

Claim No. 11 4068

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that H. W. Rhead and W. B. Mason, a partnership
(name of claimant)
of 320 West 2nd South, Soda Springs, ID, claims a right to the diversion and beneficial use of
(mailing address) 83276
the public water of the State of Idaho

The extent and nature of said claim is as follows:

- (1) Describe source of water: (name of stream, lake, spring, etc., or ground water) unnamed spring to internal drainage, tributary to, sinks
- (2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Amount <u>0.05</u>	Use <u>domestic</u>	Period of Use: From <u>Jan. 1</u> To <u>Dec. 31</u>
Amount <u>0.10</u>	Use <u>stock</u>	Period of Use: From <u>Jan. 1</u> To <u>Dec. 31</u>
Amount _____	Use _____	Period of Use: From _____ To _____
(cfs, gpm or a/f)	(dom., irri., stock, etc.)	(both dates inclusive)

- (3) Total quantity of water claimed: 0.15 cubic feet per second, or _____ acre feet per annum, and/or _____ gallons per minute.
- (4) Priority claimed: (the date water was first applied to beneficial use) January 25, 1900

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

- (5) A) Point of diversion: (give location of point where water is diverted from its source)
NE 1/4 SE 1/4, Sec. 36 Twp. 9 S. Rge. 42 E. B. M. County of Caribou
Additional points of diversion: _____

B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Concrete springhouse, rock gallery, pump, pressure tank, pipeline, and ditches.

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

B) If the water is used for other than irrigation, fully describe that use, being as specific as possible: Culinary water and stock water

- (7) If you are claiming water as a member of an organization, list name of organization: _____

(8) Remarks This claim is based upon a claim by Stark Brothers, January 25, 1900,
recorded January 26, 1900 in Book 1 of Water Locations, page 106, Transcribed
Records of Caribou County, the spring involved being one of those claimed
therein.

Scale: 2 inches equal 1 mile.

Mr. Boyd Mason

Dear Boyd,

At your request I have investigated the small stream on your property in Section 36, Township 9 South, Range 42 East. The stream originates on your property in two spring sources, in fractures in the Salt Lake Formation at an approximate elevation of 5960 feet above sea level.

The one source at the culinary spring house develops 25.7 gallons per minute and the other source, a number of small springs developed by use of a rock-gallery located just east of where the stream crosses the old highway, develops 38.5 gallons per minute for a total flow of 64.2 gallons per minute. These figures converted to cubic feet per second are: 25.7 gpm is 0.057 cfs, 38.5 gpm is 0.086 cfs, 64.2 gpm is 0.143 cfs.

At the present time the stream flows under the old highway, down through the pasture property west of the old road to a pond along the east side of the present highway 30N. The outflow from the pond crosses under Highway 30N and continues on through Section 36 to the flat meadowlands in the southwest corner of Section 36 and the northwest corner of Section 1, T 10 S, R 42 E. where it helps to maintain a marsh area. All along the stream, it is used only as stock water and some sub-irrigation of the marsh-meadow. There appears to be no developed irrigation system.

The historical use appears to be stock water and the developed culinary system. You will probably be able to determine dates of established uses for the priority on line 4 of the application from the party who previously owned the property.

Please note that the flow rates noted here were determined on May 24 and 25, 1978 and could fluctuate somewhat during the year and from year to year. The man living at the existing residence did not think that the flow changed during 1977, which was an abnormally dry year. The flow could be greater during a series of wet years.

Enclosed is a copy of an aerial photo showing the area of this report and a copy of the form "Claim to a Water Right" showing data that you might include on your application form.

If I may be of further assistance, please contact me.

Respectfully,

Gerald C Maughan
