

--- APPLICATION FOR PERMIT ---

To Appropriate the Public Waters of the State of Idaho.

1. Name of applicant - Dorothea Lau
Postoffice address: P. O. - Soda Springs
County - Bannock.
2. The quantity of water claimed is 3.2 cubic feet per second.
3. Source of water supply - Willow Spring, Bannock County.
4. Location of point of diversion - Center of NE $\frac{1}{4}$ of NW $\frac{1}{4}$ Sec. 5, Twp. 9 South, Range 42 East.
5. To be used for:
 1. Irrigation and domestic use:
 - (a) Number of acres to be irrigated 160 acres.
 - (b) In the following legal subdivisions - E $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 5, and E $\frac{1}{2}$ NW $\frac{1}{4}$ Sec. 8, Twp. 9 S., Range 42 E. B. M.
6. Estimated cost of works - \$100.00
7. Description of Works for Diversion:
 1. Kind of Works - Ditch, Headgate & Dam.
- II. Dimensions of Works:
 - (a) Height of dam 2 feet, length of dam at top 10 feet, length of dam at bottom 10 feet, material used in construction earth & stone.
 - (c) Size of headgate, width 3 feet, height 2 feet.
 - (d) Ditch (flume or pipe) width at bottom 3 feet, width at water line 3 $\frac{1}{2}$ feet, depth of water 1 foot. Average grade per mile is 10 feet. Length of ditch is one mile, and it crosses the following quarter sections - NW $\frac{1}{4}$ and SW $\frac{1}{4}$, Sec. 5, Twp. 9 S., Range 42 East, to E $\frac{1}{2}$ SW $\frac{1}{4}$ sec. 5, and E $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 8, Twp. 9 S., Range 42 E. B. M., which is the point of intended use.
8. Time required for the completion of the construction of such work is - Work is now completed.
9. Time required for the complete application of the water to the proposed use is - Water is now being applied.

Approval of State Engineer.

The number of this permit is 937.

Date of first receipt of application 1 p.m. November 12, 1904.

Recorded in Book 4, Page 937. Approved November 28, 1904.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho and hereby grant the same, subject to the following limitations and conditions:

One-fifth of the work above specified to be completed on or before May 28, 1905.

The whole of said work to be completed on or before November 28, 1905.

The time for the proof of beneficial use of water appropriated in accordance herewith, to extend to November 28, 1905.

Witness my hand this twenty-eighth day of November, 1904.

Jas. Stephenson, Jr.

State Engineer.

Form 103, Notice of Proof of Completion of Works, and Form 121, Notice of Proof of Application of Water to Beneficial Use, mailed John Ferebauer, Soda Springs, April 26, 1905.

Notice of Proof of Completion of Works and Notice of Proof of Application of Water to Beneficial Use received May 2, 1905, fixing July 15th as the date and Soda Springs, Idaho as the place of proof.

Notice for publication mailed Soda Springs Chieftain, Soda Springs, Idaho, June 1, 1905, and deposition blank mailed John Ferebauer, Soda Springs, Idaho same date.

Commissioner Turner of Uve authorized June 25, 1905 to make examination under this permit and report to the office of State Engineer.

Affidavit of publication of notice, fee of \$5.00 for proof of completion of works, fee of \$8.00 for proof of application of water to beneficial use, report of E. J. Turner, and depositions of permit holder and two witnesses, received August 1, 1905. Depositions and report show that works have been built of sufficient capacity to divert and carry to the place of intended use the amount of water applied for, and that water has been beneficially applied to 60 acres of land.

Certificate of Completion of Works and License issued August 1, 1905.

PERMIT NO. 937.

CERTIFICATE OF COMPLETION OF WORKS.

To All Whom It May Concern:

This is to certify that DOROTHIEA LAU of Soda Springs, County of Bannock, and State of Idaho, the holder of Permit No. 937, issued upon Application No. 1307, bearing date of priority of November 12, 1904, authorizing the diversion of 3.2 second-feet of the waters of Willow Spring, County of Bannock, State of Idaho at NE $\frac{1}{4}$ of NW $\frac{1}{4}$ Sec. 5, Tp. 9 S. R. 42 E. S. 15., for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit, that said works are adequate for diverting and conveying to the place of intended use 3.2 second-feet of water; and that the lands proposed to be irrigated by the use of said water are described as follows, to wit: East half of Southwest quarter of Section Five, East half of Northwest quarter Section Eight, Township Nine South, Range Forty-two East of Boise Meridian.

