

9. Give last date when water was applied to beneficial ... June 23, 1980
Length of extension of time requested five (5) years, or until June 23, 1990
(Date)

10. Explain fully your reasons for requesting an extension of time within which to resume the use of your water right and reasons for non-use A new subdivision was developed along a portion of the Lau ditch in 1979 and 1980. Residents began threatening suit alleging seepage from ditch into basements. Water users voluntarily shut off water pending resolution of problem and involved city officials. The matter has drug on, but is being pursued with more vigor again. Users do not wish to get involved in legal action if a reasonable solution can be worked out. They believe it would be better to maintain status quo until resolution which will hopefully occur in the very near future.

I hereby assert that no one will be injured by such extension. The information contained in this application is true to the best of my knowledge.

The state may allow an additional five year period of non-use without forfeiture upon a showing of reasonable cause. The decree holders have applied for this extension as water has been shut out of the Lau Ditch pending resolution of a complaint by residents claiming seepage from the ditch into their basements.

Any protest against the granting of this extension may be filed with Idaho Department of Water Resources, 150 Shoup, Suite 15, Idaho Falls, Idaho, 83402 on or before August 12, 1985.

Idaho Falls, Idaho 83402

Dear Mr. Carlson:

After our last conversation in which you indicated you would like to know which people owned which water rights on which land in connection with the application for extension of time on the Lau Ditch near Soda Springs, we wrote to our client and he responded by having the Caribou Title Company send us the information. I am enclosing a photocopy of the letter from Caribou Title Company together with the two attachments they enclosed.

As I recall, your second question was, what has happened to the other land and the other water rights, and I am still waiting to hear from the clients with respect to that question. Assuming I learn something, I will, of course, furnish it as soon as I receive it.

Yours very truly,

Kent W. Foster

Re: Protest Application Robert K. Jaegesen,
Soda Springs, Idaho in application for
a change in the point of diversion
and place of use of water from Soda
Creek, tributary of Bear River, as
carried under "Public Notices" in the
Caribou County Sun, Soda Springs,
Idaho on page seven of the Thursday,
July 21, 1987 issue. Said page as en-
closure (1) being made a part of this
protest.

Dear Mr. Director,

The above described application is protested
for the following reasons:

1. In the transfer application of 2.53 CFS no
provision is made to assess and mitigate
damages to the rights of others in the Law
ditch by seepage and shrink through the
transfer of 2.53 cfs from the Law ditch.
I am a holder of water rights on the Law ditch.

2. Enclosure A. states the transfer is for the irrigation of 117.4 acres of land. No domestic water for year around use is made in the transfer and/or in the Federal Decree. The application, therefore, is subject to the Federal decree of the dates of the irrigation season and to the strict conservation of water of no wastage of the same during the irrigation season.

Now is it indicated in the Transfer of plans to barter, trade or sell the transferred water, if granted, for any other use or privilege in any other farm, than that of the diversion from the Lau Ditch to the point of use then for irrigation. For the remaining months of the year, or when the water is not in actual use for irrigation, it is protested for elucidation in a granting of the transfer that the water must be returned to the natural flow of Soda Creek at the original point of diversion of the Lau Ditch in order that the several reaches of Soda Creek above and below the Feeney Canal diversion dam shall not be even more degraded under the various applicable Federal and State laws and regulations pertaining to migrating water fowl, wetlands and to migrating deer to and from a long established winter habitat. This is further noted in the following sub-paragraph.

3. Provisions of the Idaho State Supreme Court in the unanimous and landmark Shokal vs. Dunn (State Water Director) in the findings pertaining to and citing applicable Laws of the Public Interest in water management and stream flows ^{are} and invoked in this protest in the granting of the transfer of Enclosure (A) application so that Soda Creek shall not be degraded further to a point that already barely any exist, as also the same conditions are set out in the preceding subparagraph of this protest.

I ask in this protest that the application be properly amended to:

1. Assess and mitigate injury to the remaining water users on the Lane Ditch;
2. That the Federal and State laws pertaining to migratory water fowl, migrating deer to and from winter habitat and wetland protection in this application be set out as part of the transfer in order to insure no further degradation of Soda Creek;
3. That to prevent further degradation in this application the public's interest be protected.

A casual inspection of the reaches of Soda Creek will confirm protests no. 2 and 3.

