

Boise, July 24, 1908.

Permit 112-Oxford Res. & Irr. Co.

Wm. F. Fisher, Secretary,
Oxford, Idaho.

Sir:

Yours of the 21st inst., enclosing depositions, affidavit of publication and check for \$5.00, duly received.

The fee for proof of completion on appropriations of more than ten second feet is 30 cents a second foot, hence, the fee in this case amounts \$14.65. I accordingly return you herewith check for \$5.00 as insufficient.

The depositions and report have been checked and are satisfactory and as soon as the required fees are received certificate of completion will be issued.

Very truly yours,

State Engineer.

A. E. Robinson Esq
State Engineer,
Boise, Idaho.

Dear sir:

I enclose you notice of proof of application & etc of Oxford Reservoir and Irrigation Co. We had this blank filled out by Oscar Sonnenbalt, Engineer, as he was familiar with all the circumstances. I see he has put number of permit '40'. It perhaps should have been No. 112. If no. 40 is not right, please correct it. Send to Pocatello Tribune for publication and instruct them to send bill to us. Hoping the blank is filled out all right, I am,

Yours truly
W. F. Fisher

Permit No. 112

Notice of Proof of Application of Water to Beneficial Use

(This blank must be filled out by holder of permit and forwarded to the State Engineer at least 60 days before the time set for application of water.)

(P. O.) Oxford, Idaho(Date) April 22nd 1912

TO THE STATE ENGINEER OF THE STATE OF IDAHO, BOISE, IDAHO:

DEAR SIR: Notice is hereby given that at 10 A.M., on the 27th day of July, 1912, at Oxford, County of Bannock, State of Idaho, before W. F. Fisher, Notary Public proof will be

submitted of the application to beneficial use of 48 4/5 cubic feet per second of the surplus waters of Gooseberry Creek and all waters from melting snow in ravines tributary to the canal or ditch of the Oxford Reservoir and Irrigation Company between the points of diversion on Gooseberry Creek and the reservoir in accordance with the terms and conditions of Permit No. 40 heretofore issued by the State Engineer of the State of Idaho. 112

1. The name and postoffice address of the person or corporation holding said permit are

Oxford Reservoir & Irr. Co., Oxford, Bannock Co., Idaho

2. The use to which said water has been applied is Irrigation and domestic use

3. The amount applied to beneficial use is 40 second feet

4. The place where said water is used is (if for irrigation, give full and accurate description of the lands irrigated) Parts of NW 1/4 sec. 23, sec. 27, NW 1/4 sec. 26, E 1/2 sec. 28, E 1/2 sec. 32 sec. 33 - SW 1/4 sec. 22 T. 13 S. R. 38 B. M.

5. The name of the canal or ditch or other works by which said water is conducted to such place of use is Oxford Reservoir Ditch

6. The right to take the water from such works is based upon Permit No. 40-112

7. The source of supply from which such water is diverted is Gooseberry Creek and ravines tributary to said creek

8. The date of the priority which said user is prepared to establish is April 11th - July 31st 1903
(Recorded) July 31st 1912 time for the proof of beneficial use of water appropriation

I desire that the above notice be published, according to law, in the Pocatello Tribune of Pocatello, Idaho, published in the county in which said water is to be used; the expense of which publication will be borne by me.

W. F. Fisher, Sec'y
Oxford Res. & Irr. Co.,
Oxford, Idaho.

Sir:-

Am in receipt of your letter of the 25th inst. inclosing notice of proof of beneficial use of water under above permit. You will note that the permit is number 112. The application number is 40. This correction has been made in the notice.

The notice for publication will be mailed to the Pocatello Tribune in time for the required four weeks publication prior to July 27th and deposition blanks will be mailed to you.

Owing to the inadequate appropriation made by the last legislature to cover the expenses of the water commissioners, they are unable to attend to the examinations under the permits. You will, therefore, please give us the name of some licensed surveyor whom you desire to make examination and report and blanks will be furnished him.

Very truly yours,

INSTRUCTIONS.

W. F. Fisher,
Oxford, Idaho

Proof of Beneficial Use.

Boise, Idaho, June 20, 1912.

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under your permit No. 112.

Deposition of Permit Holder,

Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On.....July 27th.....the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at Oxford, before W. F. Fisher, E.P.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$2.00 for each 40-acre tract, or fraction, to which water has been applied. When these have been received, together with report of examining engineer, if everything is properly executed, License will issue.

Yours truly,

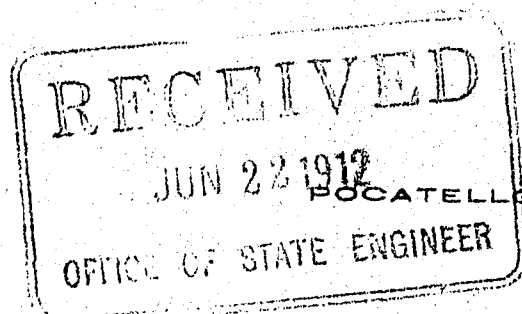

A. E. ROBINSON

State Engineer.

OSCAR SONNENKALB

COUNTY SURVEYOR
BANNOCK COUNTY

U. S. DEPUTY MINERAL SURVEYOR
IDAHO

June 21st 1912.

Mr. H. J. Wing.
Chief Clerk. State Engineer's Office Boise Idaho.

Dear Mr. Wing: The Oxford Reservoir Co. has had me appointed as Engineer to make the report for their final proof of water use. The term of final proof is set for July 27th a.e., but the advertisement has not appeared yet in the Pocatello Tribune. As I have some business in the Oxford District and will go there next week, I would like to go over the reservoir ground and make my report at the same time, also give some advice to Mr. W. F. Fishes, who has asked me to do so, regarding the filling out of the question papers used for the final proof to be made before him as Notary Public. Could you send early next week to Mr. W. F. Fishes the question blanks?

I address this letter to you, supposing that Mr. Robinson is not at Boise at present, and out in the field.

I hope you had a good time at Buffalo Lake. The water I understand is very stimulating there.

With best regards

Very truly Yours

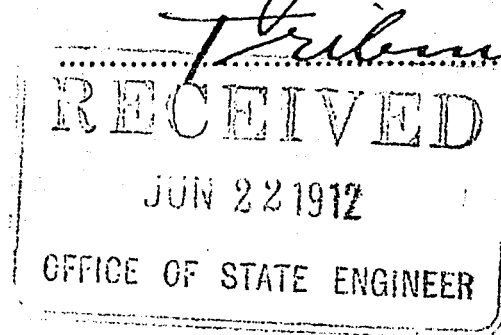

Oscar Sonnenkalb.

Dear Sir:

I send enclosed my report for the final proof of water use of the Oxford Reservoir and Irrigation Company, which will be made by the Corporation on the 27th of July 1912 before W. F. Fisher, Notary Public at Oxford, Idaho.

Very respectfully

Oscar Sonnenkalb
C. E.

REPORT OF ENGINEER.

