Gentlemen:-

Replying to your letter of the 31st ult. would say the holder of the above permit will be required to submit two proofs before receiving license for the use of the water. The first proof is for completion of works, affidavit form for which is herewith enclosed. The statutory fee of \$5.00 should be submitted with this affidavit. The certificate of completion of works will then be issued.

Notice of proof of beneficial use of water is required to be advertised four weeks prior to the date of making such proof. The enclosed blanks should be filled out, setting the date for proof far enough ahead to allow for the required publication. They should then be returned to this office and, after same have been checked with our record of the permit, one copy will be mailed to the paper designated by him and deposition blanks, one for holder and one each for two witnesses, will be mailed to the notary public before whom proof is to be made.

An examination will also be required to be made by an engineer from this office. It may not be possible for our engineer to make this examination before Spring weather opens.

Very truly yours,
