Mr. Keith Higginson
Deputy State Reclamation Engineer
State House
Boise, Idaho

Dear Keith:

I enclose the original and copy of an Agreement between Black Otter Irrigation Company and the Dingle Irrigation Company. After conferring with you I found out that Black Otter wanted to divert not more than 30 second feet into the Dingle irrigation system commencing at the Dingle dam site, and which would be for the convenience of certain Black Otter stockholders in utilizing the irrigation system of the Dingle Irrigation Company. It is true that the point of taking the waters out of Bear River will be changed insofar as it will be taken further upstream at the Dingle dam site than at the Black Otter dam site; nevertheless, I do not believe that this is a change of point of diversion that is envisioned by the statutes of the State of Idaho in that it is not a permanent arrangement. The fact that it is not permanent is borne out by the terms of the Agreement whereby Dingle can terminate without notice and the Agreement may be terminated by either party without notice.

Your Form 20 (Application for Transfer of Water Right) appears to contemplate a permanent change in point of diversion as well as a change in place of use. Black Otter does not intend to change their point of diversion except as to channeling up to 30 second feet of water through the irrigation works of Dingle Irrigation Company, which is to be deducted from that amount to be diverted to the Black Otter system at its point of diversion (its dam site). I do not think it can be maintained that the water rights of other users are or will be injured by diverting up to 30 second feet through Dingle's dam site, and since the directors of both Dingle and Black Otter have entered into the Agreement, then certainly Dingle has consented to the use of its irrigation system and Black Otter has consented to the diversion of its water through Dingle's irrigation system.

I am certain that Black Otter will not object to completing the Form 20 that you have submitted to me, but I do not think it is necessary for the foregoing reasons. I make this statement on the basis of the provisions of Section 42-108, Idaho Code, and the case laws of the State of Idaho.

In any event, would you please return a copy of the Agreement to me, and if the Agreement is satisfactory and in compliance with the laws and regulations, please advise Mr. Stoker.

Very truly yours,

AGREEMENT

THIS AGREEMENT, Made and entered into this 20th day of July, 1966,
by and between the BLACK OTTER IRRIGATION COMPANY, a corporation organized
and existing under and by virtue of the laws of the State of Idaho, party
of the first part, hereinafter referred to as BLACK OTTER, and the DINGLE
IRRIGATION COMPANY, a corporation organized and existing under and by
virtue of the laws of the State of Idaho, party of the second part, here-
inafter referred to as DINGLE,

WITNESSETH:

WHEREAS, pursuant to that certain DECREE made and entered on the 7th
day of March, 1924, records of Bear Lake County, Idaho, in a case entitled
Preston-Montpelier Irrigation Company, a Corporation, plaintiff, vs.
Dingle Irrigation Company, a corporation, et al, defendant, in the District
Court of the Fifth Judicial District of the State of Idaho, in and for the
County of Bear Lake, DINGLE was decreed thirty-seven (37) cubic feet per
second of the waters from Bear River, and BLACK OTTER was decreed one
hundred fifty-one (151) cubic feet per second (of the amount alleged herein
to be decreed to BLACK OTTER, 17.5 cubic feet per second was decreed to the
Peg Leg Island Irrigation Company, but said amount is diverted through the
dam and ditches of the said BLACK OTTER);

WHEREAS, both BLACK OTTER and DINGLE are the respective owners of
certain artificial water courses, ditches, canals, dams and irrigation
systems by which to divert, distribute and supply irrigation water to the
stockholders of each;

WHEREAS, BLACK OTTER diverts water from Bear River at a dam site near
the south line of the Northwest Quarter of the Southeast Quarter of
Section 8, Township 14 South, Range 45 East of the Boise Meridian, and
DINGLE diverts water from Bear River at a dam site near the East line of
the Southwest Quarter of the Northeast Quarter of Section 17, Township 14
South, Range 45 East of the Boise Meridian;

WHEREAS, BLACK OTTER desires to divert not to exceed thirty (30) cubic feet per second of the waters of Bear River decreed to it pursuant to the aforesaid Decree ^{from} DINGLE'S dam site and irrigation system to a point in the Northeast Quarter of the Southwest Quarter of Section 12, Township 14 South, Range 44 East of the Boise Meridian, Idaho, the latter being the point and place where the aforesaid waters so diverted will dump back into the BLACK OTTER'S irrigation system; and