Witness my hand this first day of August, A. D., 1905.

JOHN FERREBAUER

RESIDENT AGENT

SODA SPRINGS, IDA.

Soda Springs, Idaho, Apr. 22, 1905.

Hon. James Stephenson, Jr.,

State Engineer, Boise, Ida.

Dear Sir:-

Dorothy Lau of this place, who holds Permit No. 937 to use the waters of Willow Spring, is now ready to make proof of the completion of the whole work and of the use of water. Will you kindly arrange for both of these proofs at the same time at as early a date as possible and greatly oblige,

Yours truly,

John Ferrebaue

EX81

Boise, Idaho, April 26, 1905.

Mr. John Ferebauer,

Soda Springs, Idaho.

Dear Sir:-

Referring to your letter of April 22 in regard to proofs under permit #937, Dorothy Lau. I enclose herewith blank Notice of Proof of Completion of Works and blank Notice of Proof of Application of Water to Beneficial use. Will you kindly have these filled out and signed by Dorothy Lau and returned to this office, at which time the notices will be sent to the paper suggested for publication and deposition blanks mailed you. These notices should be mailed to this office at least 60 days before the date upon which it is desired to submit proof.

Yours truly,

State Engineer.

Notice of Proof of Completion of Works.

(This blank must be filled out by holder of permit and forwarded by registered mail to the State Engineer at least 60 days before the time set for completion of works.)

Vada Springs

(Date)

May 1

1905

To the State Engineer of the State of Idaho, Boise, Idaho.

Dear Sir:

Notice is hereby given that on the 15th day of July, 1905, at Vada Springs, County of Bannock, State of Idaho, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of the waters of Willow Spring, in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho:

1. The name of the person or corporation holding said permit is Dorothea

Law

2. The post office address of such person or the place of business of such corporation is

Vada Springs, County of Bannock, State of Idaho.

3. The number of such permit is 937, and the date set for the completion of such work is

November 28, 1905

4. Said water is to be used for irrigation purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 23.2 cubic feet per second.

6. The amount of lands for which said water is available is 160

acres, particularly described as follows:

E 1/2 Sec 5 and E 1/2 N.W. 1/4 Sec 8,
Twp 9 South Range 4 East

(In case of all canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer.)

I hereby certify that the facts set forth in the above notice are true.

Engineer.

I desire that the above notice be published, according to law, in the Vada Springs
Chief of Vada Springs, published in the county in which
said works are situated; the expense of which publication will be borne by

Sec. 1. On or before the date set for the completion of works for the diversion and application of water under any permit the holder of such permit, or his assign shall be prepared to submit proof of the completion of such works to the State Engineer.

Such holder of such permit shall first notify the State Engineer that he is prepared to submit such proof of completion of such works. Such notice to the State Engineer shall be given by registered mail and at least sixty days before the date set for the completion of such works, and shall be on a form furnished by such Engineer, and shall state (1) the name of the person or corporation holding the permit under which such works are constructed, (2) the postoffice address of such person or the place of business of such corporation, (3) the number of such permit, and the date set for the completion of such works under the same, (4) the use for which said water is intended, (5) whether or not such works will be fully completed on the date set for such completion, and the amount of water which such works are capable of conducting to the place of intended use in accordance with the plans of the same accompanying the application for such permit, (6) if for irrigation, the amount of, and the description of the lands for which said water is available according to such plans. In case of all canals or other works designed to divert and carry more than 50 cubic feet per second of water, the facts set forth in such notice to the State Engineer shall be certified to by a well known and competent irrigation engineer. Upon receipt of such notice by the State Engineer, such engineer shall immediately order its publication for a period of four weeks in some newspaper designated by the person sending such notice and published in the county in which such works are situated. Such published notice shall also state the date when such proof of completion shall be submitted to such engineer, and the place where the same shall be submitted and such publication shall be at the expense of the person making such proof.

Such person or persons establishing such proof of completion may offer the affidavits of competent engineers in relation to the grades, dimensions and capacity of such works, and the amount and location of land to which water can be delivered for irrigation. And the State Engineer may, in the case of canals designed to divert fifty cubic feet per second or more, demand that profiles and cross-sections showing the grade of and the finished condition of such works to be filed with him in support of the claims which may be made in relation to the finished condition of such works by the person or persons holding such permit. And in the case of works capable of diverting, on the date set for such completion, the full amount of water for which such works were intended, such State Engineer shall have authority to order the water turned into such works for the purpose of measuring the same.

