

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

APPLICATION FOR EXTENSION OF TIME

State of Idaho)
County of Bear Lake)

Department of Reclamation Permit No. _____

Elmer L. Hagloch
(name)

OF Route # 1, Montpelier, Idaho 83254
(address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Waters of the State of Idaho No. 11-7001.

That under the terms and conditions of said permit, work thereunder was required to be completed by April 1, 1970.

That he has heretofore performed the following work described under said permit: Drilling of the well was completed on July 5, 1968 by Mr Bert Westlake of Montpelier (Bennington), Idaho. During development of the well 240,000 gallons of water were used for irrigation. Approximately 20,000 gallons were used for domestic purposes between July 20, 1968 and October 3, 1968. No water has been taken from the well since October '68.

Costing \$ 2162.50

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: On July 20, 1968 he was ordered to Florida for 60 days duty with the U.S. Air Force, thence to Vietnam for one year. Since returning from Vietnam in Oct '68 he has been stationed at Offutt AFB, Nebraska. Completion of the project will have to be accomplished during periods of annual leave (30 days per year).

WHEREFORE, he asks that the State Reclamation Engineer extend the time for the completion of obligations under said permit to April 1, 1972.

Elmer L. Hagloch
(signature)

Subscribed and sworn before me this 31 day of March, 1970.

James L. M. Fairmiller
(notary public) State of Idaho

My commission expires 1 August 1972

ACTION OF THE STATE RECLAMATION ENGINEER

I, R. KEITH HIGGINSON, State Reclamation Engineer of the State of Idaho, hereby APPROVE the above application for extension of time for Permit No. 11-7001 to April 1, 1973.

Witness my hand this 9th day of April, 1970.

R. Keith Higgins
State Reclamation Engineer

*IF OTHER THAN HOLDER, Power of Attorney must be supplied. Forms are obtainable through the Department of Reclamation, Statehouse Annex II, Boise, Idaho 83707.

April 9, 1970

Re: Permit No, 11-7001

Mr. Elmer I. Hagloch
Route #1
Montpelier, Idaho 83254

Dear Mr. Hagloch:

Please find enclosed a copy of the Approved extension of time in connection with the above referenced permit. Please note that your extension has been granted to April 1, 1973.

If we may be of further assistance, do not hesitate to contact this office.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Re: Permit No. 11-7001

Major Elmer I. Hagloch
108 East 28th Ave.
Bellevue, Nebraska 68005

Dear Major Hagloch:

Please excuse the timely delay in answering your letter of March 3, 1970. Your letter was inadvertently misplaced and has just now been brought to my attention.

Please be advised that in order for the Department to consider an extension of time in which to submit proof of beneficial use, a request must be submitted on the Department's form. Therefore, we are enclosing an Application for Extension of Time for your use in this matter. As an application for extension of time must be received on or before the proof of beneficial use due date, we will consider your letter of March 3rd as the initial request. Please submit the enclosed application as soon as possible. You should also be aware that you may request an extension of up to four years.

We are also enclosing a list of the types of measuring devices approved by the Department. If we may be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

RECEIVED
February 27, 1970
Department of Reclamation

Re: Permit No. 11-7001

Mr. R. Keith Higginson
State Reclamation Engineer
Department of Reclamation
Statehouse - Annex 2
Boise, Idaho 83707

Dear Mr. Higginson,

I received your letter reminding me of the condition under which the above referenced permit was issued: Namely, proof of application of water to beneficial use by April 1, 1970.

The present condition of the project is as follows: Drilling of the well was completed on July 5, 1968. Mr. Bert Westlake of Montpelier (Bennington), Idaho did this work. During the following 2 weeks I pumped approximately 240,000 gallons of water from the well and irrigated (by flooding) a part of the land described in the request for the permit. I regarded this as the development phase of the well. Rate of flow was established by measuring the time required to fill a container of known volume. Pumping time was recorded and the volume of 240,000 gallons was calculated. I regard this figure as accurate within $\pm 10\%$. The well was then closed for irrigation purposes and some water (about 20,000 gallons) was used for household purposes during the 90 days that followed. No water has been taken from the well since Oct. 3, 1968. We removed the pumps from the well and secured the well house to prevent entry by unauthorized persons.

