Dear Sir:

Enclosed is an application for permit and check #97-174 for \$45.00 that were received by this office and a corrected, typed application for permit.

Please review the application for permit sign and return with the appropriate filing fee. If the amount diverted is equal to or less than 0.2 cfs, the correct filing fee is \$30.00. (Refer to fee schedule)

The maximum amount of water that may be filed on for 13 homes is 0.17 cfs. This multiple domestic filing does not include irrigation. To calculate the amount necessary for irrigation, multiply the total number of acres irrigated by 0.02 cfs/ac for use from 4-15 to 10-15.

Please feel free to contact this office for any additional assistance that may be needed.

Sincerely,

KEITH C. WILSON

Dear Sirs:

Enclosed is the incomplete application for permit and check #97-154 for \$45.00 that was received by this office and a copy of the application with problems noted in red.

It is assumed that the source of the water is from groundwater (a well). The point of diversion (item 3) and place of use (item 8a.1.) must be described to the nearest 40 acre tract within a section. Enter in the spaces provided the township, range, section number and quarter-quarter section as described by the Public Land Survey System. A copy of a USGS map has been included to assist you in items 3, 8a.1. and the map. The copy may be used as the map if the location of the point of diversion and place of use are noted, as in the example.

The maximum amount of water that may be filed on for domestic use for 13 homes is 0.17 cfs and the period of use is usually 1/1 to 12/31. The 0.17 cfs for domestic use does not include irrigation, so if the application is also for irrigation, take the total number of acres to be irrigated and multiply by 0.02 cfs/acre for use from 4-15 to 10-15. The total amount in item 4 should be included in item 5a as the maximum amount to be diverted. A description of the diverting works (item 6a) must be included in the application.

Item #7 indicates that at the end of the two year period that the system, along with a total of 13 homes will be completed and operational. If this is incorrect, then the period to complete the system, and hookup 13 homes, should be changed.

Ownership of the property at the point of diversion (item 9a) must also be completed.

(Bear Lake County)

Gentlemen:

We have been apprised of your application for a permit to appropriate the public waters of the State of Idaho to provide domestic water to thirteen families (individual connections).

By regulation, your proposed water system is defined as "public-community" and, therefore, subject to the Idaho Regulations for Public Drinking Water Systems. The regulations set forth minimum requirements for construction, water quality, monitoring, and maintenance and operation; further, regulations (Section 1-8400.01) requires approval by the Department of plans and specifications for the water system prior to construction.

If you require a copy of these rules and regulations, please forward your request to: Administrative Procedures Section.

Re: Permit No. 11-7323

Returned is the Proof of Beneficial Use form received on November 12, 1986 for the above referenced permit along with an instruction sheet.

On August 31, 1986, the department notified you by certified mail that proof of beneficial use was due. The letter also explained that to fulfill the requirement of beneficial use, either a fee based on the amount of water being diverted or a completed field report conducted by a certified water right examiner must accompany the proof. Since neither the fee nor the field report accompanied the proof, the proof of beneficial use requirement is not fulfilled and the permit has lapsed. A day of priority is being lost for every day the proof submittal is not made. Sixty days from the date a lapse notice is sent, the permit will be of no further force or effect.

The department will delay sending the notice until December in order to prevent the permit from becoming of no force or effect and to allow time for you to fulfill the proof requirement. Please do so promptly so the permit can be reinstated.

Also, please indicate your association with Bear Lake Lodge Estates.

This is to certify, that BEAR LAKE LODGE EST.

P.O. BOX 37

FISH HAVEN, ID 83261

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 28, 1983; and has submitted Proof of Beneficial Use on December 8, 1986. An examination indicates that the works have a diversion capacity of .170 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.17 CFS	15.6 AF

LOCATION OF POINT(S) OF DIVERSION: LOT 3(NWSE), Sec. 14, Township 16S, Range 43E
BEAR LAKE County

PLACE OF USE: DOMESTIC

TWN RGE SEC

16S 43E 14 LOT 3(NWSE)

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 13 homes.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 2nd day of November, 1989.
