IN THE MATTER OF THE APPLICATION :
OF FRED HUNZEKER TO DIVERT 0.10 :
CUBIC FEET PER SECOND OF WATER : PROTEST OF
FROM A GROUND-WATER SOURCE BY :
MEANS OF WELL AND PUMP IN BEAR : UTAH POWER & LIGHT COMPANY
LAKE COUNTY, IDAHO. :

APPLICATION NO. 11-7105. :

COMES NOW the protestant UTAH POWER & LIGHT COMPANY (Utah Power) and protests the Application of Fred Hunzeker and alleges as follows:

1. Utah Power holds Water Rights decreed in the matter of Utah Power & Light Company vs. The Last Chance Canal Company, Limited, et al, In Equity No. 203, July 14, 1920, and Utah Power & Light Company vs. Richmond Irrigation Company, et al, February 21, 1922, as well as other rights in the Bear River.

2. The Bear River below Stewart Dam is fully appropriated.

3. Fred Hunzeker filed an Application with the Office of the Idaho Department of Water Resources numbered 11-7105 seeking to appropriate 0.10 cubic feet per second of water at points of diversion specified in said Application.

4. The granting of the Application of Fred Hunzeker for the appropriation of 0.10 cubic feet per second of water would adversely affect the aforementioned water rights of Utah Power & Light Company.

WHEREFORE, protestant prays that the Application of Fred Hunzeker be denied inasmuch as there is no unappropriated water in the proposed source and the proposed use will impair existing rights.

Mr. Thomas W. Forsgren
Attorney
Utah Power & Light Company
P.O. Box 899
Salt Lake City, Utah 84110

Dear Mr. Forsgren:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Dear Mr. Hunzeker:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 11-7105. You should be aware that the following are the principal items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

NOTICE OF COMBINED CONFERENCE
AND/OR HEARING

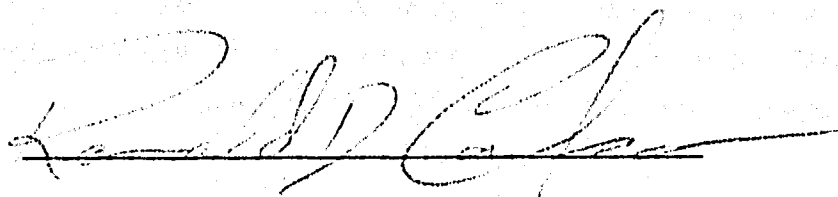

On January 10, 1977, Thomas T. Piggott, filed with the Idaho Department of Water Resources an application to appropriate the public waters of the State of Idaho. On February 10, 1977, Dale V. Kirby and on March 16, 1977, Fred Hunzeker also filed applications with the Department. These applications were subsequently protested by Utah Power and Light Company.

The Department has set the matter of protest for conference and/or hearing for Tuesday, May 3, 1977, at 1:30 p.m. in the Courtroom of the Bear Lake County Courthouse, Paris, Idaho. Because of the similarity of the issues involved, the Department has combined these hearings. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the applications. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dear Mr. Carlson:

Enclosed please find Withdrawals of Protest concerning ground water applications previously filed with your Department. With regard to applications for other than ground water, I agree with your language in your June 16, 1977 letter in which you state, "If water is available, the statutes require the Department to issue a permit. If it is not available, then the permit must be denied or approved with conditions to protect prior existing water rights." I don't think there is any question but that the Bear River is fully appropriated and that there is no water which could be the subject of a new permit. As support for this conclusion, I would refer you to the Watermaster's Report on Flow and Diversion for Idaho District II. If you wish us to supply you with this report, we will be pleased to do so. In light of the above, we would respectfully submit that applications for surface water in the subject area be denied.

Thank you for your cooperation in this matter.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 11-07105 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Witness my hand this 15TH day of JANUARY, 1990.

RE: Permit No. 11-7105

Fred Hunzeker
Rt. #1
Montpelier, ID 83254

Dear Mr. Hunzeker:

We acknowledge receipt of the proof of beneficial use card submitted for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our eastern regional office.

Very truly yours,

HAROLD JONES
Sr. Resource Agent

$$V_{C-H} = 580 \text{ hdt.} \left(\frac{12.7 \text{ gal/day}}{\text{hdt.}} \right) (325 \text{ day/yr}) \left(\frac{\text{Ac. Ft.}}{325,850 \text{ gal}} \right) = 6.94 \text{ AFA}$$

$$V_T = \sum V = (4.59 + 6.94) \text{ AFA} = 11.53 \text{ AFA.}$$

H. REMARKS AND OVERLAP REVIEW ANALYSIS

moves back (with) towards troughs then they hook up power and fill troughs in summer.

NOTES: There were no identification photos NAAD well and Fred did not know what size/make was in well. Also Fred had a hard time locating P.D. on U.S.G.S map and Aerial photo. I went to ASCS in Montpelier and a gentleman at the office helped identify Fred's P.D. The A.S.C.S. Helped Fred drill well and they could verify my interpretation of their P.D. location.

I. RECOMMENDATIONS

WATER RIGHT LICENSE

AMENDED

WATER RIGHT NO. 11-07105

Priority: March 16, 1977

Maximum Diversion Rate:

0.10 CFS

Maximum Diversion Volume:

2.9 AF

This is to certify, that FRED HUNZEKER
1017 BENCH RD.

MONTPELIER ID 83254

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated March 16, 1977; and
has submitted Proof of Beneficial Use on June 15, 1981. An examination indicates
that the works have a diversion capacity of .100 cfs of water from a GROUNDWATER
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
STOCKWATER	01/01 to 12/31	0.10 CFS	2.9 AF

LOCATION OF POINT(S) OF DIVERSION:

NWSW , Sec. 27, Township 13S, Range 45E
BEAR LAKE County

PLACE OF USE: STOCKWATER

TWN RGE SEC

13S 45E 27

NWSW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 28TH
day of DECEMBER, 19 92.

RE: Water Right No. 11-07105

Dear Water Right Holder(s):

During an unrelated review of water rights, a computer generated error was identified on your license. The date you submitted proof of beneficial use was listed incorrectly. We have corrected the error and have issued you an amended license. This correction in no way effects or changes the water right as originally licensed.

I have enclosed a copy of the amended license for your records.

If you have any questions, please feel free to contact me at
(208) 327-7943.

Sincerely,

PAMELA SKAGGS
Water Resource Agent
