

Record of Application for Permit to Appropriate

1. Name of applicant Catherine Sorensen
 Postoffice address: P. O. Largo
 County Bannock

I. If applicant is a corporation give

- (a) Date and place of incorporation
 (b) The amount of capital stock
 (c) The amount paid in
 (d) The names and addresses of directors

II. The financial resources of the applicant are:

- (a) Cash on hand
 (b) Treasury stock
 (c) Bonds to be issued
 (d) Other resources

2. The quantity of water claimed is one and one fifth cubic feet per second
 3. Source of water supply Springs or Lake unnamed, Bannock County
 4. Location of point of diversion South Fork Canon, in Sec. 35 Twp. 11 S. R. 41 E.

5. To be used for:

I. Irrigation and domestic use:

- (a) Number of acres to be irrigated about sixty acres
 (b) In the following legal subdivisions S. E. 4 T. 11 N. 4, S. 2 T. 11 N. 4, T. 11 N. 4 S. E. 4, T. 11 N. 4 S. E. 4 Sec. 28 Twp. 11 S. R. 41 E.

II. Mining, power, manufacturing or transportation purposes:

- (a) To be used for
 (b) Amount of power to be generated _____ horse power
 (c) At what point
 (d) If water is to be returned to stream, ("yes" or "no")
 (e) If "yes" at what point

6. Estimated cost of works \$ 1000 00

7. Description of works for diversion:

I. Kind of works (reservoir, dam, ditch, flume, pipes or otherwise)

II. Dimensions of works:

- (a) Height of dam ten feet, length of dam at top 200 feet
 length of dam at bottom ten feet, material used in construction
 (wood, earth, stone or concrete)
 (b) Capacity of reservoir _____ acre feet.
 (c) Size of headgate, width one feet, height one feet.
 (d) Ditch (flume or pipe) width at bottom one feet, width at water
 line one and one half feet, depth of water 1/2 feet. Average
 grade per mile is 300 feet. Length of ditch is about 3
 miles, and it crosses the following quarter sections T. 11 N. 4 S. E. 4, T. 11 N. 4 S. E. 4, T. 11 N. 4 S. E. 4, T. 11 N. 4 S. E. 4

S. E. 4, S. 7 N. 4 Sec. 27, T. 11 N. 4

to T. 11 N. 4 S. E. 4, T. 11 N. 4 S. 7 N. 4, S. 7 N. 4 S. E. 4, T. 11 N. 4 S. E. 4 Sec. 28 which is the point of intended use,
T. 11 S. R. 41 E. T. 11 N.

8. Time required for the completion of the construction of such work is three
 years. (The time must in no case exceed five years after date of approval of application.)
 9. Time required for the complete application of the water to the proposed use is four
 years. (The time must in no case exceed four years after the date set for the completion of works as defined
 in Section 8.)

Remarks:

Affidavit of Catherine Sorensen.

State of Idaho }
 County of Bannock } ss.

Catherine Sorensen being first duly sworn
 deposes and says: that she is the holder of permit number 693
 appropriating one and one fifth cu ft. per second of the water
 of Spring unnamed in Bannock Co., that in filing the
 application, and in giving the legal subdivisions, the
 S. W. quarter of the N. W. quarter of Section 28, Twp. 11 S. R. 41 E. was
 unintentionally left out, the error having been made by the
 person writing the permit, the intention being that the
 following should be the legal subdivisions: S. E. half of the
 N. W. quarter, S. E. half of the N. E. quarter, N. E. quarter of S. E.
 quarter, N. E. quarter of S. W. quarter, Sec. 28, Twp. 11 S. R. 41 E.
 And therefore Affiant asks that the S. W. quarter of the
 N. W. quarter of Section 28, Twp. 11 S. R. 41 E. to be added to
 permit number 693.

Catherine Sorensen
 Subscribed and sworn to before me this the 12th day
 of February, A. D. 1908.

INSTRUCTIONS

Proof of Completion of Works.

Boise, Idaho, April 1, 1907.