1. State name of applicant and number of permit: *THE OXFORD RESERVOIR AND IRRIGATION COMPANY. - OF OXFORD, BANNOCK COUNTY-IDAHO. - NO. OF PERMIT #112.*
2. State source of water supply: *GOOSEBERRY CREEK, Ravines tributary between the 2 branches of the Creek and in Sections 16 and 21, T. 12 S. R. 38 E. of B. M.*
3. Location of point of diversion: *ON GOOSEBERRY CREEK, on North Fork in SW 1/4 NE 1/4 sec. 17, on South Fork in SE 1/4 NE 1/4 sec. 17 - RAVINES tributary between said last mentioned point and in Sections 16 and 21 all in Township 13 S., R. 38 E. of B. M.*
4. State whether or not the works of diversion are fully completed and in accordance with the terms of permit: *They are - Since the issuance of Certificate of Completion of works viz August 5th 1908 a sluice way in concrete has been constructed through the dam.*

5. Describe works as they exist, giving dimensions of same as follows:

Describe works as they exist, giving dimensions of same as follows:									
		a)	b)	c)		a)	b)		
(a)	Width of conduit at bottom:	4 Ft.	6 Ft.	8 Ft.	MAIN DIVERSION CANAL	4 Ft.	3 Ft.	2 Ft.	
(b)	Width at water line:	5 Ft.	8 Ft.	10 Ft.		5 Ft.	4"	3.."	
(c)	Depth of water:	1 Ft.	2 Ft.	2 Ft.		2 Ft.	2"	1 1/2"	
(d)	Grade per mile:	7 Ft.	7 Ft.	7 Ft.		6 Ft.	6"	2."	
(e)	Capacity of ditch:	2 Sec. Ft.	20 Sec. Ft.	25 Sec. Ft.		12 Sec. Ft.	10 Sec. Ft.	6 Sec. Ft.	
		SUPPLY CANALS				LATERALS			second feet.

SEE REMARKS.

6. State whether or not water has been turned into works of diversion, and if so, to what extent:

Yes. - In 1908 - 6 Sec. Ft. - In 1909 - 7 Second Feet. In 1910 and 1911 - 8 Second feet.

7. Give exact location of lands to be irrigated. Give exact number of acres under cultivation in each forty-acre tract: *SEE LIST OF LANDS ATTACHED HERETO.*

8. Submit map on enclosed plat, showing source of supply, point of diversion, route of ditch or ditches and cross-hatch lands to be irrigated.

Remarks: *THE MAIN IRRIGATION CANAL crosses the following legal subdivisions: NW 1/4 NW 1/4, NE 1/4 NW 1/4, SE 1/4 NW 1/4, NE 1/4 SW 1/4 and NW 1/4 SE 1/4 sec. 22. -*

LATERAL #1. or WEST BRANCH, crosses the following legal subdivisions: SW 1/4 SE 1/4, SE 1/4 SW 1/4 - sec. 22. NE 1/4 NW 1/4, NW 1/4 NW 1/4 sec. 27. - NE 1/4 NE 1/4, SE 1/4 NE 1/4, SW 1/4 NE 1/4, NW 1/4 SE 1/4, SW 1/4 SE 1/4 - sec. 28. NE 1/4 NW 1/4, SE 1/4 NW 1/4, NW 1/4 SW 1/4, SW 1/4 SW 1/4 sec. 33.

LATERAL #2. or EAST BRANCH crosses the following legal subdivisions: SE 1/4 SW 1/4, SE 1/4 sec. 22; - NW 1/4 NW 1/4, NE 1/4 NW 1/4, SE 1/4 NW 1/4 and Lot 3. sec. 26. -

LATERAL #3, branching from Main West Branch, crosses the following legal subdivisions: NW 1/4 SE 1/4, NE 1/4 SE 1/4, SE 1/4 NE 1/4 sec. 28, SW 1/4 NW 1/4, SE 1/4 NE 1/4 sec. 27. -

LATERAL #6, branching Northerly from Main Irrigation canal crosses the following legal subdivisions: NE 1/4 NW 1/4 sec. 22 - SE 1/4 SW 1/4 and SW 1/4 SW 1/4 sec. 15 -

- Sec. 33 SE¹/₄ SW¹/₄ - has 35 acres under cultivation, which may be irrigated. 10 acres have been irrigated.
- NE¹/₄ SW¹/₄ contains 40 acres irrigated natural meadowland.
- SE¹/₄ NW¹/₄ contains 40 acres irrigated natural meadowland.
- NE¹/₄ NW¹/₄ has 40 acres cultivated land which all may be irrigated. - 10 acres have been irrigated

REMARKS. (Turn over)

