

APPLICATION FOR PERMIT To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 31852
PERMIT No. 24073
DISTRICT No.

1. Name of Applicant: FARMERS LAND & IRRIGATION CORP., of Alexander, Idaho, Ltd.

Postoffice address: Bancroft County: Caribou State: Idaho

I. If applicant is a corporation, give: April 5, 1915 - Amended

(a) Date and place of incorporation: January 18, 1911 Alexander, Idaho

(b) Amount of capital stock: \$100,000.00

(c) Amount paid in: \$93,400.00

(d) Names and addresses of directors: Earl Jorgensen, Alexander, Idaho. Richard S. Lewis, Bancroft, Idaho
Henry S. Gummersall, Central, Idaho

II. The financial resources of the applicant are:

(b) Treasury stock: None

(d) Other resources: From assessments

(a) Cash on hand: \$1,921.00

(c) Bonds to be issued: None

2. Quantity of water claimed: 3200 gallons per minute (7.1) cubic feet per second.

3. Source of water supply: Unnamed stream supplied by water / which is a tributary of
water from Monsanto Chemical Company's waste pipe.

4. Location of point of diversion:

corner of Section , T. , R. , B.M., and is in the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$

of Section 6 , T. 9 S. , R. 42 E. , B.M., County of Caribou, State of Idaho, at end of Monsanto
Chemical Company pipeline

5. Water is to be used for irrigation purposes

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water:

feet distant from corner of Section

T. , R. , B.M., in the

of Section

, T. , R. , B.M.

(b) Amount of power generated:

H.P., under

feet head.

(c) Water is to be returned to

at a point

feet

distant from the

corner of Section

, T. , R. ,

B.M., in the

of Section

, T. , R. ,

B.M.

7. Estimated cost of works: \$ 60,000.00 - all completed

8. Kind of works: irrigation canals and laterals

9. Height of dam --

feet; length of dam at top

feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width

feet; height

feet.

11. Ditch: Width at bottom

20

feet; width at water line

20

feet; depth of water

3

feet;

dimensions of flume:

Diameter of pipe

inches: length of conduit

23 $\frac{1}{2}$

miles.

Average grade per mile

feet.

4

12. The time required for the completion of such work is : all completed years.

13. The time required for the complete application of the water to the proposed use is

2

additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 80 c.f.s priority May 1, 1892
pursuant to decree in the District Court of the United States for the District of Idaho, Eastern Division,
in the case of Utah Power & Light Company vs. The Last Chance Canal Company.

16. (n) Is reservoir to be used? No If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

FARMERS LAND AND IRRIGATION Applicant.
COMPANY OF ALEXANDER, IDAHO, LIMITED.
By Earl Jorgensen Agent.

Date of first receipt at Department of Reclamation: 9:00 a.m. April 4, 1953

Returned to applicant for correction: April 13, 1953

Corrected application received: May 1, 1953

Approval of State Reclamation Engineer

The number of this permit is 24073
Recorded in Book 85 Page 24073 Approved May 12, 1953

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve he same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____ and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before August 12, 1953

The whole of said work to be completed on or before August 12, 1955

Beneficial use of water appropriated in accordance herewith, to be made on or before August 12, 1955

Witness My hand this 12th day of May, 1953

MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, WE, LEN JORDAN

, Governor of the State of Idaho,

and IRA H. MASTERS

, Secretary of State of the State of Idaho, have caused this instrument to

be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 12th

day of May, 1953.

STATE OF IDAHO

(SEAL)

By IRA H. MASTERS

By LEN JORDAN

Governor.

Secretary of State.

REMARKS: The Monsanto Chemical Company has drilled or will drill two wells pursuant to the above two permits for the purpose of using the water in their elemental phosphate plant located near Soda Springs, Caribou County, Idaho. After they have used the water from these two wells the waste is emptied by pipeline in Soda Creek. Applicant desires to file upon this waste water for the purpose of supplementing their supply of water in the irrigation of the approximately 4,000 acres of ground above described. Applicant already takes its water out of Soda Creek so that this will not necessitate any new construction, but the water

Re: FARMERS LAND & IRRIGATION CORPORATION

Gentlemen:

We are enclosing herewith application of Farmers Land & Irrigation Corporation of Alexander, Idaho, Ltd., to appropriate the waste water from well #1 and well #2 of Monsanto Chemical Company, which water empties into Soda Creek after it has been used by the Monsanto Chemical Company in its plant near Soda Springs, Idaho.

