east corner of Section 1, Township 10 South, Range 40 East, B.B.M., to be used for the supplemental irrigation of lands under the Last Chance system, hereinabove described under No. 5, provided, however, that the priority and amount of this appropriation is conditioned upon a compliance with the terms of the permit upon which said appropriations are based, to-wit: Permits No. 5308 and No. 5771 respectively, issued by the State Engineer of the State of Idaho, and the same are subject to the provisions of the laws of the State of Idaho governing the issuance of water licenses by the Commissioner of Reclamation of the said State of Idaho.

Said water to be diverted from the natural flow of Bear River through the canal commonly known as the Tanner "B" Canal, diverting from said river at a point South 64°13' West, 2182.24 feet from the Northeast corner of Section 1, Township 10 South, Range 40 East, B.B.M., to be used for the supplemental irrigation of lands under the Last Chance Canal system, hereinabove described under No. 5, provided, however, that the priority and amount of this appropriation is conditioned upon a compliance with the terms of the permit upon which said appropriation is based, to-wit: Permit No. 6631, issued by the State Engineer of the State of Idaho, and the same is subject to the provision of the laws of the State of Idaho governing the issuance of water licenses by the Commissioner of Reclamation of the said State of Idaho.

Said water to be diverted by means of a dam situate in the Northeast quarter of Section 1, Township 10 South, Range 40 East, B.B.M., and conducted through two wood stave pipe lines to the Grace Power house of the plaintiff, situated in the Southwest quarter of Section 21, Township 10 South, Range 40 East, B.B.M., and there used for the generation of electric power or energy, and returned to the channel of Bear River.

17 *RECORDED*

MAY 14 1996

All the foregoing reservations of jurisdiction shall extend after the term at which this decree is entered, and during any subsequent term prior to January 1, 1924, at which time, or at such earlier time as the court may determine these matters, this decree shall be closed. In all other respects this decree shall be final.

The court further retains jurisdiction, however, at all times, and from time to time, to make all reasonable rules touching the manner of diverting, measuring and distributing the waters, and the devices to be installed and used for such purposes where it may be impracticable to fully comply with the terms of this decree, and to direct that the parties keep accurate and detailed records of the amounts of water diverted, and to require reports to be filed from time to time of the amount so diverted, and generally to make such orders as may be found reasonably necessary to give effect to the decree, and to appoint commissioners or water masters to make distribution in accordance with its terms, and to punish the parties hereto, their officers, agents and employes, and their grantees and successors in interest, for any violation of the provisions thereof.

Done in open court this 14th day of July, 1920.

FRANK S. DIETRICH,
Judge.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR)
TRANSFER NO. 4987 IN THE NAME OF)
LAST CHANCE CANAL COMPANY, LTD.)

ORDER
AUTHORIZING DISCOVERY

On January 29, 1997, Gem Valley Farms (protestant) by and through its attorney, William Forsberg, by motion requested the department to issue an order Authorizing Discovery pursuant to IDAPA Rules 37.01.01521-531 (Rules of Procedure 521 through Rule 531). The applicant did not respond to the motion.

The Director of the department of Water Resources (Director) hereby authorizes the parties to engage in discovery commencing with the date of this order. The parties shall complete discovery five days prior to the date of the hearing in this matter which has been tentatively scheduled on April 24, 1997. Discovery shall be conducted pursuant to IDAPA 37.01.01520-532 (Rules of Procedure 520 through 532). The parties are directed to answer or otherwise respond to discovery in accordance with the department's Rules of Procedure and the Idaho Rules of Civil Procedure, as appropriate.

In accordance with Rule 520, the scope of discovery shall be governed by Rule 26(b) of the Idaho Rules of Civil Procedure, unless otherwise provided by statute, rule or order of the Director.

DATED this 17th day of March, 1997.

L. GLEN SAXTON
Hearing Officer

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 11.
2. A measuring device and lockable controlling works of a type approved by this Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
3. This right when combined with all other rights shall provide no more than 3.5 afa per acre for the lands above.
4. Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
5. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
6. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
7. The total instantaneous diversion of water from all points of diversion under Transfer No. 4987 shall not exceed 657.76 cfs.
8. Right Nos. 11-00262, 13-00991C, 13-00992C, 13-00955 and 13-00956 shall not exceed the total combined irrigation of 29,000 acres in the place of use described above in a single irrigation season.

RE: Application for Transfer No. 4987

Dear Applicant:

Enclosed are copies of protests filed against the issuance of the above referenced application. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances, our objective is to schedule a conference and/or hearing in the near future to consider the protest. At a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Idaho Code § 42-203):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?
6. Is the proposed use contrary to conservation of water resources within the State of Idaho?

The applicant must be prepared to present evidence and/or testimony addressing each of the six items. Although representation by legal counsel is not mandatory at a proceeding before the Department, you may retain an attorney in your behalf.

If this office can be of further assistance, please contact us.

