

Pingli Idaho
Aug. 21 - 1931

Department of Reclamation.
Boise Idaho.

Gentlemen:

Am sending blanks filled
for storage and Permit. - I have all the ^{work} done as
shown on map inclosed. taking the water from Sec.
14 to Murkby Lake in Sec. 26. and some done on getting
the water out of the lake for use on lands it is to
be used on. Now if you could come and look the
proposition over. You would get a better idea of it.
I have been using and taking care of this water
since 1892 or 1893 with out any objection by any one
and at this present time. have been advised to take
the matter up with Reclamation Department & get
permit & save future trouble or chance of any.

If you can come & look it over I will meet
you at Montpelier & take you out to see it & bring
you back. After seeing all you could advise me just
what to do. That would save time, money, and a lot
of correspondence. Hoping you can come in the near future

Yours Very Truly
J. W. Kamm

July 28, 1931

Re: APPLICATION FOR PERMIT

MR. W. D. REAM,
Dingle,
Idaho

Dear Sir:

We are returning your application for permit to appropriate 10 cubic feet per second of the waters of springs along the East boundary of the E $\frac{1}{2}$ SE $\frac{1}{4}$ of Sec. 14, Twp. 14 S., Rg. 44 E., for correction.

Submit fees in the sum of \$7.25, being at the rate of \$5.00 for the first second foot, and 25¢ additional for each second foot or fraction thereafter.

Show clearly on the map the springs or points of diversion, the conduit or ditch to the lands to be irrigated, the lands to be irrigated, marking the amount in each 40-acre subdivision.

I take it from your application for permit that it refers only, insofar as this application is concerned, to an appropriation from the springs only. If this is not true, and you intend by this application to appropriate water from MERKLEY LAKE RESERVOIR in addition for the irrigation of lands in Secs. 26, 27 and 35, it will be necessary for you to prepare your application on blanks enclosed, form No. 2.

Whatever the case, show clearly by your application and map: The SOURCE OF SUPPLY, the POINT OR POINTS OF DIVERSION, CONDUITS of whatever kind TO THE LANDS TO BE IRRIGATED, and the LANDS TO BE IRRIGATED, marking the amount as you estimate same in each 40-acre subdivision to be irrigated.

Submit fees as referred to above. One second foot equals 50 miners inches: equals 250 acre feet stored water. Maximum allowed is at the rate of one miners inch to one acre of ground to be irrigated.

Very truly yours,

R. W. FARIS,
Commissioner of Reclamation

Re: APPLICATION FOR PERMIT

Mr. W. D. REAM,
Dingle,
Idaho

Dear Sir:

In reply to your letter dated August 21, 1931, enclosing application to appropriate ten second feet of the waters of springs, would say that after a study of same we have endeavored to write your application as it should be. Kindly look same over for any possible corrections.

It seems the appropriation is from springs located along the East line of the

$E\frac{1}{2}$ of the SE $\frac{1}{4}$, Sec. 14, T. 14 S., R. 44 E.

which are collected by means of a canal or ditch and conveyed to a reservoir and through the same to irrigate lands as proposed.

In answer to Paragraph 13, reference is only to diversion works at the source of supply, namely, springs.

If these springs are located on Government land, unleased State land, or your own private land, mention so under "Remarks." If springs are located on leased State land or private land other than your own, it will be necessary for you to have the affidavit of permission to file on same filled in by the owner or lessee before a Notary Public before this application could pass to permit.

Very truly yours,

R. W. FARIS,
Commissioner of Reclamation

Gentlemen:

Relative to final
proof under Permit - R-497
The date of Sep. 19th 1937
falls on Sunday.

How can proof be made
on that date or was it an
error?

Yours Truly

W. O. Reams

August 18, 1937

Re: Permit R-497.

Mr. W. D. Ream
Dingle, Idaho

Dear Sir:

I have your letter of August 14th and note what you say with regard to September 19th coming on Sunday.

As you know, this is the date that was fixed for proof in your permit. However, that was done five years ago, and without regard to what day it came; nor could it have been otherwise, since the law specifically provides that all dates date from the date of approval of the application.

At any rate, it isn't material, since you may offer your proof on September 18th, and it is suggested that you do so.

Very truly yours,

Deputy Commissioner of Reclamation

Re: Permit R-497.

Mr. W. D. Ream
131 Estudillo Ave.
San Leandro, Calif.

Dear Mr. Ream:

I have your letter of October 23rd with regard to an inspection that will be made by the field engineer of this department in connection with your proof under the above permit.

I have just discussed this matter with Mr. Tolman, who will make the examination, and we have agreed that it will be better to hold it over until some time in the spring. This delay will in no way jeopardize your right under the permit, and it will be much better for him to contact you at the time when such examination is made. Furthermore, there is nothing else in that section of the state at this time that requires the Department's attention, and the cost of the trip would be prohibitive purely for that one matter.

It might be well when you get ready to go home to write the Department advising when you will be there.

Very truly yours,

Deputy Commissioner of Reclamation

PLH:jl

P. S. I note from the letterhead which you used that Beulah is now practicing medicine. It has been a matter of several years since I last saw her, but I knew her quite well at the time when we were both attending the University of Utah. I shall therefore appreciate it if you will tell her "Hello" for me.

