Dear Mr. Bunderson:

Enclosed please find the application for permit you recently submitted to this office, your personal check, No. 412, in the amount of \$20.00, and an application which, for your convenience, has been completed in this office from information obtained by your original.

Please review this typed application carefully and initial any changes you may make. In Item No. 3, it is necessary to identify the point of diversion by quarter-sections. I have determined from the topo map you sent that the point of diversion is within the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 35. You will also note I have decreased the amount of water applied for in Item No. 4 from .20 c.f.s. to .05 c.f.s. The Department usually recommends .02 c.f.s. per 100 head of stock. You should find the amount of .05 c.f.s. (or 22.5 g.p.m.) to be adequate for your stock-watering needs.

Once you feel the application is in proper form, please sign where indicated at the bottom of the third page and return it to this office, accompanied by the statutory filing fee of \$20. Should you have any questions regarding this matter, please feel free to contact me.

Sincerely,

JOHN CARLSON