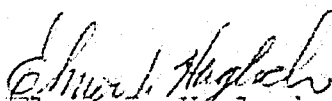

The reason for the project stopping at this stage is that I am employed as a pilot in the U.S. Air Force and was ordered to overseas duty (Vietnam) with reporting date in Oct '68. I returned in October '69 and am presently stationed at Offutt AFB, Nebraska. I am required to remain on active duty until June 1974 so the time I have to work on the property is limited.

During a 3 week vacation this summer I intend to make every effort to complete an irrigation system. My family will be living on the property from June to September of this year.

11-7001

In looking through the information I have, I failed to find a description of approved devices for measuring volume of water taken from the well. Please send me information regarding this. At this time I request a one year extension of the April 1, 1970 date (to April 1, 1971) as that date on which I must furnish the proof of beneficial use of the water.

Sincerely yours,

Elmer I. Hagloch

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
APPLICATION FOR PERMIT

APPROVED

To Appropriate the Public Waters of the State of Idaho

1. Name of applicant Elmer I. Hagloch
post office address Route #1, Montpelier, Idaho, 83254 (see remarks)
2. Source of water supply Underground water which is a tributary of ---
3. a. Location of point of diversion is SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 10 Township 14 S
Range 46 E B.M. Bear Lake County; additional points of diversion if any: none
- b. If water is not consumed, it will be discharged into septic tank system at a point in SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 10 Township 14 S Range 46 E B.M.
4. Quantity to be appropriated:
a. 1.0 (allow 0.64 c.f.s.) cubic feet per second and/or
b. none acre feet per annum will be stored.
5. Water will be used for the following purposes:
Irrigation purpose from May 1 to October 15 (both dates inclusive)
(Household use) Domestic purpose from May 1 to October 1 (both dates inclusive)
(Watering) Livestock water purpose from April 15 to October 15 (both dates inclusive)
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. Pump at well. Thirty acres to be irrigated with a sprinkler system.
- b. Height of storage dam none feet; active reservoir capacity none acre feet; total reservoir capacity none acre feet; materials used in storage dam: ---
- c. Proposed well diameter is 12 inches; proposed depth of well is 150 feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use is 2 years.
b. Estimated construction cost is \$ 2000.
8. Description of proposed uses:
a. If water is **not** for irrigation:
(1) Give the place of use of water: SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 10 Township 14 S
Range 46 E B.M.
(2) Amount of power to be generated: none hp under --- feet of head.
(3) List number of each kind of livestock to be watered 20 cattle and 5 horses
- (4) Name of municipality to be served ---, or number of families to be supplied with domestic water ---.
- (5) If water is to be used for other purposes describe: Household use for family of 5
during May 1st to October 1st.

11-7001

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP.	RANGE	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTALS
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
14	46	10																15	15
14	46	11											15						15

Total number of acres to be irrigated 30

c. Describe any other water rights used for the same purposes none

9. a. Who owns the property at the point of diversion Elmer I. and Joyce W. Hagloch

b. Who owns the land to be irrigated or place of use Elmer I. and Joyce W. Hagloch

