Re: Application #11-7179
(Caribou County)

Dear Mr. Sorensen:

We have been apprised of your application for a permit to appropriate the public waters of the State of Idaho to provide domestic water to two families and stock water (individual connections). By regulation, your proposed water system is defined as a private system, not subject to the jurisdiction of our Department; however, omission from our jurisdiction does not preclude compliance with any local requirements.

Further, should you at some future time expand the water system to ten or more individual connections, it would be considered as public, and expected to meet the requirements of Idaho Regulations for Public Drinking Water systems. The regulations set forth minimum requirements for construction, water quality, monitoring, and maintenance and operation. On the premise that you may wish to provide additional services, we encourage you to conform with the construction portion of the regulations at this time. Enclosed is a copy of the regulations for your information.

By copy of this letter, we are advising the S.E. Idaho District Health Department of your application.

If you have any questions regarding our requirements, please do not hesitate to contact our office.

Sincerely,

Henry L. Moran, P.E.

Dear Mr. Sorensen:

RE: Permit No. 11-7179

Thank you for responding to our letter of March 31, 1985, by submitting a request for an extension of time received May 6, 1985, in which to submit proof to beneficial use of water under Permit No. 11-7179.

However, Idaho Code, allows the Director to approve requests for extension of time if the permit holder can show that he has made reasonable diligence toward permit development. You stated on your request form that no work had been done and that a second dwelling is not necessary at this time with the need for one in the future being still quite probable. Based upon this information rather than officially acting on your request we are returning your \$15 check, No. 2049, 92-352/1242, with the suggestion if you still plan to develop the water as intended you refile for a new permit when you are certain that the project can be completed.

If you have additional information concerning the permit or wish us to act officially on your extension request, please return the form with the check on or before June 1, 1985.

Sincerely,

ROBERTA GARRETT

LAPSE NOTICE

The Department is required to notify you under the provisions of Section 42-218a of the Idaho Code, Permit No. 11-7179 lapsed since the department could not approve the request for extension of time you submitted.

The permit cannot be reinstated unless an adequate amount of work has been completed to allow you to submit proof of beneficial use of water. If you have diverted and used water from the groundwater for stockwater and domestic purposes you should complete and return the proof of beneficial use form to this office within sixty days of the date of this lapse notice. If it is not received by that time, the permit will lapse and will no longer be of any force or effect.

If you have any questions concerning this matter, please feel free to contact this office.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the Department, but you must within sixty (60) days of the date of this letter return to the Department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the Department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the Department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water right examiners will be available from this Department when examiners have been certified.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the Department, but you must within sixty (60) days of the date of this letter return to the Department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the Department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the Department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water right examiners will be available from this Department when examiners have been certified.

If your permitted use, in fact, has already been examined by the Department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the Department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following Department office:
