Re: *Last Chance Canal - Transfer Application No. 4987*

Dear Ron:

This will confirm the settlement of the Gem Valley Farms/Neibaur Protest at the prehearing conference conducted at the Pocatello Airport April 9, 1997. Enclosed please find a revised description of the place of use of Last Chance's decreed water rights. Sections 19 and 20 in Township 9 South, Range 40 East and Section 15 in Township 11 South, Range 40 East, have been added to the previous description. Accordingly, those sections will not be deleted from the decreed place of use.

Please consider the Transfer Application amended accordingly. Based upon this amendment the Protest of Gem Valley Farms/Neibaurs is withdrawn. By copy of this letter and the enclosure, we are advising their attorney, William Forsberg, who will confirm the withdrawal of their protest by letter.

Please approve the Transfer Application as amended without further notice or hearing.^{*} The 29,000 acre place of use is now within an area of 67,894 acres, rather than the area of 66,614 acres indicated in Part 1, Paragraph 6(d) of the Application. If you have any questions, give me a call. Thank you for your assistance.

Sincerely,

Randy Budge

P.S. TO HAROLD JONES:

At the prehearing conference before Ron Carlsen April 9, he noted in the file a description of the Water Right No. 13-00955 as recorded. In looking that over, it appeared that the place of use was broken down into 40-acre and smaller parcels, purportedly based upon some prior transfer. As we are unaware of any prior transfers and the Dietrich Decree lists the place of use in full sections, would you please take a look at this and give me a call with an explanation. Thank you.

Sincerely,

RANDALL C. BUDGE

Re: Last Chance Canal Company, Ltd. - Transfer Application

Dear Harold:

I have prepared and enclose on behalf of Last Chance Canal Company, Ltd., an Application for Transfer of Water Right, together with attached exhibits A, B, and C. I was uncertain how the Department would calculate the filing fees. If you would kindly review and advise, I will remit a check for the amount.

The purpose of the Application is simply to correct the legal description in the Dietrich Decree to more accurately identify the perimeter boundary of the Company's system and area within which the 29,000 acre decreed place of use is located. From a recent review of the Dietrich Decree, it was discovered that 25 sections are identified which have never been irrigated and 7 sections are omitted which have always historically been irrigated.

As a result of the approval of this Application, there would be no change in the 29,000 acre place of use, but the area within which it is located would be reduced by 18 sections or 11,520 acres. The new description of the place of use is contained in Exhibit A, the changes are identified in Exhibit B, and the original decreed description set forth in Exhibit C.

I would appreciate it if you would review this application and contact me if you have any questions or feel any changes are appropriate.

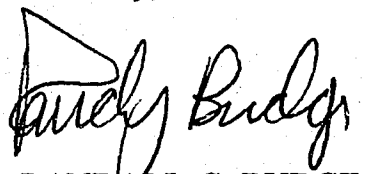

It would be greatly appreciated if the Department's processing, publication, and approval of this Application could be expedited. As you may recall, the Company encountered difficulties last irrigation season when a shareholder sought to lease their water rights for use outside the historic

place of delivery and use. A subsequent comparison of the legal description contained in the Decree with the actual place of use identified the discrepancies. At the Company's annual shareholder meeting November 4, 1996, a By Law Amendment was approved restricting delivery and use to the place of use identified in Exhibit A. It is important that this change be approved by the Department prior to the upcoming irrigation season.

Thank you for your cooperation and assistance.

Sincerely,

RANDALL C. BUDGE

Attorney for Protestant

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF THE APPLICATION
FOR CHANGE OF WATER RIGHT
NO. 4987 (WATER RIGHT NOS. 13-00991C,
13-00992C, 13-00955, 13-00956 and 11-00262)

PROTEST AND MOTION TO
COMPEL DISCOVERY

COMES NOW Gem Valley Farms, an Idaho General Partnership, herein after, "protestant," by and through its attorney of record, William Forsberg and **protests** the change of water right proposed by Last Chance Canal Company, hereinafter, the "applicant," in its Application for Change of Water Right, No. 4987. In support of its protest, protestant alleges and represents as follows:

Standing

1. Protestant is an partnership engaged in farming whose partners include Mitchel C. Neibaur, Chad Neibaur and Clyde A. Neibaur.

2. Protestant owns and leases land in Sections 18, 19 and 20, Township 9 South, Range 40 East, Boise Meridian together with shares of applicant's canal stock intended to irrigate said owned and leased land, all of which land is included in the land which the applicant proposes to change the place of use for its water right.

Notice Defective

3. Although the first paragraph of applicant's Notice of Proposed Change of a Water Right No. 4987 states it has applied for a change in the place of use of its water right, the notice does not appear to propose any change in the place of use of its water right, only the place of diversion.