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) July 16 1937
(P. O.) Bringle Idaho

TO THE COMMISSIONER OF RECLAMATION:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the Boise Lake News of Montpelier Idaho, published in the county in which the works are situated.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

R-497

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 19th day of September, 1937,
 at Montpelier, County of Bear Lake, State of Idaho, before
Chas. E. Harris, Notary Public, proof will be submitted of the
 application to beneficial use of 360 acre ^{feet per annum} ~~of the waters of~~ Springs
 in accordance with the terms and conditions of Permit No. B-497
 heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are

W. D. Beam, Dingle, Idaho.

The use to which said water has been applied is Irrigation

The amount applied to beneficial use is 360 acre feet per annum

The place where said water is used (if for irrigation, give full and accurate description of the
 lands irrigated) W¹/₂ NW¹/₂, Sec. 23; W¹/₂ NE¹/₂ & SW¹/₂, Sec. 26; SE¹/₂ SE¹/₂, Sec. 27; NE¹/₂ NE¹/₂,
Sec. 34; NW¹/₂, Sec. 35, T. 14 S., R. 44 E., B. M.

The name of the canal or ditch or other works by which said water is conducted to such place
 of use is Harkley Reservoir System.

The right to take water from such works is based upon Permit No. B-497

The source of supply from which such water is diverted is Springs, runoff, and pickup
waters.

The date of priority which said user is prepared to establish is Sept. 11, 1931.

R. W. FARIS
 Commissioner of Reclamation.

Re: Permit R-497.

Mr. W. D. Ream
Dingle, Idaho

Dear Sir:

I have your letter of July 24th in which you say that a mistake appeared in the notice published in The Bear Lake News relative to final proof under Permit R-497. You point out that the notice gives your priority as 1931, while it should be 1895.

Please be advised that the priority date as published in the notice is correct insofar as the permit is concerned. In other words, the priority under any application filed in this department cannot go beyond the date of its first receipt in this office.

If you wish to prove your priority back of 1931, you will have to do so in court, since the Commissioner of Reclamation has no judicial authority.

Very truly yours,

Deputy Commissioner of Reclamation

PLH:jl

R-497

Re: Permit R-497.

Mr. F. D. Ream
Dingle, Idaho

Dear Sir:

This will acknowledge receipt of notice in duplicate for publication in connection with beneficial use proof, and also your authorization to have the notice published in the Bear Lake News, at Montpelier, Idaho, all in connection with Permit No. R-497.

A copy of the notice has been mailed to the newspaper with instructions to publish it once a week for four consecutive weeks prior to September 19th, 1937. About ten days prior to this date depositions, consisting of one for the holder and one each for two witnesses, will be mailed to Chas. E. Harris, Notary Public, at Montpelier, Idaho, so that he will have them in ample time for the proof.

On the date designated you should appear at Mr. Harris's office with two disinterested witnesses, who are familiar with the terms of the permit and the works constructed thereunder, for the purpose of executing the depositions.

Very truly yours,

Deputy Commissioner of Reclamation

INSTRUCTIONS
PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO,
Sept. 10, 1937

Mr. Chas. E. Harris
Notary Public
Montpelier, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. R-497

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On Sept. 19, 1937, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Montpelier, Idaho before Chas. E. Harris, Notary Public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

R. W. FARIS
Commissioner of Reclamation.

State of Idaho
DEPARTMENT OF RECLAMATION
BOISE

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

W. D. REAM
Dingle,
Idaho

Boise, Idaho, July 9, 1934

Dear Sir:—

Under the terms of your permit No. R-497 you are required to complete your diversion works on or before Sept. 19, 1934. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS
Commissioner of Reclamation.

money.

R-497

October 2, 1934

Re: Permit No. R-497

MR. W. D. REAM
Dingle,
Idaho

Dear Sir:

In reply to your letter of September 10th, which accompanied your affidavit offered in support of proof of completion of works under the above permit, we wish to advise that your certificate has been issued, authorizing the storage of 360 acre feet of water per annum and it will be forwarded to you within the next couple of days.

The statutes do not provide for the examination of small permits, such as yours, at the time when proof of completion of works is offered. Consequently, there will be no examination of your project by this department until such time as you have offered your final proof or, in other words, your proof of application of water to beneficial use. We should like very much to have an engineer from this department examine your dam, merely for your own satisfaction, but the limited number of employees and the rigid reductions in the appropriation for this biennium makes it impossible for this department to make any examinations which are requested. It may be that one of our men will be in that vicinity some time this fall and in this event he shall be glad to contact you and go over your works. However, we cannot say, at this time, whether or not this will prove to be the case.

Very truly yours,

R. W. FARIS

R-497

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. R-497

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. W. D. Ream, Dingle, Idaho, Stockraiser, Dingle, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. R-497, dated Sept. 19, 1931; priority, Sept. 11, 1931

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Springs; point of diversion NE Cor. of SE $\frac{1}{4}$ Section 14 Tp. 14 S. R. 44 E. B. M., to Merkley Lake, used as reservoir, by series of ditches from one pond to another to said lake or reservoir. Outlet
SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 26,
Bear Lake, Co.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Canal from Merkley Lake 300 yards long; at which point have built dam in said canal for purpose of raising level of water in lake for reservoir, and from said canal two ditches on the North and two on the South, for the purpose of irrigating by flood lands on both sides on canal, also ditches, lavies, etc., on south side for diversion of water over lands of applicant. All are meadow lands of wild hay lands.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigating lands in W $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 23; W $\frac{1}{2}$ NW $\frac{1}{4}$ & SW $\frac{1}{4}$ Sec. 26; SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 27; NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 34; NW $\frac{1}{4}$, Sec. 35; Tp. 14 S. R. 44 E. B. M. About 400 acres. All meadow lands. results: increase tonage of hay and pasture, and keeping down alkalis. All lands fenced and cross fenced, together with canals and ditches.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Only for irrigation & domestic purposes

R-497

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. From two to two and a half, per acre, and at least 360 acre feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. My own application.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All of said 360 acre feet have been used each year, in said irrigation of said lands.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None except in occasional years some water has been used on some of said lands from Ream-Crocket Irrigation Company. Also, some run-off waste water has been used.

