Use the daily record book or personal spreadsheet.
2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.
3. If the Water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion is not measured on a given day, but you believe that water continues to be delivered without a change in the flow or head gate setting, place an "A" in the grid space for that day. The "A" represents that the previous flow and head gate setting is "assumed." An "A" must always be preceded by an actual numerical flow rate.
4. If the water being delivered is not actually measured, enter an "E" in the grid space under the column meas method for the particular day that the flow rate is estimated. An "E" should always follow an estimated numerical flow that is observed and set in the field.
5. If water is not being delivered, enter a "0" (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of non delivery.
6. A blank grid space; means that the watermaster has no knowledge of the amount of water being delivered on that day. A grid should never be blank while the watermaster is delivering water.
7. If possible, please list the water right no. in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference. If there are multiple rights at diversion, please list the most senior right first. You may supplement this book with a list of water rights by priority for each diversion.
8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream right holders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.
9. If necessary or requested, watermasters should submit a separate water rights list or reference sheet that associates water rights with current owners or diversion names.

WATERMASTER'S DAILY RECORD

SOURCE Mudlase Draft

WATER DISTRICT 31

MONTH(S) OF May - June - October YEAR 2020

WATERMASTER GREGORY A. SHENTON, WATERMASTER
WATER DIST. # 31, 32-C, 32-D

ADDRESS P. O. BOX 33
DUBOIS, ID 83423

RECEIVED

JAN 19 2021

Department of Water Resources
Eastern Region

After the irrigation season the Watermaster must forward
record keeping information and the annual Watermaster
report to the appropriate IDWR Regional Office

Rules for Record Keeping

1. Use the daily record book or personal spreadsheet.
2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.
3. If the Water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion is not measured on a given day, but you believe that water continues to be delivered without a change in the flow or head gate setting, place an "A" in the grid space for that day. The "A" represents that the previous flow and head gate setting is "assumed." An "A" must always be preceded by an actual numerical flow rate.
4. If the water being delivered is not actually measured, enter an "E" in the grid space under the column meas method for the particular day that the flow rate is estimated. An "E" should always follow an estimated numerical flow that is observed and set in the field.
5. If water is not being delivered, enter a "0" (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of non delivery.
6. A blank grid space; means that the watermaster has no knowledge of the amount of water being delivered on that day. A grid should never be blank while the watermaster is delivering water.
7. If possible, please list the water right no. in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference. If there are multiple rights at diversion, please list the most senior right first. You may supplement this book with a list of water rights by priority for each diversion.
8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream right holders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.
9. If necessary or requested, watermasters should submit a separate water rights list or reference sheet that associates water rights with current owners or diversion names.
