INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Leona Zavala
Boda Springs, Idaho.

July 7, 1919

Dear Sir:—

Under the terms of your permit No. ⁶~~111461~~ you are required to complete your diversion works on or before ~~Oct. 16, 1919~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

W. G. Swendsen.

In Re: Permit 11661.

Mr. Herbert Horsley,
Soda Springs, Idaho.

Dear Sir:

Replying to your letter of October 16th this day received in this Department, you are advised that our files show that under date of September 30th, we forwarded to Leona Savola, in care of Herbert Horsley, Soda Springs, Idaho, the necessary blanks for use in taking the proof of beneficial use of water appropriated under the above numbered permit. The blanks, as you state, no doubt have gone astray in the mail.

I am enclosing herewith a new set of blanks for use in taking this proof. Kindly prepare an affidavit to be signed by the permit holder, stating why the proof was not submitted on the 16th of October, the date originally set for the said proof, and forward the affidavit with the final proof papers.

Very truly yours,

W. G. SWENDBERG,

In re: Permit 11661.

Leona Zavala,
Soda Springs, Idaho.

Madam:

This will acknowledge receipt, at this department, of
deposition showing application of water to beneficial use under
the above numbered permit, together with proof of publication.

The matter of issuing license under this permit will be
taken up after statutory examination is made by a representative
of this department.

Yours very truly,

W. G. SWENDSEN,
Commissioner of
Reclamation,

By

Re: Permit 11661.

Mrs. Leona Savala,
Soda Springs, Idaho.

Dear Sir:—

The report of our engineer for proof of beneficial use of water under the above permit shows part of one forty acre tract under cultivation while your deposition filed last October gives parts of four forties. In order to ascertain just how much land has been actually cultivated and irrigated and how much in natural meadow, I will ask you to send us a statement giving the acreage under cultivation and irrigation and the acreage, in each forty, natural meadow. Also state whether or not this natural meadow is sagebrush land and, if so, whether same has been cleared and systematically irrigated and used for hay and pasture. Upon receipt of such a statement from you, we will be able to advise you as to fees required before issuing license.

Very truly yours,

W. G. SWENSON,

Commissioner of Reclamation.

Re: Permit 11661.

Mrs. Leona Karala,
Soda Springs, Idaho.

Dear Madam: --

After receiving yours of the 16th inst., we again went over your proof with our examining engineer and he informs us that the 12 acres reported upon is all the land under irrigation from the waters of the springs mentioned in your permit; that some of the other land was being irrigated from another creek and some dry farm. We can, therefore, issue license for only the 12 acres and, upon receipt of \$2.00 fee, such license will be issued.

Very truly yours,

W. G. SWENDESEN,

Commissioner of Reclamation.

Mr. W. G. Swendsen,

Dear Sir:-

Responding to your letter of August 20th., relative to permit # 11661, Leona Zavala I desire to state that there is still a mistake about the report of the lands irrigated by Mrs. Zavala under the above permit.

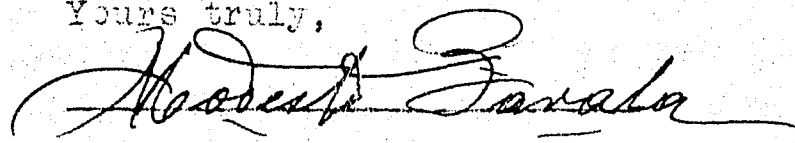

There is no water used upon any part of the subdivisions shown in the permit excepting water covered by the permit. The report of the engineer, as indicated by your letter shows the other lands in these subdivisions are irrigated besides the twelve acres for which she is given credit as being actually irrigated. Permit me to suggest, therefore, that another examination of the record of the permit itself be made and that the engineer be requested to take the full record in question in order that full justice may be done to the land actually irrigated.

I think he will find, or at least the facts will bear me out in this statement, that there is under actual irrigation, acres as follows:

20 acres of the NW $\frac{1}{4}$ SE $\frac{1}{4}$; 10 acres of the NE $\frac{1}{4}$ SW $\frac{1}{4}$
5 acres of the SE $\frac{1}{4}$ SW $\frac{1}{4}$; 5 acres of the SW $\frac{1}{4}$ SE $\frac{1}{4}$
of section 17, Twp 10 S, R 42 E. B. M, all such irrigation having been performed by water appropriated under this permit.

Please advise me as soon as possible.

Yours truly,

Address Box #31, Soda Springs.
