

APPLICATION FOR PERMIT To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 30419 2336 E. 3400 S.
PERMIT No. 22674 Salt Lake City, Utah
DISTRICT No.

1. Name of Applicant: C. R. NATE and LESLIE NATE

Postoffice address: Salt Lake City
I. If applicant is a corporation, give:
(a) Date and place of incorporation:
(b) Amount of capital stock:
(c) Amount paid in:
(d) Names and addresses of directors:

County: Salt Lake State: Utah

11. The financial resources of the applicant are:
(a) Cash on hand:
(b) Treasury stock:
(c) Bonds to be issued:
(d) Other resources:

2. Quantity of water claimed: Two (2)

cubic feet per second.

3. Source of water supply: Pine Gap Canyon stream (local name) ~~which is to be taken from~~ Sweet Water Creek

4. Location of point of diversion: Approx. 2000 feet distant from the Southeast

corner of Section 11, T. 15 S., R. 45 E., B. M., and is in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 14, T. 15 S., R. 45 E., B. M., County of Bear Lake

5. Water is to be used for Irrigation from April 15 to Sept. 1

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section T. R., B. M., in the of Section T. R., B. M.,
(b) Amount of power generated: H.P., under feet head.
(c) Water is to be returned to at a point distant from the corner of Section T. R., B. M., in the of Section T. R., B. M., feet

7. Estimated cost of works: \$ 300 (maximum cost)

8. Kind of works: Dam- ditches

9. Height of dam 5 feet; length of dam at top 20 feet; length of dam at bottom 30 feet; material used in dam: Dirt

10. Size of headgate: Width 3 feet; height 2 feet.
Note: Small ditches and natural channels are in present use and are adequate to carry 2 c.f.s. during irrigation season. During the spring run-off the water spreads out over its natural channel a distance of 11. Pitch: Width at bottom feet; width at water line feet; depth of water of sometimes as much as 100 feet. A small dam as indicated above may be required in the future. dimensions of flume:

Diameter of pipe inches; length of conduit miles.
Average grade per mile feet.

12. The time required for the completion of such work is Three (3) years. If small dam is constructed.

13. The time required for the complete application of the water to the proposed use is Two (2) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: At least 2 c.f.s. of water has been used on the above described land by the applicants since July, 1915, and by our predecessors in title since about 1885. When the water has been available. During dry seasons the stream dries up. The stream has as its source some springs about five miles south of our property.

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

C. R. NATE
LESLIE NATE Applicant.
By Agent.

Date of first receipt at Department of Reclamation: 9:00 A. M. March 19, 1952

Returned to applicant for correction: March 19, 1952

Corrected application received: March 26, 1952

Approval of State Reclamation Engineer

The number of this permit is 22674

Recorded in Book 81 Page 22674 Approved March 27, 1952

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve he same, subject to the following limitations and conditions:

Bond in the sum of \$

to be filed on or before

Work to begin on or before May 27, 1952

and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before September 27, 1953

The whole of said work to be completed on or before March 27, 1955

Beneficial use of water appropriated in accordance herewith, to be made on or before March 27, 1957

Witness My hand this 27th day of March, 1952

MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, WE, LEN JORDAN, Governor of the State of Idaho,

and IRA H. MASTERS

, Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 27th

day of March, 1952

STATE OF IDAHO

(SEAL)

By IRA H. MASTERS, Secretary of State.
By LEN JORDAN, Governor.

REMARKS: Since July, 1945, we have been irrigating about 100 acres of alfalfa from the small intermittent stream from which we desire to establish a water right. Prior to this date our predecessors in title used water from this stream for irrigation of the

tract of land described herein. According to your letter of Oct. 25, 1951, there are no decreed water rights for use in Secs. 13, 14, 23, 25, 26, 35, 36, T. 15 S. R. 45 E., B.M., nor any filings on the water which flows in the small intermittent stream across these sections.