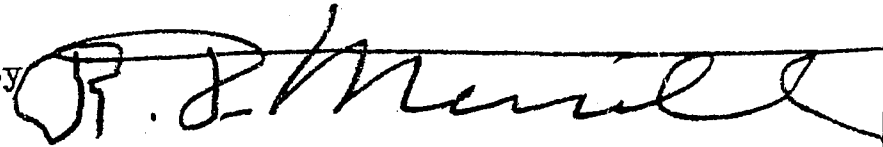

We are also enclosing herewith our check of \$6.75, estimated fee. If this is not the correct amount, would you advise immediately?

I trust this application meets with your approval.

Very truly yours,

MERRILL & MERRILL

Dear Mr. Merrill:

We acknowledge receipt of your letter of April 3, enclosing the application of the Farmers Land & Irrigation Corporation to appropriate waste water of the Monsanto Chemical Company, accompanied by your check for the \$6.75 filing fee.

The map which accompanied the application does not give the necessary information. Please furnish map in duplicate on the forms enclosed, showing the location of the wells and the course of the flow into Soda Creek, as well as the point of redirection from Soda Creek to the lands to be irrigated.

Very truly yours,

Soda Springs Idaho
April 21 1953

State Department of Reclamation
Boise, Idaho

Mr. Mark R. Kulp
Dear Sir;

The Farmers Land and Irrigation Company has handed me a form for Application for of an additional amount of water from Soda Creek, which water is from a well which was installed by the Monsanto Chemical Company and is in amounts more than their present needs which is wasted to Soda Creek.

The filing was made by A.L. Merrill for the Farmers Land and Irri. Co. and was returned for lack of maps showing the source and course of flow from the well and point of entrance to Soda Creek and point of diversion from Soda Creek as well as map of lands to be irrigated.

They have asked me to complete this information for them.

The location of well and course to Soda Creek as well as point of diversion from the creek can readily be obtained and mapped but to map the individual lands under the Company would be a terrific job as they do not have a map of their project and the present directors do not know if there ever was one.

Would it not be sufficient to map the location of well, the flow of water to the creek and point of diversion and enumerate the parcels of lands under the project as is shown in the Bear River decree.

Please advance this information as soon as possible

Very truly yours
E. J. Baird
Soda Springs Idaho *E. J. Baird*

P.S. The right of The Farmers Land And Irri. Co. from Soda Creek from Soda Creek is listed in the Bear River Decree as 80 c.f.s. but to require the reduction the reduction of the amount it shall divert under such right to the extent of 20 c.f.s. it is able to obtain from Big Spring Creek.

The intent of the decree being to establish the F.L. and I Company's right to 80 c.f.s. from Soda Creek Creek but to require the reduction of the amount it shall divert up to 20 c.f.s. as noted above.

would this additional filing have the same effect on its 80 c.f.s. right

24073

Messrs. Merrill & Merrill
Attorneys at Law
Pocatello, Idaho

ATT: Mr. R. D. Merrill

Dear Mr. Merrill:

We are returning herewith application for permit, signed by Farmers Land and Irrigation Corporation, filing on waste water from wells of the Monsanto Chemical Company for the following corrections:

Under Question 3 "Source of Water Supply," we would suggest that you substitute by stating "Unnamed stream supplied by waste water from Monsanto Chemical Company's waste pipe."

Question 4: We hold that said waste water is not subject to appropriation until after it leaves the Monsanto Chemical Company's system, which would be the end of the pipe line. Our information is that the end of the pipe line where the water wastes into Soda Creek is in the NW 1/4 Section 6, Township 9 South, Range 12 East, B.M. The point of diversion would have to be between the end of pipe line and before water enters Soda Creek.

Sketch map in duplicate should accompany application and should show pipe line location, point of diversion, the course of Soda Creek and point of redirection from Soda Creek, and also a small section of the canal at redirection point.

We can dispense with a map showing exact land description of the land to be irrigated by enumerating the parcels of land to be irrigated under the canal system as shown in the Bear River Decree.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. 24073

Farmers Land and Irrigation Company
c/o Mr. Earl Jorgensen
Bancroft, Idaho

Dear Mr. Jorgensen:

Your application for Permit No. 24073 for water from an unnamed stream supplied by water from the Monsanto Chemical Company's waste pipe, stated that the works were completed and we therefore allowed three months, or until August 12, 1953, within which to make proof of Completion of Works.