WHEREAS, DINGLE does not object to the aforesaid diversion and use of its dam site and irrigation system by BLACK OTTER;

NOW, THEREFORE, In consideration of the premises, it is hereby mutually understood and agreed as follows, to-wit:

1. That BLACK OTTER is hereby given the right and permission by DINGLE to conduct and divert not to exceed thirty (30) cubic feet of waters from Bear River, which waters are owned and controlled by BLACK OTTER pursuant to the aforesaid Decree, through and along the following portion of the irrigation system owned and controlled by DINGLE: Commencing at DINGLE'S dam site located near the East line of the Southwest Quarter of the Northeast Quarter of Section 17, Township 14 South, Range 44 East of the Boise Meridian, to a point in the Northeast Quarter of the Southwest Quarter of Section 12, Township 14 South, Range 44 East of the Boise Meridian, Idaho, the latter point being the place where the aforesaid waters will dump back into the irrigation system owned and controlled by BLACK OTTER.

2. That said right or permission to so use said portion of the irrigation system of DINGLE shall be revocable by DINGLE at any time without prior notice to BLACK OTTER, and that the right to so use said portion of said irrigation system is permissive only.

3. That all work done upon, in or about said portion of said irrigation system of DINGLE to enable the use of the same as aforesaid, shall be done under the supervision of DINGLE, except at that point where the aforesaid waters dump into the irrigation system of BLACK OTTER, the latter being under the supervision of BLACK OTTER, and any plans for said proposed

A. D. Oakey, being first duly sworn, deposes and says:

That his name is A. D. Oakey; that he is of lawful age, a citizen of the United States and the State of Idaho, and that his post office address is Dingle, Idaho;

That he is the Secretary of the Black Otter Irrigation Company, and which company is the owner and using a certain water right bearing priority of April 15, 1877, for 133.5 cubic feet per second of the waters of Bear River at and within the County of Bear Lake, State of Idaho, decreed to the Black Otter Irrigation Company, the successor in interest in and to Grimmett-Black Otter Irrigation Company, by that certain Decree made and entered on the 7th day of March, 1924, by the Honorable Robert M. Terrell, District Judge, in the District Court of the Fifth Judicial District of the State of Idaho, in and for the County of Bear Lake, in that certain case entitled Preston-Montpelier Irrigation Company, a corporation, Plaintiff, vs. Dingle Irrigation Company, a corporation; Grimmett-Black Otter Irrigation Company, a corporation; Peg Leg Island Irrigation Company, a corporation; West Fork Irrigation Company, a corporation; Ream-Crockett Irrigation Company, a corporation; Pugmire Livestock & Land Company, a corporation; Continental Life Insurance Company, a corporation; Ola Transtrum; Carrie Hill; J. A. C. Nielsen, John A. Jensen; Oron Quayle; Thomas Quayle; George Parker; Edward LaRocco; John O. Miller; Ezra J. Phelps; George A. Sparks, Hyrum Esterholdt, and Joseph Esterholdt, Defendants, for the purpose of irrigating the following described lands situate, lying and being in Water District No. 5 in the County of Bear Lake, State of Idaho, to-wit: 4,434.25 acres of land as described in the aforesaid Decree bearing date of March 7, 1924, which Decree is incorporated herein and made a part hereof by reference and attachment, and is the Secretary of the corporation to whom such right was so decreed and which has become the owner thereof pursuant to said Decree and continuous use.

Handwritten: *Vol. 4 Pg 650*

That said waters are now diverted from Bear River at a dam site near the south line of the Northwest Quarter of the Southeast Quarter of Section 8, Township 14 South, Range 45 East of the Boise Meridian, Idaho, and conducted to the above described lands by and through canals and ditches.

CHANGE IN PLACE OF USE

That affiant and petitioner does not desire to change place of use.

CHANGE IN POINT OF DIVERSION

That the said Black Otter Irrigation Company desires to change the point of diversion of 30 cubic feet of waters from Bear River, which said 30 feet of waters are owned and controlled by the Black Otter Irrigation Company pursuant to the aforesaid Decree, from the point above described to a point located and situated at the dam site of the Dingle Irrigation Company upon Bear River near the east line of the Southwest Quarter of the Northeast Quarter of Section 17, Township 14 South, Range 45 East of the Boise Meridian, Idaho, and thereafter conduct and divert the said 30 cubic feet of water to and along the following portion of the irrigation system owned and controlled by the said Dingle Irrigation Company: Commencing at Dingle Irrigation Company's dam site located near the east line of the Southwest Quarter of the Northeast Quarter of Section 17, Township 14 South, Range 45 East of the Boise Meridian, Idaho, to a point in the Northeast Quarter of the Southeast Quarter of Section 12, Township 14 South, Range 44 East of the Boise Meridian, Idaho, the latter point being the place where the aforesaid waters will drop back into the irrigation system owned and controlled by Black Otter Irrigation Company.

