Dear Sir;

In regards to a permit for a well that we got in September 19, 1952 for Hopkins and Bybee. After drilling and testing we find the well will produce some where around 2,000 gallons per minute. We put in for 90 inches not knowing how much we would get. The well will now water 160 acres each or 320. What would be the procedure to get the increased amount of land under irrigation? We would very much like to talk to the engineer if he is in this part of the country soon, as we've got to order the pipe and pump immediately for irrigation this spring.

Please send information and blanks as soon as possible. We could meet the engineer as far away as Pocatello if he will notify us in advance when and where he will be. Our phone number is 04J3

As we understand, the log of the well has been sent in by Bert A. Westlake.

Yours Truly

Mr. O. S. Bybee
Soda Springs
Idaho

Dear Mr. Bybee:

Reference is made to your letter of February 12 in regard to the well described in Permit No. 23061 in the name of Hopkins and Bybee.

This well is for 2 second feet or 100 inches of water from a well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 12, Township 8 South, Range 41 East, B.M. for use on 100 acres in the W $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$ of said section.

No additional amount of water can be claimed under this permit, although it can be used on additional land if so desired.

You may, however, file a new application for the additional water to be used on the 320 acres in which you both are interested, and we enclose a form of application herewith. It will not be necessary for a field engineer from this department to make an inspection at the present time.

To date we have not received a log of this well from Mr. Westlake.

Very truly yours,

Dear Mr. Caldwell:

In reply to your letter of August 20, stating that Messrs. Vernal Hopkins and O. S. Bybee are prepared to make proof of completion of works on the above numbered Permits.

Although your letter states that they are prepared to make proof of completion of works, we assume that they are prepared to make proof of beneficial use also as both are required at the same time under the terms of these permits.

As you know, notice must be published once a week for four weeks in a county newspaper prior to the date set for proof and this notice must be made in duplicate on Form 36 for each Permit, setting the time and place and naming the Notary Public before whom the proof is to be made.

Both copies of Form 36 to be returned to this department together with Form 11 which is authorization for us to have the notice published in the designated county newspaper at Permit Holder's expense.

ATTENTION: Mr. Callis A. Caldwell

Dear Mr. Caldwell:

We now have on file the reports of our field engineer on examination for completion of works and beneficial use on Permits Nos. G-23061 and G-25079 in the name of Vernal Hopkins and O. S. Bybee which show as follows:

The report on Permit No. G-23061 shows that 100 inches or 2 second feet of water has been used, from the well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 12, Township 8 South, Range 41 East, B.M., to irrigate 100 acres of land in the W $\frac{1}{2}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 12.

The report on Permit No. G-25079 shows that 136 inches or 2.72 second feet of water has been used, from the well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 12, Twp. 8 S., Rge. 41 E.B.M., to irrigate 220 acres of land in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 12.