(Sign)

W. O. Ream

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Montpelier, County of Bear Lake, State of Idaho, on this 18th day of September, A. D. 19 37.

Chas Estarnis

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. R-497

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John F. Quayle, 68, Dingle, Idaho, Farmer, Dingle, Idaho.

Ques. 2. Are you acquainted with W. D. Ream, the holder of Permit No. R-497? How long have you known him and where does he reside?

Ans. Yes. 50 years. Dingle, Idaho.

Ques. 3. Have you read or heard read said Permit No. _____, and are you familiar with its provisions and conditions?

Ans. _____

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Springs; point of diversion NE cor. of SE $\frac{1}{4}$ sec. 14 Tp. 14 S. R.

44 E. B. M., to Merkley Lake, used as reservoir; by series of ditches

from one pond to another to said lake or reservoir. Several other

springs help supply said waters when irrigation is being done on higher lands, known as Dingle fields. A canal, dams, and irrigating ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. At least 360 feet of water, and perhaps much more. I would estimate as much as 360 feet.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Irrigation, On lands in following sub divisions; Sections 23, 26, 27,

34 and 35, Tp. 14 S. R. 44 E. B. M. on approximately 400 acres in various parts of said sections. Said lands are meadow, and irrigation by applicant has made the same produce good crops of wild hay, which was not the case before said irrigation. Improvements: Lands fenced and cross-fenced; also, canal, dams, and ditches and like improvements for irrigation. No other person, so far as I know, has or could use said waters advantageously.

R-497

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. Irrigation.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Natural meadow land with some alkali, which irrigation has
reduced, so land will produce wild hay crops. At least one and
to two and one-half feet per acre.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have seen lands irrigated most every year since 1895 or before.
Prior to 1895, one Merkley irrigated some of the land. Applicant
bought out Merkley rights and lands.

(Signed)

John F. Quayle

I hereby certify that the foregoing testimony was read to the above subbscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Montpelier, County of Bear Lake, State of Idaho, on this 18th day of September, A. D. 1937.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. J. E. LaRocco, 47, Dingle, Idaho, Farmer, Dingle, Idaho.

Ques. 2. Are you acquainted with W. D. Ream, the holder of Permit No. R-497? How long have you known him and where does he reside?

Ans. All my life, resides in Dingle, Idaho.

Ques. 3. Have you read or heard read said Permit No., and are you familiar with its provisions and conditions?

Ans.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Springs, point of diversion NE cor. of SE $\frac{1}{4}$ Sec. 14 Tp. 14 S. R.

44 E. B. M., to Merkley Lake, used as reservoir; Series of ditches and
dams from one pond to another to said lake or reservoir, and canal from
Merkley Lake or reservoir with dam in said canal and ditches leading
from said canal onto lands north and south.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 360 feet of water and even more.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. For irrigation of meadow lands in Sections 23, 26, 27, 34 and 35

in Tp. 14 S. R. 44 E. B. M. on about 400 acres, in said sections..

Do not know exact acreage in each section. All irrigated lands fenced,
and cross-fenced, canals, dams, and ditches.

R-497

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. Only for irrigation.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Natural meadow land but originally more or less alkali.

The irrigation of same by applicant has caused a heavy crop of wild hay to grow and has dissipated the alkali. I estimate the land needs more than 360 acre feet.
Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have seen lands irrigated every year since 1895, with waters diverted by the applicant, he having used the waters applied for during all these years.

Re: Permit B-497.

Mr. W. D. Ream
Dingle, Idaho

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office you will be further notified as to fees due before the issuance of your license.

Very truly yours,

Deputy Commissioner of Reclamation

R-497

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

REPORT OF ENGINEER

Permit No. R-497

This proof is for Beneficial Use

In Water District No.

1. Name of applicant W. D. REAM
2. Source of water supply: Springs
3. Location of point of ^{outlet} ~~diversion~~: Is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26
T. 14 S. R. 44 E. County of Bear Lake

4. Describe works as they exist, giving dimensions and capacities of same: Works consist of

ditches of 2 ft width - 1.5 ft depth which collect and conduct spring
water to $\frac{3}{4}$ through two lakes & thence via canal (40 wide) to the
point of diversion and control

5. Water is used for: Irrigation & Domestic

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irriga-

tion): W $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 23; W $\frac{1}{2}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$ of Section 26;

SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 27; NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 34; NW $\frac{1}{4}$ of

Section 35, all in Township 14 South, Range 44 East

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Bear Lake

Remarks The foregoing description of lands irrigated is in
evident error as Mr. Ream intended to include the
west $\frac{1}{2}$ of the South West $\frac{1}{4}$ of Sec. 23 instead of the west $\frac{1}{2}$
of the North West $\frac{1}{4}$ of said section. His statement
as well as his filing map justify this conclusion

This examination was made on the 15th day of June, 1938.

Examination for Beneficial Use

County Bear Lake

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make a plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

Re: Permit No. R-497

Mr. W. D. Ream,
Dingle, Idaho.

Dear Sir:-

A short time ago we received the report of our field engineer on examination for beneficial use under the above numbered permit.

This report shows that you are irrigating land in twelve 40-acre legal subdivisions;

Therefore, your fee will be \$24.00, upon receipt of which a license will be issued.

Very truly yours,

JAMES SPOFFORD

APPLICATION FOR PERMIT

To Construct a Reservoir and Store and Appropriate
The Public Waters of the State of Idaho

Application No. R24670
Permit No. R 497

1. Name of Applicant: W. D. Ream

Postoffice address: Dingle

County Bear Lake

State Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the corporation are:

(a) Cash on hand: \$

(b) Treasury Stock: \$

(c) Bonds to be issued: \$

(d) Other resources:

2. Quantity of water to be stored: 600

acre feet per annum.

