Dear Mr. Dreher:

It has come to our attention that various irrigation companies have filed additional claims on Bear River water in extreme southeast Idaho. We wish to file an exception to such claims. Following is the list of irrigation companies and claim numbers that we are filing an exception to:

Peg Leg Irrigation	11-7515
Ream Crockett	11-7510
Grimmett-Black Otter	11-7507
Preston Montpelier Irrigation	11-7484

These claims are based on certain ongoing diversions of water in the non-irrigation season. All of these companies fall under the 1924 decree—"Bear River from Wyoming-Idaho line to Stewart Dam, 1924 Preston-Montpelier Irrigation Co. vs. Dingle Irrigation Company, et al."

These applications were done at the urging of DWR personnel in November of 2001. It is our understanding that this was done as an attempt to establish ongoing traditional usage for stock water that may not be decreed. It is our further understanding these applications were done at the urging of the PacifiCorp Power Company.

The Westfork Irrigation Company will not be filing additional claims. The water used is adequately described through the existing decree allowing a minimum of 5cfs to "pass Wardboro Dam for domestic use," and 40 cfs to pass" when not required for irrigation rights."

RECEIVED

MAY 06 2003

Department of Water Resources
Eastern Region

Receipt # ED28770

April 30, 2003

It is our concern that these new applications apply only to stock water. Any attempt to use this water for purposes of fall flooding, or the extending of existing decreed irrigation seasons should be prohibited. Experience in the last two dry seasons has shown that some of the "meadow right" irrigators have maintained this so call "stock water" claim to the point that the Westfork Irrigation Company has been unable to maintain the continuous flow of the allotted 5cfs. This problem has occurred in September and October. Possibly this is a situation that should be monitored by the regional water master, Pete Petersen.

We are asking that the water continue to be divided according to the requirements of the 1924 decree. We are asking that none of these additional claims in any way alter the decree, which is quite specific in its requirements. We would hope there would not be any change in actual diversions based on these pending claims. The Westfork Irrigation Company claims only that which is rightly decreed. Any effort to use these stock water claims to change these diversions during irrigation season should be avoided.

A check for \$100.00 is enclosed to cover the costs of filing.

Sincerely,

Virgil Boehme, President,
as authorized by the Board of Directors