That the reasons for desiring to make such change is to permit more beneficial application of the waters decreed to the Black Otter Irrigation Company upon the lands specified in the aforesaid Decree, which is attached hereto and incorporated herein by reference.

The petitioner asserts that no one will be injured by such transfer, or change in point of diversion, and that the change will be made at petitioner's own risk, and that an agreement has heretofore been submitted to the Department of Reclamation of the State of Idaho in which the Dingle Irrigation Company agreed and consented to the change in point of diversion and the utilization of a portion of the said Dingle Irrigation Company's irrigation works.

WHEREFORE, affiant prays that the State Reclamation Engineer of the State of Idaho issue to it the proper certificate authorizing such change in point of diversion in accordance with the provisions of Sections 42-108 and 42-222 of the Idaho Code.

APPLICANT WILL ANSWER THE FOLLOWING QUESTIONS:

From what stream is the water diverted? Bear River.

Where is the diversion point located? The present point of diversion is located at the dam site of the Black Otter Irrigation Company on Bear River near the south line of the Northwest Quarter of the Southeast Quarter of Section 8, Township 14 South, Range 45 East of the Boise Meridian, Idaho. Through what ditch is it now conducted? Through the irrigation ditches owned and operated by the Black Otter Irrigation Company.

How much land is now irrigated by the water sought to be transferred?

4,434.25 acres.

Give the description: For the land description see copy of the aforesaid Decree, which is incorporated by attachment.

What is the total amount of water in inches, or second feet, dedicated to said land? 133.5 cubic feet per second, or 89 c.f.s. from July 1 to Sept. 30.

What kind of crops are being realised? Grain and hay.

How much water per acre is now required to irrigate said land? Statutory amount of 1 cubic foot for each 50 acres of land.

What will be the effect on the land now irrigated, if the use of water on it is discontinued? The use of water will not be discontinued, but the water now decreed to Black Otter will be more beneficially applied to the lands for which the water is appropriated.

Give location of new point of diversion, if change is to be made: The point of diversion is from Bear River at the dam site of Dingle Irrigation Company situated near the east line of the Southwest Quarter of the Northwest Quarter of Section 17, Township 14 South, Range 45 East of Boise Meridian, Idaho.

Through what ditch will it be conducted after transfer? It is proposed to conduct and divert not to exceed 30 cubic feet of waters from Bear River, which waters are owned and controlled by Black Otter pursuant to the aforesaid Decree, through and along the following portion of the irrigation system owned and controlled by Dingle Irrigation Company: Commencing at Dingle Irrigation Company's dam site located near the east line of the Southwest Quarter of the Northeast Quarter of Section 17, Township 14 South, Range 45 East of the Boise Meridian, Idaho, to a point in the Northeast Quarter of the Southeast Quarter of Section 12, Township 14 South, Range 44 East of the Boise Meridian, Idaho, the latter point being the place where the aforesaid waters will drop back into the irrigation system owned and controlled by Black Otter Irrigation Company.

How much water will be required per acre to irrigate the land to which this water is transferred? The same amount of water is required, because no new lands are being placed under irrigation.

Do you claim any other water right for the land from which you seek to abandon the use of this water? As state heretofore, the water will be applied upon the same land for which the water was decreed to be applied for beneficial use.

Is there any other water for the land to which you seek to make this transfer?
None.

All of said waters to be diverted from Bear River by means of the Miller Ditch, the point of diversion of which is about 150 yards East from the Northeast corner of Section 31, Township 14 South, Range 45 East of the Boise Meridian, to be used upon 400 acres of land described as follows:

SE 1/4 NE 1/4, NE 1/4 SE 1/4, SE 1/4 NW 1/4, and SW 1/4 Section 31, Township 14 North Range 45 East Boise Meridian.