14. Reference is made to letter of C.R.Nate dated Oct. 25, 1951 and Dec. 6, 1951, and letters from Idaho Dept. Reclamation dated Oct. 27, 1951 and Mar 11, 1952

Department of Reclamation

2336 East 3400 South
Salt Lake City, Utah
October 25, 1951

Mr. Filings

Mr. Mark R. Culp
State Reclamation Engineer
Boise, Idaho.

Dear Mr. Culp:

My brother, Leslie Nate, and I are the owners land in Bear Lake County, Idaho, namely the SE $\frac{1}{4}$ of Sec. 11 and part of the SW $\frac{1}{4}$ Sec. 12 T. 15S R 45 E.B.M. We have owned this property since July 1945.

Our property at present is growing alfalfa hay which is irrigated from a small stream of water flowing from Pine Gap Canyon across sections 13, 14, 23, 24 T 15S R45 E.B.M. This stream heads about 5 miles South of our property. Our property has been irrigated from this stream since it was first brought under cultivation many years ago-- about 1885.

We have no recorded water right covering the above usage other than that of direct appropriation and beneficial use. We desire to have this right recognized by due process of law. Please inform us as to how this can be done.

I have checked the county records at Paris and can find no record of any filings on this water. Please check your records and inform me as to whether there are any applications, recordings water rights etc. on file in your office for any water in Sections 13, 14, 23, 24, 25, 26, 35, 36 T 15S R45 E.B.M. or the immediate vicinity. If there are any, please give me the names of the applicants. and detailed information concerning same.

Yours sincerely

C. R. Nate
C. R. Nate

October 26, 1951

Mr. C. R. Wate
2336 East 3400 South
Salt Lake City, Utah

Dear Mr. Wate:

In answer to your letter asking if there are any applications, recordings or water rights filed in this office in any way appertaining to the place of use in Sections 13, 14, 23, 24, 25, 26, 35, and 36, in Township 15 South, Range 45 East, B.M.

We have checked the records in this office and we do not find any permit filings on Pegrum or Sweet Water Creeks which, according to the map, flow through these said sections, and in checking the decrees, we find no record of any decreed rights for use in the above named sections.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

Roy W. Thompson
Supervisor of Water Distribution

RWT:fg

P.S. No filings from any source in connection with above,

RWT.

22674

2336 E. 3400 S.
Salt Lake City, Ut
December 6, 1951.

Mr. Mark R. Culp
State Reclamation Engineer
Boise, Idaho.

Dear Mr. Culp:-

Please refer to my letter of October 25 and your answer of October 26 instant with reference to water rights and filings for Sections 11, 12, 13, 14, 23, 24, 25, 26, 35, 36 T. 15 S. R45 EBM.

My brother, Leslie Nate and I wish to establish our right to 2 c.f.s. of said water for usage on 100 acres of land in the SE $\frac{1}{4}$ Sec 11 and part of the SW $\frac{1}{4}$ Sec 12 T 15S R45 EBM, and have same made a matter of record.

This quantity of water has been used beneficially for irrigation on said acreage by our predecessors in title, as far back as April 1, 1885 and by us since July 15, 1945.

Please consider this letter an application for this water right by virtue of direct appropriation and continued beneficial usage since April 1, 1885.

Please inform me as to any other necessary steps that may be required to establish this water right for record.

Yours sincerely

C. R. Nate

RECEIVED
DEC 11 1951
Department of Reclamation

December 11, 1951

Mr. C. R. Nate
2336 E. 3400 S.
Salt Lake City, Utah

Dear Mr. Nate:

We wish to acknowledge receipt of your letter of December 6, in which you state that you wish to establish a water right of 2 cubic feet per second on 100 acres of land in the following location. Fraction of SE $\frac{1}{4}$ of Section 11 and Fraction of SW $\frac{1}{4}$ Section 12, Township 15 South, Range 45 East, B.M.

Providing you have no water right of record, there are two ways of obtaining same.

1. If you wish to establish your right and maintain your priority of April 1, 1885, under your claim of beneficial use, it will be necessary to establish same through the courts.
2. You may establish a record right by filing an application for permit in this department and by fulfilling the terms of the permit and receiving a State license.