Catherine Sorensen,
Lago, Idaho.

Dear Sir:-

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your Permit No. 693.

This form should be filled out and mailed to the State Engineer at least 30 days before the date upon which proof is to be submitted, which proof MUST be on or before June 27, 1907. Upon receipt of the blank, properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place, convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths.

One of the requirements of the law is that an examination of the works constructed shall be made under the authority of the State Engineer. In order to make the expense as light as possible you are requested to furnish the name of a competent engineer, or surveyor, who can do this work for you at a reasonable cost. Upon receipt of such a name I will authorize him to make the examination and send me a report on or before the date set for the proof.

The Certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time License is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

Wm. Stephenson, Jr.

State Engineer.

Lago, Ida

Apr. 3, 1917

Mr. Jos. Stephensen
Boise Idaho.

Dear Sir; In regards to my submitting
proof of completion of works under my
permit No. 693., of which is a desert
claim. I wish to say that I havent
as yet got water on all that can be
cultivated. My husband expected to get
this water in last fall after he had gathered
his crops. but about this time he was
taken sick and passed away in a very
short time thus leaving me in a
very bad position. I have a family
of fourteen children none of which are
yet married and most of them are
small children. I can get ^{some} ~~this~~ water
out this spring sometime. The land
is located up on a rolling hills near the
side of a large mountain and it becomes
difficult to irrigate all and hard to

get water in all of it quite a large percent
is covered with rocks. Quite a lot
of work has been done on reservoir

Now I would like to have you write
me and let me know if there would
be any show for me to make a sympathetic
proof. For information regarding my
husbands death I can refer you to
Dr. Cackley of Soda Springs.

If you think there is no show for
me to make a sympathetic proof let
me know what the requirements
would be for me to take a home stead.

If you think I can make a sympathetic
proof can't you refer me to a engineer or
a surveyer near by. Waiting for reply
from you I am.

Yours truly.

Catharine Sorensen

Boise, Idaho, April 5, 1907.

Permit No. 693.

Mrs. Catherine Sorensen,
Lago, Idaho.

Dear madam:

Yours of April 3rd at hand. The law does not grant me the privilege of extending the time for proof of completion of works. Under this proof it is necessary that the ditch shall be built and shall be able to carry an amount of water applied for. It is not required under this proof that any part or portion of the land shall be in actual cultivation. Merely that the ditch is completed and the works constructed as specified in the permit. You have until June 27, 1908, to put the land under cultivation.

The second proof can be deferred until a later date. You would lose no right if you have made your first proof. The only difference would be the date of priority will be advanced a time equal to the difference of the time proof is actually made and the time set for proof to be made.

If you have your ditch constructed I would advise you to make the proof. If you have not, ~~it~~ will be necessary to make a new application. The priority of same would date from the time it is received in this office.

Should you conclude to make proof kindly fill out the notice sent you a few days ago and return to this office when further instructions will be sent you.

Very truly yours

693

State Engineer.

Notice of Proof of Completion of Works

(This blank must be filled out by holder of permit and forwarded by registered mail to the State Engineer at least 60 days before the time set for completion of works.)

(P. O.)

(Date)

TO THE STATE ENGINEER OF THE STATE OF IDAHO, BOISE, IDAHO:

DEAR SIR: Notice is hereby given that at 10 A.M. on the 27 day of June 1907, at Lago County of Bannock State of Idaho, before W. H. Crundell, Notary Public, proof will be submitted of the completion of works for the diversion of 1 1/5 cubic feet per second of the waters of Springs or Lakes unnamed in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is Catherine Sorensen

Catherine Sorensen

2. The postoffice address of such person or the place of business of such corporation is Lago

County of Bannock State of Idaho.

3. The number of such permit is 693, and the date set for the completion of such work is

June 27, 1907.

4. Said water to be used for Irrigating purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 1 1/5 cubic feet per second.

6. The amount of lands for which said water is available is 180 acres,

particularly described as follows:

Deed claim of
Catherine Sorensen

((In case of all canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer.)

I hereby certify that the facts set forth in the above notice are true.

Engineer.

..... desire..... that the above notice be published, according to law, in the Pocatello
Tribune of Bannock Co. Ida published in the county in which said works are
situated; the expense of which publication will be borne by Catherine Sorensen

Jas. Stephenson, Jr.

693

State Engineer.

Boise, Idaho, April 25, 1907.

Mr. George H. Perry

Oxford, Idaho

DEAR SIR:

The holder of Permit No. 693, Catherine Sorensen, residing at Lago, Idaho, which permit authorizes the diversion of 1-1/5 second-feet of the waters of Unnamed Springs or lakes at, desire to make proof of the completion of works of diversion, at, on June 27, 1907.

Will you therefore please arrange with the holder of said permit for an examination of the works of diversion, ascertain whether or not they comply fully with the terms of said permit, and render me a report on the condition of such works before the date fixed for said proof of completion, in accordance with the provisions of Sections 4 and 5 of House Bill No. 146, passed by the Seventh Session of the Legislature, approved March 11, 1903.

Your report should be of sufficient detail to enable me to figure out the amount of water the works are capable of diverting and conveying to the place of use; giving also the description of the location of the point of diversion, and, in case of irrigation, the legal description of the land to be irrigated.

Will you also make a map on the enclosed plat, giving all the essential features of the works, such as point of diversion, route of ditch, place of use, etc.

You should also arrange with the holder of said permit for the payment of your fee for this service and such proper expenses as you will incur in making this examination and report.

Please advise me promptly of your receipt of this communication, and whether or not you will be able to make the examination and report requested.

Yours truly,

INSTRUCTIONS.

Proof of Completion of Works.

Boise, Idaho, April 25, 1907.

Catherine Sorensen
Lago, Idaho
Dear Sir:

I enclose herewith the following forms to be used in connection with proof of completion of works under your permit No. 693.

Depositions of Permit Holder,

Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On June 27, 1907, the date set for the proof of completion of works, the enclosed deposition forms (~~two~~ for permit holder and ~~two each~~ for two witnesses) should be filled out and sworn to, at Lago, Idaho, before W.H. Mendenhall, H.P.

2. To complete the proof, it is also necessary that an examination be made of the works as constructed, which examination must be under the authority of the State Engineer. It is the desire to make this expense as light as possible to the permit holder. Will you therefore give me the name of a competent engineer, or surveyor, in your neighborhood who could do this work with as little expense as possible to you? Upon receipt of name of such engineer or surveyor I will authorize him to do the work. The examination should be made on or before the date set for the proof.

3. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$5.00. When these have been received, together with report of examining engineer, if everything is properly executed, Certificate of Completion of works will issue.

Yours truly,

JAS. STEPHENSON, Jr.,

State Engineer.

Oxford

June 5, 1907.

Jas. Stephenson,
Boise, Idaho,

Dear Sir:— I enclose report on completion of works of Mrs Catherine Lorensen. She thought the permit covered the entire S² NW⁴ Sec 25 instead of only the SE² of same as shown. Her receiver's receipt on the desert entry filing shows that her desert entry covers the six ^{application}forties i.e. the five as shown on the map and also the permit and the SW⁴ NW⁴ 25 in addition. I took the matter up with Fred Caldwell in whose office the papers were made out (including the permit application) and he says it was evidently an oversight. These springs are unclaimed by any one else I believe, and the entire flow is in

693

GEORGE H. PERRY

Oxford

the permit as granted. I can not see that any one would be wronged if the permit were amended by inter-writing this other forty in the description of land to be irrigated and it is a matter of considerable moment to Mrs. S. as she desires to prove up on the six forties.

Yours truly,
Geo. H. Perry

Boise, Idaho, June 7, 1907.

Permit 693.

Mr. George H. Perry,
Oxford, Idaho.

Sir:

I received by this morning's mail report in above permit. In regard to adding another 40 acre tract to the list of lands specified in above permit will say that under the new law, which has just gone into effect, this can be done, provided you do not increase the amount of water originally asked for. In order to do this it will be necessary to file an affidavit with the State Engineer showing that the it was unintentionally left out when the original application was made and giving such reasons for desiring to have it included as you see fit.

If you desire to increase the amount of water for the 40 acres of land which the law would allow you to the amount of .8 of one second foot, it would be necessary to file a new application. It would not be possible then to make the proof of this 40 acre tract at the same time but would have to be done at a later date.

Very truly yours,

Dic.S.

State Engineer.

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. 693

Proof of Completion of Works.

Deposition of Witness.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Daniel C Mershead, 37 years, Lago,
Farmer, Lago Banwock les IdahoQues. 2. Are you acquainted with Catherine Sorensen, the
holder of Permit No. 693, authorizing the diversion of 1 1/5 second-feet of the waters ofSpring unnamed, at Lago Banwock les Ida
for irrigation purposes? How long have you known ^{her} him, and where does ^{she} he reside?Ans. Six years, Lago Banwock les IdahoQues. 3. Have you read or heard read said Permit No. 693, and are you familiar with its terms and conditions?Ans. yes.

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Yes. rolling hills rough land, clay and black loam.
about 1/2 inch to the acre.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. yes.

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. Dam is made of earth and rock, ditch is 16 inches wide ^{at bottom}
and 6 inches deep, about 20 inches wide at top. ditch will
carry 60 inches of water.

PROOF OF PUBLICATION

STATE OF IDAHO,

COUNTY OF BANNOCK

ss.

Notice of Publication.

Notice is hereby given that at 10 a. m. on the 27th day of June, 1907, at Lago, county of Bannock, state of Idaho, before W. H. Mendenhall, Notary Public, proof will be submitted of the completion of works for the diversion of 1 1-5 cubic feet per second of the waters of unnamed springs or lakes, Bannock county, in accordance with the terms and conditions of a certain permit heretofore issued by the state engineer of the state of Idaho.

1. The name of the person or corporation holding said permit is Catherine Sorenson.

2. The postoffice address of such person or the place of business of such corporation is Lago, county of Bannock, state of Idaho.

3. The number of such permit is 693, and the date set for the completion of such work is June 27, 1907.

4. Said water to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 1 1-5 cubic feet per second.

6. The amount of lands for which said water is available is about 60 acres, particularly described as follows: SE 1/4 NW 1/4, S 1/2 NE 1/4, NE 1/4 SE 1/4, NE 1/4 SW 1/4, Sec. 28, Tp. 11 S., R. 31 E. B. M.

7. The amount of lands for which said water is available is about 60 acres, particularly described as follows: SE 1/4 NW 1/4, S 1/2 NE 1/4, NE 1/4 SE 1/4, NE 1/4 SW 1/4, Sec. 28, Tp. 11 S., R. 31 E. B. M.

JAS. STEPHENSON, JR.,

State Engineer.

Wm. Wallin being first duly sworn, deposes and say that he is the *Publisher* of the POCATELLO TRIBUNE, a *semi-weekly* newspaper published in Pocatello, Bannock County, in the State of Idaho. That the notice, a true copy which is hereto attached, was first published in said newspaper in issue dated the *1st* day of *May* 190*7*, and was published in every issue of said newspaper for *four* consecutive weeks thereafter.

That said paper has been continuously and uninterruptedly published in said county during a period of fifty-two consecutive weeks prior to the first publication of said notice or advertisement, and is a newspaper within the meaning of the laws of Idaho.

Dear Sir:

I enclose herewith blank Notice of Proof of Application of Water to Beneficial Use under your permit No. 693, which kindly fill out and return to me at least 60 days before the date upon which you wish to submit proof. The date of the proof is set out in your permit, and if proof is submitted subsequent to that your priority will be advanced a time equal to the difference of the time between the date proof should have been submitted and the date it is submitted.

Yours truly,

JAS. STEPHENSON, Jr.,
State Engineer.