Sincerely,

Harold W. Jones

Dear Sir or Madam:

The Fish and Wildlife Service protests Application to Change Water Right No. 4987, filed by Last Chance Canal Co., on the basis that the applicant claims the right to use Water Right No. 11-00262 from April 1 to October 31, although the decree issued by Judge Dietrich in Utah Power & Light Company vs. The Last Chance Canal Company, Limited, et. al., defines the irrigation season as ending September 30.

It is the position of the Service that approval of this application has the potential to adversely affect the water rights held by the United States of America for the Bear River Migratory Bird Refuge unless conditioned to prevent diversion after September 30 of natural flows in the Bear River.

Enclosed is a Money Order in the amount of \$25 to cover the required protest fee.

If you have questions or require further information, please contact me at (303) 236-5321 extension 223.

Sincerely,

Cheryl C. Williss

Attorney for Protestant

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF THE APPLICATION
FOR CHANGE OF WATER RIGHT
NO. 4987 (WATER RIGHT NOS. 13-00991C,
13-00992C, 13-00955, 13-00956 and 11-00262)

PROTEST AND MOTION TO
COMPEL DISCOVERY

COMES NOW Gem Valley Farms, an Idaho General Partnership, herein after, "protestant," by and through its attorney of record, William Forsberg and protests the change of water right proposed by Last Chance Canal Company, hereinafter, the "applicant," in its Application for Change of Water Right, No. 4987. In support of its protest, protestant alleges and represents as follows:

Standing

1. Protestant is an partnership engaged in farming whose partners include Mitchel C. Neibaur, Chad Neibaur and Clyde A. Neibaur.

2. Protestant owns and leases land in Sections 18, 19 and 20, Township 9 South, Range 40 East, Boise Meridian together with shares of applicant's canal stock intended to irrigate said owned and leased land, all of which land is included in the land which the applicant proposes to change the place of use for its water right.

Notice Defective

3. Although the first paragraph of applicant's Notice of Proposed Change of a Water Right No. 4987 states it has applied for a change in the place of use of its water right, the notice does not appear to propose any change in the place of use of its water right, only the place of diversion.

1 4. In so far as applicant's intent is to change its place of use of it's water right, the published
2 notice has failed to give the public adequate notice of such change as required by Idaho Code §§ 42-108,
3 42-222 and 42-203A.

4 **Injury to Protestant's Water Rights**

5 5. Any change in the place of use of the applicant's water right which excludes Sections 18, 19
6 and 20, Township 9 South, Range 40 East, Boise Meridian from the place of use for such water will have
7 the effect of rendering the shares of Last Chance Canal Company stock held by protestant, representing
8 the right to irrigate land protestant farms in the above sections, useless in that protestant will no longer
9 have the ability to irrigate its land as it has done in the past and intends to in the future in violation of
10 Idaho Code §§ 42-108 and 42-203A(5).

11 **Conservation of Water Resources**

12 6. Any change in the place of use of the applicant's water right which excludes Sections 18, 19
13 and 20, Township 9 South, Range 40 East, Boise Meridian from the place of use for such water is not
14 consistent with the conservation of water resources in the state of Idaho as contemplated in Idaho Code
15 § 42-203A(5) in that it would remove irrigation water from developed farm ground with underground
16 mainline and center pivot irrigation systems in place requiring protestant to seek other irrigation water
17 requiring the drilling of wells or water conveyance from other new or existing water sources.

18 **Local Public Interest**

19 7. Any change in place of use of the applicant's water right which excludes Sections 18, 19 and
20 20, Township 9 South, Range 40 East, Boise Meridian from the place of use for such water is not in the
21 local public interest as defined in Idaho Code § 42-203A(5) in that it would remove irrigation water
22 supplied by the applicant from developed farm ground irrigated by protestant with underground mainline
23 and center pivot irrigation systems in place requiring protestant to seek other irrigation water requiring
24 the drilling of wells or water conveyance from other new or existing water sources.

25 8. Any change in place of use of the applicant's water right which excludes Sections 18, 19 and
26 20, Township 9 South, Range 40 East, Boise Meridian from the place of use for such water would
27 damage the value of the land. It is prime farm land. Some of the land in the applicant's decreed place of
28 use is marginal or waste ground and perhaps should be eliminated from the place of use but these sections

1 are some of the better ground in the area and should continue as farm land which can be irrigated from
2 applicant's system.

3 9. In so far as the change of place of the use of the water takes water from the laterals in which
4 it has traditionally flowed, such change in place of use will damage the integrity of the existing laterals
5 causing greater inefficiencies in the delivery of water through them.

6 10. In so far as the change of place of the use of the water takes water from the laterals in which
7 it has traditionally flowed, such change in place of use will adversely effect the recharge of the aquifer
8 in the area in which the traditional flow is reduced.