However, under this last method, you establish a priority of the date your filing is received in this department. It is not possible under the permit system to establish a priority date earlier than the date of receipt of the application for permit in this department.

Providing you wish to file an application for permit, we will gladly furnish you the proper forms upon request.

Hoping this answers your inquiry, we are

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Salt Lake City, Utah

Dear Mr. Mate:

In reply to your letter of March 10, 1952, we enclose a form of application for permit to appropriate the public waters of the State of Idaho together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

Very truly yours,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho

Dear Sirs:

Under the terms of your permit No. 22674 you are required to complete your diversion works on or before March 27, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

County of Bear Lake

ss.

C.R. NATE & LESLIE NATE

Their

they are, being first duly sworn, upon ~~his~~ oath deposes and says:
First: That ~~the~~ they are the holders and owners of Permit to appropriate the Public Waters of the State of Idaho, No. 22674, and that ~~the~~ their postoffice address is 2336 E. 3400 S. Salt Lake City Utah and Dingle Idaho
State of Idaho

Second: That the name of the stream from which said water is to be diverted is Pine Gap Canyon or Sweetwater Creek (County of Bear Lake Idaho)

Third: That the point of diversion of said water is Temporary dirt dams in main channel or gulch of said stream in NE 1/4 Sec. 14 T15S R45E BM

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by March 27, 1955.

Fifth: That the use for which said water is intended is Irrigation

Sixth: That on the date above mentioned, the works constructed under said permit were ~~(or were not)~~ fully completed and consisted of the following:

I. Kind of works: See Sketch Map & Statement attached, Exhibit A
(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work: -

(a) Height of dam - feet, length of dam at top - feet, length of dam at bottom - feet. Material used in construction -

(Earth) Temporary Dams as required following the floodwaters
(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir - acre feet.

(c) Size of headgate: Width - feet, height - feet.

(d) Conduit - width at bottom - feet, width at water line -
(State whether ditch, flume or pipe)

feet, depth of water - feet; diameter of pipe - inches, average grade per mile is - feet. Length of conduit is - miles.

Seventh: That said works are capable of conducting to the place of intended use TWO second feet of water.

Eighth: That water appropriated under said permit is available for Intermittently approx. 90 acres of land described as follows: Fr. SE 1/4 Sec 11 and Fr. SW 1/4 Sec 12 T. 15 S R 45 E BM

Ninth: Remarks: That We have complied with the limitations and conditions as enumerated on page 4 of said Application No. 30419 and Permit No. 22674 so far as it is practical to do so. That we have found it impractical and unnecessary to construct the dirt dam as referred to in the said application. (See Exhibit A herewith)

Notary Public.

22674

PROOF OF COMPLETION OF WORK

During the spring run-off, the flood waters from Pine Gap Canyon or Sweetwater Creek, spread out in a fan-like pattern over the uncultivated sagebrush area adjoining the Nate Brothers Property, as well as over their property. If a heavy run-off occurs the applicants property gets well soaked and is covered with a beneficial layer of several inches of fine rich silt or sediment. In this case, or when summer flash-floods occur, it is not practical to hold the water back by means of reservoirs or dams constructed in the main gulch or stream bed. The heavy spring flood waters or flash-floods wash them out.

