11-7194 and 11-7195 - U. S. Forest Service

While performing final regional review of the above captioned applications for permit I contacted Mr. Etchevery by telephone to determine whether or not as water master he regulated the use of water from Preuss Creek. After some discussion it was determined he did regulate diversions from Preuss Creek. I advised him of the seven applications which the U.S.F.S. had submitted for stockwater developments. Mr. Etchevery stated the only possible problems would occur late in the irrigation season when the reduced flows occur.

I indicated we would condition the applications to be subject to regulation by the watermaster and to provide a lockable device on the diverting works.

Gentlemen:

Re: (See attached lists of water right numbers)

I acknowledge receipt of the statement of beneficial use postcards for the water rights listed on the attached pages.

Before a license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our Eastern Regional office.