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

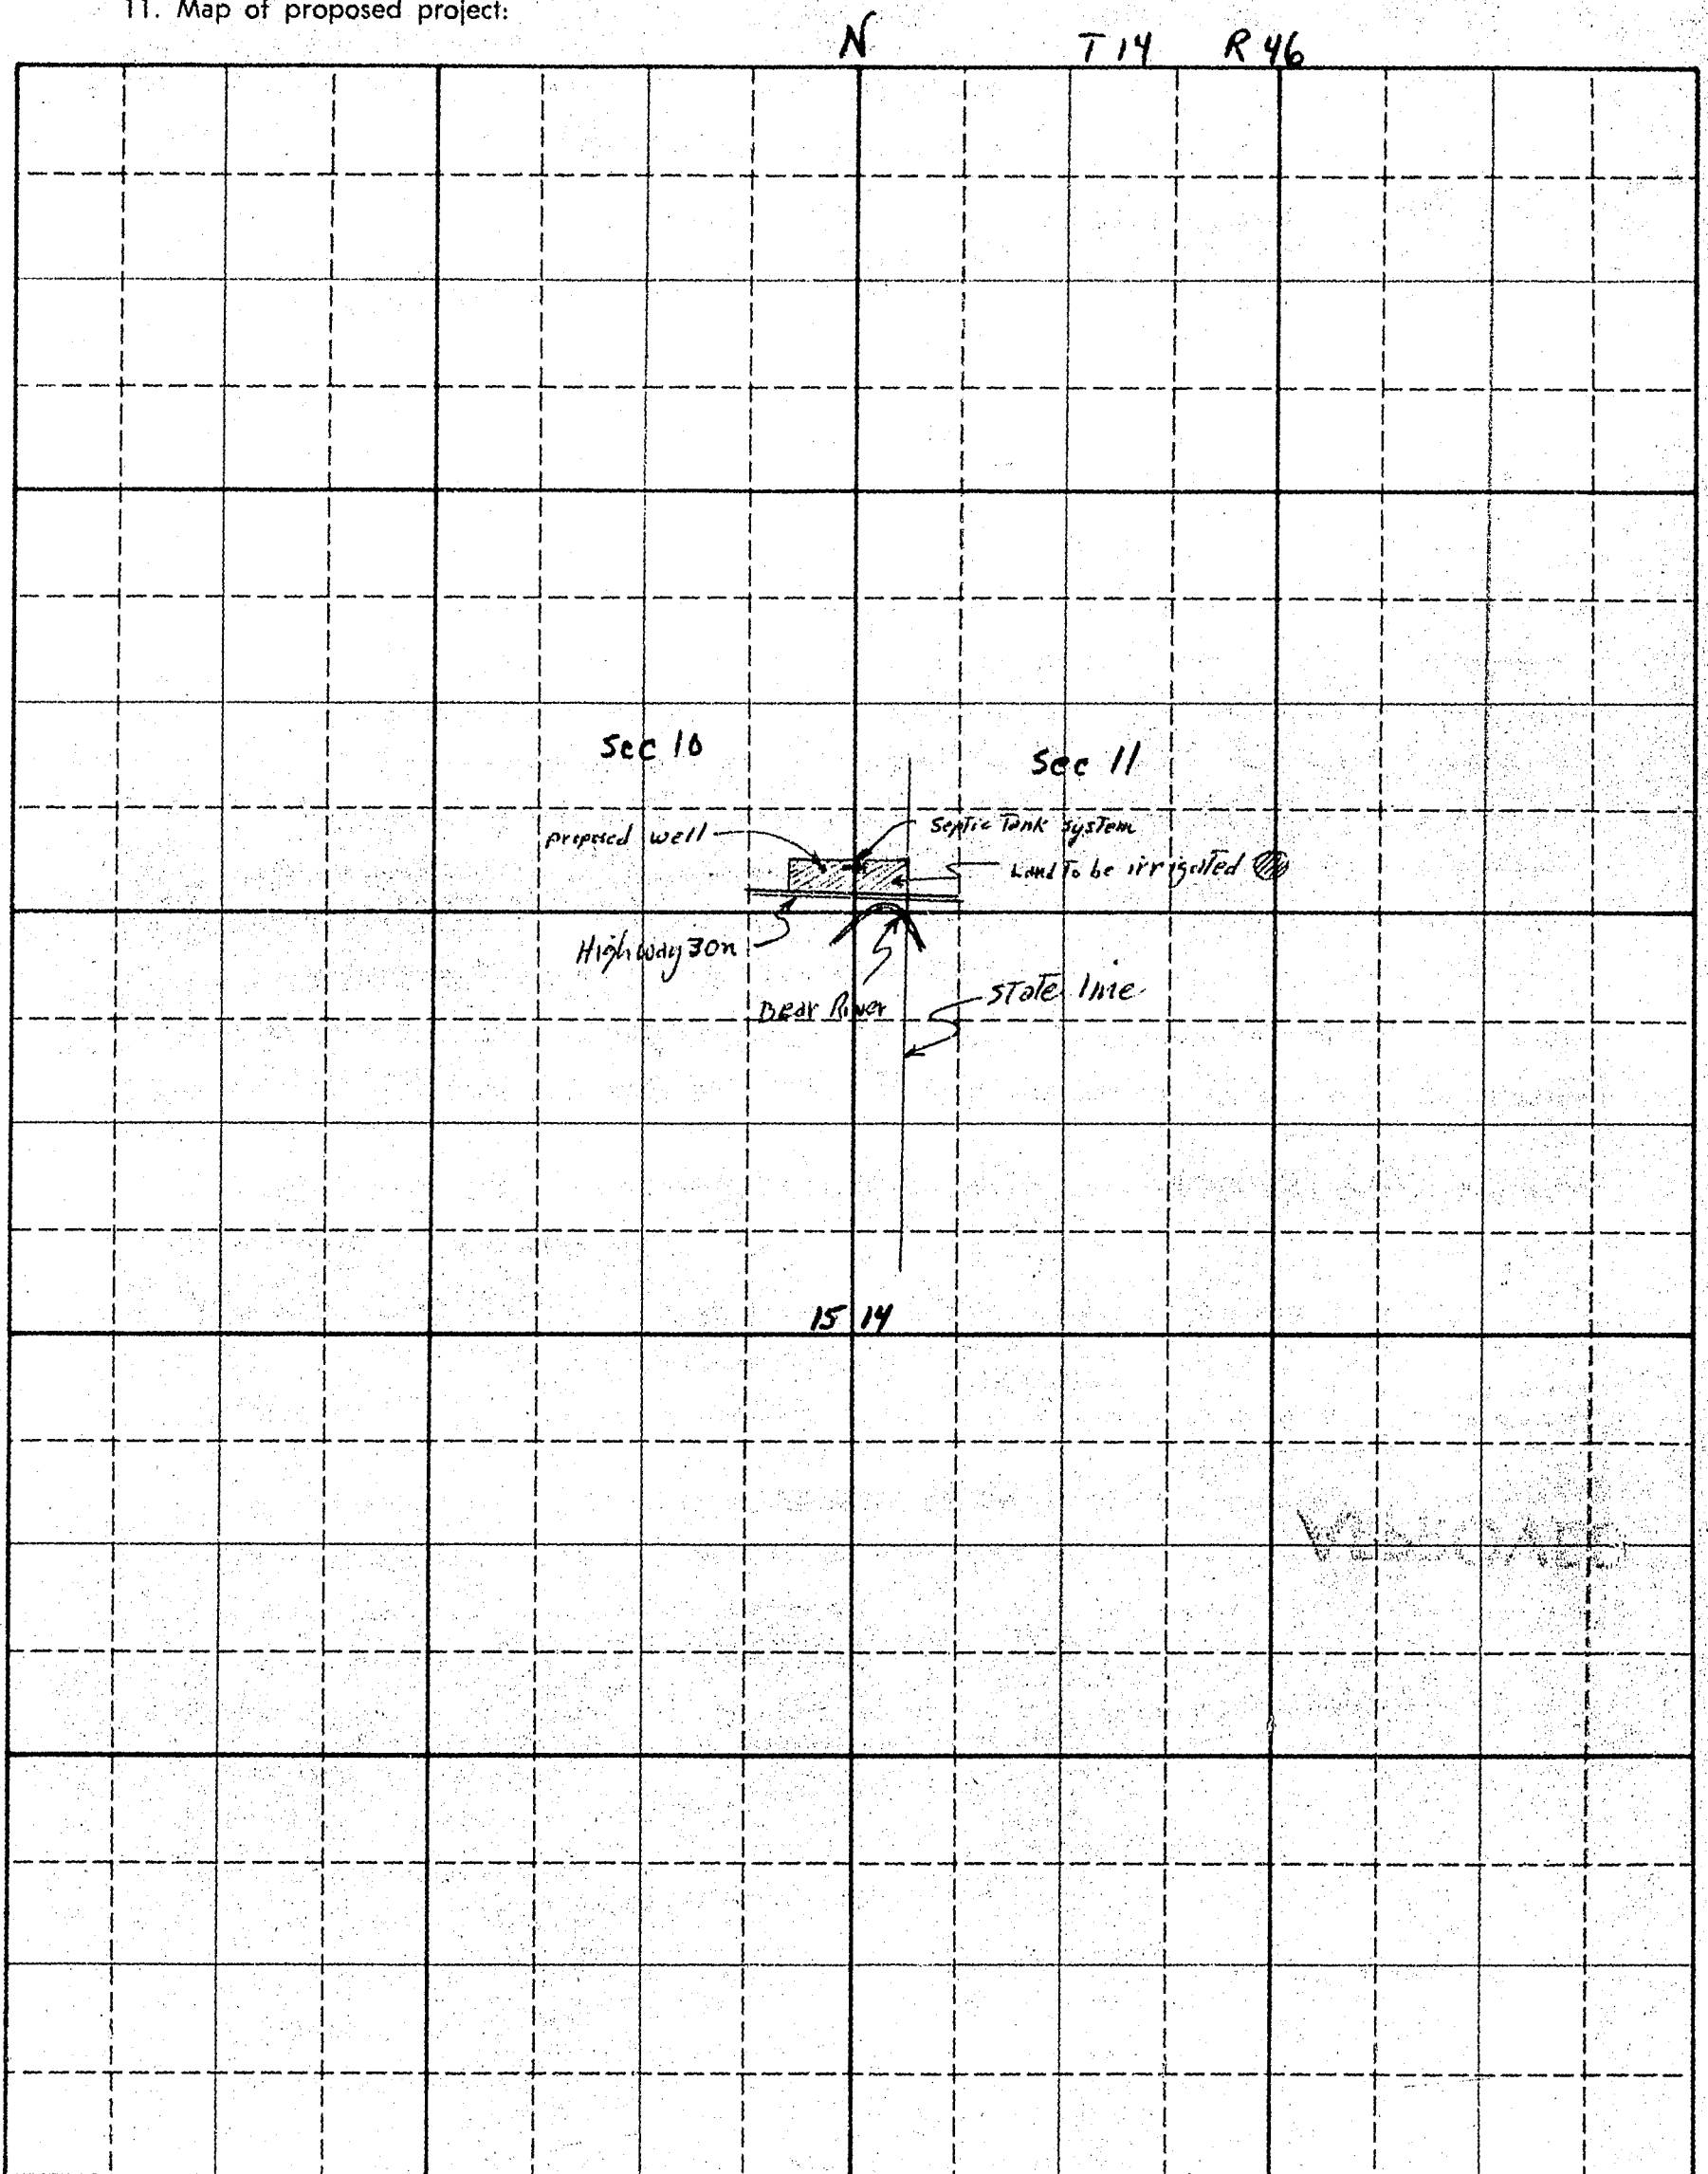

10. Remarks Well driller will probably be Mr. Bert Westlake, Montpelier, Idaho

I (the applicant) am at present a student at the University of Colorado.

Dear Mr. Hagloch:

One of the conditions of the approval of your permit no. 11-7001 was that proof of application of the water to beneficial use be submitted to this office on or before April 1, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

September 28, 1972

State Reclamation Engineer
Department Of Reclamation
Statehouse - Annex 2
Boise, Idaho 83701

Reference application No 42279 and permit 11-7001

Dear Sir,

Water from the well drilled as a result of the approved application was used in irrigation during June, July and August 1972. A second crop of alfalfa was grown on the 30 acres for which irrigation approval was given. An affidavit will be forwarded to your office in the near future substantiating this.