3. Source of water supply is Springs

(Creek) (River) (Spring), a tributary of Mud Lake

4. The outlet of the proposed reservoir is located approx. 700 feet, distant from the SE corner of Section 26 NW $\frac{1}{4}$, Township 14 S, Range 44 E. B. M. and is in the SE $\frac{1}{4}$ of Section 26, Township 14 S, Range 44 E. B. M. County of Bear Lake

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of No

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located of SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 14, Township 14 S, Range 44 E, B. M., and is in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 14, Township 14 S, Range 44 E, B. M.; width at bottom 4 feet, width at top 6 feet, depth of water 2 $\frac{1}{2}$ feet; average grade per mile 5 $\frac{1}{2}$ feet; Capacity 10 cubic feet per second. acres.

along est boundary (Creek) (River) feet distant from (bearing)

6. (a) The area of the high water line of the reservoir is 60

(b) The reservoir capacity is 600

acre feet.

7. Height of reservoir dam 10 feet, length at top 60 feet, length at bottom 50 feet, size of outlet 36" Pipe

by feet. The dam is to be constructed of materials as follows: Earth with some rock

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of any (Creek) (River) ? Yes

(b) Water stored in reservoir will be carried in the channel of No

(Creek,) (River,) a distance

of miles to point of diversion located (bearing)

feet, distant from the

corner of Section

Township, Range, B. M., and in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range

, Township, Range

B. M.

9. Amount of water claimed from Springs

stored in reservoir 10

(Creek) (River) (Spring) in addition to that

cubic feet per second.

10. Water is to be used for Irrigation & Domestic

purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water (bearing)

feet, distant from

Corner of Section

, Township

, Range

B. M. and is in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range

, B. M.

(b) Amount of power generated:

H. P., under

feet head.

(c) Water is to be returned to

(Creek) (River) (Spring) at a point

(bearing)

distant from the corner of Section, Township, Range

, B. M., in

the $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range

B. M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No.

, which is hereby referred to and made a part hereof.

13. Kind of diversion works: Canal flinder (Dam, canal, flume, pipe, etc.)
14. Height of diversion dam: 10 feet, length at top 60 feet, length at bottom 50 feet. The dam is to be constructed of materials as follows: earth & some rock

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width 36 in. pipe feet, Height feet.
16. Diversion Canal: Width at bottom 4 feet, width at water line 6 feet, depth of water $2\frac{1}{2}$ feet, Dimensions of Flume Diameter of Pipe 36 inches; Length of Conduit 3 miles, Average grade per mile $5\frac{1}{2}$ feet.
17. Estimated cost of Works: Storage Works: \$ 2000.00 Diversion Works: \$1000.00
18. Time required for completion of work 3 years.
19. Time required for complete application of water to proposed beneficial use is 3 additional years.
20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals

May 17, 1939.

Department of Reclamation,
State House,
Boise, Idaho.

Dear Mr. Spofford:

I thank you for your enclosures of May 15th and in regard to the same will say that while the business of the application will be only for the purpose of fish culture it is their intention to deepen, what is commonly known as Spring Creek, on the south boundary of Soda Springs, Idaho.

This will be accomplished by means of several dams which will be constructed purely for the purpose of ariation of the waters. This will cause only a slight reservoir but I believe it would be advisable to secure a storage permit.

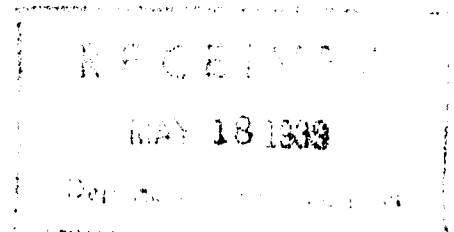

The contemplated water storage will in no way interfere with water users below the point of diversion. Will you, therefore, please advise me and send me any papers necessary to secure application for storage permit.

Thanking you for your courtesy in this matter I am,

Yours very truly,

GDP:ert

Geo D Preston

Permit No. R-693

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Caribou Trout Ranch, Inc., of Soda Springs, Idaho, engaged in the fish rearing business: By H. W. WOODALL, ITS SECRETARY.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Caribou Trout Ranch, Inc., of Soda Springs, Idaho, engaged in the fish rearing business: PROOF BEING MADE BY H. W. WOODALL, ITS SECRETARY BY AUTHORITY OF A RESOLUTION BY ITS BOARD OF DIRECTORS.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. R-693, Dated 12/28/'40: Date of priority August 8, 1940.

Ques. 4. State source of water supply and give exact location of point of ~~diversion~~ ^{reservoiring}.

Ans. Head waters of Spring Creek; impounded on SW $\frac{1}{4}$ -SW $\frac{1}{4}$ Sec. 7; NE $\frac{1}{4}$ -NW $\frac{1}{4}$ of Sec. 18, T. 9 S., R. 42 EBM; SE $\frac{1}{4}$ -SE $\frac{1}{4}$ Sec. 12; NE $\frac{1}{4}$ -NE $\frac{1}{4}$ Sec. 13, T. 9 S., R. 41 EBM.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. No diversion.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is impounded in reservoir and used for fish rearing purposes.

Stored Upon: The SW $\frac{1}{4}$ -SW $\frac{1}{4}$ Sec. 7, NE $\frac{1}{4}$ -NW $\frac{1}{4}$ Sec. 18, T. 9 S., R. 42 E., R. M., and SE $\frac{1}{4}$ -SE $\frac{1}{4}$ of Sec. 12, NE $\frac{1}{4}$ -NE $\frac{1}{4}$ of Sec. 13, T. 9 S., R. 41 E., R. M.