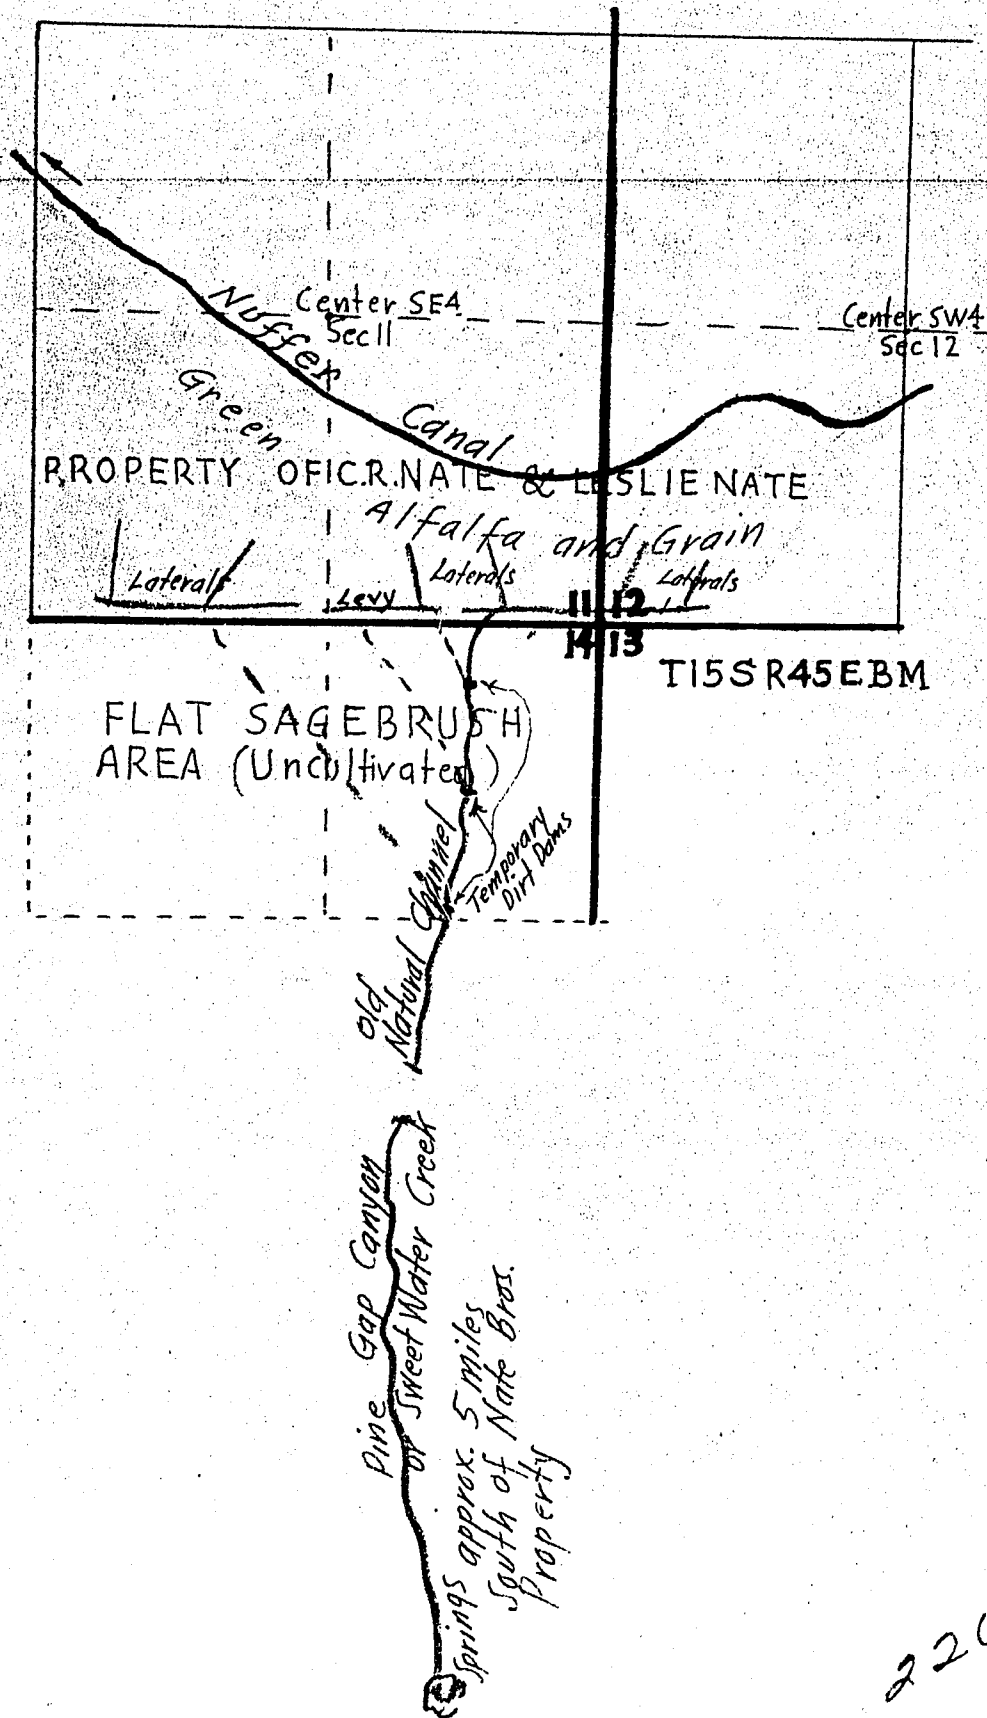

It has been found most practical to make small temporary dirt dams, levies, and small lateral ditches following the flood-waters in order to distribute the water over their ground. Approximately 1000-1200' of laterals about 1' X 1' are required. These have been made, or new ones are constructed after they are filled up with sediment. In addition we have cleaned out the main channel adjacent to our property for a distance of about 1000', and made small dirt levies where necessary. The cost of all this work to date is approximately \$150.00.

The water from the Sweetwater gulch is used for irrigation when available. It is more or less a supplemental supply to produce alfalfa hay and grain. There has been very little water available the past two dry years. In the case of a lot of precipitation, a late spring, and other favorable factors, we have been able to use this water to about June 15, on approximately 90 acres of land.

Our predecessors in title have used this water for irrigation beneficially when available since 1885, and we have used it when available since July 1945 when we purchased the property.

NOTICE FOR PUBLICATION
 NOTICE OF PROOF APPLICATION OF WATER
 TO BENEFICIAL USE

RECEIVED
 JAN 2 1957
 Department of Reclamation

Notice is hereby given that at 11.00 A. M. on the 27 day of March, 1957,

at Paris, Idaho, County of Bear Lake, State of Idaho, before

W. L. Wright

A Notary Public

proof will be submitted of the

application to beneficial use of Two (2) cubic feet per second of the waters of Pine Gap Canyon

(Sweetwater Creek) in accordance with the terms and conditions of Permit No. 22674

heretofore issued by the Mark R. Kulp State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are C.R. NATE 2336 E.

and Leslie NATE Dingle, Idaho

3400 S. Salt Lake
City Utah