RECEIVED JUL 26 1912

RECEIVED

RECEIVED

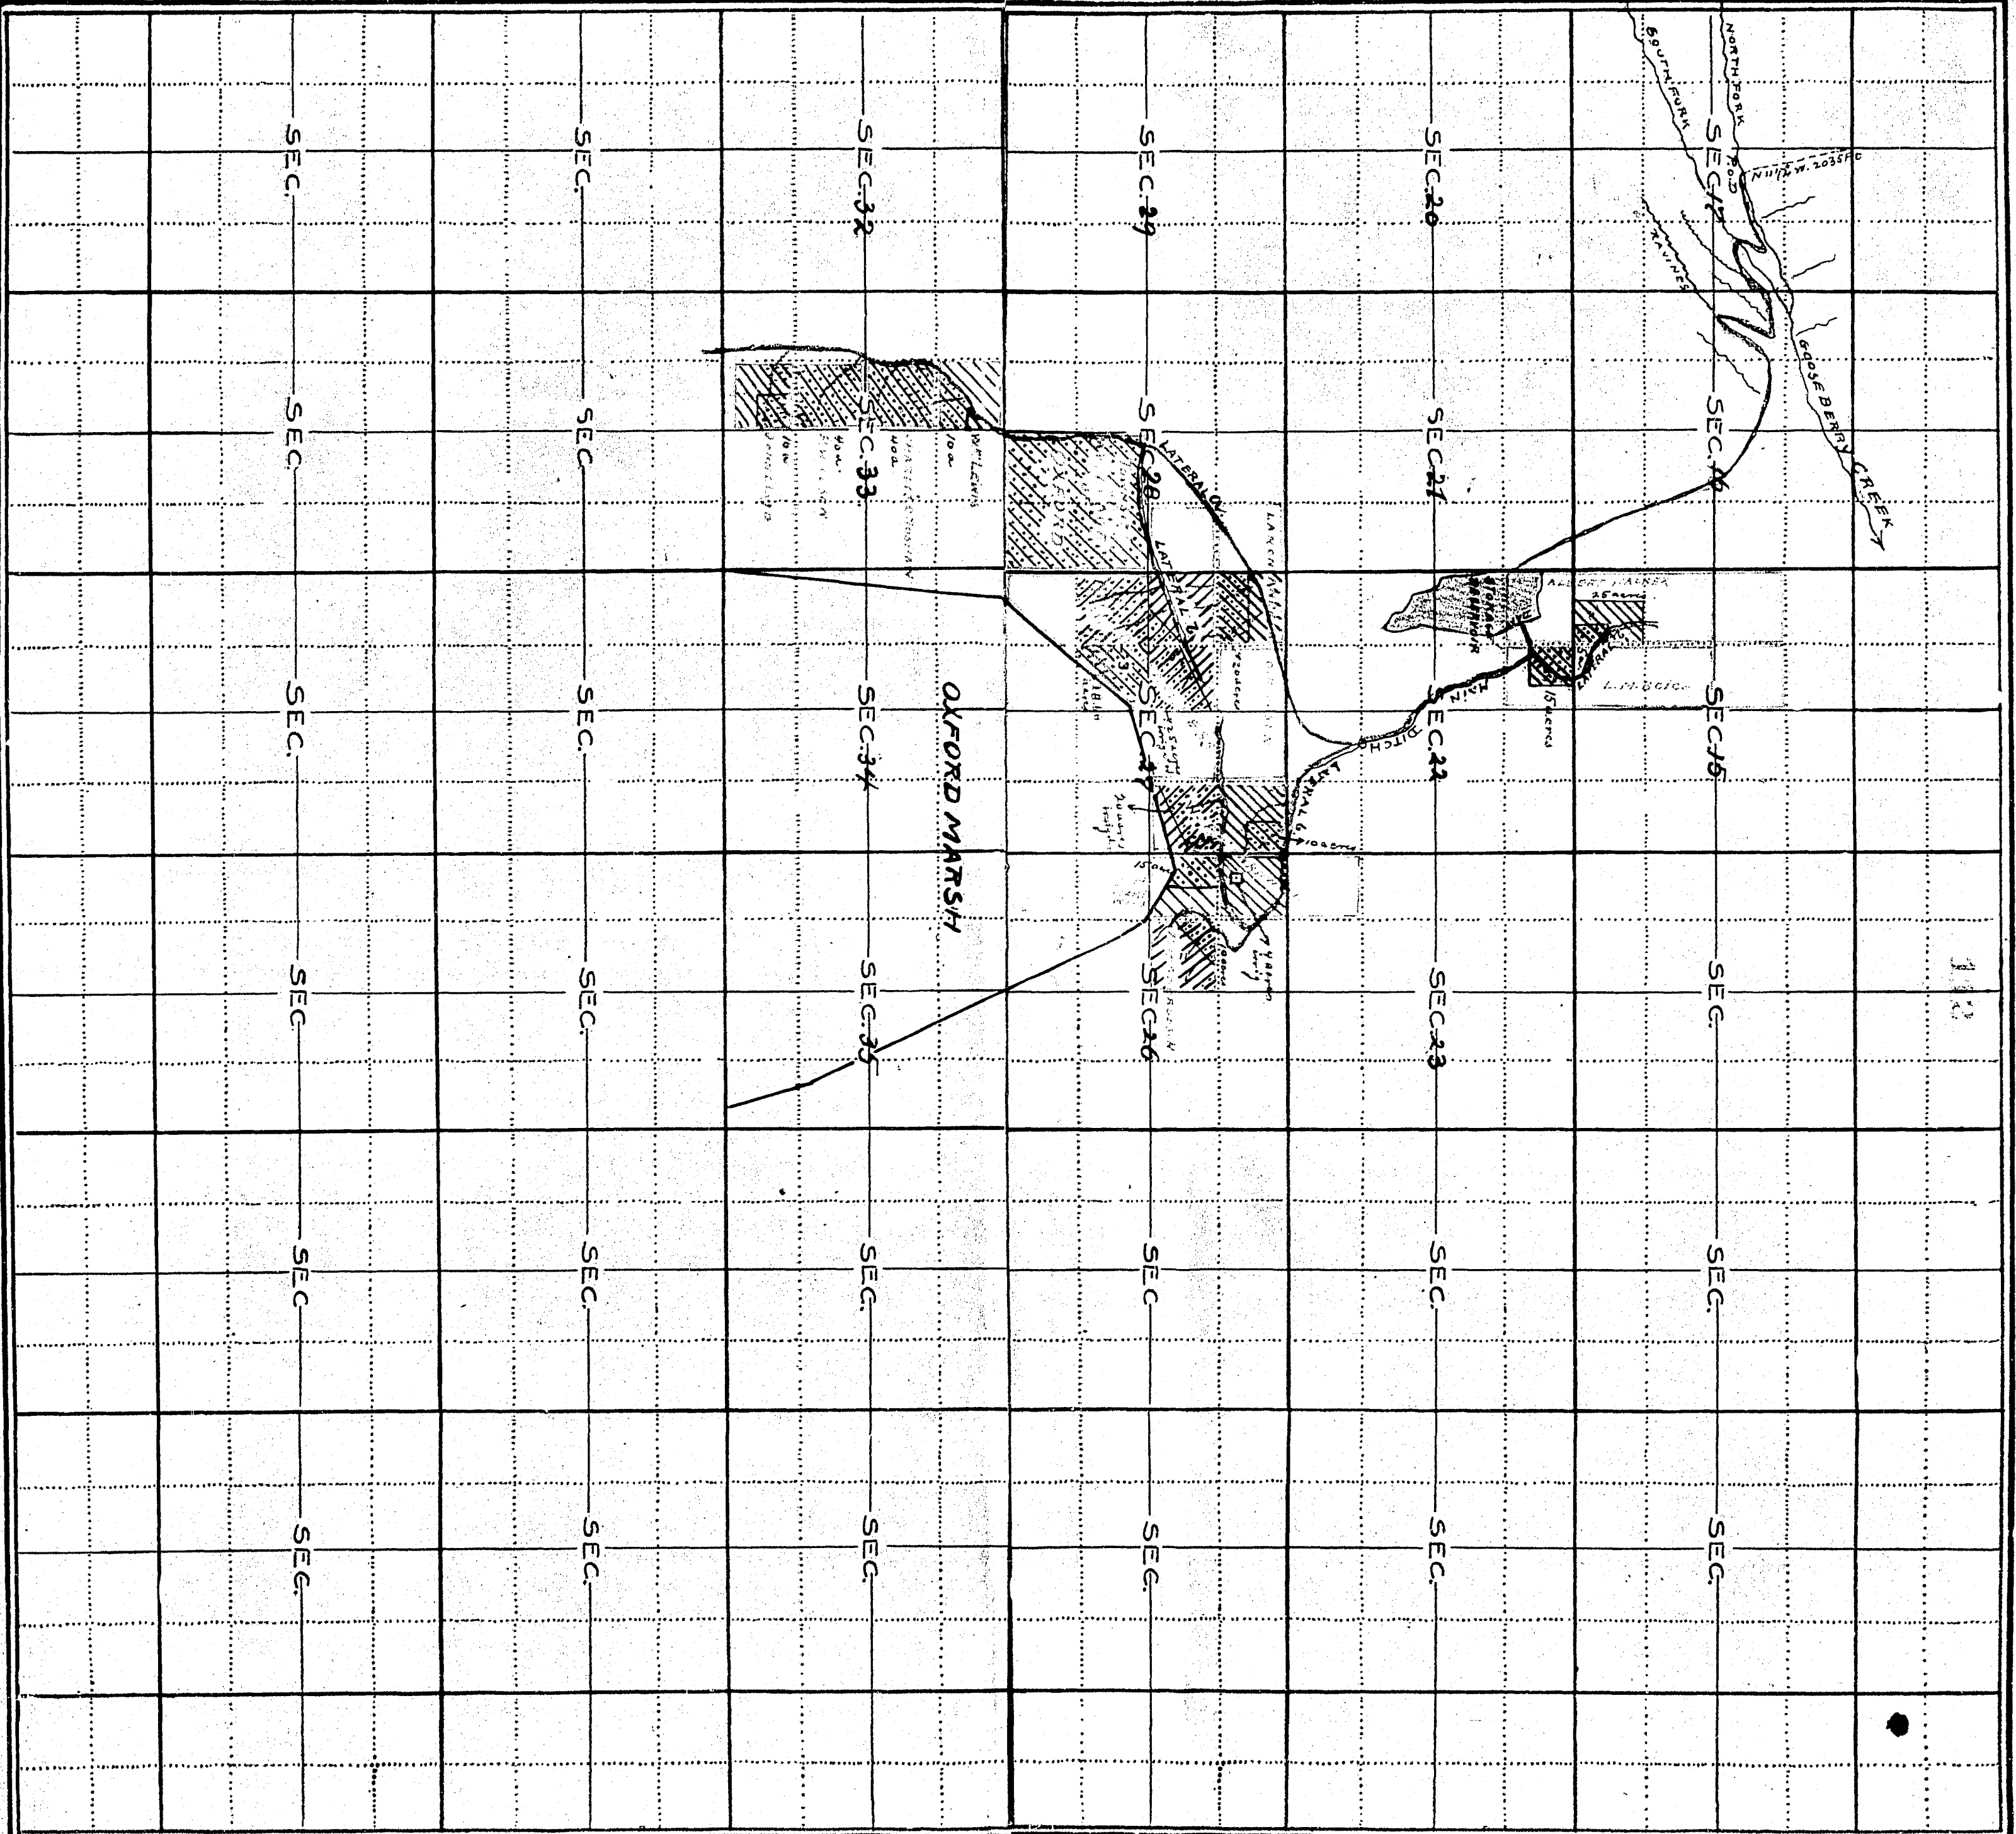

REMARKS. The application for water right of 48 sec. ft. in Permit No 112. was made with a view to appropriate sufficient water for beneficial use on 2400 acres, the amount of land owned by the original stockholders of the corporation. - The amount of water which may be stored for practical use during the irrigation season to reclaim the different tracts under the present Canal & ditch system is somewhat near 900 acre feet, which means the emptying of the reservoir with a capacity of 460 acre feet, twice. This is sufficient for the irrigations of between 700 & 800 acres in this irrigation district. The main irrigation canal will carry about 12 second feet, but up to date only 8 second feet have been used.

Much of the appropriated water can not be used, but the natural features of the reservoir grounds will allow the raising of the dam and levees at a relatively small expense and will thus allow to double the present capacity of the reservoir.

Hon. A. E. Robinson,
State Engineer,
Boise, Ida.

Dear sir:

As per your letter of instructions of June 20, I hereby forward you Deposition of Permit holder and Depositions of two witnesses in the matter of proof of beneficial use of the waters of Oxford Reservoir and Irrigation Co, I also enclose affidavit of publication of notice and fee of \$2⁰⁰ for each 40 acre tract or fraction to which water has been applied, \$40⁰⁰ in all.

We have paid examining engineer for his services, also Pocatello Tribune for publication of notice. If there is anything else required, kindly inform us, and oblige,

Yours truly
W. F. Fisher

Permit No.. 112.....

Proof of Application of Water to Beneficial Use**DEPOSITION OF WITNESS.**

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. *Angus Olson, age 26 years, occupation farmer, residence and address Oxford, Idaho*Ques. 2. Are you acquainted with *The Oxford Reservoir Irrigation Co.*, the holder of Permit No.. 112.....? How long have you known ^{this corporation} him and where does he reside?Ans. *Yes, for 6 years, Place of business of corporation is Oxford, Idaho*

Ques. 3. Have you read or heard read said Permit No.. 112....., and are you familiar with its provisions and conditions?

Ans. *I have, I am.*

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. *Gooseberry Creek; North Fork in SW 1/4 NE 1/4 Sec. 17 (2) South Fork in SE 1/4 NE 1/4 Sec. 17. Ravine tributary between said last mentioned point and in Sec. 16 and 21. All in Tp. 13 S R. 38 E. of BM. Feeder canals from 2 branches Gooseberry Creek and from ravines, Storge Reservoir, Irrigation Main Ditch and Laterals.*

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed.

Ans. *12 second feet, 8 second feet*

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. *For the purpose of irrigation**Place of use: See list attached hereto.*

112

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. *For irrigation only***RECEIVED**

AUG. 7. 1912

OFFICE OF STATE ENGINEER

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. *The land is partly bench land with rich sage brush soil, partly bottom land with natural meadow. I estimate the amount of water required for profitable cultivation as 1 inch per acre or less on the bottom lands.*

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what

way and to what extent?

Ans.

No interest

Ques. 10. State when, how, in what amount and to what extent you have witnessed the applica-

tion to beneficial use of water diverted under said permit.

Ans. The water diverted, above mentioned, permit has been used every season since 1908 incl. by irrigating parts of the lands heretofore described. In 1908 about 6 second feet. In 1909 about 7 sec. feet. In 1910 and 1911, 8 second feet and in every year to its full extent.

Permit No. 112

Proof of Application of Water to Beneficial Use

DEPOSITION OF WITNESS.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Chas E Croshaw age 40 years occupation farmer, residence and address, Oxford, Idaho

Ques. 2. Are you acquainted with The Oxford Reservoir and Irrigation Co., the holder of Permit No. 112? How long have you known ^{this corporation} him and where does he reside?

Ans. For 13 years; Oxford, Idaho

