

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 33871
Permit No. G- 26003
District No.

Central Farmers Fertilizer Co.
c/o O. R. Baum
Box 570 - Pocatello, Idaho

1. Name of Applicant: CENTRAL FARMERS FERTILIZER COMPANY

Postoffice address: Montpelier County: Bear Lake State: Idaho

2. Quantity of water claimed: 1,000 gallons per minute

- (a) Rate of withdrawal in cubic feet per second. 2.22 or Idaho
Miners' inches 111 or gallons per minute. 1,000 gallons per minute
- (b) Annual withdrawal in acre feet per annum

3. Source of water supply: subterranean waters

4. Location of point of diversion or well is in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 24
Twp. 10 S., Rge. 44 E., B. M. County of Bear Lake

5. Water is to be used for: (General) Manufacturing purposes

6. If for municipal, industrial or recreational purposes, give:
plant site

- (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section / On southline of S. 24
Rge. 44 E., B. M. , Twp. 10 S.

(b) Waste water or sewage effluent is to be returned to Georgetown Creek in Section 24, T. 10 S., Range 44 E. B. M.
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Rge. , B. M.

7. Kind of works: Well, pump and pipe line

8. Estimated cost of works: \$ 5,000.00

9. (a) Is reservoir to be used? No

(b) Capacity of reservoir:

10. The time required for the completion of such work and complete application of the water to the proposed use is 5
years.

11. If applicant is a corporation, give:

1. (a) Date and place of incorporation: February, 1946, Illinois

(b) Amount of capital stock: \$ 20,200,000.00 (c) Amount paid in: \$ 3,000,000.00

(d) Names and addresses of directors: D. A. Williams, Chairman, St. Paul, Minn., Frank Calvin, Vice-Chairman, St. Paul, Minn.; Wayne Shidaker, Columbus, Ohio; C. H. Becker, Chicago, Illinois; E. O. Johnston, Des Moines, Iowa; Ray Pavlak, Madison, Wis.; and Herman Hagg, Columbus, Ohio
The financial resources of the applicant are (a) Cash on hand: \$ 220,000.00

(b) Treasury stock: None

(c) Bonds to be issued: None

(d) Other resources: 2,374 acres phosphate land in Bear Lake County, Idaho; Two million dollars worth of stock of Cooperative Farm Chemical Ass'n; Eighteen thousand dollars worth of property in Bear Lake County, Idaho.

12. The land to be irrigated is described in the following tabulation:

13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

(a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.

(b) (cubic feet per second, inches or gallons per minute) is for new lands.

The well is to be drilled for the purpose of obtaining water to be used for Industrial purposes and purposes incident to the operation of a fertilizer and phosphorous plant. There will be caretakers and operators about the plant and there will be a yard and trees, etc., but the water principally will be used for strictly industrial purposes.
BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

CENTRAL FARMERS FEED. CO. Applicant.

BY TAYLOR DARDEN, Resident Manager Agent.

Date of first receipt at Department of Reclamation: 9:00 A.M. Sept. 29, 1955

Returned to applicant for correction: Sept. 29, 1955

Corrected application received: Oct. 3, 1955

Approval of State Reclamation Engineer

The number of this permit is G-26003

Recorded in Book 91 Page 26003 Approved Oct. 13, 1955

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before and to continue diligently and uninterruptedly to completion, Work to begin on or before December 13, 1955

unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before April 13, 1958

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before October 13, 1960

MARK R. KULP

State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLIE

and IRA H. MASTERS, Secretary of State of the State of Idaho, have caused this instrument to

be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 13th

day of October, 1955.

Dear Mr. Baum:

We acknowledge receipt of your letter of September 28 enclosing application of Central Farmers Fertilizer Company to appropriate water from a well accompanied by your check for the \$5.50 filing fee.

We return the application in order that Questions 4 and 6 and the sketch map may be brought into agreement. Questions 4 and 6 describe the location in Township 11 South, Range 44 East, B.M.; whereas, the sketch map shows Township 10 South, Range 44 East, B.M.

We assume that the sketch map is correct.

Please, also, give the mailing address of the applicant.

We also think the location should be in Bear Lake County instead of Caribou County.

Very truly yours,

MARK R. KULP

Dear Mr. Baum:

In reference to your letter of January 10, 1956, requesting:
"Will you kindly forward me the necessary blanks for proving up on a well".

It will be necessary to have more information. It will depend on the amount of water drawn from said well. If it is 6.4 cubic feet per second or less it takes one kind of a form and from well where the amount of water is 6.4 cubic feet or more it takes a different form of proof.

We would like to know beforehand the Permit number on which you are making proof.

We are enclosing herewith six forms for Application for Permit to Appropriate Subterranean water.

Very truly yours,

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11 A. M., on the 27th day of February, 19 56, at Pocatello, County of Bannock, State of Idaho, before G. R. Baum, Notary Public, proof will be submitted of the completion of works for the diversion of 2.22 cubic feet per second of the waters of subterranean waters and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G 26003 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are CENTRAL FARMERS FERTILIZER COMPANY, Montpelier, Idaho

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 2.22 cubic feet per second.

3. The use to which said water has been applied is General Manufacturing purposes, and the amount applied to beneficial use is 2.22 cubic feet per second.

4. The place where said water is used is plant site on South line of S. 24, Twp. 10 S., Range 44 E.B.M., out of Georgetown, Idaho.

5. The date of priority which said user is prepared to establish is October 13, 1955.

Re: Permit No. G-26003

Mr. C. R. Baum
Attorney at Law
Pocatello, Idaho

Dear Mr. Baum:

We have your letter of January 13, 1956 stating that you are prepared to make proofs of completion of works and beneficial use on your Permit No. G-26003, in the name of Central Farmers Fertilizer Co.

Before these proofs are made, the statutes require publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the notary public before whom the proofs are to be made.

The proofs may be made at any place convenient for you and your two witnesses but the date must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the forms of deposition to be executed by yourself and two disinterested witnesses in making these proofs.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BOISE, IDAHO

Permit No. G 26003

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. J. P. Dempsey, Montpelier, Engineer and Postoffice address, Montpelier, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Central Farmers Fertilizer Company, an Illinois corporation, Chicago, Illinois.
Statutory Agent for Idaho, J. L. Eberle, Inc. Place of business, Boise, Idaho.
Project Engineer and by order of the Corporation's officers.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Application No. G 33371, Permit No. G 26003, October 13, 1955. → 9-29-55

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Georgetown Creek. SE 1/4 SW 1/4, Section 24, Twp. 10 S., R. 44 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Depth 215 feet, Casing 12 inch, and 45 feet to water. Pump is used. Measured with 90° V-notch weir. 2.22 cu. ft. per second.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Will be used for process and cooling water for phosphorous production plant,
and such auxiliary plants as are necessary to operate said phosphorous plant, also
for drinking and washing.

26003

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For use in operation of phosphorous plant.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Minimum amount is greater than amount supplied by said well and the corporation plans for file for permit to drill additional well, or wells, to satisfy plant requirements.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. SWS

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Plant is now under construction and water is being used during construction.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. More water is needed than the 2.22 cu. ft. per second. Preparation is under way for the drilling of another well, or wells, to produce the additional and necessary waters.

(Sign)

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Pocatello, County of Bannock,

State of Idaho, on this 27th day of February, A. D. 19 56,

Permit No. G 26003

**Proof of Application of Water to Beneficial Use of Works
and Completion of Works**
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Wilford Hayes, 65, Georgetown, Idaho, employee of Central Farmers Fertilizer Company, Georgetown, Idaho.

Ques. 2. Are you acquainted with Central Farmers Fertilizer Company, the holder of Permit No. G 26003? How long have you known him and where does he reside?

Ans. For Past 8 years

Ques. 3. Have you read or heard read said Permit No. G 26003, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well, SE 1/4 SW 1/4, Sec. 24, Twp. 10 S., R. 44 E.B.M, Pump and pipes

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 2.22 Cu. Ft. per second

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 2.22 cu. ft. per second. Was present when it was measured with 90° V-notch Weir.

26003

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For Process and cooling water for phosphorous production plant, and any
and all other incidental uses in connection with such plant,
Used at plant site on South line of Sec. 24, Twp. 10 S., R. 44 E.B.M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Plant is now under construction and water is being used during construction.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. Only as an employee of the corporation.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Is being used now while plant is under construction.

(Signed)

Willard Hayes

BOISE, IDAHO

Permit No. G 26003

Proof of Application of Water to Beneficial Use
Deposition of Witness **and Completion of Works**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Bert A. Westlake, 36, Bennington, Box 40, Idaho, well driller, P.O.
same as residence.

Ques. 2. Are you acquainted with Central Farmers Fertilizer Company, the holder of Permit No. G 26003? How long have you known him and where does he reside?

Ans. Known of the corporation since 1950, and have been acquainted with the people in charge since the corporation came into the area in 1950.

Ques. 3. Have you read or heard read said Permit No. G 26003, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well, SE 1/4 SW 1/4, Sec. 24, Twp. 10 S., R. 44 E.B.M., pump and pipes

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 2.22 cu. ft. per second.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 2.22 Cu. Ft. per second, 90° V-notch weir

26003

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For process and cooling water for phosphorous production plant, and any other incidental uses in connection with such plant.
Used at plant site on South line of Sec. 24, Twp. 10 S., R. 44 E.B.M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Plant is now under construction and water is being used during construction.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Used while plant is being constructed.

Re: Permit No. G-26003

Mr. O. R. Baum
Attorney at Law
Pocatello, Idaho

Dear Mr. Baum:

We acknowledge receipt of the depositions of Mr. Dempsey, acting in behalf of the Central Farmers Fertilizer Company as the holder of the Permit and also the two witnesses, also affidavit of publication in the News-Examiner, all submitted in proof of completion of works and beneficial use on the above captioned Permit.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact the Central Farmers Fertilizer Company for one of their representatives to show him over the grounds, when he is ready to make the examination.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

REPORT OF ENGINEER

Permit No. G-26003

This proof is for Completion of Works & Beneficial Use In Water District No.

1. Name of applicant J. P. Dempsey
2. Source of water supply: Subterranean flow from a well
3. Location of point of diversion: Is in the SE 1/4 SW 1/4 of Section 24
T. 10 S R. 44 E. B.M. County of Bear Lake
4. Describe works as they exist, giving dimensions and capacities of same:

5. Water is used for Process and cooling water for phosphorous production plant,
6. State whether or not water has been turned into works of diversion:

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

General Manufacturing purposes and is used in plant site on South Lone
of S. 24, Twp. 10 S., Rge. 44 E., B.M.

Proof with drawn

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

They have drilled a well at a proposed Plant Site. No usage whatever as yet.

Recommend withdrawal of Proofs.

This examination was made on the 11 day of July, 1953

RE: Permit No. G-26003

Central Farmers Fertilizer Co.
Montpelier
Idaho

ATTENTION: Mr. Darden, Manager

Gentlemen:

A recent inspection in connection with your Permit No. G-26003 shows that you have not put the water to beneficial use, neither has the works been completed. For the above reasons license cannot be issued on the permit at present.

I recommend that you write a letter requesting withdrawal of your proofs since they were made in advance of the date set.

This department will then notify you when the proofs are due and at that time you will probably be using the water so that the next set of proofs will be valid.

Yours truly,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G- 26003
Central Farmers Fertilizer Co.

Date: ~~August 1, 1960~~

O. R. Baum
Attorney at Law
Pocatello, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 26003 are due not later
than October 13, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G- 26003

To Central Farmers Fertilizer Company

Montpelier, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. G- 26003 to appropriate the Public Waters of the State of Idaho, have not been complied with as to _____

Completion of Works & Beneficial Use Proofs which were due October 13, 1960

YOU ARE HEREBY notified in compliance with Sec. 42-234, Idaho Code that said Permit No. G- 26003 is hereby held for cancellation.