The use to which said water has been applied is irrigation

The amount applied to beneficial use is Two (2) Second feet

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

$5\frac{1}{2}$ SE $\frac{1}{4}$ Section 11, and SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 12, Township 15 South

Range 45 East B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is

Small laterals or ditches (unnamed) and dikes across Pine Gap Canyon

The right to take water from such works is based upon Permit No. 22674

The source of supply from which such water is diverted is Pine Gap Canyon (local name
Sweetwater Creek) in NE $\frac{1}{4}$ Sec. 14, T 15 S - R 45 E.

The date of priority which said user is prepared to establish is March 19, 1952

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 27 day of March, 1957,
at Paris, County of Bear Lake, State of Idaho, before
H.C. Wright, Notary Public, proof will be submitted of the
application to beneficial use of 2 cubic feet per second of the waters of Pine Gap Canyon -
Sweet-Water Creek in accordance with the terms and conditions of Permit No. 22674
heretofore issued by the State Reclamation Department of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are G.R. Natta, 2336 E.
3400 S., Salt Lake City, Utah., and Leslie Natta, Dingle, Idaho

The use to which said water has been applied is irrigation

The amount applied to beneficial use is 2

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)
S¹SE¹, Sec. 11, and E¹SE¹, Sec. 12, Twp. 15 S., Rge. 45 E. B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Small laterals or ditches (un-named) and dikes across Pine Gap Canyon

The right to take water from such works is based upon Permit No. 22674

The source of supply from which such water is diverted is Pine Gap Canyon - (Sweet-Water Creek)
in NE¹, Sec. 14, Twp. 15 S., Rge. 45 E.