To date, proof has not been made, and technically, your permit is subject to cancellation for failure to make the proof.

However, we feel that you have overlooked this matter, and if you are prepared to make the proof at this time, you may execute Form 6 enclosed before a Notary Public, and return to this Department with the statutory fee of \$5.00, upon receipt of which a certificate of Completion of Works can be issued.

24073

December 11, 1953

RE: Permit No. 24073

Mr. Earl Jorgesen
Bancroft
Idaho

Dear Mr. Jorgesen:

The enclosed affidavit, evidently submitted in proof of completion of works on Permit No. 24073 of the Farmers Land and Irrigation Company, differs in several respects from the original permit, as follows:

1. The permit claims water from an unnamed stream, supplied by water from the Monsanto Company's waste pipe and not from Soda Creek.

2. The permit describes the point of diversion in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 6, Township 9 South, Range 41 East, B.M., whereas the affidavit places it near the center of the NE $\frac{1}{4}$ Section 12, Township 9 South, Range 41 East, B.M.

3. Question 6 should describe the works in more detail as to the dimensions of the dam and the canal.

4. Question 7 should state the quantity of water the works are capable of conducting to the place of use.

5. Question 8 should give more detail as to the lands to be irrigated. This need not be by 40 acre subdivisions, but should give the acreage and the sections, township and range.

There is a \$5.00 fee required in connection with proof of completion of works.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

at Pocatello, County of Bannock, State of Idaho, before
R. D. MERRILL, a notary public, proof will be submitted of the
application to beneficial use of 7, 1111 (or 3200 gal. per minute) cubic feet per second of the waters of Wells 1 and 2 of
Montsanto Chemical Company in accordance with the terms and conditions of Permit No. 24073
heretofore issued by the State Reclamation Engineer of the State of Idaho

The name and postoffice address of the person or corporation holding said permit are Farmers Land
and Irrigation Corporation of Alexander, Idaho - Bancroft, Idaho

The use to which said water has been applied is irrigation purposes

The amount applied to beneficial use is all waste water emptied into Soda Creek from
two wells owned by Montsanto Chemical Company,
save and except any amt. used by Evan Cackley, but not to exceed 3200 gal.
per minute.
The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

4000 acres of land in Sections 21, 22, 23, 26, 27, 28, 29, 33, 34 and
35, Township 8 South, Range 40 East, B.M., Sections 1, 2, 3, 9, 10, 11,
15, 16, 21, 22 and 27, Township 9 South, Range 40 East, and in Section 7,
Township 9 South, Range 41 East, B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is

Farmers Land & Irrigation Canals

The right to take water from such works is based upon Permit No. 24073

The source of supply from which such water is diverted is waste water from Wells 1 and 2 of
Montsanto Chemical Co. emptied into Soda Creek at the end of Montsanto Chem.
Co. pipeline, SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Sec. 31, T. 8 S., R. 42 EBM, Caribou County,
State of Idaho
The date of priority which said user is prepared to establish is May 12, 1953.

State Reclamation Engineer.

RE: Permit No. 24073

Messrs. Merrill & Merrill
Attorneys at Law
Pocatello, Idaho

ATTENTION: Mr. R. D. Merrill

Dear Mr. Merrill:

Reference is made to your letter of July 26 enclosing duplicate notice for proof of beneficial use on Permit No. 24073 of the Farmers Land and Irrigation Corporation.

We have corrected this notice to show that the source of supply as shown in the Permit is an un-named stream supplied by water from Monsanto Chemical Company's waste pipe.

A copy of the notice is being sent to the Grace Herald with instructions to publish it once a week for four weeks prior to August 29, 1955. This should give ample time if first publication is made on August 4th and the last publication on August 25th.

We shall instruct the newspaper to send the affidavit of publication together with statement of costs to the Farmers Land and Irrigation Corporation.