Ques. 3. Have you read or heard read said Permit No. 112, and are you familiar with its provisions and conditions?

Ans. I have, I am

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Gooseberry Creek; North Fork in SW 1/4 NE 1/4 sec. 17 - South Fork in SE 1/4 NE 1/4 sec. 17 - Barnes tributary between said last mentioned point and on Sec. 16 and 21 all in Tp. 13 S R. 38 E. of B.M. Feeder canals from 2 branches Gooseberry creek and Barnes. Storage reservoir, Irrigation main ditch and laterals

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed.

Ans. 12 second feet, 8 second feet

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For the purpose of irrigation.

Place of use: See list attached hereto.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation only.

RECEIVED

AUG - 3 1912

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give estimate of the amount of water required for its profitable cultivation.

Ans. The land is partly bench land with rich sage brush soil, partly bottom land with natural meadows. I estimate the amount of water required for profitable cultivation as 1 inch per acre or less for the bottom lands.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I, with my brother, am holder of 40 shares of stock in the company - and own 40 acres to be irrigated by the waters diverted -

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. The water diverted under above mentioned permit has been used every season since 1908 incl. by irrigating parts of the lands heretofore described. In 1908 about 6 second feet. In 1909 about 7 second feet. In 1910 and 1911, 8 sec. feet, and in every year to its full extent.

(Sign here.) *Chas. E. Croshaw*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing; that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, in *Oxford*, County of *Bannock*, State of Idaho, on this *27th* day of *July*, A. D. 191*2*.

OFFICE OF STATE ENGINEER

Permit No. 117.....

Proof of Application of Water to Beneficial Use

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John J. Croshaw, 38 years old, Oxford Idaho
Farmer and Stock-raiser, Oxford, Bannock Co. Idaho

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. The Oxford Reservoir^{2nd} Irrigation Company, Oxford
Bannock County, Idaho, President of the company.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 117 - July 31, 1903 - April 17, 1903

Ques. 4. State source of supply and give exact location of point of diversion.

Ans. Gooseberry Creek - "North Fork in SW 1/4 NE 1/4 Sec. 17.....
South Fork in SE 1/4 NE 1/4 Sec. 17 - Ravine tributary between said last
mentioned point and Sec. 16 and 21, all in Tp 13 S. R 38 E of BM.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Tied in canals from 2 branches of Gooseberry Creek, and
from tributary ravines, Storage Reservoir Irrigation main ditch
and laterals - 12 second feet Oxford Reservoir^{2nd} Irrigation Co ditch.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For the purpose of irrigation
Place of use: see list attached hereto

RECEIVED

AUG - 3 1912

OFFICE OF STATE ENGINEER

Ques. 7. If for other than irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. For irrigation only.

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. For irrigation, the minimum amount of water required per
acre is about 1/80 of a second foot

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. The ownership of the corporation has not changed
hands; I am its present president

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water diverted under the above mentioned permit has been used every season since 1908 incl. by irrigating parts of the lands heretofore described - In 1908 about 6 sec. feet - In 1909 about 7 sec. feet - In 1910 and 1911, 8 second feet, and in every year to its full extent.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. The settlers owning the lands herein described have used the waters of Oxford Creek for irrigation to the amount of from 100 to 300 inches upon parts of these lands. The settlers in the Oxford Irrigation District have appropriated by actual permanent use all the waters running in Oxford Creek, and have their rights recorded in the respective county record books.

