3. Claimant has filed a Claim for 10.00 cfs of surface water in the Bear River for stockwatering from October 1 to April 14 of each year.

4. PacifiCorp questions whether the entire canal was constructed and in operation in the winter beginning in 1877.

5. It appears from Claimant's answer to Paragraph 7 that water in addition to that originally used was claimed.

6. PacifiCorp believes the claimed use will interfere with its water rights in Bear River and will cause additional releases of Bear Lake storage water to satisfy other early priority irrigation water rights which will suffer interference due to Claimant's diversion.

RE: Claim No. 11-7510

Dear Sir or Madam:

The Fish and Wildlife Service reviewed the Claim to Water Right No. 11-7510, filed by Ream Crockett, for 10.0 cfs of surface water in the Bear River for stockwatering in Bear Lake County, Idaho.

The Service hold a 1000 cfs water right, with a priority date of 1928, for fish and wildlife uses at the Bear River Migratory Bird Refuge. Therefore, we are concerned about water use in the Bear River basin in Idaho, as well as Utah. The Service has the same concerns as PacifiCorp expressed in their January 9 exception (copy attached for your reference) and requests that your office provide us with future notices and copies of correspondence concerning this claim.

If you have questions or require further information, please contact me at (303) 236-5321 extension 223.

I found that the correct applicant is the Ream Crockett Irrigation Co. and the application has been changed. Also the point of diversion listed by the applicant was in error and we had noticed that when we launched Arc View. I forgot to get it changed on the paper claim , however. All of this was discussed by phone with the Irrigation Comp. representative, Lee Ream, on Jan. 2, 2003 and he agreed with all the changes.

He stated that the PD location was determined in Cindy Bird's office using a Land Area & Slope Indicator. I have included a print of the USGS map and the correct PD as it was advertised. Therefore no additional advertising will be done.

Dear Mr. Dreher:

It has come to our attention that various irrigation companies have filed additional claims on Bear River water in extreme southeast Idaho. We wish to file an exception to such claims. Following is the list of irrigation companies and claim numbers that we are filing an exception to:

Peg Leg Irrigation	11-7515
Ream Crockett	11-7510
Grimmett-Black Otter	11-7507
Preston Montpelier Irrigation	11-7484

These claims are based on certain ongoing diversions of water in the non-irrigation season. All of these companies fall under the 1924 decree—"Bear River from Wyoming-Idaho line to Stewart Dam, 1924 Preston-Montpelier Irrigation Co. vs. Dingle Irrigation Company, et al."

These applications were done at the urging of DWR personnel in November of 2001. It is our understanding that this was done as an attempt to establish ongoing traditional usage for stock water that may not be decreed. It is our further understanding these applications were done at the urging of the PacifiCorp Power Company.

The Westfork Irrigation Company will not be filing additional claims. The water used is adequately described through the existing decree allowing a minimum of 5cfs to "pass Wardboro Dam for domestic use," and 40 cfs to pass when not required for irrigation rights."

April 30, 2003

It is our concern that these new applications apply only to stock water. Any attempt to use this water for purposes of fall flooding, or the extending of existing decreed irrigation seasons should be prohibited. Experience in the last two dry seasons has shown that some of the "meadow right" irrigators have maintained this so call "stock water" claim to the point that the Westfork Irrigation Company has been unable to maintain the continuous flow of the allotted 5cfs. This problem has occurred in September and October. Possibly this is a situation that should be monitored by the regional water master, Pete Petersen.

We are asking that the water continue to be divided according to the requirements of the 1924 decree. We are asking that none of these additional claims in any way alter the decree, which is quite specific in its requirements. We would hope there would not be any change in actual diversions based on these pending claims. The Westfork Irrigation Company claims only that which is rightly decreed. Any effort to use these stock water claims to change these diversions during irrigation season should be avoided.

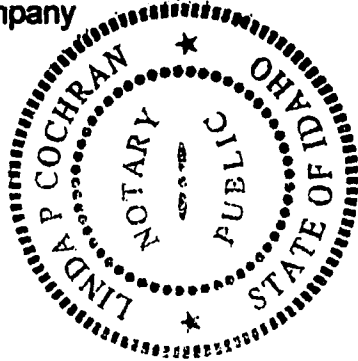

A check for \$100.00 is enclosed to cover the costs of filing.

Sincerely,

Virgil Boehme, President,