The following development has taken place since the 1968 application:

An additional 10 acres which was originally set aside for purposes other than raising crops, has proven to be unsatisfactory for those purposes. Consequently the entire 40 acre plot (1/8 X 1/2 mile) is available for crop raising. I therefore request that the allowable flow rate be increased to .85 c.f.s. (from .64 c.f.s.) and approval be granted to irrigate 40 acres rather than the 30 in the original application. All land area is contiguous and located in the same Section, Township and Range mentioned in the original application. No physical change in the well will be made since it is evidently capable of supplying the .85 c.f.s. of water requested.

Contracts for new pumping equipment are in the process of being completed, hence I would appreciate receiving your prompt answer on the increased flow rate proposal.

Sincerely Yours,

Elmer I. Hagloch

Re: Permit No. 11-7001

Mr. Elmer I. Hagloch
2729 Dow Street
Omaha, Nebraska 68123

Dear Mr. Hagloch:

We received your letter of September 28, 1972, requesting an expansion of your present permit. This could be accomplished by amending the permit, but would result in a loss of priority under the permit to the date of the amendment. There would also be a \$10.00 amendment fee.

Therefore, we suggest that you file a new application for irrigation of the additional 10 acres and 0.20 cfs of water. This will enable you to retain the earlier priority under the existing permit.

We have partially completed an application for permit for your consideration. Please submit the application with the proper filing fee if you agree with this procedure.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Dear Mr. Hagloch:

One of the conditions of approval of your water Permit No. 11-7001 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

STANDARD REGISTER

MODEL 306

TYPICAL
4" DIAL
INDICATOR-TOTALIZER

8" MODEL 305 ILLUSTRATED

DESCRIPTION

MODEL 305 and 306 saddle meters are designed for irrigation or other low pressure service up to 100 psi working pressure. The flexibility of the stainless steel saddle and clamp permit installation on a wide range of steel, cast iron, asbestos and other pipe materials for each nominal meter size. It is necessary, however, to furnish pipe material, O.D. and I.D. for calibration and propeller clearance purposes. Straightening vanes, as required, are supplied with each saddle meter.

INSTALLATION is made by cutting a hole in the existing pipe line and then securely clamping the meter in place.

The meter may be installed in any position; vertically, horizontally or inclined; on suction or discharge lines. The meter must have a full flow of liquid for proper accuracy. Valves, fittings or other obstructions which might set up a flow disturbance should be at least five pipe diameters upstream and one pipe diameter downstream from the meter location.

PROPELLER is magnetically coupled with the driven mechanism assembly through the O-ring sealed bronze housing. This eliminates water in the mechanism and the need for any packing gland.

BEARINGS and mechanism are factory lubricated and troublesome periodic field lubrication has been eliminated. The simplicity of the assembly allows field installation of all components and makes long period shut downs unnecessary.

REGISTER features a 4" diameter, 100 division, center sweep dial. This allows extremely accurate readings for timing purposes in determining flow rates. The register can be positioned in four different directions for easiest possible reading when meters are mounted in vertical or overhead installations. The register box is O-ring sealed and attaches to the meter head by four screws located under the register box lid. The lid has a hasp for padlocking, completely eliminating unauthorized entry or removal. CHANGE GEARS for the register may be easily replaced in the field when a change of registration dials is desired. Change gears also permit easy recalibration when different pipe sizes are used. It is not necessary to remove pressure from the line for these changes.