1 4. In so far as applicant's intent is to change its place of use of it's water right, the published
2 notice has failed to give the public adequate notice of such change as required by Idaho Code §§ 42-108,
3 42-222 and 42-203A.

4 **Injury to Protestant's Water Rights**

5 5. Any change in the place of use of the applicant's water right which excludes Sections 18, 19
6 and 20, Township 9 South, Range 40 East, Boise Meridian from the place of use for such water will have
7 the effect of rendering the shares of Last Chance Canal Company stock held by protestant, representing
8 the right to irrigate land protestant farms in the above sections, useless in that protestant will no longer
9 have the ability to irrigate its land as it has done in the past and intends to in the future in violation of
10 Idaho Code §§ 42-108 and 42-203A(5).

11 **Conservation of Water Resources**

12 6. Any change in the place of use of the applicant's water right which excludes Sections 18, 19
13 and 20, Township 9 South, Range 40 East, Boise Meridian from the place of use for such water is not
14 consistent with the conservation of water resources in the state of Idaho as contemplated in Idaho Code
15 § 42-203A(5) in that it would remove irrigation water from developed farm ground with underground
16 mainline and center pivot irrigation systems in place requiring protestant to seek other irrigation water
17 requiring the drilling of wells or water conveyance from other new or existing water sources.

18 **Local Public Interest**

19 7. Any change in place of use of the applicant's water right which excludes Sections 18, 19 and
20 20, Township 9 South, Range 40 East, Boise Meridian from the place of use for such water is not in the
21 local public interest as defined in Idaho Code § 42-203A(5) in that it would remove irrigation water
22 supplied by the applicant from developed farm ground irrigated by protestant with underground mainline
23 and center pivot irrigation systems in place requiring protestant to seek other irrigation water requiring
24 the drilling of wells or water conveyance from other new or existing water sources.

25 8. Any change in place of use of the applicant's water right which excludes Sections 18, 19 and
26 20, Township 9 South, Range 40 East, Boise Meridian from the place of use for such water would
27 damage the value of the land. It is prime farm land. Some of the land in the applicant's decreed place of
28 use is marginal or waste ground and perhaps should be eliminated from the place of use but these sections

1 are some of the better ground in the area and should continue as farm land which can be irrigated from
2 applicant's system.

3 9. In so far as the change of place of the use of the water takes water from the laterals in which
4 it has traditionally flowed, such change in place of use will damage the integrity of the existing laterals
5 causing greater inefficiencies in the delivery of water through them.

6 10. In so far as the change of place of the use of the water takes water from the laterals in which
7 it has traditionally flowed, such change in place of use will adversely effect the recharge of the aquifer
8 in the area in which the traditional flow is reduced.

9 11. The land which protestant owns or leases in the above sections which are subject to losing
10 the right to irrigate from the applicant's canal system, have at one time or another been irrigated by some
11 type of water source (e.g. ground water, Last Chance Canal, Farmers Canal). Progress in modernization
12 caused one type of water delivery system (i.e. canal water or ground water) to be used more efficiently
13 than another on a particular piece of land. Flexibility in the irrigation water supplies to the overlap area
14 of these systems needs to be maintained as this land is at the end of water delivery systems and over time
15 one system might prove more efficient than another.

16 **Application not Made in Good Faith**

17 12. In so far as the application proposes to change the place of use of the applicant's water right
18 to exclude Sections 18, 19 and 20, Township 9 South, Range 40 East, Boise Meridian from the place of
19 use for such water, such application is made in bad faith in violation of Idaho Code § 42-203A(5) in that
20 it would remove irrigation water supplied by the applicant to protestant from developed farm ground
21 irrigated by protestant as recently as 1996 with underground mainline and center pivot irrigation systems
22 requiring protestant to seek other irrigation water requiring the drilling of wells or water conveyance from
23 other new or existing water sources.

24 13. That applicant knows or should reasonably know that protestant has developed and irrigated
25 land in sections applicant has proposed for elimination as places of use and that elimination of that land
26 from places of use for its water right will impose a severe economic hardship on protestant.

27 14. that applicant has no other valid reason other than to harm protestant to eliminate the land
28 the land farmed by protestant from the land upon which water from its water right can be used.

1 15. It appears that at the same time applicant proposes to eliminate protestant's land as a place
2 of use for water from its water right, applicant is proposing to include land not previously a part of its
3 decreed place of use to which it has knowingly and intentionally supplied water to over the past years in
4 violation of the decree of water right, its bylaws and state law.

5 **Motion to Compel Discovery**

6 16. Protestant hereby moves, pursuant to Procedure Rule 521 of the for an order compelling
7 discovery.

8 17. Discovery is necessary to adequately prepare for the hearing of this matter.