I thank you and remain,

Yours truly,

Bois Hackley

Warren, Idaho 83285

RE: Lau Ditch Matter

Dear Dick:

I am enclosing a photocopy of an approved Application for Extension of Time to Avoid Forfeiture of a water right, regarding the water rights on the Lau Ditch which we applied for last June. I'm not sure why they chose the date of June 1, 1990, but you should be aware that the condition on this extension is that the use of the water shall resume on or before June 1, 1990.

Please let us know if there is something we can do to be of assistance.

Yours very truly,

Kent W. Foster

Dear Mr. Kingsford:

Enclosed is the Robert Torgesen Application for Transfer and check #10893 for \$35. The application form that was used is no longer in use and the information provided was not correct in several areas. There are eleven separate decrees involved here, each with a specific right number. I have enclosed a partially completed new Application for Transfer. As you can see, it takes eleven separate pages for the rights as they are currently recorded and a four page folding portion to describe how these rights are to be changed.

The following are areas that need to be completed:

Part 1, B-5: The acres (not x) by number in each 1/4 of 1/4 to be irrigated in sections 1 and 12 not to exceed 117.4 acres total (the 117.4 acres is all that is in the original rights and this is the maximum amount that can be transferred).

Part 1, 6 a,b,c,d: We need copies of the most recent tax notices which show the individuals listed on the water deed as having current possessory interest in the land to which the rights are appurtenant. Copies of warranty deeds are not sufficient evidence of current ownership.

Part 2, A-10: If your answer to this question for each right is no, then we need evidence of use (water master records, billings, etc.).

Part 3, A: A map must be provided of the 117.4 acres of proposed irrigated ground.

Also, the fee for a transfer of more than 0.20 cfs is \$50. I am also returning the Application for Extension of Time. This is a form that is needed for each right, so eleven forms at \$20 each

Mr. Kingsford

would have to be submitted from only those individuals who currently own the appurtenant ground. That same copy of a current tax notice would be required to establish their ownership.

I feel Mr. Torgesen should make a trip up here with his paperwork and talk to Ernest Carlsen, who will be reviewing this application. Trying to deal with notarized documents and explain what is needed through a third party is very cumbersome. I suggest that Mr. Torgesen at least call Mr. Carlsen and discuss the project.

Sincerely,

Dear Mr. Torgesen:

Enclosed is a list of the rights that are involved in your recent transfer application. The copies of the tax receipts you sent do not cover the land list highlighted in yellow. This appears to be a good portion of where the rights were appurtenant. You will need to demonstrate that the individuals who signed the water sales contract have possessory interest in these Lot and Blocks, or produce a disclaimer from the current owners.

In review of this application with other staff, I find that this is one of two problems that could negate this application. The other problem is whether these rights have been used continuously or have they been abandoned for more than 5 years.

In any event, I will need the requested information within 30 days or we will evaluate whether we can continue with this application based on the evidence we now have.

If you have any questions, please call me.

Dear Ms. Kackley:

This is to acknowledge receipt of the protest filed against the above referenced application for transfer. The following are the principle items considered by the Department at a conference and/or hearing in either approving or denying an application for transfer:

1. Are other water rights injured by the transfer?
2. Does the change constitute an enlargement in the use of the original right?
3. Will the proposed use under this transfer conflict with the local public interest?

The protestant must be prepared to present proof of the allegations involving one or more of the items. You will be notified at a later date as to the time and place set for conference and/or hearing. Although representation by legal counsel is not mandatory at a proceeding before the Department, you may retain an attorney in your behalf.

RE: Concern about Transfer and Use of Feeney Ditch to Deliver
the Water.

In March, 1989, I reviewed transfer no. 3457. I am familiar with the area, and know that sharp disagreements have erupted between users of the Feeney Ditch and surrounding landowners, particularly the city of Soda Springs and Dr. Evan Kackley. I also am familiar with the town, and personally believe that the water being transferred may have been forfeited. My suspicions are also raised because the statement regarding non use of the water on the back portion of part 2 is blank. Countering this, however, is an approval of an extension of time to avoid forfeiture, in which we granted until June 1, 1990 to resume use.

As a result of my concerns, I called Clyde G. Nelson, attorney for the city of Soda Springs. I gave him information regarding the applications, and he stated that he would discuss the matter with the city council. I understand that the matter was discussed with the city council, but apparently no formal objection has been raised by the city.

Looking at all of the facts, I believe we should approve transfer no. 3457, with an additional condition stating that "the issuance of this transfer in no way grants any right of way or easement across the land of another."