Permit 112
Oxford Res. & Irr. Co.

W. F. Fisher,
Oxford, Idaho.

Sir:-

Am in receipt of your letter of the 1st inst, enclosing depositions and affidavit of publication for proof of beneficial use of water under above permit, together with check for \$40.00.

As this proof comes under the provision of section 3263 of the statutes, providing, "That in the case of water used for irrigation, where two or more users whose lands join or who take water from the same common lateral, join in the publication of the notice of their intention to make such proof of application, a fee of one dollar for each legal subdivision of forty acres or fraction thereof receiving such water shall be paid to the State Engineer at the time of making such proof."

The check for \$40 is, therefore, returned as in excess of the amount required. Upon receipt of fees in the sum of \$20.00, the license will issue.

Very truly yours,

State Engineer.

S T A T E O F I D A H O

Water License No. 112.

WHEREAS, On the 17th day of April, A. D. 1903, the Oxford Reservoir & Irrigation Company, of Oxford, County of Bannock, State of Idaho, duly made application (No. 40) to me for a permit to use 48-4/5ths cubic feet per second of the surplus waters of Gooseberry creek, and all waters in the ravines tributary, between the two branches of the creek in sections 16 and 21, Twp. 13 S., R. 38 E.B.M., County of Bannock, State of Idaho, for irrigation and domestic purposes, and,

WHEREAS, On the 31st day of July, A. D. 1903, Permit No. 112 was issued to said applicant for the diversion of said water, and providing for the completion of the works of diversion therein described on or before the 31st day of July, A. D. 1908, and for the application to beneficial use of said water on or before the 31st day of July, A. D. 1912, and,

WHEREAS, On the 20th day of July, A. D. 1908, the Oxford Reservoir & Irrigation Company, the holder of said permit, duly made proof of the completion of adequate works for the diversion of 48.8 cubic feet per second of said waters, as evidenced by my certificate No. 112, dated August 5, 1908, confirming the completion of works of sufficient capacity for diverting and conveying to the place of intended use 48.8 cubic feet per second of water, with date of priority of April 17, 1903, and,

WHEREAS, On the 27th day of July, A. D. 1912, the Oxford Reservoir & Irrigation Company, the holder of said permit, duly made proof of the application to beneficial use of eight (8) cubic feet per second of said water:

NOW, THEREFORE, By virtue of authority vested in me by the laws of the State of Idaho, I hereby grant and confirm to the Oxford Reservoir & Irrigation Company, of Oxford, County of Bannock, State of Idaho, the holder and owner of said Permit No. 112, a perpetual right, dating from April 17, 1903, to the use of eight (8) cubic feet per second of the surplus waters of Gooseberry creek and all waters in ravines tributary, between the two branches of the creek in sections 16 and 21, in Township 13 South, Range 38 East of Boise Meridian, in the County of Bannock and State of Idaho, or so much thereof as may be necessary for the purposes hereinbelow mentioned, to be diverted as follows: From North Fork Gooseberry creek in SW4 of NE4 of section 17; from South Fork of Gooseberry creek in SE4 of NE4 of Section 17; from ravines tributary between said last mentioned point and in sections 16 and 21, all in township 13 South, range 38 East of Boise Meridian, and conducted to and upon 458 acres divided as follows: (5 acres in SW4 of SW4, Section 15, 15 acres in NE4 NW4, Section 22, 10 acres in SE4 of NW4, Section 26, 16 acres in Lot 3, 4 acres in NW4 of NW4, Section 26, 10 acres in NE4 of NE4, 20 acres in Lot 1, 28.60 acres in Lot 3, 40 acres in NW4 of SW4, 25 acres in SE4 of NW4, 5 acres in SW4 of NW4 and 20 acres in NW4 of NW4, Section 27; 160 acres (village of Oxford) in SE4 of Section 28; 10 acres in SE4 of SW4, 40 acres in NE4 of SW4, 40 acres in SE4 of NW4 and 10 acres in NE4 of NW4, Sec. 32

Section 33, all in township 13 South, range 38 East of Boise Meridian, for the purpose of irrigation and domestic use, subject, however, to the laws of the State of Idaho, applicable to a license for the use of the waters of the State, and subject, also, to the local or community customs, rules and regulations which have been or may be adopted from time to time by a majority of the users from a common source of supply canal or lateral from which such water may be taken, when such rules and regulations have for their object the economical use of such water.

WITNESS, My hand and the seal of my office at Boise, Idaho, this twenty-fourth day of August, A. D. 1912.

Record of Application for Permit to appropriate

1. Name of applicant Oxford Reservoir & Irrigation, a corporation duly organized and existing under and by virtue of the laws of Idaho
 Postoffice address: P. O. Oxford,
 County Bannock, State of Idaho.

I. If applicant is a corporation give

- (a) Date and place of incorporation March 22nd, 1899, Oxford, Idaho.
 (b) The amount of capital stock Four thousand dollars.
 (c) The amount paid in notes \$4000.00
 (d) The names and addresses of directors John J. Fosha, J. Hardwick, Aaron Andrews,
Peter Olsen, W. A. Lewis, all of Oxford, Bannock County, State of Idaho

II. The financial resources of the applicant are:

- (a) Cash on hand _____
 (b) Treasury stock none
 (c) Bonds to be issued none
 (d) Other resources Notes of stockholders for \$4000.00

2. The quantity of water claimed is 48 4/5 cubic feet per second

3. Source of water supply South fork of Gooseberry Creek and all waters from melting snow in ravines tributary to the canal or ditch, and from any other source of diversion on Gooseberry Creek and the waters of the same as mentioned.

4. Location of point of diversion On Gooseberry Creek, on north fork, in S.W. 1/4 NE 1/4 Sec. 17, or South fork in SE 1/4 NE 1/4 Sec. 17, Range tributary between said last mentioned point and in Sections 16 and 21, all in Township 13, S. R. 35 E. B. M.

5. To be used for:

I. Irrigation and domestic use: yes.

(a) Number of acres to be irrigated 2440 acres

(b) In the following legal subdivisions N. 1/2 Sec. 23, Sec. 27, N. 1/4 Sec. 26 E. 1/2 Sec. 25, S. 1/2 Sec. 32,

Sec. 33, S. W. 1/4 Sec. 22, all in Township 13, S. R. 35 E. B. M.

II. Mining, power, manufacturing or transportation purposes:

- (a) To be used for _____
 (b) Amount of power to be generated _____ horse power
 (c) At what point _____
 (d) If water is to be returned to stream, ("yes" or "no") _____
 (e) If "yes" at what point _____

6. Estimated cost of works \$7,000.00

7. Description of works for diversion:

I. Kind of works (reservoir, dam, ditch, flume, pipes or otherwise). For full description see blue print herewith submitted. Feeder Canal, Storage Reservoir, Diversion Canal

II. Dimensions of works:

- (a) Height of dam _____ feet, length of dam at top _____ feet
 length of dam at bottom _____ feet, material used in construction
 (wood, earth, stone or concrete) _____
 (b) Capacity of reservoir _____ acre feet.
 (c) Size of headgate, width _____ feet, height _____ feet.
 (d) Ditch (flume or pipe) width at bottom _____ feet, width at water
 line _____ feet, depth of water _____ feet. Average

grade per mile is _____ feet. Length of ditch is about 4

miles, and it crosses the following quarter sections. (For particulars see field notes and map and

plans on blue print herewith submitted.) NE 1/4 Sec. 17, Sec. 16, NE 1/4 NE 1/4 Sec. 21, Sec. 22 Twp. 13 S. R.

