

Identification No. 11-7006
Application No. 42577

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
APPLICATION FOR PERMIT

APPROVED

To Appropriate the Public Waters of the State of Idaho

1. Name of applicant Lee C. Ream
post office address Dingle Idaho
2. Source of water supply Spring which is a tributary of _____
3. a. Location of point of diversion is SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 32 Township 14 S
Range 45 E B.M. Beat Lake County; additional points of diversion if any: _____

- b. If water is not consumed, it will be discharged into _____ at a point in SE $\frac{1}{4}$
of SE $\frac{1}{4}$ of Section 32 Township 14 Range 45 E B.M.

4. Quantity to be appropriated:

- a. _____ cubic feet per second and/or
b. 8-10 (allow 10 acrefeet) acre feet per annum will be stored.

5. Water will be used for the following purposes:

- (fish culture) Private Fish Pond purpose from Jan 1 to Dec 31 (both dates inclusive)
Sprinkler Irrigation purpose from June 1 to Sept 30 (both dates inclusive)
_____ purpose from _____ to _____ (both dates inclusive)

6. Proposed diverting works:

- a. Description of ditches, flumes, pumps, headgates, etc. A Screened Head gate
For draining + cleaning Fish Pond, A
constructed spillway To let over Flow of water
Back in to original channel
- b. Height of storage dam 10 feet; active reservoir capacity 8-10 acre feet; total reservoir
capacity 8-10 acre feet; materials used in storage dam: available Fill
dirt + natural clays
- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. a. Time required for the completion of the works and application of the water to the proposed beneficial use
is 5 years. For Fish Pond 5 Year For Sprinkler System

- b. Estimated construction cost is \$ 300⁰⁰-400⁰⁰

8. Description of proposed uses:

- a. If water is **not** for irrigation:

- (1) Give the place of use of water: SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 32 Township 14 S
Range 45 E B.M.
- (2) Amount of power to be generated: _____ hp under _____ feet of head.
- (3) List number of each kind of livestock to be watered 75 Cows + calves From
May 1 - Dec 31 (right already established)
- (4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____.
- (5) If water is to be used for other purposes describe: Private Fish Pond

11-7006

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP.	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
148	45E	32															2	3	
155	45E	5	5	40	15	20	10			10	5				30	30	20	40	
155	45E	8																	

Total number of acres to be irrigated 230

c. Describe any other water rights used for the same purposes none

9. a. Who owns the property at the point of diversion Self owned Lee C Ream
b. Who owns the land to be irrigated or place of use Lee C Ream
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

10. Remarks _____

11. Map of proposed project:

Scale: 2 inches equal 1 mile

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF STATE RECLAMATION ENGINEER

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 11-7006, and said application is hereby APPROVED

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 74.
- c. Other: This permit is approved for the use of fish culture in SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 32, T. 14 S., R. 45 E., B.M. Irrigation is not allowed. Maximum rate of diversion shall not exceed 10 acre feet per season.

2. Denial of said application is for the following reasons: _____

Witness my hand this 28th day of May, 19 69.

Enclosure

11-7006

BEFORE THE STATE RECLAMATION ENGINEER

RECEIVED

JUL 11 1968

Department of Reclamation

IN THE MATTER OF THE
APPLICATION OF LEE C. REAM
DINGLE, IDAHO, FOR PERMIT
TO STORE 10 ACRE FEET OF
WATER.

PROTEST

Come now Alfred Dayton and Floraine Dayton, owners of certain waters arising in the SE¹/₄SE¹/₄, Section 32, Township 14 South, Range 45 East of the Boise Meridian, in Bear Lake County, Idaho, and protest the application of said Lee C. Ream of Dingle, Idaho, for a permit to store 10 acre feet of water under Application No. 11-7006, on the ground and for the reason that protestants believe the only water arising in said SE¹/₄SE¹/₄, Section 32, aforesaid, is that which arises from Pine Springs, which water is covered by a Certificate of Completion of Works under Permit No. 4668, dated April 20, 1931, and recorded in Book 12 of Miscellaneous Records, at page 382, in the records of the State Reclamation Engineer.

The protestants and their predecessors in interest have used the full flow of said spring for irrigation and stock watering purposes since the year 1909, and there is no water now available for appropriation.

DATED this 9th day of July, 1968.

Alfred Dayton
ALFRED DAYTON

Floraine Dayton
FLORAINE DAYTON

STATE OF IDAHO)

NOTICE OF APPLICATION FOR WATER

Notice is hereby given that ~~Lee~~
~~C. Ream~~, Dingle, Idaho, has on
June 12, 1968 applied for permit to
store 10 acre feet of water from an
unnamed spring under application
No. 11-7004. Water will be diverted
by a screened headgate, and a
spillway within the SE 1/4 SE 1/4, sec.
32, T. 14 S, R. 45 E, B. M., Bear
Lake County and is to be used
from January 1 to December 31 for
fish pond and from June 1 to Sep-
tember 30 for irrigation in the
S 1/2 SE 1/4, sec. 32, T. 14 S, R. 45 E;
E 1/2, E 1/4 NW 1/4, NE 1/4 SW 1/4, sec. 5,
T. 15 S, R. 45 E, B. M.