SPECIFICATIONS

ACCURACY	plus or minus 2 % of true flow within specified range.
PRESSURE RANGE	100 psi maximum working pressure.
TEMPERATURE RANGE	160°F maximum. (Special temperature range upon request).
MINIMUM FLOWS	as shown are required for accurate registration.
MAXIMUM FLOWS	as shown can be doubled for intermittent use. Consult factory for special construction for higher continuous flows.
STANDARD REGISTER	six digit straight reading type with full 4" diameter, 100 division dial and center sweep test hand. Dials available: () gallons () cubic feet () acre feet () liters () cubic meters () miners inch hours () barrels or other standard units.
INDICATOR-TOTALIZER	is a combination of a 4" dial for instantaneous rate of flow indication and a six digit totalizer. The indicator dial can be furnished to read in () gallons per minute () cubic feet per second () million gallons per day, or many other standard units.
MATERIAL	magnets — ceramic sleeve permanent magnets. bearings — double sealed, stainless steel or water lubricated, carbon graphite. saddle and clamp — stainless steel. lug strips — malleable iron. saddle gasket — molded waffle pattern neoprene. shafts and bolts — stainless steel. propeller and other parts — acetal resin or other material resistant to normal water corrosion gear housing and seal separator plate — bronze.
OPTIONAL EQUIPMENT	blank covers, register extensions, recording instruments, indicating instruments and transmitters for controls can be furnished for each meter. Special materials can be furnished upon request.

Re: Permit No. 11-7001

Mr. Elmer I. Hagloch
2729 Dow Street
Omaha, Nebraska 68123

Dear Mr. Hagloch:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit.

Before a water license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but hopefully it will be during the 1973 irrigation season. If you have any questions regarding the field exam, please contact our Eastern District Office at 240 South Holmes, Idaho Falls, Idaho.

Very truly yours,

BOBBY D. FLEENOR
Assistant Director

BDF:DR

Identification No. 42279

Permit No. 11-7001

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

RECEIVED

Mar 2 1973
Department of Water Administration

1. a) Name of Permit Holder Elmer I. Hagloch
b) Post Office Address Rt # 1, Montpelier, Idaho 83254
2. Permit Number 11-7001
3. Date of Priority that you are prepared to establish January 30, 1968
4. a) Source from which water was appropriated Underground (Well)
b) Location of the point of diversion: SE 1/4 SE 1/4, Section 10
Township 14, Range 46E, Boise Meridian, Other points of diversion: None

5. a) The amount of water and use to which the water has been applied:

.55 cfs/
amount 16.410 acre ft for Irrigation purposes from July 5, '72 to Aug 25, '72 incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)

amount .034 acre ft for Stock Watering purposes from Sept 1, '72 to Oct 15, '72 incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)

amount .067 acre ft for Domestic purposes from June 28, '72 to Aug 26, '72 incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)

b) Total amount appropriated .55/16.5* cfs and/or acre feet per annum

c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: 1) Flow Meter, 2) Volume dispensed at sprinkler heads, 3) Time to fill 55 gallon tank. Measurements by: Self - BS degree applied **

6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:

a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use: Not Applicable

b) Describe the agreement or understanding by which you take water from the works:

7. a) Briefly describe the works for diverting and conveying the water to the place of use, (If from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) Berkley T-3 pump (Centrifugal 4X3), 40 hp gasoline engine, 10 inch well casing, well depth 153 ft. Note: The pumping equipment currently in use will be replaced by a deep well turbine pump, electrically driven, in summer 1973 or summer 1974.

b) Describe the type and size of measuring device which you have installed at your point of diversion: Flow meter on 4" diameter pipe-line (Rockwell model 305) (Description enclosed)

c) Give well drillers name and address and date the well was completed Mr. Bert Westlake, Bennington, Idaho. Well completed July 10, 1968

* The 16.5 acre feet used in 1972 is only approximately 1/2 of that required to satisfactorily irrigate the 30 acres described in the original application. It is anticipated that while the flow rate will be held at or below .64cfs, longer periods of application will result in approximately 30 to 40 acre feet being used annually.

** math/physics; Dr E. D. Whitney, Phd in Agriculture (Plant Pathology), U.S. Dept of Agriculture; Mr Bert Westlake, well driller and knowledgeable individual on development of underground water resources in Southeast Idaho.