We enclose the forms of deposition to be executed by the holder and two disinterested witnesses in making this proof.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 29th day of August, 1955,
at Pocatello, County of Bannock, State of Idaho, before
R. D. Merrill, a Notary Public, proof will be submitted of the
application to beneficial use of 7.1 (or 3200 gal. per minute) cubic feet per second of the waters of an un-named stream
supplied by water from / Monsanto Chemical Company's waste pipe
in accordance with the terms and conditions of Permit No. 24073
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are
Farmers Land and Irrigation Corporation of Alexander, Idaho - Bancroft, Idaho.

The use to which said water has been applied is irrigation purposes

The amount applied to beneficial use is 7.1 cubic feet per second of 3200 gal. per minute.

The place where said water is used ~~(to be designated by the user for the purpose of the record)~~
4000 acres of land in Sections 21, 22, 23, 24, 27, 28, 29, 33, 34 and 35,
Township 8 South, Range 40 East, B.M., Sections 1, 2, 3, 9, 10, 11, 15, 16,
21, 22 and 27, Township 9 South, Range 40 East, and in Section 7, Township
9 South, Range 41 East, B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is
Farmers Land & Irrigation Canals

The right to take water from such works is based upon Permit No. 24073

The source of supply from which such water is diverted is an un-named stream supplied
by water from Monsanto Chemical Company's waste pipe.

The date of priority which said user is prepared to establish is April 2, 1953

Gentlemen:

We have carefully checked your issue of August 4 received this morning and failed to find the notice sent you on July 27 for publication once a week for four weeks prior to August 29, in the name of Farmers Land and Irrigation Corporation.

Please advise if you received this notice and if so why publication was not commenced in your issue of August 4.

Of course, it is now too late for the statutory four weeks publication prior to August 29 and we enclose herewith another copy of the notice with the date for making proof changed to September 6, 1955.

Please acknowledge receipt of this notice and see that publication starts with your issue of August 11.

Very truly yours,

Enclosure

24073

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 24073

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Rao J. Sorenson; Bancroft, Idaho; farmer; Bancroft, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Farmers Land and Irrigation Company of Alexander, Idaho; Bancroft, Ida vice-president; by authority of Board of Directors.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. #24073 12th day of May, 1953; May 12, 1953

Ques. 4. State source of water supply and give exact location of point of diversion. Waste water from wells # 1 and 2 of Monsanto Chemical Co. in re: Permit # G22399 and

Ans. Permit #G23255; unnamed stream supplied by water from Monsanto Chemical Co. waste pipe; SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 31 S. R. 42, EBM. Caribou County, Idaho at end of Monsanto Chemical Co. pipeline.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Irrigation canals and laterals of Farmers Land and Irrigation Co. of Alexander, Idaho, canal is capable of holding in excess of 90 second feet of water.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation of land under the Farmers Land and Irrigation Co. canal of approximately 4,000 acres in Sections 21, 22, 23, 26, 27, 28, 29, 33, 34, and 35, Township 8 South, Range 40 East, E.M. Sections 1, 2, 3, 9, 10, 11, 15, 16, 21, 22 and 27, Township 9 South Range 40 East and in Section 7, Township 9 South, Range 41, EBM. (which land is specifically described in the decree issued out of the District Court of the United States for the District of Idaho, Eastern Division in the case of Utah Power and Light Company vs. Last Chance Canal Co.

24073

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above? It would take twice as much water as the canal company has to adequately irrigate all of the land under the canal system.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used. All of the waste water from Monsanto Chemical Co. pipeline which has been emptied into Soda Creek and which has not been used by prior appropriations has been used to supplement the water decreed to applicant. All water has been taken from Soda Creek through the Company's canal and lateral system and used upon the lands above described.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder. The Company was decreed 80 c.f.s. feet with priority May 1, 1892 by decree in the District Court of the United States for the District of Idaho, Eastern Division in the Utah Power and Light Company vs. Last Chance Canal Company case. This amount of water is seldom available and the company is cut down pro-rata with other users.

(Sign) Geo J. Johnson

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in _____Pocatello_____, County of _____Bannock_____, State of Idaho, on this _____6th_____ day of _____September_____, A. STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 24073

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. A. L. Gummersall; 31; Central, Idaho; water master for Farmers Land and Irrigation Company; Central, Idaho

Ques. 2. Are you acquainted with Farmers Land and Irrigation Company, the holder of Permit No. 24073? How long have you known him and where does he reside?

Ans. yes have lived near the irrigation system all of my life, have been water master for two years.

