Dear Norm:

Enclosed is an application for permit filed by Eddie R. and Donna E. Lee, along with their Check No. 92-204 in the amount of \$25.00.

The check was not receipted in our office, as it is made in \$15.00 excess of the regular filing fee.

Very truly yours,

Dear Mr. & Mrs. Lee:

Your application for permit to appropriate ground water from Caribou County has been forwarded to this office for processing. We find it necessary to return it and your check No. 92-204 in the amount of \$25.00, as the required filing fee for the rate of diversion you have requested is only \$10.00. The following changes or additions need to be made to the application before it can be processed:

1. The rate of diversion for irrigation purposes is limited to .02 c.f.s. per acre, unless a higher rate can be justified. The rate of diversion for 3 acres is .06 c.f.s. The normal rate allowed for domestic use for a single family is .04 c.f.s. You may wish to sum these to make a total filing of 0.1 c.f.s.
2. Please complete Item 6a and Item 8a (1).
3. Item 7a should be changed to indicate at least one year for development time even though the project is completed.

We will accept your letter accompanying your application as your intent to protest Application for Permit No. 11-7040 (in the name of Loren Dee Bassett). Section 42-203, Idaho Code limits the nature of protests to the following items:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

If you will rephrase your protest, assuming you wish to pursue it to an administrative hearing in terms of the above mentioned items, we will then formally accept the protest and notify the applicant. The clarification of the protest must be received within 10 days from the date of this letter; or we will assume you do not wish to procede with your protest.

If you have any questions, do not hesitate to contact this office.

Dear Mr. Young:

We are not trying to prevent a person from drilling a well; we are trying to assure ourselves of water rights to continue as we have in the past three years. The questions you posed about our letter of protest for Application for Permit No. 11-7040 are answered below to the best of our knowledge:

You asked if the proposed use would reduce the quantity of water under existing water rights? How does one know if their well has not been drilled and we do not know how much they will be pumping or even if they hit the same water source we are now presently pumping from?

You asked if the proposed water supply was insufficient for the purposes intended? We do not know how much water supply their is coming from underground sources 217 feet underground!

Is the application made in good faith or for delay or speculative purposes This to me is a three part question; we made the protest only to protect our water source since we were here first; it certainly was not made to delay the prospective drillers or for our own speculative purposes.

On question #4 we assume the applicant is Mr. Bassett; how are we to know if he has sufficient financial resources with which to complete the project? As for us if we are the applicant; our project is completed and paid for.

We are forwarding to you once again our own application for a permit hoping I have done it right this time. I'm sorry to cause you so much trouble but we can't find anyone around here with the knowledge to help us fill out your forms so if I have made an error again please have patience with me? We are still only trying to assure ourselves of water rights we thought had all been taken care of by our licensed well driller at the time our well was drilled.

Sincerely yours,

Donna Lee

Dear Mr. & Mrs. Lee:

Attached herewith is departmental receipt No. 10391 in the amount of \$10.00 for your application for permit which was received in this office under the above date. We have taken the liberty of retyping the application as there were a number of items that needed to be change. The Idaho Code allows the irrigation season to be from April 1 to November 1 in your area, hopefully it will be in your best interest. Please examine the application and if satisfactory, sign your names exactly as they appear in Item 1 and also insert your telephone number.

It will be impossible to change your priority date to August, 1970, an unfortunate situation; but ignorance on the part of the well driller does not constitute sufficient cause to move the priority back.

With reference to Application for Permit No. 11-7040, this application has been sent to Boise for final approval. Unfortunately your protest did not arrive within the specified protest period. The Department will provide you with help if after Application No. 11-7040 begins to pump water, you notice a reduction in the quantity of water produced by your irrigation system.

Please return the retyped application to this office as soon as possible so processing can commence.

Very truly yours,

WILLIAM R. RHOADS

Dear Mr. & Mrs. Lee:

One of the conditions of approval of your water Permit No. 11-7043 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

WATER RIGHT LICENSE

License of Water Right No. 11-7043 Priority Oct. 17, 1973 Amount 0.04 cfs

THIS IS TO CERTIFY, that Eddie R. Lee &/or Donna E. Lee
of Soda Spring Idaho, has complied with the terms and conditions of Permit
No. 11-7043 issued pursuant to Application for Permit dated October 17, 1973,
and has submitted proof to the Department of Water Resources on November 26, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.04 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Domestic</u>	from <u>Jan. 1</u> to <u>Dec. 31</u>	at <u>0.04</u> cfs and	<u>1.2 acre feet</u>
<u>Irrigation</u>	from <u>April 1</u> to <u>Nov. 1</u>	at <u>0.04</u> cfs and	<u>9.0 acre feet or</u>
	from _____ to _____	at _____ cfs and	<u>3.0 af per acre</u>

(both dates inclusive)

Subject, however, to the condition that no more than 0.04 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
9.2 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 9,
