ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 11-7101, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 82.
- c. Other: For licensing purposes a scientific measurement of the diversion rate of the system as it is normally operated shall be provided by either properly installing an approved type of measuring device or by having a professional engineer certify the rate of diversion to the Department prior to submitting proof of beneficial use of water.

Witness my hand this 22 day of August 19 77.

Mr. Thomas W. Forsgren
Attorney
Utah Power & Light Company
P.O. Box 899
Salt Lake City, Utah 84110

Dear Mr. Forsgren:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Dear Mr. Kirby:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 11-7101. You should be aware that the following are the principal items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

APPLICATION NO. 11-7101
:-----

COMES NOW the protestant UTAH POWER & LIGHT COMPANY (Utah Power) and protests the Application of Dale V. Kirby and alleges as follows:

1. Utah Power holds Water Rights decreed in the matter of Utah Power & Light Company vs. The Last Chance Canal Company, Limited, et al, In Equity No. 203, July 14, 1920, and Utah Power & Light Company vs. Richmond Irrigation Company, et al, February 21, 1922, as well as other rights in the Bear River.
2. The Bear River below Stewart Dam is fully appropriated.
3. Dale V. Kirby has filed an Application with the Office of the Idaho Department of Water Resources numbered 11-7101 seeking to appropriate 0.26 cubic feet per second of water at points of diversion specified in said Application.
4. The granting of the Application of Dale V. Kirby for the appropriation of 0.26 cubic feet per second of water would adversely affect the aforementioned water rights of Utah Power & Light Company.

WHEREFORE, protestant prays that the Application of Dale V. Kirby be denied inasmuch as there is no unappropriated water in the proposed source and the proposed use will impair existing rights.

On January 10, 1977, Thomas T. Piggott, filed with the Idaho Department of Water Resources an application to appropriate the public waters of the State of Idaho. On February 10, 1977, Dale V. Kirby and on March 16, 1977, Fred Hunzeker also filed applications with the Department. These applications were subsequently protested by Utah Power and Light Company.

The Department has set the matter of protest for conference and/or hearing for Tuesday, May 3, 1977, at 1:30 p.m. in the Courtroom of the Bear Lake County Courthouse, Paris, Idaho. Because of the similarity of the issues involved, the Department has combined these hearings. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the applications. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dear Mr. Carlson:

Enclosed please find Withdrawals of Protest concerning ground water applications previously filed with your Department. With regard to applications for other than ground water, I agree with your language in your June 16, 1977 letter in which you state, "If water is available, the statutes require the Department to issue a permit. If it is not available, then the permit must be denied or approved with conditions to protect prior existing water rights." I don't think there is any question but that the Bear River is fully appropriated and that there is no water which could be the subject of a new permit. As support for this conclusion, I would refer you to the Watermaster's Report on Flow and Diversion for Idaho District II. If you wish us to supply you with this report, we will be pleased to do so. In light of the above, we would respectfully submit that applications for surface water in the subject area be denied.

Thank you for your cooperation in this matter.

Dear Mr. Kirby:

A representative of this Department made an examination of the works covered by your Permit No. 11-7101 on June 20, 1978, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.06 cfs Source: groundwater

The maximum quantity diverted shall not exceed 26 acre feet per
year.

Point of diversion: NW 1/4, Sec. 19, Twp. 9S, Rge. 42E, B.M.

Beneficial use: Irrigation of 10 acres and stockwatering purposes within
the NW 1/4, Sec. 19, Twp. 9S, Rge. 42E, B.M.

Priority date established: February 10, 1977

If you do not concur with these findings please contact us within 10 days, otherwise a
water license will be issued as set forth above.

Sincerely,

JAN GROVER
Water Rights Supervisor
