INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Chas. P. Tucker,
Soda Springs, Idaho.

Dear Sir:—

Under the terms of your permit No. 13023.....you are required to complete your diversion works on or before July 10, 1920.....I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

W. G. Swendsen,

Commissioner of Reclamation.

REPORT OF ENGINEER

This proof is for Beneficial UseIn Water District No. 5-7

1. State name of applicant and number of permit: Charles P. Tucker - Permit: 13023
2. State source of water supply: unnamed spring
3. Location of point of diversion: SE 1/4 Sec. 19-9S-43E.

4. Describe works as they exist, giving dimensions and capacities of same:

Flow from ditch diverting water from the natural watercourse which is a gulch. ~~Very little land in cultivation at~~

5. State whether or not water has been turned into works of diversion:

Not this year. Faint traces of ditch where water might have been diverted last year.

6. Give exact location of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):

NE 1/4 Sec. 25-9S-42E. Very little land in cultivation possibly 1/2 acre in garden. Fenced with wire netting. Water is useful only for domestic use on account of the very small amount. Possibly 5 miners inches running at time of examination.

7. Submit map on enclosed plat, showing location and details of above description.

8. How many parties conduct water in this system?

9. Give names and amount of each right:

10. What large stream would the water here appropriated finally reach?

11. Describe the various tributaries en route, from point of diversion to the principal drainage stream:

Water sinks in ground within 1/2 mile of proposed diversion

Remarks

Not enough water to be worth anything for irrigation purposes

This examination was made on the 23 day of June 1921
