CLAIM TO A WATER RIGHT

RECEIVED

JUN 27 2002

Department of Water Resources
Eastern Region

Under the provisions of Section 42-243, *Idaho Code*, any person claiming a water right established by diversion and application of water to beneficial use must file a claim with the Department of Water Resources. **The filing of this claim does not confirm the water right claimed.** Water rights represented by a valid permit, license, decree, or previous claim are exempt from this requirement, as are uses of water for domestic purposes as defined in Section 42-111, *Idaho Code*. A filing fee must be submitted with this claim. See the instruction sheet to determine the appropriate fee.

Notice is hereby given that Bar-M Land & Livestock of Idaho, LLC
(Name of Claimant)
910 West 2100 South, Ogden, UT 84401 Telephone No: (801) 399-9994
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of surface or ground water. The extent and nature of said claim is as follows:

1. Date of Priority: (When the water was first applied to beneficial use) May 15, 1880
A claim is not acceptable for the use of surface water with a priority later than May 20, 1971. A claim is not acceptable for the use of ground water with a priority date later than March 25, 1963, unless the water is used for domestic purposes as defined in Section 42-111, Idaho Code.

2. Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Unnamed Spring tributary to Thomas Fork River

3. Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Re: Filing of Stockwater Claims Pursuant to Idaho Code § 42-243

Dear Harold:

This letter is to clarify and support the filing of multiple claims filed pursuant to Idaho Code § 42-243 ("243 Claims") for the use of livestock water from unnamed springs, the irrigation of 24 acres from an unnamed seasonal stream, and one domestic use from an unnamed spring located on property of the West Unit of the Thomas Fork Ranch, near Montpelier, Idaho. The \$2,500.00 filing fee, ten 243 Claims complete with a copy of a U.S.G.S. 7½ minute topographic map and two supporting affidavits for each claim, one full size U.S.G.S. 7½ minute topographic map, and one aerial photograph, are included with this letter.

The West Unit of the Thomas Fork Ranch has been under the ownership of the Etcheverry family for three generations. The established irrigation rights used on the West Unit are decreed in 1902 in *Fawcett Bros. v. Thomas Fork Irrigation Company* and have priority dates ranging from May 15, 1880 to April 1, 1886. The land was irrigated for the purpose of raising hay and feed for livestock. Livestock have grazed on the land now known as the West Unit since water was first diverted and the land was first operated as a ranch on May 15, 1880.

Livestock numbers have varied over time. The entire Thomas Fork Ranch (the West Unit and the East Unit) have been used to carry as many as 1,000 head of cattle. The West Unit has been continuously stocked with a minimum of 300 head of cattle which have watered from springs and other water sources located on the West Unit (see the affidavits of John and Paul Etcheverry included with each 243 Claim).

Numerous springs are present on the West Unit. There is a constant flow of water from many of these springs. Many of these springs have been developed. Some of these springs remain in their natural state whereby livestock drink directly from the spring or the streams flowing from the springs.

Bar-M Land & Livestock of Idaho, L.L.C. recently purchased the West Unit of the Thomas Fork Ranch and is filing these claims to protect its right to use these natural springs as a source of livestock water for 300 head of cattle.

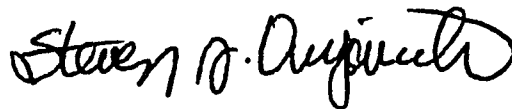

In addition, there are 24 acres of land located in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 29, T 13S, R 46E, B.M. that have been irrigated since 1962 from a seasonal stream emanating from melting snows and spring runoff located within the West Unit.

Finally, there is one domestic use that has been continuously used to supply water to a homestead located within the West Unit and in the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 5, T 14S, R 46E, B.M.

Please call if you have any questions concerning the 243 Claims accompanying this letter.

Very truly yours,

KRUSE, LANDA & MAYCOCK, L.L.C.

RE: Water Right Claim No: 11-7494, 11-7495, 11-7496, 11-7497, 11-7498, 11-7499, 11-7500, 11-7501, 11-7502 and 11-7503

Dear Claimant(s):

The Department of Water Resources acknowledges receipt of your water right claim. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the claim has been prepared and is scheduled for publication in the News Examiner on July 17 and 24, 2002. If exceptions to the claim are filed you will be sent a copy of the exceptions(s).

The filing and advertising of the claim does not confirm the water right claimed. It will serve to record and preserve the information and the evidence, including any exceptions, regarding the claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have the information or evidence added at any time. Corrections to the claim may be made by filing an amended claim; no additional filing fees are required to amend a claim.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

We are enclosing a copy of the claim for your records. Please feel free to contact this office if you have any questions.

Sincerely,

Harold W Jones
Water Right Supervisor