[No irrigation]

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Used for fish rearing purposes. No power generated.

R-693

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 50 acre feet per annum.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. -----

Ques. 10. State when, how, in what amount and to what extent the water ^{impounded} ~~diverted~~ under above mentioned permit has been used.

Ans. Has been used for fish rearing purposes continuously for more than four (4) years ^{preceding} ~~from~~ the date of the making of this proof.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No diversion

PERMIT NO. R-693

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. J. H. McCall, Age 31, Residence Soda Springs, Idaho, Laborer

Ques. 2. Are you acquainted with Caribou Trout Ranch, Inc., the holder of Permit No. R-693? How long have you known him and where does he reside?

Ans. Yes. For more than 5 years. Residence: Soda Springs, Idaho

Ques. 3. Have you read or heard read said Permit No. R-693, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of ^{storage} ~~diversion~~, and describe works for ^{storing} ~~conveying~~ water ^{at} ~~from point of diversion to~~ place of use. (No diversion)

Ans. Head waters of Spring Creek. Concrete & dirt dam 9' high, length at top 135 feet, length at bottom 106 feet, size of outlet 12 feet by 9 feet

Ques. 5. How many ^{acre} ~~section~~ feet of water do you estimate said works will safely ^{store at} ~~convey to~~ place of use, and how much water have you seen being so ^{stored} ~~conveyed~~?

Ans. 50 acre feet can be stored; I have seen 50 acre feet stored.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Used for fish rearing purposes on SW $\frac{1}{4}$ -SW $\frac{1}{4}$ Sec. 7, NE $\frac{1}{4}$ -NW $\frac{1}{4}$ Sec. 18, Twp. 9 S., R. 42 E., B.M., and SE $\frac{1}{4}$ -SE $\frac{1}{4}$ Sec. 12, NE $\frac{1}{4}$ -NE $\frac{1}{4}$ Sec. 13, T. 9 S., R. 41 E., B.M., in Caribou County, Idaho

R-693

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. No power generated.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. No irrigation

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water ^{stored} ~~diverted~~ under said permit.

Ans. I have seen 50 acre feet of water stored for more than 2 years and trout being reared all of that time.

Re: R -693

BOISE, IDAHO,

June 19, 1941

Mr. S. E. Mathews
Seed- Soda Springs, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of completion of works and beneficial use of water under Permit No. R -693

DEPOSITION OF PERMIT HOLDER.

DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On June 28, 1941, the date set for proof, the enclosed forms (two for permit holder and two each for two disinterested witnesses) should be filled out and sworn to, at Soda Springs before S. E. Mathews, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

~~W. G. SWENDSEN~~, E. V. Berg.

Commissioner of Reclamation.

R 693

Re: R-692 & 19036

Caribou Trout Ranch, Inc.
c/o H. C. Woodall, Secy.
Soda Springs, Idaho

Gentlemen:

This will acknowledge receipt of the depositions of the holder, depositions of two witnesses, and the affidavits of proof of publication from the Soda Springs Sun, all in connection with Beneficial Use proof under the above numbered permits.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, field engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

When the engineer's report is filed, you will be notified of the amount due for Beneficial Use proof. Upon receipt of which a license will be issued.

Very truly yours,
E. V. BREC,
Commissioner of Reclamation.

BY: Chief Clerk.

REPORT OF ENGINEER

Permit No. R-693

This proof is for Beneficial Use

In Water District No.

1. Name of applicant Caribou Trout Ranch, c/o H. C. Woodall, Soda Springs, Ida.

2. Source of water supply: Soda Creek, a tributary of Bear River

3. Location of point of diversion: Is in the NE 1/4 of Section 13

T. 9S R. 41 E County of Caribou

4. Describe works as they exist, giving dimensions and capacities of same: An earth dam 75 feet long, and 10 feet high; equipped with two outlets six x eight feet each.

5. Water is used for: Fish rearing

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Bear River

Remarks:

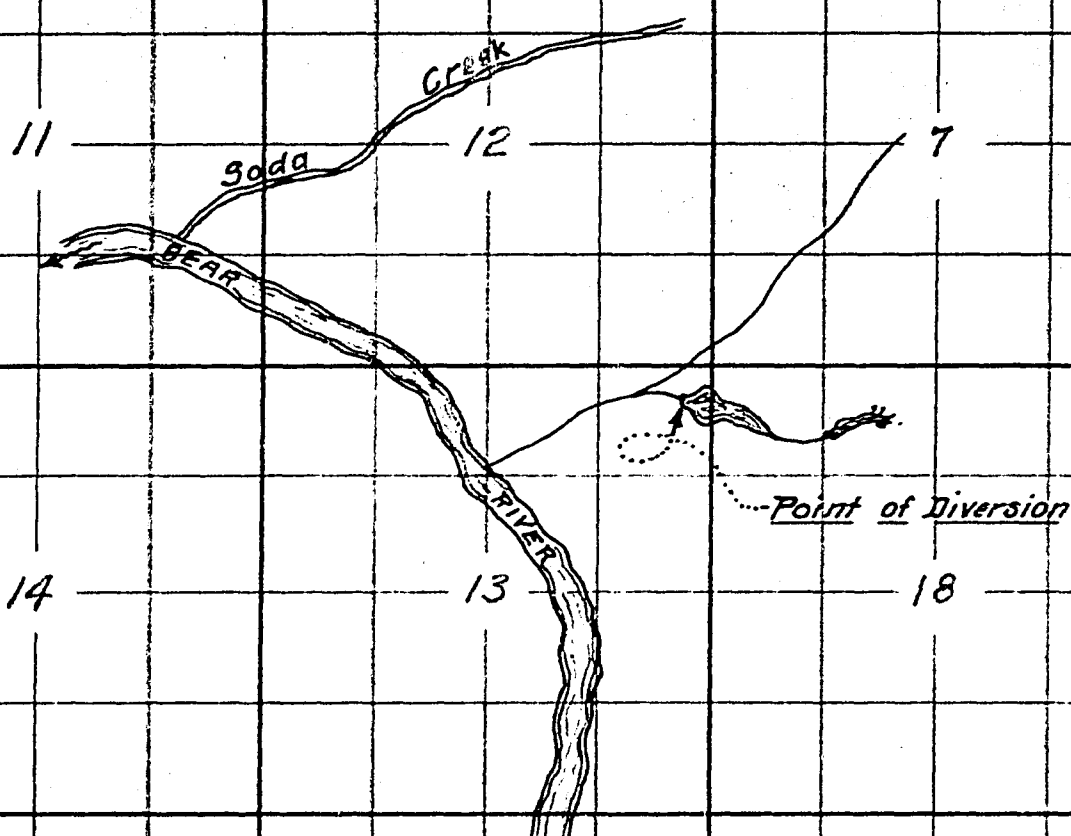

spillway is equipped with automatic moss cleaner.

This examination was made on the 22nd day of July, 1941

Examination for Beneficial Use.....

County.....Caribou.....

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make a plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

State House,
Boise, Idaho.

Dear Mr. Spofford:

I thank you for your enclosures of May 15th and in regard to the same will say that while the business of the application will be only for the purpose of fish culture it is their intention to deepen, what is commonly known as Spring Creek, on the south boundary of Soda Springs, Idaho.

This will be accomplished by means of several dams which will be constructed purely for the purpose of ariation of the waters. This will cause only a slight reservoir but I believe it would be advisable to secure a storage permit.

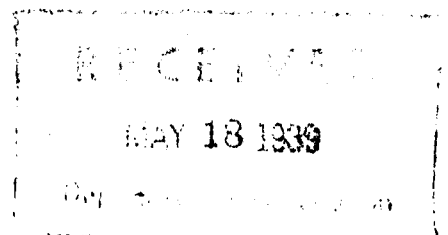

The contemplated water storage will in no way interfere with water users below the point of diversion. Will you, therefore, please advise me and send me any papers necessary to secure application for storage permit.

Thanking you for your courtesy in this matter I am,

Yours very truly,

GDP:ert

Permit No. R-693

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Caribou Trout Ranch, Inc., of Soda Springs, Idaho, engaged in the fish rearing business: By H. W. WOODALL, ITS SECRETARY.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Caribou Trout Ranch, Inc., of Soda Springs, Idaho, engaged in the fish rearing business: PROOF BEING MADE BY H. W. WOODALL, ITS SECRETARY BY AUTHORITY OF A RESOLUTION BY ITS BOARD OF DIRECTORS.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. R-693, Dated 12/28/'40: Date of priority August 2, 1940.

Ques. 4. State source of water supply and give exact location of point of ~~diversion~~ ^{reservoiring}.

Ans. Head waters of Spring Creek; impounded on SW $\frac{1}{4}$ -SW $\frac{1}{4}$ Sec. 7; NE $\frac{1}{4}$ -NW $\frac{1}{4}$ of Sec. 12, T. 9 S., R. 42 E.M.; SE $\frac{1}{4}$ -SE $\frac{1}{4}$ Sec. 12; NE $\frac{1}{4}$ -NE $\frac{1}{4}$ Sec. 13, T. 9 S., R. 41 E.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. No diversion.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is impounded in reservoir and used for fish rearing purposes. Stored Upon: The SW $\frac{1}{4}$ -SW $\frac{1}{4}$ Sec. 7, NE $\frac{1}{4}$ -NW $\frac{1}{4}$ Sec. 12, T. 9 S., R. 42 E., P. M., and SE $\frac{1}{4}$ -SE $\frac{1}{4}$ of Sec. 12, NE $\frac{1}{4}$ -NE $\frac{1}{4}$ of Sec. 13, T. 9 S., R. 41 E., P. M.
[No irrigation]

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Used for fish rearing purposes. No power generated.

R-693

Ques. 8. What is the minimum amount of water required for the purpose specified above?
Ans. 50 acre feet per annum.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.
Ans. ----

Ques. 10. State when, how, in what amount and to what extent the water/^{impounded}~~diverted~~ under above mentioned permit has been used.

Ans. Has been used for fish rearing purposes continuously for more than ^{preceding} four (4) years/~~xxx~~ the date of the making of this proof.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No diversion

(Sign) Harold S. Sweeney

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Soda Springs, County of Caribou, State of Idaho, on this 28th day of June, A. Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. J. H. McCall, Age 31, Residence Soda Springs, Idaho, Laborer

Ques. 2. Are you acquainted with Caribou Trout Ranch, Inc., the holder of Permit No. R-693? How long have you known him and where does he reside?

Ans. Yes. For more than 5 years. Residence: Soda Springs, Idaho

Ques. 3. Have you read or heard read said Permit No. R-693, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of ^{storage} ~~division~~, and describe works for ^{storing} ~~conveying~~ water ^{at} ~~from point of diversion to~~ place of use. (No diversion)

Ans. Head waters of Spring Creek. Concrete & dirt dam 9' high, length at top 135 feet, length at bottom 106 feet, size of outlet 12 feet by 9 feet

Ques. 5. How many ^{acre} ~~second~~ feet of water do you estimate said works will safely ^{store at} ~~convey to~~ place of use, and how much water have you seen being so ^{stored} ~~conveyed~~?

