TO: FILE NOS. 11-00448/449/457/471/499/531B & 02106

FROM: PAM SKAGGS/^{CS}STATE OFFICE

SUBJECT: TRANSFER NO. 4887

DATE: August 29, 1996

=====

Transfer No. 4887 was filed to add a point of diversion and change the place of use under the rights referenced above to create a permissible place of use for the rights with a small number of acres.

All of these rights are from Soda Creek except 11-02106 whose source of water is waste water from the Monsanto plant. This waste water is diverted into Soda Creek and a similar amount is being diverted upstream through this combined system from Soda Creek.

The additional point of diversion is being added to assist in irrigation practices. The total rate of diversion transferred is in excess of the standard 0.02 cfs/acre and is needed when water is diverted through the original points of diversion and ditches. The applicant explained the extra rights and water are needed because of conveyance losses over a basalt outcrop in the Lau ditch. A cement ditch was constructed over portions with greatest losses, but additional rate is required to successfully deliver the water.

Season of use and diversion volume were adjusted to current standards. Recommended conditions include watermaster control, irrigation overlap, multiple points of diversion/measuring devices, combined limits, conveyance losses, permissible place of use and standard transfer conditions.

Re: *P4 Production, L.L.C./Monsanto Company - Water Rights*
Transfer Numbers 4887, 5619, 5620, 5621
Right Nos. 11-00448, 11-00449, 11-00457, 11-00471, 11-00531B, 11-02106

Dear Glen:

I am writing on behalf of P4 Production, L.L.C., and Monsanto Company to the Department to request a review of the above-referenced transfers and water rights for the purpose of reconciling and understanding apparent discrepancies.

I am enclosing copies of each of these transfers. With the exception of Right No. 11-2106, which is waste water from the plant, all other water rights are decreed rights in Soda Creek, tributary to the Bear River, and are commonly known as the "Kackley Rights", since the property was owned by the Kackley family and several of the original rights were originally decreed to the Kackley family.

Transfer No. 4887 reflected the six Soda Creek rights for a total of 7.12 cfs/707 AF, plus Right No. 11-02106 for 2.00 cfs/707 AF, for the irrigation of a combined total of 202.0 acres. Condition 8 appears to apply the "duty of water", indicating the right is 4.04 cfs for irrigation (0.02 cfs/acre) with the balance (3.08 cfs) "limited to use for conveyance losses in delivery of these rights".

L. Glen Saxton
June 30, 2003
Page 2

Subsequently the irrigated acres were reduced from 202.0 to 51.0 acres, as reflected by Transfer No. 5619.

Monsanto leased to the Soda Springs-Oregon Trail Golf Course 1.0 cfs as reflected by Transfer No. 5620. At the same time, Monsanto intended to lease all of the balance to Last Chance Canal Company, with Transfer No. 5621 reflecting this to be 2.02 cfs.

I am enclosing a chart which summarizes these transfers. You will note Transfer Nos. 5619, 5620 and 5621, which were all approved October 10, 2000, do not appear to reconcile with the prior Transfer 4887 approved September 5, 1996. While it appears that the discrepancy may relate to the conveyance losses in delivery of these rights, it is unclear. The intent of the prior transfers was to ensure that all of the Monsanto water rights not retained on their irrigated property be leased to the Golf Course to meet their needs of 1.0 cfs, with all of the balance leased to Last Chance Canal Company. I expect the Department's files will contain more detailed information regarding these transfers, which I don't have, and would aid in an explanation.

Thank you for your cooperation and assistance. If you have any questions or need any additional information in the meantime, please don't hesitate to contact me.

Sincerely,

RANDALL C. BUDGE

MEMORANDUM

TO: FILE NOS. 11-00448/449/457/471/499/531B & 02106

FROM: PAM SKAGGS/^{CS}STATE OFFICE

SUBJECT: TRANSFER NO. 4887

DATE: August 29, 1996

=====

Transfer No. 4887 was filed to add a point of diversion and change the place of use under the rights referenced above to create a permissible place of use for the rights with a small number of acres.

All of these rights are from Soda Creek except 11-02106 whose source of water is waste water from the Monsanto plant. This waste water is diverted into Soda Creek and a similar amount is being diverted upstream through this combined system from Soda Creek.

The additional point of diversion is being added to assist in irrigation practices. The total rate of diversion transferred is in excess of the standard 0.02 cfs/acre and is needed when water is diverted through the original points of diversion and ditches. The applicant explained the extra rights and water are needed because of conveyance losses over a basalt outcrop in the Lau ditch. A cement ditch was constructed over portions with greatest losses, but additional rate is required to successfully deliver the water.

Season of use and diversion volume were adjusted to current standards. Recommended conditions include watermaster control, irrigation overlap, multiple points of diversion/measuring devices, combined limits, conveyance losses, permissible place of use and standard transfer conditions.

Dear Mr. Budge:

This letter is a response to your letter of June 30, 2003 regarding the transfers referenced above. I have attached a table summarizing the transfers that I think will help clarify the results of the transfers.

In summary, transfer 4887 authorized irrigation of 202 acres with a quantity of 7.12 cfs and 707 af. The approval included a condition limiting 3.08 cfs for use as conveyance loss. Transfers 5619, 5620 and 5621 superseded transfer 4887 and, in combination, authorize irrigation of 202 acres with a quantity of 4.04 cfs and 707 af. The diversion rate was reduced because the conveyance loss was no longer necessary.

Please give me a call if you have additional questions related to this matter.

Sincerely,

Jeff Peppersack, Manager
Water Right Permits Section