35 E. B. M. waters finally to be distributed and used for irrigation in Secs. 22, 23, 26, 27, 28,

32, 33 Twp. 13, S. R. 35 E. B. M.

to _____ which is the point of intended use.

8. Time required for the completion of the construction of such work is 5 years
 years. (The time must in no case exceed five years after date of approval of application.)

9. Time required for the complete application of the water to the proposed use is 4
 years. (The time must in no case exceed four years after the date set for the completion of works as defined in Section 8.)

Field notes of the Survey of a storage reservoir and the feeder canal carrying the surplus water of Gooseberry Creek in T.13, S.R.38 E. of Boise Meridian into said reservoir and the diversion ditch diverting such water from said reservoir upon lands near Oxford, Idaho, for irrigation purposes.

The surplus waters of Gooseberry Creek, a creek which heads in the high mountain range west of the Village of Oxford Idaho, and empties into Spen Lake and the marshes adjoining and south of said lake; consists of the waters running in said Creek between the irrigation seasons and during the Spring freshets, usually two in number, viz: the early one in March and the second one during the early days in June in each year. The waters of these freshets will principally be used to fill a reservoir which has been formed by nature in the T. 1/2 of Sec. 22, T.13, S. Range 38 E. the water level of which will be raised by 2 levees with a maximum height of 8.6 feet, constructed of earth.

These freshets are of a varying volume and the sizes of the feeder canal will approximately correspond with a maximum volume.

Survey commenced 3rd day of June, 1903 and completed the 4th day of June, 1903. The survey of the two canals are merely location surveys, the canals having been used partly as small ditches since many years, partly having been surveyed as to their grade in Spring, 1901.

The survey was executed with a F. and L. E. Surveys' Light Mountain Transit with level under telescope and with Solar attachment. The lines were run on the true bearings. The middle wire reading on the horizontal circle of the instrument is zero minutes; the canals were run on their center lines. The water level line of the reservoir is the level of the top of the dam at the headworks.

(1) Feeder Canal: Commencing at the Initial Point, a point at the Head-Works in the North Fork of Gooseberry Creek, whence N. 1/4 Sec. cor. of Section 17, T.13 S.R.38 E. of B.M. Bears N. 11 1/4° W. 2035 feet distant, thence running

Boise, Idaho.

Dear Sir:-

Please send me a certified copy of map filed with Permit No 112 to appropriate waters of Gooseberry Creek by the Oxford Reservoir & Irrigating Company. Also please inform me what steps are necessary to take to continue diversion canal to land that is on field notes. Blue Print only shows canal to a point on Section 27, we want to continue further, if an application is necessary for continuance, kindly send me application blank, and oblige

Yours truly

Wm F. Fisher
Secretary Oxford Reservoir & Irrigation Co

Boise, Idaho, March 12, 1907

Permit 112. Oxford Reservoir & Irrigating Co.

Mr. Wm. F. Fisher,
Oxford, Idaho.

Sir:--

Replying to your letter of the 6th inst would say that any extension of your works will require an additional permit and I accordingly hand you application blank therefor.

Would say that a certified copy of map filed under permit No. 112 will cost \$5.00 which we will be pleased to send you on receipt of price.

Very truly yours,

State Engineer.

Enc. BMF.

Boise, Idaho, March 27, 1907.

Permit No. 112-Oxford Irrigation Co.

Mr. George H. Perry,
Pocatello, Idaho.

Sir:

I am sending a letter by this mail to Mr.
H. O. Harkness at Oxford, accompanied by your
letter of the 26th as per your request.

Very truly yours,

State Engineer.

Dio.W.

Boise, Idaho, March 27, 1907.

Permit No. 112-Oxford Irrigation Co.

Mr. H. O. Harkness,
c/o W.F. Fisher,
Oxford, Idaho.

Sir:

Mr. George H. Perry, under date of the 26th inst., has written me asking that I communicate with you regarding certain matters in connection with above permit. I enclose to you Mr. Perry's letter with the request that after the meeting of your Board of Directors next Monday same be returned to me for the files in this office.

It seems to me that the matter of constructing the laterals south from the south boundary of section 22, township 13 south, range 38 east, is largely a question of intention to be determined by recalling to memory as far as possible what statements were made at the time of the organization of the Company.

The plat on file here together with field notes indicates that the diversion canal is to terminate near the south boundary of 22. The following tie is given in the field notes "from terminus cor. of sections 21-22-27-28, T. 13 S., R. 38 E. bears South 89°51' W. 1767.78 ft. dist." Immediately after this tie appears the following statement "from this terminus laterals will be extended to the different lands owned by the stock holders of the Company".

I would say that in any event before license for water right can issue to the lands below section 22 it will be necessary for proof to be submitted under Permit No. 112 to the effect that the necessary laterals have been constructed and, if it is desired to obtain eventually a right to the entire amount of 48-4/5 second feet, it will be necessary for these works to be completed under this permit.

The question as to whether the Company, as such, shall construct all of these works or whether the users under the Company shall construct a portion is a matter with which this office has properly nothing to do.

Very truly yours,

State Engineer.

Hon Jas Stephenson Jr
Boise, Idaho.

Dear Sir:-

I am instructed by Board of Directors of the Oxford Reservoir and Irrigation Co. to write you as follows; The Plat we have on file with you, indicates that our diversion canal is to terminate near south boundary of sec 22. That is not, nor never was, the intention of the stockholders of the company, as you will notice by the ties in field notes, it was the original intention of the stockholders, and they have never changed the design, to continue their diversion canal to the south boundary of sec 28. in T 13. S of R 38 E. B. M. They have built the canal to this point, that is, the company has, and it is owned by the company, of course private parties will have to make their own laterals for irrigating, from our diversion canal, we don't

Boise, Idaho, March 14, 1908.

Re Permit 112.
Oxford Reservoir & Irrigation Co.

Mr. W. F. Fisher,
Oxford, Idaho.

Sir:--

Replying to yours of the 8th inst. would say that I do not exactly understand the difficulty in question. Your original permit 112 seems to be in proper form and if the works are completed in accordance therewith and proof duly made, certificate will issue. In any event a refiling of the application should set out the description of the point of diversion and not refer to a previous permit. In this connection would call your attention to the fact that you have referred to permit No. 12 when the number of your permit is 112. If you will kindly explain the matter more in detail I shall be pleased to do whatever I can for you.

Very truly yours,

State Engineer.

INSTRUCTIONS

Proof of Completion of Works.

Boise, Idaho, April 1, 1908.

Oxford Reservoir & Irrigation Co.
Oxford, Idaho.

Dear Sir:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your Permit No. 112.

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before May 1, 1908. Upon receipt of the blank, properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place, convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

One of the requirements of the law is that an examination of the works constructed shall be made under the authority of the State Engineer. In order to make the expense as light as possible you are requested to furnish the name of a competent engineer, or surveyor, who can do this work for you at a reasonable cost. Upon receipt of name of such engineer or surveyor I will authorize him to make the examination and send me a report on or before the date set for the proof.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

JAS. STEPHENSON, Jr.,

State Engineer.

Notice of Proof of Completion of Works.

(This blank must be filled out by holder of permit and forwarded by registered mail to the State Engineer at least 60 days before the time set for completion of works.)

