Dear Wateruser:

I recently received your application to appropriate domestic water from an unnamed spring in Bear Lake County. In reviewing the application, I determined that additional information is needed before we can begin processing it.

Under Item 3a, you need to describe the 40-acre tract that the point of diversion is located within.

Under Item 5a, you should show the total amount of water filed on which, in your case, would be 0.02 cfs.

Under Item 7a, enter one year as the system has already been constructed and this represents the minimum amount of time we can accept on the application.

Under Item 8a, it will be necessary for you to indicate only the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 3, Twp. 11S, Rge. 43E, as we do not define the place of use further than the 40-acre tract that it is located in.

I am returning your application and \$20.00 money order, together with a new application for you to complete. Please make the necessary corrections and additions and return the new application together with \$20.00 for the statutory filing fee.

If I can be of any further assistance, please feel free to contact me.

I recently received your claim to a water right for the diversion of domestic water from an unnamed spring. Unfortunately, I cannot begin processing it at this time as the descriptions of the place of use and the point of diversion do not coincide with their respective locations on the map.

Dear Mr. Christensen:

This office is in receipt of your claim to a water right for domestic water from an unnamed spring.

In a review of this application, I find a error in the legal description. Item 5 shows the point of diversion as being in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, T. 11S, R. 43E B.M., Bear Lake County, where as, the map shows the point of diversion as being in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, T. 11S, R. 43E.

I am enclosing a blank claim form which must be completed, signed, and returned with the statutory filing fee of \$20.00 before processing can begin.