PERMIT NO. _____

Notice of Proof of Application of Water to Beneficial Use.

(P. O.)

Boda Springs

(Date)

May 1 - 1905

To the State Engineer of the State of Idaho, Boise, Idaho:

Dear Sir—Notice is hereby given that on the 15th day of July, 1905, at Boda Springs, County of Bannock, State of Idaho, proof will be submitted of the application to beneficial use of 3.2 cubic feet per second of the waters of Willow Spring in accordance with the terms and conditions of Permit No. 937, heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Dorothy Law - Boda Springs Idaho
2. The use to which said water has been applied is irrigation
3. The amount applied to beneficial use is 3.2 cubic feet
4. The place where said water is used is (if for irrigation, give full and accurate description of the lands irrigated) E 1/2 Sec 5 and E 1/2 N. W 1/4 Sec 8, Twp 8 South Range 42 East
5. The name of the canal or ditch or other works by which said water is conducted to such place of use is Law's Ditch
6. The right to take the water from such works is based upon Permit No. 937
7. The source of supply from which such water is diverted is Willow Spring
8. The date of the priority which said user is prepared to establish is May 1, 1900

I desire that the above notice be published, according to law, in the Boda Springs Advertiser of Boda Springs, published in the county in which said water is to be used; the expense of which publication will be borne by me.

Dorothy Law

Section 7. On or before the date set for the beneficial use of waters diverted under the provisions of this act, which in no case shall be more than four years from the date set for the completion of any canal or other works designed to divert and conduct the public waters of the State to a place of use, or the date for the enlargement or extension or the completion of works for such purpose, the person or persons using such water shall submit proof that they have used such water for the beneficial purpose for which the diversion of such water was intended. Such user of such water shall first notify the State Engineer that he is prepared to prove that such water has been beneficially applied to the purpose for which it was intended. Such notice to the State Engineer shall state (1) the name and postoffice address of such user, (2) the use to which such water has been applied, (3) the amount used, (4) the place of such use, and, if for irrigation, the description by legal subdivisions, of the lands so irrigated, (5) the name of the canal or ditch or other works by which such water is conducted to such place of use, (6) the relation or understanding upon which the right to take water from such works is based, (7) the source of supply from which such water is diverted, and, (8) the date of the priority which such user is prepared to establish.

Such notice and such written proof as may be required to be submitted by such user shall be upon forms furnished by the State Engineer and such statements shall be sworn to by such user and be supported by the affidavits of two disinterested witnesses.

Upon receipt of such notice by the State Engineer, such engineer shall order its publication in some newspaper designated by such user and published in the county in which the major portion of such land is situated, for a period of four weeks, and shall fix a date when such proof shall be submitted and name a place where such proof will be received. Such date shall be subsequent to the completion of such publication, and such engineer shall, on or before the date set for such final proof, examine, or cause to be examined (1) the place where such water is used, and if the use is for irrigation, shall ascertain the area and location of the land irrigated and the nature of all the improvements which have been made as a direct result of such use, (2) the capacities of the ditch, canal or other means by which such water is conducted to such place of use and the quantity of water which has been beneficially applied for irrigation or other purposes. And the State Engineer or the person making such examination under the direction of such engineer shall also, on the date set for such final proof, receive the written statements made by the person or persons submitting such proof and the affidavits of the witnesses, which statements and affidavits, together with a report of the investigation which he is instructed to make, shall be forwarded at once to the State Engineer. Provided, That whenever several of such final proofs shall be offered from the same locality, such engineer shall arrange, whenever practicable, to have such notices for publication combined, and to have such examinations made by the same person and on the same date as near as possible to a view of minimizing the expense of taking such proofs, and such publication shall be at the expense of the person or persons submitting such proof.

Section 8. Upon receipt by the State Engineer of all the evidence in relation to such final proof, it shall be his duty to carefully examine the same, and if he is satisfied that the law has been fully complied with and that the water is being used at the place claimed and for the purpose for which it was originally intended, he shall issue to such user or users a license confirming such use. Such license shall be issued under the seal of the office of the State Engineer and such license shall state the name and postoffice address of such user, the purpose for which such water is used, the quantity of water which may be used, which in no case shall be an amount in excess of the amount that has been beneficially applied. If such use is for irrigation, such license shall give a description by legal subdivisions of the land which is irrigated by such water.