And SE 1/4 NE 1/4 Section 30 Township 14 South, Range 45 East E.M. all in Bear Lake County, State of Idaho.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED: That there shall be allowed to pass by the Wardboro Dam in Bear River five cubic feet per second of water at all times for the use of the West Fork Irrigation Company for culinary and domestic purposes; and it is further understood and agreed that said West Fork Irrigation Company is to have a riparian right, inferior to the irrigation rights herein decreed, for forty cubic feet per second of water to be run through its canal at all times during the year except when needed for irrigation purposes.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED: That all of the above described lands are arid in character and require irrigation for their proper cultivation and for the profitable raising of crops thereon, and that the duty of water shall be fixed and determined at one and one-half (1 1/2) miners inches per acre of water from April 15th to July 1st of each year, and at one (1) miners inch per acre from July 1st to September 30th,

of each year for the lands designated as meadow lands, and for the lands designated as agricultural lands, it is agreed that the duty shall be one minor inch per acre through the irrigation season, except that it is adjudged and decreed that 800 acres of agricultural lands under the canal of the Dingle Irrigation Company and 400 acres of agricultural lands under the Preston-Montpelier Irrigation Company's Canal, and 400 acres of land under the Peam-Grochett Ditch have a gravelly sub-soil and require one and one-fourth (1 1/4) minor inches per acre, for their proper irrigation, which amount is hereby decreed to said lands, it is further adjudged and decreed that if within five years it is determined that said gravelly land does not need one and one-fourth (1 1/4) minor's inches per acre, the same may be reduced which in no event shall it be reduced so as to give less than one (1) minor's inch per acre to such lands, the court retaining jurisdiction of this cause for said purpose.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED, that the lands herein classified as "Meadow Lands" or rights are understood to mean those lands along Bear River producing what is commonly called "Wild Hay" or "natural meadow grass" which lands must be flooded in order to produce crops, the water running over said lands and back into Bear River, which said meadow lands shall be subject to rights hereinafter specified in this decree.

The agricultural lands or rights as herein classified are intended to mean those lands which have been cultivated and irrigated for the production of crops. The acreage of said agricultural lands are hereby decreed and designated as follows: Preston Montpelier Irrigation Company, 2200 acres, Dingle Irrigation Company, 1721 acres, Peg Leg Irrigation Company 868.5 acres, Peam-Grochett Irrigation Company 861 acres, and Kent-Lafosse Ditch 365 acres. It being adjudged and decreed that this is the number of acres designated as agricultural lands under this decree.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED: that if at any time between the 17th day of June and the 4th day of July of any year there shall not be sufficient water in Bear River to supply the above designated agricultural lands, consisting of Six Thousand Twelve and Twenty-five hundredths (6012.25) acres, then, in that event, there shall be taken from the lands or rights hereinafore designated as "Meadow Rights" pro rata a sufficient amount of water so that the said six Thousand Twelve and Twenty-five hundredths acres (6012.25) of agricultural lands shall receive seventy-five per cent (75%) of the full amount of water herein decreed to said agricultural lands, and if after July 4th of any year there is not sufficient water in Bear River to supply the said six Thousand Twelve and Twenty-five hundredths acres (6012.25) acres with the full amount of their decreed water rights, then, in that event, there shall be taken from the said meadow lands or rights a sufficient amount of water to supply said six thousand Twelve and Twenty-five hundredths (6012.25) acres of agricultural lands to the full extent of their decreed right.

IT IS FURTHER ORDERED, ADJUDGED, AND DECREED: That the Court shall retain jurisdiction, and jurisdiction is hereby reserved for a period of five years from the date hereof, for the purpose of correcting said decree if it shall be made to appear to the court that there are errors in the description or amounts of land to which water has been decreed under this decree.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED, that each party pay its own costs herein.

Mr. Mans Coffin
Director of Water Resources

Dear sir;

Enclosed is an application of the
Grimmett Black Otter Irrigation Co. to change
the Point of Diversion for 33 C.F.S. of their
Water Right, to the Dingle Irrigation Co. canal
for reasons noted in their application.

This is in reality a temporary change
as the Grimmett Black Otter Irrigation Co. is
not transferring the point of diversion for
their full right and retain jurisdiction as to
which part of their right shall be diverted thus
in times of low water stages.

I see no damage to be done to other
users by such transfer and as the need is immediate,
I have allowed such transfer to be made by turning
this amount of water through the Dingle Irri. Co.
Canal.

If there are objections by you to
making this change before the application is
perfected, kindly let me know at once.

