Dear Sirs and Madams:

We are in receipt of your application to appropriate the public waters of the State of Idaho. The department would recommend that you delete the 0.5 c.f.s. of water requested for irrigation use as each domestic unit is allowed to irrigate up to  $\frac{1}{2}$  acre. You should be advised that the most water we could allow for irrigation purposes would be one inch per acre or a total of 0.04 c.f.s.

As soon as we hear from you concerning this matter, we will continue to process your application.

Gentlemen:

One of the conditions of approval of your water Permit No. 11-7015 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

We are in receipt of your affidavit submitted as proof of beneficial use for Permit No. 11-7015. However, in reviewing that affidavit, it appears that you have failed to install the measuring device as required by the conditions of approval of your permit and by Section 42-701 of the Idaho Code.

We cannot accept your proof and issue a license unless you have installed a measuring device of a type approved by this Department. We will hold your affidavit until you can supply us with information as to the type of measuring device installed. You should be aware that failure to install the device and supply information as to the type of device installed may result in the loss of your permit. We will withhold action regarding your permit until July 14, 1972.

We have enclosed a list of the types of measuring devices accepted by this office. If you have any questions, please do not hesitate to contact us.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Johnson;

As per your telephone conversation with Mr. Westlake we are enclosing a copy of the bill of sale of one water meter.

We will have the meter installed before the well is connected to the pipe line. We have not had it connected as yet and are still at the present time not ready for the use of the water. Our permit identification number is 11-7015

We hope this takes care of everything that needed to be done. If there are any further requirements we must meet please notify us.

Sincerely

Dear Mr. Smith:

Pursuant to your letter of July 25, 1972, the Department has accepted the proof affidavit previously submitted in connection with the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If someone other than you should be contacted by the examiner, please advise our District Office at 240 South Holmes, Idaho Falls, Idaho.

Sincerely,

Mr. Dean C. Smith

Dear Mr. Smith:

On September 26, 1972, I conducted a water right examination on the above referenced permit. I was unable to locate anyone to show me the property. During the course of the examination and after conferring with the representative of the Bear Lake County Assessor's office at Paris, Idaho, it became apparent that your property and point of diversion are located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$  (Lot 1), Sec. 22, T 16S, R 43E.

Your permit incorrectly lists your property in the NE $\frac{1}{4}$ NE $\frac{1}{4}$  (Lot 1), Sec. 22, T 16S, R 43E. Before a license can be issued on the permit it will be necessary to amend it to reflect the actual location of the place of use and point of diversion.

For your convenience I am enclosing a completed amendment form requiring only your inspection and signature. A \$10 additional fee is necessary to file the amendment. Please return the completed amendment and the \$10 remittance to the above office.

Your permit lists a requirement for a measuring device. I am recommending that your requirement be canceled on the grounds that the rate of diversion is less than 0.3 cubic feet per second. I found your rate of diversion to be .11 cubic feet per second. If my recommendation is granted you will receive official word from our head office in Boise. If I can be of any further assistance on this matter, please contact me at the above office.

Very truly yours,

MEASUREMENT CALCULATION:

4 hydrants in system, all opened, one hydrant filled 2 1/2 gal bucket in 12 sec = 12.5 gallons/minute / hydrant x 4 hydrants = 50 gal/min ÷ 448.8 = 0.11 C.F.S. Probably only demonstrated performance of pressure tank

SYSTEM DESCRIPTION:

Submersible pump with following on casing cap:  
Clayton Mark & Co Evaporator 6x1x1

REMARKS:

Unable to contact owner or his representative during examination. No evidence of any attempt to install a measuring device. Recommend ~~water~~ measuring device requirement be dropped due to low rate of diversion, less than 0.3 C.F.S. One trailer is located on site presently. It appears to have had some irrigation during previous summer.

4 hydrants in system, all opened, one hydrant filled 2 1/2 gal  
bucket in 12 sec. = 12.5 gallons/minute/hydrant x 4 hydrants =  
50 gal/min ÷ 448.8 = 0.11 C.F.S. Probably only demonstrated performance  
of pressure tank

SYSTEM DESCRIPTION:

Submersible pump with following on casing cap:  
Clayton, Mark & Co Evanston 6x1x10

REMARKS:

Unable to contact owner or his representative during  
examination. No evidence of any attempt to install a  
measuring device. Recommend water measuring device  
requirements be dropped due to low rate of diversion, less  
than 0.3 CFS. One trailer is located on site presently.  
Site appears to have had some irrigation during previous summer.

Dear Mr. & Mrs. Loveland:

A representative of this Department has made an examination of the works covered by the above referenced permit and has found the following:

Quantity of water diverted: 0.11 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.11 cfs

The maximum quantity diverted shall not exceed      acre feet per year.

Beneficial use: Domestic purposes within the SE $\frac{1}{4}$ NE $\frac{1}{4}$  (Lot 1), Sec. 22, Twp. 16S, Rge. 43E, B.M.

Point of diversion: SE $\frac{1}{4}$ NE $\frac{1}{4}$  (Lot 1), Sec. 22, Twp. 16S, Rge. 43E, B.M.

Priority date established: April 30, 1970

The point of diversion and place of use found by our examiner differs from that listed under the permit, therefore, it will be necessary to amend the permit before a water license can be issued. We are enclosing a partially completed application for amendment for your use. Please sign the application and return it to this office with a \$10.00 filing fee within 10 days of the date of this letter in order that we may issue your water license as set forth above.