Section 10. For examining the ditches and lands of the user at the time of making final proof of the application of water, a fee of two (2) dollars shall be paid to the State Engineer at the time of making such proof for each legal subdivision of forty (40) acres or fraction thereof to which such water may have been applied. For examining the ditches or other works and the place where such water is used, when such use is not for irrigation, a fee of five (5) dollars shall be paid the State Engineer at the time of making such examination and taking the proof of such use. Provided, That in the case of water used for irrigation where two or more users, whose lands join or who take water from the same common lateral, join in the publication of the notice of their intention to make such proof of application, a fee of one (1) dollar for each legal subdivision of forty (40) acres or fraction thereof receiving such water shall be paid to the State Engineer at the time of making such proof.

CONFLAGRATION PROOF INSURANCE

JOHN FERREBAUER

RESIDENT AGENT

SODA SPRINGS, IDA.

Soda Springs, Ida. May 1, 1905.

Mr. James Stephenson, Jr., State Engineer,

Boise, Idaho.

Dear Sir:-

Herewith I enclose Notice of Proof of Completion of works
also Notice of Proof of Application of Water to Beneficial Use for
Dorothy Lau of Soda Springs who holds permit No. 937.

Also Application of Walter G. Crane for permit to appropriate
water. We have not shown number of acre feet capacity of reservoir for
the reason that we did not know how the acre feet are arrived at. The
reservoir covers about 10 acres and averages three feet in depth. Mr.
Crane has used this water a number of years and is prepared to make
Proof of Completion of works and Proof of Application of water. Mr.
Crane's land is not far from Mr. ^{Edmund} Lewis's claim and he would
like to arrange to have his proof made at the same time Lewis makes his,
so as to make one trip for the Commissioner answer for both proofs.
I sent you Mr. Lewis' application for permit some time ago. Please
advise me if his proof and Mr. Crane's can be arranged for the same date.

Yours truly,

John Ferrebaue

Boise, Idaho, May 8, 1905.

Mr. John Forchauer,
Soda Springs,

Dear Sir:-

I am in receipt of your letter of May 1, with which was enclosed notice of proof of completion of works and notice of application of water to beneficial use under permit #937, Dorothy Law. The notices will be mailed to the Soda Springs Chieftain in time for this proof on July 15th, and will also mail you deposition blanks to be filled out and sworn to in connection with this proof.

In regard to application of Edmund Lewis and application of Walter G. Crane, will say that these two applications are now in this office waiting their turn for record. On account of the large number of applications on hand it will be some time before I will be able to mail you the permits. However, I will set the proofs at such a time as will give plenty of time, and will also arrange to have both proofs submitted at the same time.

Yours truly,

State Engineer.

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that on the 15th day of July, 1905, at Soda Springs, County of Bannock, State of Idaho, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second, and of application to beneficial use of 3.2 cubic feet per second of the water of Willow Spring in accordance with the terms and conditions of Permit No. 937 heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person holding said permit are Dorothy Lau, Soda Springs, Idaho, and the date set for the completion of the work is November 28, 1905.

2. The use to which said water has been applied is irrigation

3. The amount applied to beneficial use is 3.2 cubic feet per second.

4. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 3.2 cubic feet per second.

5. The place where said water is used is E $\frac{1}{2}$ of SW $\frac{1}{4}$ Sec. 5, and E $\frac{1}{2}$ of NW $\frac{1}{4}$ Sec. 8, Tp. 9 South, Range 42 E. B. M.

6. The name of ditch by which said water is conducted to such place of use is Lau's Ditch.

7. The right to take the water from such works is based upon Permit No. 937.

8. The source of supply from which such water is diverted is Willow Spring.

9. The date of the priority which said user is prepared to establish is November 12, 1904.

Boise, Idaho, June 1, 1905.

Mr. John Ferebauer,

Soda Springs, Idaho.

Dear Sir:-

I am today mailing the Soda Springs Chieftain, Soda Springs, Idaho, notice for publication in the matter of proof of completion of works and application of water to beneficial use under permit 937, Dorothea Lau.

I enclose herewith deposition blanks to be used in connection with this proof. The blanks include two for permit holder (one for proof of completion of works and one for proof of application of water to beneficial use) and two each for two witnesses. These blanks should be filled out and sworn to on July 15th at Soda Springs.

