DEPARTMENT OF RECLAMATION

Re: Permit No. R-1215

Date:

Oct. 4, 1966

Cokeville Land & Livestock Co., Inc.
Box 188
Cokeville, Idaho

Dear Sirs;

Under the terms of your Permit No. R 1215 you are required to make proofs of completion of works and application of water to beneficial use on or before **Dec. 28, 1966**

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

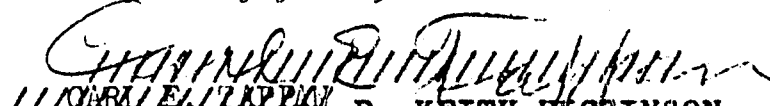

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A / 2.

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Re: Permit No. R-1215

Dear Mr. Higginson:

We wish to apply for an extension of time to complete the proofs, etc. needed in connection with the above permit.

We have completed the reservoir and put the water to beneficial use, but did not understand the 4 consecutive weeks, nor the 40 day period mentioned in your letter of October 6, 1966.

We have the Form 18 completed, subject to the necessary amendment covering the additional time for advertising and to cover the 40 day period aforementioned.

Your cooperation will be appreciated.

Yours very truly,

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. R-1215. The proofs are to be made ~~at~~ Montpelier, on the 26th day of May, 19 67, before Kathryn E. Barrett Montpelier, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Montpelier Examiner, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Gentlemen:

The Department of Reclamation recently conducted a field examination of the system found under Permit R-1215. The examination disclosed that the point of diversion is in the wrong location. Therefore, before we can license your permit, it will be necessary for you to amend your permit's point of diversion and readvertise the permit at your expense. We have enclosed an application for amendment form on which we have entered the legal description of the point of diversion and place of use as found during the field examination.

If this description is agreeable to you, please sign the amendment returning with a \$5.00 amendment fee. Also enclosed is Form 11, authorization for this department to publish your amendment at your expense. Please sign the Form 11 returning it with the amendment form. Your prompt attention to this matter will be greatly appreciated.