(P. O.) Oxford, Idaho
(Date) April 18, 1908

TO THE STATE ENGINEER OF THE STATE OF IDAHO, BOISE, IDAHO:

Dear Sir: Notice is hereby given that at 10 A.M. on the 20th day of July 1908, at Oxford County of Bannock State of Idaho, before W. F. Fisher a Notary Public proof will be submitted of the completion of works for the diversion of 4.8 4/5 cubic feet per second of the waters of The Oxford Reservoir & Irrigation Company in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is

Oxford Reservoir & Irrigation Co.

2. The postoffice address of such person or the place of business of such corporation is

Oxford County of Bannock State of Idaho.

3. The number of such permit is 112, and the date set for the completion of such work is

July 31, 1908

4. Said water to be used for Irrigation purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 4.8 4/5 cubic feet per second.

6. The amount of lands for which said water is available is 2440

acres, particularly described as follows: W² Sec 23, Sec 27, NW 4 Sec 26, E 1/2 Sec 28, S 1/2 Sec 32, Sec 33, SW 4 of NW 4 of Sec 22, all T 13 S of R. 38 E. B. M. in Idaho

(In case of all canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer.)

I hereby certify that the facts set forth in the above notice are true.

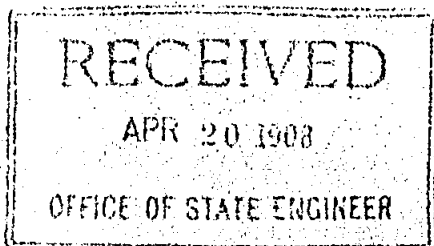

Engineer.

We desire that the above notice be published, according to law, in the Pocatello Tribune of Pocatello published in the county in which said

works are situated; the expense of which publication will be borne by Oxford Reservoir & Irrigation Co

Dear Sir:-

Some time ago I sent you our application to move up on our Reservoir works, and asked you to appoint Oscar Sommerkalb to make the necessary examination, as you instructed us to suggest some competent engineer. We are ready for Mr Sommerkalb, but I wrote him to that effect a few days ago, and he informed me that you had not yet notified him of his appointment, trusting you will appoint him at an early date, as we are ready for him. I am

112

Yours Truly
Wm F. Fisher
Secretary Oxford Reservoir & Irrigation Co.

Boise, Idaho, May 9, 1908

Mr. Oscar Sonnenkalb

Pocatello, Idaho

DEAR SIR:

The holder of Permit No. 112, Oxford Reservoir & Irrigation, residing at Oxford, Idaho, which permit authorizes the diversion of 48.8 second-feet of the waters of Gooseberry Creek and waters tributary at _____, desire to make proof of the completion of works of diversion, at _____, on July 20, 1908.

Will you therefore please arrange with the holder of said permit for an examination of the works of diversion, ascertain whether or not they comply fully with the terms of said permit, and render me a report on the condition of such works before the date fixed for said proof of completion, in accordance with the provisions of Sections 4 and 5 of House Bill No. 146, passed by the Seventh Session of the Legislature, approved March 11, 1903.

Your report should be of sufficient detail to enable me to determine the amount of water the works are capable of diverting and conveying to the place of use; giving also the description of the location of point of diversion, and, in case of irrigation, the legal description of the land to be irrigated.

Will you also make a map on the enclosed plat, giving all the essential features of the works, such as point of diversion, route of ditch, place of use, etc.

You should also arrange with the holder of said permit for the payment of your fee for this service and such proper expenses as you will incur in making this examination and report.

Please advise me promptly of your receipt of this communication, and whether or not you will be able to make the examination and report requested.

Yours, truly,

JAS. STEPHENSON, Jr.,

State Engineer.

STATE ENGINEER

INSTRUCTIONS.

Proof of Completion of Works.

Boise, Idaho, May 9, 1908.

Permit 112
Oxford Reservoir & Irrigation Co.
Oxford, Idaho

Dear Sir:s:

I enclose herewith the following forms to be used in connection with proof of completion of works under your permit No. 112.

Depositions of Permit Holder,

Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On July 20, 1908, the date set for the proof of completion of works, the enclosed deposition forms (two for permit holder and two each for two witnesses) should be filled out and sworn to, at Oxford, Idaho, before W.F. Fisher, M.P.

2. To complete the proof, it is also necessary that an examination be made of the works as constructed, which examination must be under the authority of the State Engineer. It is the desire to make this expense as light as possible to the permit holder. Will you therefore give me the name of a competent engineer, or surveyor, in your neighborhood who could do this work with as little expense as possible to you? Upon receipt of name of such engineer or surveyor I will authorize him to do the work. The examination should be made on or before the date set for the proof.

3. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$5.00. When these have been received, together with report of examining engineer, if everything is properly executed, Certificate of Completion of works will issue.

Yours truly,

112

JAS. STEPHENSON, Jr.,

State Engineer.

NOTICE OF PUBLICATION

Notice is hereby given that at 10 A. M., on the 20th day of July 1908, at Oxford County of Bannock State of Idaho, before W. F. Fisher, Notary Public, proof will be submitted of the completion of works for the diversion of 48.8 cubic feet per second of the waters of Gooseberry creek and all snow and flood waters tributary thereto in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is _____

Oxford Reservoir and Irrigation Co.

2. The postoffice address of such person or the place of business of such corporation is _____

Oxford County of Bannock State of Idaho.

3. The number of such permit is 112, and the date set for the completion of such work is _____

July 31, 1908

4. Said water to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 48.8 cubic feet per second.

6. The amount of lands for which said water is available is 2440 acres,

particularly described as follows: 72 Sec. 23, Sec. 27, NW4 Sec. 26, E2 Sec. 28, S2 Sec. 32, SW4 S4 Sec. 22, Sec. 33, NW4 Sec. 28, R. 38 S.B.M.

Jas. Stephenson, Jr.

DEPT. OF STATE

REPORT

upon the COMPLETION OF THE DIVERSION WORKS OF THE
OXFORD RESERVOIR AND IRRIGATION COMPANY.

The works of diversion as shown on the maps accompanying the application for permit, of the Oxford Reservoir and Irrigation Company and given on the map accompanying this Report, in general outlines, has been completed satisfactorily and in all its details.

A supply ditch heading in the North Fork of Gooseberry Creek, its initial point bearing S. $11\frac{1}{4}$ E. - 2035 Ft. dist. from the North Quarter Section corner of section 17 T. 13 S. R. 38 E., with a bottom width of 4 Feet and a length of 2257.0 Ft., runs in an easterly direction to a point in the South Fork of Gooseberry creek, where a dam diverts the waters of both Forks into a ditch, 6 Ft. wide on the bottom, which runs Southeasternly with a length of 3283 Ft. to a point, where it crosses a ravine, which carries in spring time considerable fresh water from the Oxford Mountains into the ditch. The ditch continues from this point with a width of 8 Feet and a length of 7910 Ft. to its mouth in the West side of the Storage Reservoir.

This reservoir which is formed by the natural banks of a depression in the ground, except on parts of the North and East side, where dikes had to be constructed, ~~has~~ has a surface area of nearly 50 acres and a calculated Capacity of 460 aers. The dams which reach their maximum height at 8 Feet are well constructed. The dam on the U.S. side of the Reservoir with a length of 1013 Feet has been constructed above the head gate sluice of the ~~supply~~^{diversion} Canal. - At a level of 5 Feet above the lowest point of the reservoir and about 15 feet below the top of the ^{highest} water line of the reservoir a timbered sluice box has been carried through the grown bank of the reservoir, which has been set firmly at its upper end against a concrete wall covering the inner slope of the dam at this point. Two outlet pipes of 8 inches diameter carry the water through the concrete wall into the sluice. The gates in these pipes are regulated by levers on top of the dam. - The company has procured the material for the construction of a sluice way altogether in concrete through the entire length of the bank. -

From the mouth of the Blaine a main distributing ditch with a bottom width of 6 Feet has been constructed which runs southerly with a length of 6570 feet to a point on the S. by line of sec. 22 T. 13 S. R. 38 E. which bears East 1768 Ft. dist., from the S. W. corner of sec. 22. -

Therely 6 miles main laterals have been constructed, varying from 2 to 4 Feet bottom width, and numerous smaller ditches to the irrigated tracts.