9 11. The land which protestant owns or leases in the above sections which are subject to losing
10 the right to irrigate from the applicant's canal system, have at one time or another been irrigated by some
11 type of water source (e.g. ground water, Last Chance Canal, Farmers Canal). Progress in modernization
12 caused one type of water delivery system (i.e. canal water or ground water) to be used more efficiently
13 than another on a particular piece of land. Flexibility in the irrigation water supplies to the overlap area
14 of these systems needs to be maintained as this land is at the end of water delivery systems and over time
15 one system might prove more efficient than another.

16 **Application not Made in Good Faith**

17 12. In so far as the application proposes to change the place of use of the applicant's water right
18 to exclude Sections 18, 19 and 20, Township 9 South, Range 40 East, Boise Meridian from the place of
19 use for such water, such application is made in bad faith in violation of Idaho Code § 42-203A(5) in that
20 it would remove irrigation water supplied by the applicant to protestant from developed farm ground
21 irrigated by protestant as recently as 1996 with underground mainline and center pivot irrigation systems
22 requiring protestant to seek other irrigation water requiring the drilling of wells or water conveyance from
23 other new or existing water sources.

24 13. That applicant knows or should reasonably know that protestant has developed and irrigated
25 land in sections applicant has proposed for elimination as places of use and that elimination of that land
26 from places of use for its water right will impose a severe economic hardship on protestant.

27 14. that applicant has no other valid reason other than to harm protestant to eliminate the land
28 the land farmed by protestant from the land upon which water from its water right can be used.

1 15. It appears that at the same time applicant proposes to eliminate protestant's land as a place
2 of use for water from its water right, applicant is proposing to include land not previously a part of its
3 decreed place of use to which it has knowingly and intentionally supplied water to over the past years in
4 violation of the decree of water right, its bylaws and state law.

5 **Motion to Compel Discovery**

6 16. Protestant hereby moves, pursuant to Procedure Rule 521 of the for an order compelling
7 discovery.

8 17. Discovery is necessary to adequately prepare for the hearing of this matter.

9 18. Protestant requests that the Hearing Officer set a hearing on its Motion to Compel Discovery.

10 **WHEREFORE**, protestant prays for orders and relief as follows:

11 **Order**

12 1. That a hearing be set on protestant's Motion to Compel Discovery.

13 **Relief**

14 2. That the Notice of Proposed Change of a Water Right, No. 4987 be corrected and republished
15 to give the public and this protestant required notice of the proposed action.

16 3. That applicant's Application for Change in the Place of Use of Water Rights be denied.

17 4. For such further and other relief as the Idaho State Department of Water Resources may deem
18 just and necessary in the premises.

19 Respectfully submitted this 29th day of January, 1997.

RE: Water Right Nos. 11-00262/13-00991C/13-00992C/13-00955/
13-00956 (Transfer No. 4987)

Dear Water Right Holder(s):

Enclosed is a copy of your approved Transfer of Water Rights for the above referenced water rights (Transfer No. 4987). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying **transfer approval** should be considered and treated as a **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

As of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee. You can acontact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 11.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by this Department in a manner that will provide the watermaster suitable control of the diversion.
3. This right when combined with all other rights shall provide no more than 3.5 afa per acre for irrigation of the lands above.
4. Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
5. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
6. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. The total instantaneous diversion of water from all points of diversion under Transfer No. 4987 shall not exceed 657.76 cfs.
8. Right Nos. 11-00262, 13-00991C, 13-00992C, 13-00955 and 13-00956 shall not exceed the total combined irrigation of 29,000 acres in the place of use described above in a single irrigation season.

Dated this 18th day of November, 1997.

Chief, Water Allocation Bureau

MEMORANDUM

TO: FILES 11-00262, 13-00955, 13-00956, 13-00991C & 13-00992C

FROM: PAM SKAGGS²⁸/STATE OFFICE

SUBJECT: AMENDED TRANSFER 4987

DATE: November 18, 1997

=====

Transfer 4987 was approved on 06-10-97 and sent to the applicant Last Chance Canal Company LTD. On 11-06-97 a letter regarding this transfer approval was received from attorney Randall C. Budge who had been acting as the agent for the applicant through the transfer process. He had received a copy of the transfer approval from Last Chance Canal Company and noted a discrepancy in the place of use description.

The transfer application place of use description was amended by letter received on 04-15-97 in order to resolve a protest. This change was inadvertently not made to the transfer approval. An Amended Transfer approval has been prepared to include the additional sections and the database updated under each water right. The amended approval will be sent out to both the applicant and Mr. Budge.

RE: Water Rights 11-00262/13-00991C/13-00992C/13-00955/
13-00956 (Transfer 4987)

Dear Water Right Holder(s):

Enclosed is a copy of your approved amended Transfer of Water Right for the above referenced water right (Transfer 4987). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as a preliminary order of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to Preliminary Orders if you are in disagreement with the approved transfer.

As of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

If you have acquired any other water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee. You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager
