Dear Mr. Palmer:

Please excuse the delay in supplying you with the information you requested by telephone February 26, 1969. I am enclosing two licensed permits G-29090 and G-30157 and one permit G-33124 which cover lands within the description that you gave me. The permit requires that Proof of Application of Water to Beneficial Use be submitted to the department on or before August 25, 1971. I am also including a copy of an abstract of the rights decreed in the major case involving the waters of Thomas Fork. You will probably be interested in the rights decreed to Mumford Bros., Hall Bros., F. L. Cruikshank, and W. A. & A. L. Hart. There maybe other rights on the abstract that you might be interested in. I hope that this information will provide you with the data that you need. If not, please feel free to make further inquiries.

The fee for the enclosed copies is \$3.25. Please make your check payable to the Idaho Department of Reclamation...

Re: Permit No. G-33124/11-2147

Mr. Norman Eschler
Raymond, Idaho
VIA Cokeville, Wyoming

Dear Mr. Eschler:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Dear Mr. Eschler:

One of the conditions of approval of your water Permit No. G-33124/11-2147 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 25, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

RE: Permit No. 11-2147

Norman Eschler
Geneva,
Idaho 83238

Dear Mr. Eschler:

Our records show that there is a field examination pending for your Permit No. 11-2146. As this examination has been in our files for many years, we are looking forward to its completion this irrigation season.

The last attempt to examine your system was made in 1975. The examination could not be completed as the pump was in disrepair.

Upon completion of the examination, a license will be issued to you for the amount of water you are actually putting to a beneficial use.

The permit describes the irrigation of an undetermined number of acres using 4.26 c.f.s. of water from a groundwater source. We would greatly appreciate your cooperation in bringing this matter to a close.

If you have any questions, please contact me.

Very truly yours,

ANTHONY R. KOZLOWSKI

SUBJECT Exam for 11-2147 - Norman Eschler

Wayne Eschler (son) phoned today and said that at the time of our measurement he had a ruptured sprinkler line which reduced the amount we measured considerably. He also stated that they had $8\frac{1}{2}$ lines going and you show $6\frac{1}{2}$. So I said you would call him to discuss the problem. His number is 847-1228 (teaches at school until 3), and then at home - 847-0273. Attached is the field exam.