The date of priority which said user is prepared to establish is March 19, 1952

MARK R. KULP
State Reclamation Engineer.

RE: Permit N. 22674

Mr. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

Dear Sir:

I am sending you herewith final PROOF OF APPLICATION OF WATER under Permit No. 22674, along with the signed depositions of two witnesses.

The necessary oaths and depositions could not be executed before Mr. W. G. Wright as referred to in your letter of January 31 1957, for the reason that he is no longer a Notary Public.

The necessary papers and oaths were executed before Ruth Aland Notary Public Montpelier Idaho.

Very truly yours

C. R. Mate

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 22674

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. C. R. Nate 2336 E. 3400 S. Salt Lake City, Utah Livestock Farmer and

Leslie Nate, Dingle, Idaho Livestock Farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit no. 22674- Date of Priority March 19, 1952 → 3-27-52

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Pine Gap Canyon (local name Sweetwater Creek) Point of diversion is

located in the N.E. 1/4 Section 14, T. 15 S. R. 45 East B. M. Water spreads out of the natural channel of creek.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. When water is available in the above creek it more or less spreads out in small

laterals and flows in a northerly direction onto our property described in the application related to this proof. See Exhibit "A" Proof of Completion of Works, for details.

It has been found to be impracticable to maintain permanent-type dams (dirt dams) and ditches due to spring floods and summer cloud bursts.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of land in the S2 SE1/4 Section 11 and SW1/4 SW1/4 Section 12, Township 15 South Range 45 East BM. Acres irrigated approximately 90-100, cultivated land. This water when available, is helpful in producing a crop of alfalfa or grain on said acreage.

More details with reference to the above question are shown on Exhibit "A" Proof of Completion of Works dated March 14, 1955.

22674

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. About two (2) second feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

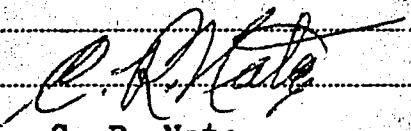

Ans. Permit issued to C.R. Nate and Leslie Nate

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water is and has been used when available. It is mostly a spring flood-type supply, with some water available in case of a flash rainstorm flood. It is an intermittent supply. During the past three dry years very little water has been available.

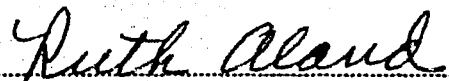

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

C. R. Nate

APR 1 1957
Department of Reclamation

PERMIT NO. 22674

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Harold Stevens, 35, Dingle, Idaho. Farmer.

Ques. 2. Are you acquainted with Leslie Nate & C. R. Nate, the holder of Permit No. 22674? How long have you known him and where does he reside?

Ans. 8 years Leslie Nate, Dingle, Ida. 5 years C. R. Nate, Salt Lake City, Utah.

Ques. 3. Have you read or heard read said Permit No. 22674, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Pine Gap Canyon or Sweet Water Creek. Out of this Creek south of Nate Bros Property, by means of small laterals, dirt dikes and small dirt dams

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. About 2 second feet,

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, I estimate somewhere about 90 or 100 acres cultivated land used in growing grain and alfalfa. Located in S 1/2 S 1/4 - Sec 11 and S 1/4 S 1/4 Sec 12 - T. 15, S. 45, E. 3M.

22674

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Good sandy soil, requires about 2 second feet of water to grow a good crop of alfalfa and grain

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Past 6 years or so I have seen Leslie Nute irrigating alfalfa and grain, with about 2 second feet ^{or so} on about 90 acres land. When I been helping hay have seen some flash-floods come down, which was put to beneficial use on said land

(Signed) Harold Sterner

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Montpelier

County of Bear Lake, State of Idaho, on this 27 day of March, A. D. 19 57.

PERMIT NO. 22674

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Milford H. Peterson, 59, Dingle, Idaho. Farmer

Ques. 2. Are you acquainted with Leslie Nate & C. R. Nate, the holder of Permit No. 22674 yes? How long have you known him and where does he reside?

Ans. 20 years for Leslie Nate, lives in Dingle, Idaho.
About 10 years for C. R. Nate, lives in Salt Lake City, Utah

Ques. 3. Have you read or heard read said Permit No. 22674, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Pine Gap Canyon, Out of creek bed, south of Nate
Bro. property at Pogram, Idaho, out of small ditch

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Somewhere about 2 second feet.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, on about 90 acres, it has helped to grow
crop of alfalfa and grain, cultivated land,
SE 1/4, SE 1/4 - Section 11 and SW 1/4, SW 1/4 Section 12, Township 15, South
Range 45 EBM.

22674

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Good soil, needs about 2 second feet water

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During past eight years or more I have seen Leslie Nat. using about 2 second feet on the Nat. Bros. alfalfa land, refused to above. I believe the Nat. Bros. have made good use of any water available, when it has been available.

(Signed)

Milford H. Peterson

**NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 11:00 A.M. on the 27th day of March 1957, at Paris, County of Bear Lake, State of Idaho, before W. G. Wright, Notary Public, proof will be submitted of the application to beneficial use of 2 cubic feet per second of the waters of Pine Gap Canyon - Sweet Water Creek in accordance with the terms and conditions of Permit No. 22674 heretofore issued by the State Reclamation Department of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are C. R. Nate, 2336 E. 3400 S., Salt Lake City, Utah, and Leslie Nate, Dingle, Idaho.

The use to which said water has been applied is: Irrigation.

The amount applied to beneficial use is: 2 cubic feet.

The place where said water is used: S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 11, and SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 12, Twp. 15 S., Rge. 45 E.B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is: Small laterals or ditches (un-named) and dikes across Pine Gap Canyon.

The right to take water from such works is based upon Permit No. 22674.

The source of supply from which such water is diverted is: Pine Gap Canyon (Sweet-Water Creek) in NE $\frac{1}{4}$, Sec. 14, Twp. 15 S., Rge. 45 E.

The date of priority which said user is prepared to establish is: March 19, 1952.

MARK R. KULP,
State Reclamation Engineer.

Permit No. 22674

This proof is for Beneficial Use

In Water District No. _____

1. Name of applicant C. R. Nate

2. Source of water supply: Pine Gap Canyon (local name Sweetwater Creek)

3. Location of point of diversion: Is in the _____ NE¹₄ of Section 14

T. 15 S. R. 45 E., B.M. County of Bear Lake

4. Describe works as they exist, giving dimensions and capacities of same: Construction consists of a small earth dam (8' long 8' wide 5' high) across Sweetwater Cr. located close to E¹/₄ cor. sec 14. and a constructed ditch about 0.6 mile long across NW¹/₄ Sec 14. The purpose is to use the surplus spring runoff for irrigation - Spring flow or seepage at this point on the creek during the spring months might occur.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

S¹/₂SE¹/₂ of Sec. 11 and SW¹/₄SW¹/₄ of Sec. 12., Twp. 15 S., Rge. 45 E., B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

Leslie Nate the brother of C. R. Nate supplied information and directions - He operates the farm and resides in Dingle

Dear Mr. Nate:

Our field engineer's report on the inspection of the application of water to beneficial use under the terms of Permit No. 22674 shows that the works are capable of conveying 100 miner's inches (2.0 c. f.s.) of water for irrigation of 120 acres. This permit is now entitled to the License and Certificate of Water Right.

Upon receipt of the statutory fee of \$6.00, we will issue, in the names of C. R. Nate and Leslie Nate, the License confirming the right with priority of March 19, 1952, to your use of 2.0 second feet of water from Sweetwater Creek, with the point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 14, for irrigation of 120 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 12, the S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 11, all in Township 15 South, Range 45 East, B.M.