YOU ARE HEREBY required to show cause before the State Reclamation Engineer on or before sixty days from date of this notice why said Permit should not be cancelled.

SAID PERMIT NO. G- 26003 claims the use of 2.22 cubic feet per second of the Subterranean Waters of a well with point of diversion located SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec., 24., Twp. 10 S., Rge. 44 E.B.M. and was approved October 13, 1955.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of my office at Boise, Idaho, the 21st day of November, 1960.

JAN 7 1956
Department of Reclamation

Permit No. G 26003

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Don F. Bartschi, Nounan, Idaho Geologist
P. O. - Nounan, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Central Farmers Fertilizer Company, Georgetown, Idaho
I, Don Bartschi, am employed by CFFC as Development Geologist

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G 26003, October 15, 1955 -- Priority date, September 29, 1955

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well waters located at southline of section 24, T. 10 N., R. 44 E., B.M.
(SE/4 section 24)

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Depth of well = 215' with 101 feet of 15 inch I.D., 330 inch well
and 103 feet of 12 inch I.D., 330 inch well
Depth to water is - 159' below top of well casing.
Discharge of 1012 GPM was measured by installation of 90° V-Notch weir.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Said water to be used for mining and milling at Central Farmers Fertilizer
Company's fertilizer plant site at Georgetown, Idaho, in the manufacturing of
phosphate fertilizers.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Bert A. Westlake, Bennington, Idaho

G26003

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Mining and milling purposes for manufacturing phosphate fertilizers.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1273 GPM

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am a representative of the corporation to whom the above mentioned permit was originally issued.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Under normal operations the water is used 90% of each year for mining and milling in the amount of 155 GPM.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Certain water under the authority of the Georgetown Irrigation Company has been delivered to the plant site for use in manufacturing fertilizer. Water shares in the Georgetown Irrigation Company are held by Central Farmers under ownership and lease.

(Sign) Don F. Bartolucci
Geologist

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Georgetown, County of Beauregard, State of Idaho, on this 30 day of December, A. D. 1960.

RE: Permit No. G-26003

Mr. W. T. Tillotson, Manager
Idaho Phosphate Works
Central Farmers Fertilizer Co.
Montpelier, Idaho

Dear Mr. Tillotson:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in The News-Examiner, all submitted in proof of completion of works and beneficial use on Permit No. G26003.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Central Farmers Fertilizer Company
Permit No. G-26003

My dear Carter:

Proof of Beneficial Use has been submitted and on January 11, 1961, your office advised that the inspection would be necessary before making final approval.

As you are fully aware, the water situation is not of the best, and it would be appreciated immensely if you could have one of your men make the inspection so that we could have some assurance, at a very early date, as to an acceptance.

I will call you tomorrow morning in reference to the matter.

With kindest personal regards, I am

Very sincerely yours,

REPORT OF ENGINEER

Permit No. G-26003

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Central Farmers Fertilizer Company

2. Source of water supply: Subterranean waters

3. Location of point of diversion: Is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 24

T. 10 S R. 44 E.B.M. County of Bear Lake

4. Describe works as they exist, giving dimensions and capacities of same: 125 HP GE

Motor 5K505XC14A, Ser. # OPJ129033, - Leroy V8 gasoline
auxiliary engine Ser. # 60X1666, - US Holbrook Gear Head, 110 HP # 7082
Reversible Pump # 183439, 8" discharge - 168' x 8" column, 9 7/16" bowls, 14 stages

The electric motor sits on top of Gearhead. The Gas Engine
is operated by hand clutch on Flywheel housing.