It will also be necessary to have an examination made of the works. In order that the expense may be as light as possible on the permit holder would suggest that you give me the name of a competent engineer, or surveyor, in your neighborhood who could do this work. On receipt of such a name will issue the proper authorization for him to do the work.

When the depositions have been taken, kindly mail to this office, together with the following:

Affidavit of publication of notice,
Fee of \$5.00 for proof of completion of works
Fee of \$8.00 for proof of application of water to
beneficial use.

After which, as soon as report of engineer is received,

#2.

if everything is satisfactory, Certificate of Completion of Works
will be issued as well as the License.

Yours truly,

state Engineer.

SODA SPRINGS, IDAHO

Received
JUN 23 1905
Answered

State Engineer

Soda Springs, Ida. June 22, 1905.

Per 937.

Mr. Jas. Stephenson, Jr.,

Boise, Idaho.

Dear Sir:-

Referring to your letter of June 1st, in regard to proofs to be made by Dorothea Lau, I am unable to furnish the name of a competent engineer or surveyor to make the examinations, but have had the matter up with Mr. E. J. Turner, Commissioner for this Water District and who lives a short distance from here, and he advised me he would be willing to look after this matter and would also take the required depositions.

He stated it would be necessary for him to receive instructions from you to take these depositions and make the examinations before it would be proper for him to do so. Will you kindly send him the necessary instructions? I expect to leave here before the time for these depositions or would be glad to attend to them myself.

Kindly advise me when you have instructed Mr. Turner on this, so I can advise Mrs. Lau.

Yours truly,

John Firebauer

Boise, Idaho, June 23, 1905.

Hon. E. J. Turner,
Cove, Idaho.

Dear Sir:-

Dorothea Lau of Soda Springs, Idaho, is to make proof of completion of works and proof of application of water to beneficial use on July 15th, 1905, under permit #937. The permit calls for the diversion of 3.2 cubic feet per second of Willow Spring to irrigate 160 acres, the legal subdivisions of which are E $\frac{1}{2}$ of SW $\frac{1}{4}$ Sec. 5, and E $\frac{1}{2}$ of NW $\frac{1}{4}$ Sec. 8, Tp. 9 South, Range 42 E. B. M.

Mr. John Fersbauer of Soda Springs advises me that you will be in a position to make the examination and look after the depositions, and this will be your authority to do so.

In regard to these proofs, examinations, etc., will say that they have more than trebled during the past few months, and it became manifestly impossible for the Water Commissioners, on account of the large territory under the jurisdiction of each, to look after all of them with any degree of promptness. This is especially true in the territory under the jurisdiction of Mr. Lowell and that under the jurisdiction of Mr. Riblett. In looking over the law I cannot see that this work is a part of the duty of the Water Commissioner, except as he may be authorized from time to time by the State En-

#2.

gineer to do the work, and, further, I believe we would stand a poor show of forcing the Counties to pay the expense incurred in making these examinations, if the matter was taken into the courts.

Mr. Lowell had quite an accumulation of these proofs to make that were overdue, and in talking with him one day in regard to this matter we decided that it would not do to allow the records to get into such a shape. Hereafter the examinations will all be made by a competent man in the neighborhood of the applicant, and the Water Commissioner will not be called upon to do the work unless requested by the permit holder. The expense will be borne by the party making proof, and in the one at hand you may use your judgment as to making a charge for the work, or depend upon being reimbursed as heretofore.

Yours truly,

State Engineer.

Boise, Idaho, June 23, 1905.

Mr. John Ferebauer,
Soda Springs, Idaho.

Dear Sir:-

I am today authorizing Commissioner Turner
of Cove, Idaho, to make the examination under permit
#937, Dorothea Lau. He will also take the depositions.

Yours truly,

State Engineer

Permit No. 937

Proof of Application of Water to Beneficial Use.

DEPOSITION OF HOLDER.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Dorothea Lane age 64. Soda Springs

COVE IDAHO.

July 28 1905

Dear Sir I enclose depositions of proof of completion of works also of the beneficial application of water together with affidavit of publication and check of \$12.00 for first under permit No 987 Brothers Lane of Soda Springs I made examination of these works on the 15th of July 1905 and found the same completed in accordance with the application. Also that water was beneficially applied as described in the enclosed plat to the $E\frac{1}{2}$ S.W. $\frac{1}{4}$ Sec 5-T. 9 S R 42 E to 20 acres in each subdivision which was in crops. In regard to the balance of this land including the $E\frac{1}{2}$ N.W. $\frac{1}{4}$ Sec 8 same township and range the land is of to rocky and uneven a formation to irrigate so that in this case only a part or about 10 acres in each subdivision can be successfully reclaimed and only then for pasturage purposes. Under these circumstances my opinion is that one and one fifth cubic feet per second of water under this application should be sufficient.