Any protest against this applica-
tion must be filed with the Depart-
ment of Reclamation within ten
days from the last date of publica-
tion of this notice.

May 29, 1969

Re: Permit No. 11-7006

Mr. Lee C. Ream
Dingle,
Idaho 83233

Dear Mr. Ream:

You have submitted an application to appropriate and store waters of the State of Idaho. As a reminder, I wish to bring to your attention the requirements of Idaho Code 42-1707 concerning the submission of plans and specifications to the Department of Reclamation for approval.

The Code requires that any person, association, or corporation, excepting the U. S. Bureau of Reclamation, who shall desire to construct any dam or dike, for the purpose of storing or appropriating or diverting any of the waters of this state, when the same is to be more than ten feet in height or have a storage capacity of more than one hundred acre-feet, shall submit duplicate plans, drawings, and specifications of the proposed work to the Department of Reclamation for approval. If approval is granted one approved copy of such plan, drawing, or specification will be returned to you.

Also provided in the Code is an inspection clause which requires the Department of Reclamation to inspect or cause to be inspected as often as it deems advisable, any such dam or dike, to be more than twenty feet in height during construction.

The plans and specifications should provide as a minimum the following information:

A. Drawings

1. Dam profile
2. Spillway profile
3. Outlet work profile
4. General plan view
5. Section of dam or dike
6. Section of spillway
7. Location map

B. Dimensions and Elevations

1. Conduits and gates, dimensions and elevations
2. Water surface elevations

11-7006

3. Slopes of embankment surface
4. Provide dimensions sufficient to determine if the design is adequate

C. Specifications

Specifications should provide standards of control to assure that construction is accomplished in such a manner as to provide a structure which will perform as designed. Spillway capacities and capacities of all water control structures shall be provided.

The Department of Reclamation purposely does not attempt to prescribe definite criteria for design and construction of dams or dikes. Codes cannot be made uniformly applicable to the widely varying conditions encountered at different dam sites, and such a code could inhibit advancement in the science of dam design and construction. Instead, the Department conducts an independent review of individual plans and specifications for each project, as submitted by the applicant's engineer to insure the use of sound engineering and construction principles.

Though it is not required by law, the Department of Reclamation suggests that you obtain the services of a licensed Professional Engineer to design the required structures and prepare plans and specifications. This will not only protect the public from an unsafe structure, but will also protect your investment by reducing the possibility of failure or damage to other parties.

Sincerely,

A. Kenneth Dunn
Assistant State Reclamation Engineer

MEMO

Re: Permit Application 11-7006
Lee C. Ream

On May 14, 1969, Robert Hamilton conducted a field examination of the location of the proposed use of water under permit application 11-7006. The inspection was a result of a conference held by the department, at which time, the applicant and protestant agreed to submit the question to the department without formal hearing. Letters verifying their request are included in the file. Mr. Hamilton found that water was being passed by the Dayton's point of diversion and it was his conclusion that there would be sufficient water to allow 10 acre feet for a fish pond. However, the permit is issued subject to all prior rights, if and when the use or other evidence of water, interferes with an established right as determined by a court of law, the use of water under this permit would need to be discontinued in so far as it interferes. I recommend that the permit be approved for fish culture in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 32, T. 14 S., R. 45 E., B.M., with a maximum limit of 10 acre feet per annum.

Boise, Idaho

Department of Reclamation

Dear Mr. Stephen Allred:

In the matter of application for Permit No. 11-7006
(11-2031).

This letter is in regards to a conference held in Paris, Idaho on Nov. 19, 1968, between myself and Mr. Alfred Dayton and Floraine Dayton. At the conference I agreed to waive the right of a law-suit and agreed to let the Bureau of Reclamation make a final decision of the water in question. I am doing this, in writing this letter.

I feel that the number of years between now and when the Dayton Bros. last used the water, in question, for irrigation, are many more than Mr. Dayton realized, and that the statements he made were false.

It has been 12-15 years since the water has been controlled for irrigation. If your department would care to inquire, anyone in this immediate area could validate this statement. I am sure this information would be helpful in making your decision.

As I stated at the conference my only objective is a fish pond and I have abandoned the idea of sprinkling crop land from the reservior. If the pond is sucessful it will bring in additional income to my ranching operation.

On Nov. 23, 1968, I installed a simple measuring device on the down stream flow. It was giving 0.240 cu. ft.. On Jan. 10, 1969 the flow was 0.289 cu. ft..

My feeling still is that the water would not be changed with a reservior and that the spring run-off would be more than enough to fill the reservior initially. I am referring here to the down stream flow of water.

Thank you Gentlemen.

Sincerely,

Lee C. Peam
Lee C. Peam.

Gentlemen:

Re: Application of Lee C. Ream.