Exam typed 3-12-73 by

11-7001

8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use Water additionally used for watering stock and for household purposes from April to October annually as described in item 5a).

9. Irrigation uses: Describe the lands irrigated by giving the acreages irrigated within each 40 acre subdivision: Farmland used for raising hay and grain.

TWP.	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS

10. Remarks: I am on active duty with the U.S. Air Force and stationed at Omaha, Nebraska. Thus it is impossible for me to closely monitor conditions on this property. Since water will flow from the well (if permitted) during the spring and possibly during other wet periods, the danger exists that it might rise filling the flow meter, and later recede but leaving trapped water. The meter might then be damaged by ice formation. For this reason and the possibility *

The above information is a true statement of the extent to which the above numbered permit has been developed.

Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 11-7001 Priority Jan. 30, 1968 Amount 0.32 cfs

THIS IS TO CERTIFY, that ELMER I. HAGLOCH
of Montpelier, Idaho, has complied with the terms and conditions of Permit
No. 11-7001 issued pursuant to Application for Permit dated January 30, 1968,
and has submitted proof to the Department of Water Resources on March 9, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.32 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Domestic</u>	from <u>May 1</u> to <u>Oct. 1</u>	at <u>0.02</u> cfs and	<u>0.2 acre feet</u>
<u>Stockwater</u>	from <u>April 15</u> to <u>Oct. 15</u>	at <u>0.02</u> cfs and	<u>0.2 acre feet</u>
<u>Irrigation</u>	from <u>May 1</u> to <u>Oct. 15</u>	at <u>0.32</u> cfs and	<u>90 acre feet or</u> <u>3.0 af per acre</u> (both dates inclusive)

Subject, however, to the condition that no more than 0.32 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
90.4 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 10,
Twp. 14 S, Rge. 46 E, B. M. in the County of Bear Lake

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$

		11											15						15
Domestic & Stockwater Use:																			
14 S	46 E	10																X	

Total number of acres irrigated 30

A measuring device of a type approved by this Department shall be permanently
maintained as part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 26 day of
February, 19 75.

Director

RE: Permit No 11-7001

Dear Mr Ferebauer,

Your letter of May 21st '73 informed me for the first time that I would be issued a license on the basis of a demonstrated diversion rate. Prior to this I had expected to receive a license to use .64 cfs as stated in my original permit. While it might seem that I am not cooperating with your department in this field examination (since I indicated the system would not be operated at full capacity in 1973) I assure you that it is my intention to cooperate fully.

At the close of last year's irrigation season I found that the flow rate had dropped to .52 cfs. This was caused by a poorly functioning power plant and an accumulation of sediment (16 ft) in the well. I did not know about the sediment until last month.

I would like to solve these two problems and get the flow rate to .64 cfs before you make your field examination. The schedule to increase the rate is this: In August '73 I will have the well cleaned and pumped for 8 hours at maximum capacity. Hopefully this will prevent future sediment problems. In May or June of '74 I will install a submersible electric powered turbine pump. The system should then be ready for many years service without modification.

You are welcome to inspect the project at any time. I am still in the military service and committed to 17 more months active duty, hence am seldom in the area. I or my representative will be there until August 23rd. If it is possible for you to make the examination in June '74 the results will be considerably more satisfactory. Please advise me of your intentions.

Sincerely,

Elmer I. Haglooh

Dear MR. Hagloch:

A representative of this Department has made an examination of the works covered by your Permit No. 11-7001 and has found the following:

Quantity of water diverted: 0.32 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.32 cfs

The maximum quantity diverted shall not exceed 90.4 acre feet per year.

Beneficial use: For irrigation of 30 acres within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10; SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 11; All in Twp. 14S, Rge. 46E and for domestic and stockwater purposes within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10, Twp. 14S, Rge. 46E

Point of diversion: SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10, Twp. 14S, Rge. 46E, B.M.

Priority date established: January 30, 1968

If you do not concur with these findings, please advise us within 10 days; otherwise a license will be issued as set forth in this letter.

Sincerely,