Ques. 3. Have you read or heard read said Permit No. 24073, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use. From unnamed stream supplied by waste water from Monsanto Chemical Company waste pipe which said water
Ans. is emptied into Soda Creek in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 31, Township 8, South Range 42 E. .M. and from Soda Creek conveyed through the canal and lateral system of applicant to the lands irrigated.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed? Capable of carrying 90 c.f.s. However there is only a maximum of about 60 c.f.s.
Ans. available.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation of land under the Farmers Land and Irrigation Co. canal of approximately 4,000 acres in Sections 21, 22, 23, 26, 27, 28, 29, 33, 34 and 35, Township 8 South, Range 40 East .M. Sections 1, 2, 3, 9, 10, 11, 15, 16, 21, 22 and 27, Township 9 South Range 40 East and in Section 7, Township 9 South, Range 41 E.P.M. (which land is specifically described in the decree issued out of the District Court of the United States for the District of Idaho, eastern Division in the case of Utah Power and Light Company vs. Last Chance Canal Co.

24073

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation. Arid land if it were not for the fact that other water has been decreed to it this
Ans. ~~water is used to supplement the water decreed to the company in the~~
case of Utah Power and Light Company Vs. Last Chance Canal Company.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No I am hired by the company as water master

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit. During the last two years I have been employed by the applicant as water master and it
Ans. ~~is my duty to regulate the water between the various stockholders~~
and to various tracts of land irrigated.

PERMIT NO. 24073

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. T. E. Thompson; 53; Soda Springs, Idaho; farmer, water master District
5-E; Soda Springs, Idaho.

Ques. 2. Are you acquainted with Farmers Land and Irrigation Company, the holder of Permit No. 24073? How long have you known him and where does he reside?

Ans. Yes; 35 years corporation has been delivering water under its canal system since its organization.

Ques. 3. Have you read or heard read said Permit No. 24073, and are you familiar with its provisions and conditions?

Ans. yes yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use. from Monsanto Chemical Company waste pipe at end of pipe in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 31, Township 8, South Range 42 E.B.M., Caribou County, Idaho; water comes from end of waste pipe into Soda Creek from Soda Creek into canals and laterals of Farmers Land and Irrigation Company to lands irrigated.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed? Canal will carry at least 90 second feet; have seen water conveyed in canal
Ans. system from 40 to 90 second feet.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation of land under Applicant in sections 21, 22, 23, 26, 27, 28, 29, 33, 34 and 35, Township 8 South, Range 40 E.B.M., Section 1, 2, 3, 9, 10, 11, 15, 16, 21, 22 and 27, Township 9 South, Range 40 East and in Section 7, Township 9 South, Range 41, E.B.M. All land is cultivated land.

24073

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation. This water is used to supplement the water decreed to the company in the case of
Ans. Utah Power and Light Company Vs. Last Chance Canal Company above
referred to; the 4,000 acres requires considerable more water than is
available at the present time.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit. I am water master of District %-E and it is my duty to regulate the water from Soda Creek
Ans. to Canal system of applicant and I have seen the water actually
carried through their system to the various parcels of land irrigated
during the various years since Monsanta Company emptied the water
into Soda Creek. The applicant has used all of the waste water not
used by prior appropriators.

LEGAL NOTICE

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 6th day of September, 1955, at Pocatello, County of Bannock, State of Idaho, before R. D. Merrill, a Notary Public, proof will be submitted of the application to beneficial use of 7.1 cubic feet per second (or 3200 gal. per minute) of the waters of an un-named stream supplied by water from Monsanto Chemical Company's waste pipe in accordance with the terms and conditions of Permit No. 24073 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Farmers Land and Irrigation Corporation of Alexander, Idaho, Bancroft, Idaho.

The use to which said water has been applied is Irrigation purposes.

The amount applied to beneficial use is 7.1 cubic feet per second or 3200 gal. per minute.

The place where said water is used, 4000 acres of land in Sections 21, 22, 23, 26, 27, 28, 29, 33, 34 and 35, Township 8 South, Range 40 East, B.M., Sections 1, 2, 3, 9, 10, 11, 15, 16, 21, 22, 27, Township 9 South, Range 40 East, and in Section 7, Township 9 South, Range 41 East, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Farmers Land & Irrigation Canals.

The right to take water from such works is based upon Permit No. 24073.