Following the conference on the above cited matter held November 19, 1968, at 9:00 o'clock A.M., in the Commissioners Room, Bear Lake County Courthouse, Paris, Idaho, my clients, Alfred Dayton and Floraine Dayton, agreed, in view of Mr. Ream's admission that the water in question was that which has always been used by the Daytons, that this matter may be determined by the Department, upon the basis of the testimony received at the conference, together with such inspections of the spring and premises as may be made by the Department for the purpose of determining the availability of water.

Very truly yours,

LEONARD O. KINGSFORD

11-72006

MEMORANDUM

To: C. Stephen Allred
From: Dean Schnaible
Subject: Summary of findings at Paris and Lava Hot Springs hearings

Paris - 11-7006

The applicant, Ream, requests 10 acre feet from spring flow for the irrigation of 230 acres and for a fish pond. The protest by Dayton was based on a prior right of all natural flow. The applicant thereby indicated a willingness to withdraw his request for irrigation but would like to maintain a pond for fish with an uncontrolled spillway to allow natural flow.

The main point of question appears to be whether or not the proposed use might (a) reduce the quantity of water under existing rights, and, (b) if there is sufficient water for the proposed use.

Under point (a), the location of the fish pond itself situated so as to overlies the spring would in fact reduce the flow due to a reduction in head producing flow. Other losses would be evaporation and seepage, although seepage might return to the stream bed downstream.

Under point (b), an investigation should be made at the time of maximum flow to determine whether or not there is more than sufficient water for the present rights and whether storage water is available.

Determination - I would withhold application pending field investigation of the area to determine the quantity of water available and if the location of the reservoir could be moved downstream. Although the latter is out of our jurisdiction, the applicant should be made aware that any reduction in flow could be considered as a cause for denial.

Given only the data at hand I would recommend denial of the application.

Lava Hot Springs - Transfer No. 1572, I D No. 29-0004, 29-0005, 29-0006, and 29-0007

The applicant, Arkansas Ranches, applied for a transfer of several small water rights (totalling .94 cubic feet per second) to new point of diversion approximately 3/4 of a mile upstream to the Wilmore ditch diversion. The protestant, Wilmore, protested the application on the grounds that it would injure his water right, although more specifically the use of his ditch concerned him. The applicant, thereupon, agreed to build and maintain his own ditch.

Points of Consideration - Does the applicant injure the water right of the protestant by moving the point of diversion? It would appear that by moving upstream, the applicant would lose flow from small springs and seepage emerging from the creek banks between the old and new point of diversion. As there

11-7006

may be a smaller flow upstream at the new point of diversion, the rights of Wilmore could be injured as the rate of diversion at the original point was based on stream flow including flow from springs and seepage above that point. All parties agreed that seepage is small (10% or less) and does exist.

Determination - Withhold the application until a field investigation determines whether seepage and spring flow is appreciable. All parties agree to waive to the decision of the department.

11-7006

Both PARTIES HAVE Agreed to video formal hearing and submit the matter to the department. Schedule inspection for middle of april.

- a) determine uses of water
- b) amount of water
- c) whether any water is being wasted to the RIVER

BEFORE THE STATE RECLAMATION ENGINEER

OF THE

STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR PERMIT NO.)
11-7006 in the name of LEE C. REAM

NOTICE OF CONFERENCE
AND/OR HEARING FOR PROTEST

On June 12, 1968, Lee C. Ream filed with the Department of Reclamation application to appropriate the public waters of the State of Idaho. On July 11, 1968, the Department of Reclamation received a protest filed by Mr. Leonard O. Kingsford, Attorney at Law in behalf of Mr. Alfred Dayton and Mrs. Floraine Dayton.

The Department of Reclamation has set the matter of protest for conference and possibly a hearing on November 19, 1968 at 9:00 a.m. in the Commissioners Room, Bear Lake County Court House, Paris, Idaho.

Any hearing will be held in accordance with the rules and regulations of the Idaho Code and Adopted Rules of Practice and Procedure of the Department of Reclamation.

Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved. The burden of proof is with the protestant.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department of Reclamation without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 4 day of November, 19 68.

C. Stephen Allred, Assistant
State Reclamation Engineer

Re: Permit No. 11-7006

Lee C. Ream
Dingle,
Idaho 83233

Dear Mr. Ream:

One of the conditions of approval of your water Permit No. 11-7006 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

WATER RIGHT LICENSE

License of Water Right No. 11-7006 Priority June 12, 1968 Amount 10 acre feet

THIS IS TO CERTIFY, that LEE C. REAM
of Dingle, Idaho, has complied with the terms and conditions of Permit
No. 11-7006 issued pursuant to Application for Permit dated June 12, 1968,
and has submitted proof to the Department of Water Resources on April 15, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the **storage of** 10 acre feet of water from a spring,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Storage for:</u>	from <u>Jan. 1</u> to <u>Dec. 31</u>	at <u>n/a</u> cfs and	<u>10 acre feet</u>
<u>Fish Culture</u>	from <u>Jan. 1</u> to <u>Dec. 31</u>	at <u>n/a</u> cfs and	<u>n/a</u>
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 10 acre feet of water be stored at any one time, and
that the amount of water so stored and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
n/a acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 32,
Twp. 14 S, Rge. 45 E, B. M. in the County of Bear Lake
