RE: Permit No. 11-7294

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

The spring collection box has an overflow pipe which appeared to contribute to next spring flow if it overflowed.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

at the time of exam there was no overflow contribution to east spring flow channel. Spring from collection tank may be used for drinking water.

Pond has an overflow stream which flows through small channel across the land which mostly dries but some water makes it to a small ditch which provides roadway.