5. Water is used for: General Manufacturing Purposes

6. State whether or not water has been turned into works of diversion: Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

The Plant Site is on southline of Sec. 24., Twp. 10 S., Rge. 44 E.B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Mr. Fay Walling, Tech Supt. along

(Plant Engineers records of pump shows a free flow discharge
of 900 GPM. and 637 GPM. under 90 lb head up to storage tank.
After several hours pump starts surging and will only sustain
a steady delivery of 225 GPM.) The Q is based on what
the well will produce under steady pumping.

This examination was made on the 28th day of September, 1961

called Plant well #1 (Signed) Layne Johnson Examiner.

RE: Permit No. G-26003

Don F. Bartschi, Geologist
Central Farmers Fertilizer Company
Nounan, Idaho

Dear Mr. Bartschi:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26003 shows the well is capable of conveying 25 miner's inches, or .5 c.f.s. of water for general manufacturing purposes.

Upon receipt of the statutory fees totaling \$10.00 we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$5.00) confirming the right with priority of September 29, 1955 to the use of .5 second foot of subterranean water with the point of diversion in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 24, for general manufacturing purposes on the southline of Section 24, Township 10 South, Range 44 East, B.M.

The permit shows the place of use as on the south line of Section 24 as noted above. Your two recent permits show the location as being in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 25, Township 10 South, Range 44 East, B.M.

The place of use as shown on the permit and the final water right can be changed by completing the enclosed form. There is a fee of \$1.00 for recording an amendment to permit which should be added to the above fees, if you return the amendment to the place of use.

Very truly yours,

GEO. N. CARTER

El Paso Products Company
Box 3986
Odessa, Texas 79760

Dear Mr. Green:

With referenced to your letter of December 9, 1969, please be advised that Idaho law no longer requires a filing fee for the processing of assignments. Therefore, we are returning enclosed your firm's check in the amount of \$7.00.

All assignments submitted with the exception of two have been accepted and recorded. We are not able to officially record the assignments for the following Water Licenses: G-26003/11-2114 and 25915/24-2045.

The office of the Idaho Attorney General has advised us that there is no statutory provision or authority showing ownership changes in a licensed water right. Any rights established under a water license are vested in the real property and the owner of that property controls the water right. Therefore, we are filing a copy of these two assignments for information purposes only, but are not officially recording the documents as official assignments.

If we may be of further assistance, please advise.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Re: Assignment of Water Rights-
El Paso Products Service Co.

Dear Sir:

The El Paso Products Company is assigning to its subsidiary, El Paso Products Service Company, the water rights in Bear Lake County and Caribou County, Idaho under certain permits granted by the Bureau to our company.

We are enclosing copies of the assignment, covering twelve permits in Caribou County and two permits in Bear Lake County. There is also enclosed our Check No. 77388 for \$7.00 covering the recording fee of \$.50 for each of the permits to be recorded in the records of the Department of Reclamation.

We trust that this procedure is still in effect, but if any further information is required from us we will be happy to cooperate. Thank you for your attention to this matter.

Very truly yours,

John M. Green

License and Certificate of Water Right

Water License No. G-26003

Amount .5 c.f.s.

Water District No. _____

Priority September 29, 1955

THIS IS TO CERTIFY that CENTRAL FARMERS FERTILIZER COMPANY
of Montpelier, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated September 29, 19 55; that Permit No. G-26003
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
.5 second feet, was issued thereunder on October 12, 19 61, showing that said works
were completed on the 30th day of December, 19 60; and that on the 30th
day of December, 19 60,

CENTRAL FARMERS FERTILIZER COMPANY

of Montpelier, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow, for the purpose of General
manufacturing under Use Permit No. G-26003 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
11 of Licenses at page 7180, on the 12 day of October, 19 61;

The right hereby confirmed dates from September 29, 19 55;

The Point of Diversion is located

In the SE 1/4 SW 1/4, Sec. 24, Tp. 10 S, R. 44 E., B. M. County Bear Lake

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed .5 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
10 S	44 E	25	NE 1/4 NW 1/4	For General Manufacturing Purposes	

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
12th day of October, 19 61.

RALPH W. THOMAS

Deputy State Reclamation Engineer.