The source of supply from which such water is diverted is an un-named stream supplied by water from Monsanto Chemical Company's waste pipe.

Date of priority which said user is prepared to establish is April 2, 1953.

MARK R. KULP
State Reclamation Engineer
9-1-4g

RALPH B. SWISHER..... being first duly sworn, deposes and says that he is the Business Manager of The GRACE HERALD, a weekly newspaper published in GRACE, Bannock County, in the State of Idaho. That the Notice of Proof, a true copy of which is hereto attached was published in The GRACE HERALD for four (4) consecutive weeks, first publication having been made on the 11th day of August, 1955, and the last publication having been made on the 1st day of September, 1955.

That said paper has been continuously and uninterruptedly published in said county during a period of seventy-eight consecutive weeks prior to the first publication of said notice or advertisement, and is a newspaper within the meaning of the laws of Idaho.

RE: Permit No. 24073

Messrs. Merrill & Merrill
Attorneys at Law
Pocatello, Idaho

ATTENTION: Mr. R. D. Merrill

Dear Mr. Merrill:

We have your letter of September 19 enclosing depositions of Rao J. Sorenson and two witnesses also affidavit of publication in the Grace Herald all in proof of beneficial use on Permit No. 24073 of the Farmers Land & Irrigation Company of Alexander, Idaho.

In checking these depositions, we note that they all describe the point of diversion as being in the SE¹/₄ SE¹/₄ Section 31, Township 8 South, Range 42 East, B.M.; whereas, the application for permit describes the point of diversion as the NW¹/₄ NW¹/₄ Section 6, Township 9 South, Range 42 East, B.M.

Please advise if this is an error in the depositions or if there has been a change in the point of diversion. If the latter, it will be necessary for the applicant to file an application for amendment on the form enclosed.

Very truly yours,

Attention: Jeanne L. Anderson

Re: Permit #24073

Dear Madam:

We have your letter of September 21, 1955 in regard to the deposition of the two witnesses in the above entitled matter. The point of diversion in this matter has not been changed. It is at the end of the Monsanta pipe line where the water wastes into Soda Creek and is in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 6, Township 9, S. Range 42, E.B.M.

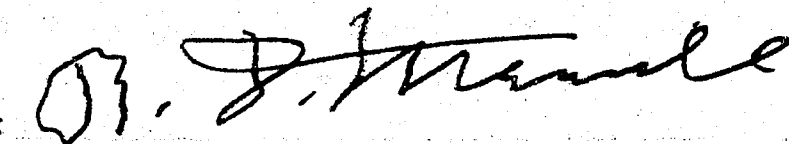

We evidently copied the wrong description in setting out the point of diversion in the above deposition. You could verify the point of diversion by referring to the Monsanta Chemical Company permit. This point of diversion would be at the end of their waste pipe. It is the only point it could be because this permit allows the Farmers Land and Irrigation Company to use the waste water from Monsanta wells # 1 and 2.

Could you correct this typographical error. If not, advise us how the same can be corrected as the point of diversion is the same.

Respectfully yours,

MERRILL & MERRILL

Permit No. 24073This proof is for Beneficial Use In Water District No. _____

1. Name of applicant Farmers Land & Irrigation Company, of Alexander, Idaho.
(Rao J. Sorenson, Bancroft, Vice President, made proof)
2. Source of water supply: Unnamed stream supplied by waste water from Monsanto Chem. Co.
pipe line
3. Location of point of diversion: Is in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 6
T. 9 S. R. 42 E. County of Bannock Caribou

4. Describe works as they exist, giving dimensions and capacities of same: Water is measured into Monsanto waste ditch over a V-notched weir in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 31, T. 8 S., Rge. 42 E. there is also a steel box located at the weir that protects a recording gage. The water delivered on this Permit flows downstream and out through the canal, the heading for which is in Soda Springs on the West side and belongs to the Farmers Land and Irrigation Co. of Alexander. A letter received from Mr. Curwin of the Monsanto Chemical Co. stated that 142 inches of water was being delivered during the month of June through the waste ditch.

5. Water is used for: Irrigation6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

4000 acres of land in Sections 2, 22, 23, 26, 27, 28, 29, 33, 34 and 35,Twp. 8 South, Range 40 East, B. M. andSections 1, 2, 3, 9, 10, 11, 15, 16, 21, 22, and 27,Twp. 9 South, Range 40 East, B. M. andSection 7, Twp. 9 South, Range 41 East, B. M.See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: It is the intent that they shall pick up all remaining water from Monsanto waste after Kackley has recd 100 inches and it works out that way. The water master delivers 100 inches to Kackley thru the San ditch. The Farmers Land & Irrig Co. due to the location of their canal heading automatically get all the water at the bottom end of Soda Creek.

This examination was made on the 12 day of July, 1926(Signed) E. H. Humphrey Examiner.

Re: Permit No. 24073

Farmers Land & Irrigation Company
Alexander
Idaho

Attention: Mr. Earl Jorgensen, President

Dear Mr. Jorgensen:

We now have the Report of our Field Engineer made in connection with the beneficial use to Permit No. 24073.

Before a License and Certificate of Water Right can be issued it is necessary that there be an amendment to the land list. We have enclosed an application for amendment which we have made up for your signature, which will amend the permit to include all the lands to be irrigated.

Upon receipt of the amendment and the statutory fees of \$46.00 (based on \$2.00 for each 40-acre subdivision which in this case is 23 additional 40-acre tracts to what is shown within the decreed water right of the Bear River Decree). License will be issued for 2.84 cubic feet of water from an un-named stream supplied by water from Monsanto Chemical Company's waste pipe, with priority date of April 28, 1953 for irrigation of the lands as described in the amendment (which when signed will become the legal land description of Permit No. 24073).

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Application for Amendment
To Permit to appropriate the Public Waters
of the State of Idaho, No. 24073

RECEIVED
 FEB 26 1957
 Department of Reclamation

Comes now FARMERS LAND & IRRIGATION CO., E.J. Jorgensen, Pres, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 24073, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

Sec. Twp. 8 S., R. 40 E.	Sec. Twp. 9 S., R. 40 E.	Sec. Twp. 9 S., R. 41 E.
16 SE $\frac{1}{4}$	1 SE $\frac{1}{4}$	
21 NE $\frac{1}{4}$	2 NW $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$ W $\frac{1}{2}$ SW $\frac{1}{4}$	5 S $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$
22 All except NE $\frac{1}{4}$ NE $\frac{1}{4}$	3 NE $\frac{1}{4}$ SE $\frac{1}{4}$	6 SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$
23 SW $\frac{1}{4}$ SW $\frac{1}{4}$	9 NE $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$	8 NE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$
26 W $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$	10 NE $\frac{1}{4}$	9 NE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$
27 NE $\frac{1}{4}$, NE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$	11 NW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$	
34 E $\frac{1}{2}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$	15 E $\frac{1}{2}$, W $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$	
35 SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$	16 SE $\frac{1}{4}$	
	20 NE $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$	
	21 SW $\frac{1}{4}$ SW $\frac{1}{4}$	
	22 NW $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$	

....., making a total of 4040 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Sanicutt, this 20 day of February, 1957

E. J. Jorgensen pres.

Date of receipt at office of Department of Reclamation February 26, 1957

APPROVAL OF STATE RECLAMATION ENGINEER

I, MARK R. KULP, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 24073. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Re: Permit No. 24073

Farmers Land & Irr. Corp., of Alexander, Idaho, Ltd.
Bancroft
Idaho

ATTENTION: Mr. Earl Jorgensen, President

Dear Mr. Jorgensen:

We have enclosed the following:

Application for Amendment to Permit No. 24073 which has amended the original permit to include an additional 920 acres outside the decreed area. This amendment was approved by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 85 of Permits at page 24073. It should now be attached to the original permit to which it refers and of which it becomes a part.

License and Certificate of Water Right issued under Permit No. 24073 confirming the right to your use of 2.84 second feet of the waters of an unnamed stream supplied by the waste water from Monsanto Chemical Company's pipe line, with point of diversion in the NW $\frac{1}{4}$ of Section 6, Township 9 South, Range 42 East B.M., with priority of April 23, 1953, for irrigation of land under the Farmers Land Irrigation Corporation.

Departmental receipt No. 28452 for \$46.00 issued for payment of the License fee.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Soda Springs, Idaho 83276

In reference to your letter of August 27, 1970, please find enclosed a copy of Water License No. 11-2106, 11-2102, 11-2107, and 11-2141. We are enclosing a copy of Water License No. 11-2109, with a copy of our field notes, and a copy of the beneficial use forms. As to your request of Monsanto's Permit No. 11-2138, please be advised that it has been cancelled, as to their request. A copy of that request is also enclosed. We have no weir readings or other type of discharge notes from that system, as beneficial use was not submitted, and an examination of the system was never made.

The fee for the enclosed copies will be \$3.50. If we may be of any further assistance in this matter, please feel free to contact us.

Very truly yours,

Dorian Clay
Appropriation Examiner

Department of Water Administration

Mr. R. Keith Higginson
Director of Water Administration
State of Idaho - State House
Boise, Idaho 83700

Re: Our File 1293

Dear Mr. Higginson:

Would you be kind enough to furnish me with the license issued by your department in connection with the following permits:

11-2106

11-2109

G-22399 11-2102

G-23255 11-2107

G-32386 11-2138

G-32537 11-2141

In connection with 11-2109, showing a priority date April 23, 1953, for 2.84 cfs, I was advised that there was a filing April 4, 1953, for 7.1 cfs and I am wondering if this was the same permit or if the information was correct. In any event, if in fact a license was issued on this permit (11-2109) could you furnish me in addition to a copy of the license a copy of any extension of time granted, a copy of the field notes and proof presented at the time the proof of application was made, and a copy of the publication.

Could you also furnish me a copy of the weir readings on the Monsanto discharge during the period of time that the water would have been used by the applicant in applying the same to beneficial use. I assume that these readings would be turned in by the Soda Creek water master.

11-2109

24073

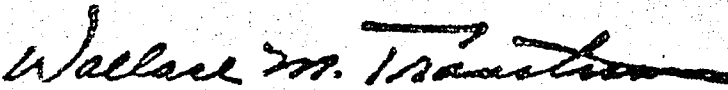

R. Keith Higginson
August 27, 1970
Page two

Could you also furnish me with a copy of the records of the Soda Creek water master as relates to water diverted to Evan Kackley under 11-2106, during the same period of time.

I will remit promptly for any expense incurred in obtaining these copies.

Thank you kindly for your continued assistance.

Very truly yours,

Wallace M. Transtrum

C
Dr. Evan M. Kackley
2323 Ellis Avenue
Boise, Idaho

Dear Dr. Kackley:

We have reviewed the water rights associated with the waste water from the Monsanto Chemical Company wells near Soda Springs. The waste water from these wells currently has four water rights, two of which have been licensed and two of which are approved applications. The first right, Permit No. 11-2106, in the name of Evan M. Kackley, with a priority of October 9, 1952; the second right, Permit No. 11-2109, in the name of Farmers Land and Irrigation Company, with a priority of April 23, 1953; the third right, Permit No. 11-2109, in the name of Evan M. Kackley and/or Lois Kackley, with a priority of April 15, 1968; and the fourth right, Permit No. 11-7011, in the name of Evan M. Kackley, with a priority of July 9, 1969.

The above-mentioned rights all have a point of diversion in the pipeline which conveys the water from the Monsanto Chemical Company. At the point of diversion, the water from Monsanto's three wells have been co-mingled and are unidentifiable as separate sources; therefore, the department must instruct the watermaster to distribute the water on the basis of prior rights. Based on the water available, the rights will be distributed as follows:

Permit No. 11-2106 - 2.0 c.f.s.
Permit No. 11-2109 - 2.84 c.f.s.
Permit No. 11-7005 - 4.0 c.f.s.
Permit No. 11-7011 - 4.0 c.f.s.

At any time that water is available for an early priority right and that right does not call on the water, the water will go to the next right in order of its date of priority.

11 2109

Dr. Evan M. Kackley
Page 2
April 23, 1971

There is a problem in distributing this water because this is waste water from the Monsanto Plant and, as a result, it is available only when Monsanto is pumping as a part of their operations. The quantity of water available fluctuates, depending on the needs of Monsanto. This fluctuating water provides two options to ensure that other rights are not infringed upon. (1) The watermaster could make a series of measurements and determine the low flow during the irrigation season and distribute that low flow only; (2) The watermaster could continually make measurements and adjust the rights accordingly; however, if these measurements are required, the water right which was the cause of the measurement would have to pay the additional costs of the measurements.

If you have any further questions on this matter, please contact me.

Sincerely,

A. KENNETH DUNN
Assistant Director