If these papers need to be in duplicate
kindly return and they will be so made. As I did not
the amount of fee necessary to accompany this
application will request that you notify Chas. C. Nate,
Pres. Grimmett Black Otter Irri. Co., Dingle Idaho.

Very truly yours *E. J. Baugh* Watermaster Dist. 5

Mr. E. J. BAIRD
Watermaster
Soda Springs, Idaho

Dear Mr. Baird:

I am enclosing herewith a copy of an application for change of point of diversion of water, as filed by the President of the Grimmett Black Otter Irrigation Company of Dingle, Idaho.

The water involved in this transfer is in Water District No. 5, and comes under your supervision. This application has been granted in view of the fact that no protests were entered.

As you know, no publication is required for granting such an application, therefore, there is no cost involved.

Yours very truly,

Dear Mr. Cass:

We received your letter of July 20, 1966, in which you enclosed copies of an agreement between the Black Otter Irrigation Company and the Dingle Irrigation Company.

From the information you have given you propose to change the point of diversion up to 30.0 second feet of the Black Otter right into the Dingle Irrigation Canal. Even though the agreement may be terminated without notice by either party, it would appear that the intent will be permanent in nature and we therefore will require the processing of an application for transfer of water right which I sent to you.

Even though the two companies involved in this agreement have approved this transfer, in order for it to be binding upon the other users under the decree, the transfer will have to be approved by this office.

If you have any questions please let me know.

Very truly yours,

Re: Black Otter Application for Transfer of Water Right

Dear Keith:

I enclose the Application for Transfer of Water Right, original and two copies, for Black Otter Irrigation Company. If you will recall, on July 20, 1966, I submitted to you copies of an Agreement between Black Otter Irrigation Company and Dingle Irrigation Company, which Agreement should be on record in your office and should be incorporated in this Application as indicating consent by the Dingle Irrigation Company.

I trust you will find the enclosures in proper form, and that the proper Notice of Publication can be made next week.

Mr. Elbert E. Gass,

Dear Mr. Gass:

Upon examining the above mentioned application for change in point of diversion, we find the decree shows the points of diversion in R-44E, which apparently is an error. As we must describe the water right as given in the decree, we will insert R-45E in parenthesis in an effort to avoid confusing interested parties.

The application must also be notarized and signed by the Watermaster, Russel Stoker, Box 726, Soda Springs, Idaho. If you wish to forward this to him, it will save a few days time.

We plan to condense the land description as much as possible to aid in the publication.

Please make the necessary correction and return the application to us for processing. We need only one copy.

Re: Application for Transfer of Water Right
Black Otter Irrigation Co.

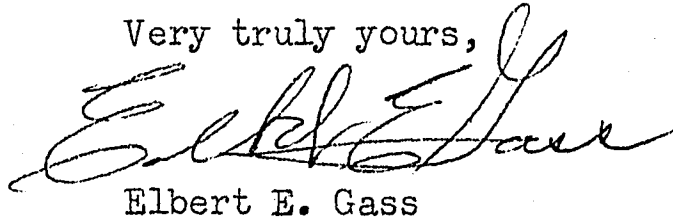

Dear Mr. Hamilton:

I enclose the original and copy of Application for Transfer of Water Right, thinking that perhaps Mr. Russell Stoker, Bear River Water Master, would like to have a copy. Both the original and copy of the Application have been executed by Mr. Oakey, Secretary of the Black Otter Irrigation Company, and notarized, and have also been executed by Mr. Russell Stoker.

Mr. Stoker and I spent quite some time verifying the proper description of point of diversion, past and present, of the applicant. The result of our investigation confirms the Range as indicated in the Application enclosed. Apparently the Decree has the wrong Range for the point of diversion for Preston-Montpelier Irrigation Company, Dingle Irrigation Company, Peg-Leg Irrigation Company, and Black Otter Irrigation Company. The Ream-Crockett Irrigation Company's point of diversion is properly described in the Decree, and Grimmett-Black Otter's is only about three-fourths mile down the river from Ream-Crockett's. The only way I know to correct the error would be to file a supplementary action to correct the Decree or to file Application for Transfer of Water Right by those irrigation companies who desire it.

When you issue the Notice of Publication, may I suggest the following Notary Publics before whom proof will be made: Mrs. Vea H. Munk, Professional Building, 455 Washington Street, Montpelier, Idaho; or Howard W. Tolley, 1025 Washington Street, Montpelier, Idaho.