Yours truly
Edward J Turner
Water Commissioner

Affidavit of Publication.

STATE OF IDAHO,
COUNTY OF BANNOCK. } SS.

I, JOE H. DeWITT, do solemnly swear that I am the publisher of THE SODA SPRINGS CHIEFTAIN, a newspaper of general circulation; published once each week at Soda Springs, Bannock County, State of Idaho; that the notice attached hereto, and which is a part of this affidavit, and a part of the proof of publication, was published in said newspaper for four consecutive weeks; the first publication being made on the 8th day of June 1905; that said notice was published in the regular and entire issue of every number of the paper during the period and times of publication, and that the notice was published in the newspaper and not in a supplement.

NOTICE
of Proof of Completion of Works and Application of Water to Beneficial Use.
Notice is hereby given on the 15th day of July, 1905, at Soda Springs, County of Bannock, State of Idaho, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second, and of application to beneficial use of 3.2 cubic feet per second of the water of Willow Spring in accordance with the terms and conditions of Permit No. 937, heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person holding said permit are Dorothy Lau, Soda Springs, Idaho, and the date set for the completion of the work is November 28, 1905.
2. The use to which said water has been applied is irrigation.
3. The amount applied to beneficial use is 3.2 cubic feet per second.
4. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 3.2 cubic feet per second.
5. The place where said water is used is a 1/4 of SW 1/4 sec 5 and 6 N. E. 20 1/4 sec 8 T. 9 S. R. 10 E. range 13 E. B. M.
6. The name of the canal or ditch by which said water is conducted to such place of use is Lau's Ditch.
7. The right to take the water from such works is based upon Permit No. 937.
8. The source of supply from which such water is diverted is Willow Spring.
9. The date of the priority which said user is prepared to establish is November 12, 1904.

1st pub June 27; last June 29.

WITNESAS, On the twelfth day of November, A. D., 1904, DOROTHEA LAU, of Soda Springs, County of Bannock, and State of Idaho, duly made application (No. 1307) to me for a permit to use three and two-tenths cubic feet per second of the waters of Willow Spring, County of Bannock, State of Idaho, for irrigation and domestic purposes; and,

WITNESAS, On the 28th day of November, A. D., 1904, Permit No. 937 was issued to said applicant for the diversion of said water, and providing for the completion of the works of diversion therein described on or before the 28th day of November, A. D., 1905, and for the application to beneficial use of said water on or before the 28th day of November, A. D., 1905; and,

WITNESAS, On the 15th day of July, A. D., 1905, the holder of said permit duly made proof of the completion of adequate works for the diversion of three and two-tenths cubic feet per second of said waters, as evidenced by my Certificate No. 937, dated August 1, 1905, confirming the completion of works of sufficient capacity for diverting and conveying to the place of intended use three and two-tenths cubic feet per second of water, with date of priority of November 12, 1904, and,

WITNESAS, On the 15th day of July, A. D., 1905 proof was duly made of the application to beneficial use of one and one-fifth cubic feet per second of said water;

NOW, THEREFORE, by virtue of the authority vested in me by the laws of the State of Idaho, I hereby grant and confirm to Dorothea Lau of Soda Springs, the holder and owner of said Permit No. 937 a perpetual right, dating from November 12, 1904, to the use of one and one-fifth cubic feet per second of the waters of Willow Spring in ~~the~~ NW 1/4 of Section 5, T. 9 South, Range 42 E. B. M., in the County of Bannock and State of Idaho, or so much thereof as may be necessary for the purposes hereinbelow mentioned, to be diverted at the spring, and conducted to and upon a portion of the East half of Southwest quarter of section five, and a portion of the East half of the Northwest quarter of Section Eight, Township Nine South, Range Forty-two East of Boise Meridian, for the purpose of irrigation and domestic use, subject, however, to the laws of the State of Idaho applicable to a license for the use of the waters of the State, and subject, also, to the local or community customs, rules and regulations which have been or may be adopted from time to time by a majority of the users from a common source of supply, canal or lateral from which such water may be taken, when such rules and regulations have for their object the economical use of such water.