Water for irrigation has been available since 3 years and small parts of lands of the following owners have been more or less benefitted by it:

Petty & Lewis	may irrigate	160 acres
Eric Jorgenson		40 acres
L. M. Boine		160 "
Albert Walker		160 "
Laron & Sons		160 "
E. R. Jorgenson		80 "
H. O. Harkness		320 "
Village of Oxford		160 "
N. R. Lewis		80 acres
Charles Crossman		120 "
Olson & Sons		100 "
Millemann Fisher		290 "
Albert and John Boine		160 "
Total		1990 acres

4.)

POCATELLO, IDAHO,

190

All the Cultivated Lands lying under this canal system require very little water for reclamation, and as some of the lands are bench, some bottom lands, the irrigation can be done successively and after the refilling of the reservoirs for a second or third time in the early part of the season. The spring freshets are frequently very late in some of the ravines as the Oxford Mountains are very high and preserve snow caps until late in the season. In some years, as in the present and the last past year, the spring rains are late and capricious and ~~the~~ the crops, especially fall crops will do better without irrigation.

All the ditches have been well constructed with an average fall of 7 feet to the mile.

The appropriation of 48 second Feet of surplus water was made, which means of course a possible maximum flow of the Combined runs for a short time during the first spring thaw after a heavy wintered snow fall.

Pocatello Idaho.

112

PERMIT NO.

Proof of Completion of Works.

DEPOSITION OF HOLDER.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John J. Crosshaw, president of The Oxford Reservoir and Irrigation Company,
a corporation, 34 years old, Oxford, Idaho, Farmer
and Stock Raiser, P. O. Oxford, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Oxford Reservoir and Irrigation Company,
Oxford, Idaho, president,

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. No. 112, April 17th 1903, 48 4/5 cubic

feet per second, surplus water of Gooseberry Creek and all waters
from its tributaries in running to the point of diversion, North Fork of Gooseberry Creek, 3 W 4 N 8 E sec 17 of South Fork of Creek, S E 4 N E
of section 17, T. 13 S. R. 38 E of B. M. and NW 4 sec 4 and SE 1/4 sec 5, T. 14 S. R. 38 E

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. For irrigation and domestic use in T. 13 S. R. 38 E of B. M. and
2100 acres more or less, parts of the following subdivided
of sections: N. 1/2 of sec. 15 L. 3 W 4 sec. 23 - N 1/2 sec. 26 - N 1/2 sec. 27.
SE 1/4 of N. 1/2 - 28. - SE 1/4 of sec. 28. All of sec. 33 except about 80 acres in the N. W.
corner, all in T. 13 S. R. 38 E of B. M. and NW 4 sec 4 and SE 1/4 sec 5, T. 14 S. R. 38 E

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. The water was turned into the diversion ditches
1) in the year 1905 nearly 250 miners inches; 2) in the year
1906 about 350 miners inches. 3) In the year 1907
about 350 miners inches 4) In the year 1908 nearly 25 second feet during

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. The works of diversion as projected in the Application
for permit are fully completed, and comply in all respects
with the terms of the permit. The laterals have been completed as far
as it was necessary for the present irrigation area

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. The main works of diversion comply with all the terms
of the permit. The furrow constructed high line irrigation canal
does not cover all the land which is now in timber in the
application for permit, and the description of legal subdivisions
intended for reclamation differs now somewhat from the former
description in the permit.

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. Feeder Canal 4 Ft. bottom, 1 Foot deep, 2320.8 Ft. - 6 Ft. bottom
2 Ft. deep 3216.18 Ft. - 8 Ft. bottom 2 Ft. deep, 7910.14 Ft. to terminus.
total length 13447.18 Ft. - Storage Reservoir surface area of
49.44 acres, maximum depth 27 Ft. and capacity of 455 acre feet
Diversion Canal, main Canal 4 Ft. bottom width 5 Ft. deep 1/2
total length about 1 1/2 miles. - Main lateral about 3 miles
of length. The costs for the present completed work are 8000 Dollars

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Oxford, County

of Bannock, State of Idaho, on this 20th day, of

July, A. D. 1908

William F. Fisher,
Notary Public

My commission expires December 1908

The Depositions of two Witnesses, in this form, taken separately, required in each case.

PERMIT NO. _____

Proof of Completion of Works.

DEPOSITION OF WITNESS.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. J. H. Hardwick, Oxford, Idaho. Farmer.
Oxford, Bannock County, Idaho.Ques. 2. Are you acquainted with The Oxford Reservoir Irrigation Co. the holder of Permit No. 112, authorizing the diversion of 48 1/5 cubic ^{plus} second feet of the waters of Gosberry Creek, and all melting snows from reservoirs tributary thereto, at Oxford, Idaho for irrigating purposes? How long have you known him, and where does he reside?Ans. Seven (7) years — Oxford, IdahoQues. 3. Have you read or heard read said Permit No. 112, and are you familiar with its terms and conditions?Ans. Yes.

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Yes.

The land proposed to be irrigated lies partly on the lower foot hill-slopes, partly on the bottom lands of the valley and requires therefore different amounts of water for irrigation, also according to the season's rainfall; If the reservoir can be filled twice during the season, it will furnish enough water for about 2000 acres, considering that some of the land is naturally wet in the early irrigation season.

main lateral 3 1/2 miles. about 300 inches

PROOF OF PUBLICATION

STATE OF IDAHO,
COUNTY OF BANNOCK.

SS.

Notice of Publication.

Notice is hereby given, that at 10 a. m. on the 20th day of July, 1908, at Oxford, county of Bannock, state of Idaho, before W. F. Fisher, Notary Public, proof will be submitted of the completion of works for the diversion of 48.8 cubic feet per second of the waters of Gooseberry creek and all snow and flood waters tributary thereto, in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is Oxford Reservoir and Irrigation company.

2. The postoffice address of such person or the place of business of such corporation is Oxford, county of Bannock, state of Idaho.

3. The number of such permit is 112, and the date set for the completion of such work is July 31, 1908.

4. Said water to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 48.8 cubic feet per second.

6. The amount of lands for which said water is available is 2440 acres, particularly described as follows: W $\frac{1}{2}$

of NW $\frac{1}{4}$ Sec. 26. E $\frac{1}{2}$

Edward J. Quinn.....being first duly sworn, deposes and says that he is the publisher of THE POCA TELLO TRIBUNE, a newspaper published in Pocatello, Bannock County, in the State of Idaho. That the notice, a true copy of which is hereto attached, was published in the *semi-weekly* edition of said newspaper for *four* consecutive *weeks*, first publication having been made on the *13th* day of *May*, 1908.

That said paper has been continuously and uninterruptedly published in said county during a period of fifty-two consecutive weeks prior to the first publication of said notice or advertisement, and is a newspaper within the meaning of the laws of Idaho.

SUBSCRIBED AND SWORN TO before me this *13th* day of

July..... A. D. 1908.