9 18. Protestant requests that the Hearing Officer set a hearing on its Motion to Compel Discovery.

10 **WHEREFORE**, protestant prays for orders and relief as follows:

11 **Order**

12 1. That a hearing be set on protestant's Motion to Compel Discovery.

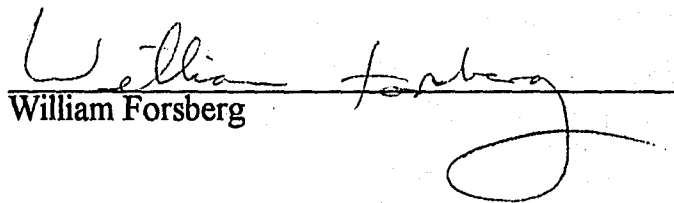

13 **Relief**

14 2. That the Notice of Proposed Change of a Water Right, No. 4987 be corrected and republished
15 to give the public and this protestant required notice of the proposed action.

16 3. That applicant's Application for Change in the Place of Use of Water Rights be denied.

17 4. For such further and other relief as the Idaho State Department of Water Resources may deem
18 just and necessary in the premises.

19 Respectfully submitted this 29th day of January, 1997.

Dear Sir or Madam:

The Fish and Wildlife Service protests Application to Change Water Right No. 4987, filed by Last Chance Canal Co., on the basis that the applicant claims the right to use Water Right No. 11-00262 from April 1 to October 31, although the decree issued by Judge Dietrich in Utah Power & Light Company vs. The Last Chance Canal Company, Limited, et. al., defines the irrigation season as ending September 30.

It is the position of the Service that approval of this application has the potential to adversely affect the water rights held by the United States of America for the Bear River Migratory Bird Refuge unless conditioned to prevent diversion after September 30 of natural flows in the Bear River.

Enclosed is a Money Order in the amount of \$25 to cover the required protest fee.

If you have questions or require further information, please contact me at (303) 236-5321 extension 223.

P. 01

February 5, 1997

To: Harold Jones, Idaho Dept of Water Resources
From: Cheryl Williss, Fish and Wildlife Service
Subject: Application for Transfer No. 4987,
Last Chance Canal Company

The Fish and Wildlife Service filed a protest to this application, dated January 29, 1997, based on the notice in the Department's Weekly Water Rights Listing, received in this office on January 21 and January 27, 1997. In each, the listing showed that the period of use on Water Right No. 11-00262 was 04/01 to 10/31. Since the Dietrich decree recognized a use period of April 1 through September 30, the Service believed the transfer would result in an expansion of the water rights and the associated consumptive use.

We have now received copies of letters from the Canal Company's attorney, Randall Budge, explaining that the correct irrigation period ends on September 30. Therefore, the Service wishes to withdraw its protest. ~~Because the protest was based on incorrect information published by the Department, we believe that the protest fee of \$25 should be refunded.~~

Re: Last Chance Canal Company, Ltd. - Transfer No. 4987

Dear Harold:

Last Chance forwarded me your letter of February 8 regarding the protests to the captioned transfer application. I would appreciate it if you would direct all communications to me as the company attorney.

My understanding is that the protest of the U.S. Fish and Wildlife Service has been or is in the process of being withdrawn. I have contacted attorney Bill Forsberg who is representing the other protestants, the Neibaurs. While some discussions are in progress and we are expecting to receive a proposal shortly from the Neibaurs, I am not certain the issues they raise can be settled short of a hearing. Accordingly, we would request that the Department schedule a hearing at the earliest available date.

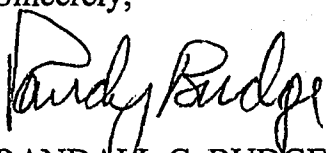

Regarding the protestants' motion to compel discovery, a hearing and order on that appears unnecessary as Last Chance will cooperate on discovery. I have so advised Mr. Forsberg and we have tentatively reached an understanding to have the parties mutually cooperate with whatever reasonable discovery requests the other party may desire.

Re: Last Chance Canal - Transfer Application No. 4987

Dear Ron:

This will confirm the settlement of the Gem Valley Farms/Neibaur Protest at the prehearing conference conducted at the Pocatello Airport April 9, 1997. Enclosed please find a revised description of the place of use of Last Chance's decreed water rights. Sections 19 and 20 in Township 9 South, Range 40 East and Section 15 in Township 11 South, Range 40 East, have been added to the previous description. Accordingly, those sections will not be deleted from the decreed place of use.

Please consider the Transfer Application amended accordingly. Based upon this amendment the Protest of Gem Valley Farms/Neibaur is withdrawn. By copy of this letter and the enclosure, we are advising their attorney, William Forsberg, who will confirm the withdrawal of their protest by letter.