Ans. 50 acre feet can be stored; I have seen 50 acre feet stored.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Used for fish rearing purposes on SW $\frac{1}{4}$ -SW $\frac{1}{4}$ Sec. 7, NE $\frac{1}{4}$ -NE $\frac{1}{4}$ Sec. 12, Twp. 9 S., R. 42 E., E.M., and SE $\frac{1}{4}$ -SE $\frac{1}{4}$ Sec. 12, NE $\frac{1}{4}$ -NE $\frac{1}{4}$ Sec. 13, T. 9 S., R. 41 E., E.M., in Caribou County, Idaho

R-693

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. No power generated.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. No irrigation

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water ^{stored} ~~diverted~~ under said permit.

Ans. I have seen 50 acre feet of water stored for more than 2 years and trout being reared all of that time.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2:30 P. M. on the 28th day of June, 1941, at Soda Springs, County of Caribou, State of Idaho, before S. E. Matthews, a Notary Public, proof will be submitted of the completion of works for the storage of 50 acre feet per annum of the waters of Spring Creek and of the application to beneficial use of said water in accordance with the terms and conditions of Permit No. R-693, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Caribou Trout Ranch, Inc., Soda Springs, Idaho.

2. Said works will be fully completed on the date set for such completion, and the amount of water which said works are capable of storing, in accordance with the plans accompanying the application for such permit, is 50 acre feet per annum.

3. The use to which said water has been applied is fish rearing purposes and the amount applied to beneficial use is 50 acre feet per annum.

4. The place where said water is stored is in the SW $\frac{1}{4}$ -SW $\frac{1}{4}$ of Sec. 7, the N $\frac{1}{2}$ -NW $\frac{1}{4}$ of Sec. 13, Twp. 9 S., R. 42 E., B. M., And in the SE $\frac{1}{4}$ -SE $\frac{1}{4}$ of Sec. 12 and the NW $\frac{1}{4}$ -NW $\frac{1}{4}$ of Sec. 13, Twp. 9 South, Range 41 E., B. M., in Caribou County, Idaho.

5. The date of priority, which said user is prepared to establish is August 8, 1940.

E. V. BERG,
Commissioner of Reclamation
First Pub. May 1 — Last May 22

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) April 22nd, 1941.

(P. O.) Soda Springs, Idaho

TO THE COMMISSIONER OF RECLAMATION:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Soda Springs Sun of Soda Springs, Idaho, published in
the county in which the works are situated.

CARIBOU TROUT RANCH, INC.,

By:

Secretary.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water
per second, the following certificate must be signed by a well-known and competent engineer)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

R. G. B.

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

RECEIVED

APR 22 1941

Department of Reclamation

Notice is hereby given that at 2:30 P.M. on the 28th
day of June, 1941, at Soda Springs, County of Caribou,
State of Idaho, before S.E. Matthews, a Notary Public
proof will be submitted of the completion of works for the ~~diversion~~ ^{storage} of 50 acre feet per annum
~~cubic feet per second~~ of the waters of Spring Creek and of
the application to beneficial use of said water in accordance with the terms and
conditions of Permit No. R-693, heretofore issued by the Department of Reclamation
of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Caribou Trout Ranch, Inc., Soda Springs, Idaho.

2. Said works ~~will be fully completed~~ ^{will be fully completed} on the date set
for such completion, and the amount of water which said works are capable of ~~storing~~ ^{storing}
~~storing to the place of use~~, in accordance with the plans accompanying the appli-
cation for such permit, is 50 acre feet per annum.

3. The use to which said water has been applied is ~~for the purpose of~~ ^{for the purpose of}
fish rearing purposes and the amount applied to beneficial use
is 50 acre feet per annum.

4. The place where said water is ~~stored~~ ^{stored} is in the
SW $\frac{1}{4}$ -SW $\frac{1}{4}$ of Sec. 7, the NW $\frac{1}{4}$ of Sec. 18, Twp. 9 S., E. 42 E., B. M.,
And in the SE $\frac{1}{4}$ -SE $\frac{1}{4}$ of Sec. 12 and the NW $\frac{1}{4}$ -NW $\frac{1}{4}$ of Sec. 13, Twp. 9 South,
Range 41 E., B.M., in Caribou County, Idaho.

5. The date of priority which said user is prepared to establish is
December 28th, 1940.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS
AND
PROOF OF BENEFICIAL USE OF WATER

Re: R-693

BOISE, IDAHO,
June 19, 1941

Mr. S. E. Mathews
Seed- Soda Springs, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of completion of works and beneficial use of water under Permit No. R-693

DEPOSITION OF PERMIT HOLDER.
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On June 28, 1941 the date set for proof, the enclosed forms (two for permit holder and two each for two disinterested witnesses) should be filled out and sworn to, at Soda Springs before S. E. Mathews, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

~~W. G. SWENDSEN.~~ E. V. Berg.
Commissioner of Reclamation.

R 693

Ref B-593 & 19086

Caribou Trout Ranch, Inc.
c/o H. C. Woodall, Secty.
Soda Springs, Idaho

Gentlemen:

This will acknowledge receipt of the depositions of the holder, depositions of two witnesses, and the affidavits of proof of publication from the Soda Springs Sun, all in connection with Beneficial Use proof under the above numbered permits.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, field engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

When the engineer's report is filed, you will be notified of the amount due for Beneficial Use proof. Upon receipt of which a license will be issued.

Very truly yours,
E. T. BERG,
Commissioner of Reclamation.

BY: Chief Clerk.