Please approve the Transfer Application as amended ^{*}without further notice or hearing. The 29,000 acre place of use is now within an area of 67,894 acres, rather than the area of 66,614 acres indicated in Part 1, Paragraph 6(d) of the Application. If you have any questions, give me a call. Thank you for your assistance.

Sincerely,

P.S. TO HAROLD JONES:

At the prehearing conference before Ron Carlsen April 9, he noted in the file a description of the Water Right No. 13-00955 as recorded. In looking that over, it appeared that the place of use was broken down into 40-acre and smaller parcels, purportedly based upon some prior transfer. As we are unaware of any prior transfers and the Dietrich Decree lists the place of use in full sections, would you please take a look at this and give me a call with an explanation. Thank you.

Sincerely,

RANDALL C. BUDGE

FROM: PAM SKAGGS/STATE OFFICE o/c

SUBJECT: TRANSFER NO. 4987 Jim

DATE: June 10, 1997

=====

Transfer No. 4987 changes the place of use to more accurately describe current and historic use under Right Nos. 11-00262, 13-00991C, 13-00992C, 13-00955 and 13-00956.

No watermaster comment was found in the transfer file; however, the region review sheet noted that comment sheet had been sent. I telephoned the watermaster of Water District 11, Pete Peterson, on 06-09-97 to discuss this transfer. He was familiar with the application and had no problems with approving the transfer.

Recommended conditions include watermaster control, measuring device, irrigation overlap, right-of-way, combined rights & permissible place of use limits, and standard transfer conditions.

Re: Last Chance Canal - Transfer Application No. 4987

Dear Ron:

This will confirm the settlement of the Gem Valley Farms/Neibaur Protest at the prehearing conference conducted at the Pocatello Airport April 9, 1997. Enclosed please find a revised description of the place of use of Last Chance's decreed water rights. Sections 19 and 20 in Township 9 South, Range 40 East and Section 15 in Township 11 South, Range 40 East, have been added to the previous description. Accordingly, those sections will not be deleted from the decreed place of use.

Please consider the Transfer Application amended accordingly. Based upon this amendment the Protest of Gem Valley Farms/Neibaurs is withdrawn. By copy of this letter and the enclosure, we are advising their attorney, William Forsberg, who will confirm the withdrawal of their protest by letter.

Please approve the Transfer Application as amended without further notice or hearing. The 29,000 acre place of use is now within an area of 67,894 acres, rather than the area of 66,614 acres indicated in Part 1, Paragraph 6(d) of the Application. If you have any questions, give me a call. Thank you for your assistance.

Sincerely,

RS

P.S. TO HAROLD JONES:

At the prehearing conference before Ron Carlsen April 9, he noted in the file a description of the Water Right No. 13-00955 as recorded. In looking that over, it appeared that the place of use was broken down into 40-acre and smaller parcels, purportedly based upon some prior transfer. As we are unaware of any prior transfers and the Dietrich Decree lists the place of use in full sections, would you please take a look at this and give me a call with an explanation. Thank you.

Sincerely,

RANDALL C. BUDGE

Re: Water Right Nos. 11-00262/13-00991C/13-00992C/13-00955/13-00956
(Transfer No. 4987)

Dear Jim:

Our client Last Chance provided me with a copy of your June 11, 1997 letter and the enclosed Preliminary Order Approving the Captioned Transfer No. 4987. There are errors in the legal description of the place of use. Sections 19 and 20 of T. 9 S., R. 40 E., and Section 15 of T. 11 S., R. 40 E., appear to have been inadvertently omitted.

Enclosed please find copies of my letter of April 14, 1997 to Ron Carlsen with attached Place of Use, and Withdrawal of Protest from Protestant Gem Valley Farms/Neibaur. Apparently these amendments did not come to your attention. Please correct the place of use accordingly.

I apologize that this was not discovered and brought to your attention earlier. However, apparently the Department sent your letter and the proposed Order directly to Last Chance who assumed it was also sent to me as I have been handling this matter for them from the outset.

Sincerely,

Randy Budge

FROM: PAM SKAGGS²⁸/STATE OFFICE

SUBJECT: AMENDED TRANSFER 4987

DATE: November 18, 1997

=====

Transfer 4987 was approved on 06-10-97 and sent to the applicant Last Chance Canal Company LTD. On 11-06-97 a letter regarding this transfer approval was received from attorney Randall C. Budge who had been acting as the agent for the applicant through the transfer process. He had received a copy of the transfer approval from Last Chance Canal Company and noted a discrepancy in the place of use description.

The transfer application place of use description was amended by letter received on 04-15-97 in order to resolve a protest. This change was inadvertently not made to the transfer approval. An Amended Transfer approval has been prepared to include the additional sections and the database updated under each water right. The amended approval will be sent out to both the applicant and Mr. Budge.