REPORT OF ENGINEER

Permit No. R-693

This proof is for Beneficial Use In Water District No. _____

1. Name of applicant Caribou Trout Ranch, c/o H. C. Woodall, Soda Springs, Ida.

2. Source of water supply: Spring creek, a tributary of Bear River

3. Location of point of diversion: Is in the NE 1/4 of Section 13

T. 9S R. 41 E County of Caribou

4. Describe works as they exist, giving dimensions and capacities of same: An earth dam 75 feet long, and 10 feet high; equipped with two outlets six x eight feet each.

5. Water is used for: Fish rearing

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Bear River

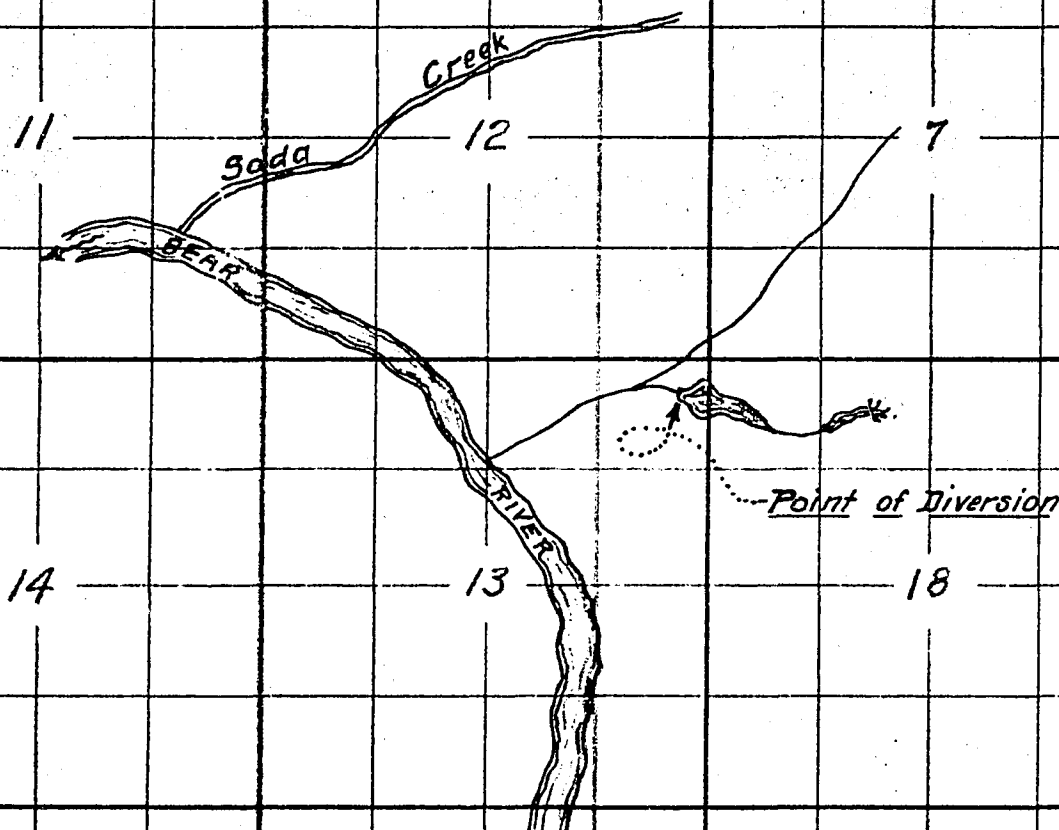

Remarks:

spillway is equipped with automatic moss cleaner.

This examination was made on the 22nd day of July, 1941

(Signed) Frank H. Polman Examiner.

Permit No. R-693

Examination for Beneficial Use

County Caribou

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make a plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

Dear Mr. Woodall:

We are enclosing a certificate of completion of works on your flow permit number 19086 for 30 second feet of the waters of spring at the head of Spring Creek. Examination was made for beneficial use proof and depositions were signed for beneficial use proof as well as completion of works proof, but the notice of intention was not published for beneficial, so that proof still must be advertised.

We are also enclosing certificate of completion of reservoir and right to store water and license #4131 issued on your storage permit number R-693 for 50 acre feet of the waters of Spring Creek to be used for rearing fish. The priority date is August 8, 1940.

Receipt No. 18226 for your \$5.00 completion of works proof fee on permit number 19086 and your \$5.00 completion of works and your \$5.00 beneficial use fee on permit number R-693 is also enclosed.

Very truly yours,

PERMIT NO. R-693

CERTIFICATE OF COMPLETION OF RESERVOIR AND

RIGHT TO STORE WATER.

Amount 50 acre feet.

Priority, Aug. 8, 1940.

This is to certify that Caribou Trout Ranch, Inc., of Soda Springs, County of Caribou, and State of Idaho the holder of Permit No. R-693, issued upon application no. R26464, bearing date of priority of Aug. 8, 1942, authorizing the construction of a reservoir and the right to store the waters of Spring Creek, a tributary of Bear River, County of Caribou, State of Idaho, for fish rearing purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works as set out and described in said Permit; that said works are adequate for the storage of 50 acre feet of water annually; that the location of the outlet of said reservoir is in the NE¹/₄ of Sec. 13, Twp. 9 S., Rge 41 E, Boise Meridian; that a right to store the said waters has been perfected in accordance with the laws of Idaho and is hereby confirmed by the Commissioner of Reclamation and entered of record in Volume 3, of Permits, at page R-693, records of the Department of Reclamation on the 28th day of June, 1941; that the right hereby confirmed dates from Aug. 8, 1940; that the amount of water to which said right is, by this certificate, entitled to store annually shall not exceed 50 acre feet.

Witness the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho, this 2nd day of June, 1942.

E. V. BERG, Commissioner of Reclamation

BY: ROY W. THOMPSON, Deputy Commissioner.

completion made: June 28, 1941
Certificate issued: June 2, 1942.

State of Idaho