693

Affidavit of Catherine Sorensen

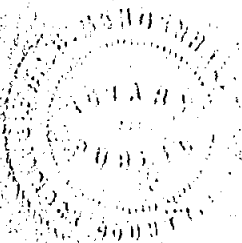

State of Idaho } ss
County of Bannock }

Catherine Sorensen being first duly sworn deposes and says:-
that she is the holder of permit number 693 appropriating one and
one fifth cuft. per second of the waters of Spring unnamed in Bannock
Co., that in filling the application, and in giving the legal
subdivisions, The S.W. quarter of the N.W. quarter of Section 28,
Tp, II So. R. 41, E. was unintentionally left out, the error having
been made by the person writing the permit, The intention being
that the following should be the legal subdivisions: So. half of
the N.W. quarter, So. half of the N.E. quarter, ~~S. W. quarter of N. W.~~
~~quarter of S. E. quarter of S. W. quarter~~ N E quarter of S. E. quarter N. E. quarter of S. W. quarter
Sec. 28 Tp. II. S R 41 E.
Now therefore Affiant asks that the S.W. quarter of the N.W.
quarter of section 28 Tp. II S. R. 41 E. to be added to permit
number 693

PERMIT NO. 693

Notice of Proof of Application of Water to Beneficial Use.

(This blank must be filled out by holder of permit and forwarded to the State Engineer at least 60 days before the time set for application of water.)

(P. O.)

Lago Idaho

(Date)

April 21-1908

To the State Engineer of the State of Idaho, Boise, Idaho:

Dear Sir—Notice is hereby given that on the 27 at 2 P.M. day of June1908, at Barnes, County of Bannock, State of Idaho, proof will be submitted of the application to beneficial use of one and one fifthcubic feet per second of the waters of unnamed springin accordance with the terms and conditions of Permit No. 693, heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are

Catharine Sorensen, Lago Idaho

2. The use to which said water has been applied is

irrigation purposes3. The amount applied to beneficial use is One and one fifth Cu feet4. The place where said water is used is (if for irrigation, give full and accurate description of the lands irrigated) SE 1/4 Sec 16, T4N, R4E, S4, NE 1/4, SE 1/4 NW 1/4 Sec 25T4N, R4E, S4

5. The name of the canal or ditch or other works by which said water is conducted to such

place of use is

South fork ditch6. The right to take the water from such works is based upon Permit No. 6937. The source of supply from which such water is diverted is a spring andditches

8. The date of the priority which said user is prepared to establish is

June 27 1904
24

I desire that the above notice be published, according to law, in the

Pocatello Tribuneof Pocatello Idaho, published in the county in which said water is to be

used; the expense of which publication will be borne by me.

OFFICE OF STATE ENGINEER

HOUSE BILL 146, SEVENTH SESSION OF THE LEGISLATURE.

Section 7. On or before the date set for the beneficial use of waters diverted under the provisions of this act, which in no case shall be more than four years from the date set for the completion of any canal or other works designed to divert and conduct the public waters of the State to a place of use, or the date for the enlargement or extension of the completion of works for such purpose, the person or persons using such water shall submit proof that they have used such water for the beneficial purpose for which the diversion of such water was intended. Such user of such water shall first notify the State Engineer that he is prepared to prove that such water has been beneficially applied to the purpose for which it was intended. Such notice to the State Engineer shall state (1) the name and postoffice address of such user, (2) the use to which such water has been applied, (3) the amount used, (4) the place of such use, and, if for irrigation, the description by legal subdivisions, of the lands so irrigated, (5) the name of the canal or ditch or other works by which such water is conducted to such place of use, (6) the relation or understanding upon which the right to take water from such works is based, (7) the sources of supply from which such water is diverted, and, (8) the date of the priority which such user is prepared to establish.

Such notice and such written proof as may be required to be submitted by such user shall be upon forms furnished by the State Engineer and such statements shall be sworn to by such user and be supported by the affidavits of two disinterested witnesses.

Upon receipt of such notice by the State Engineer, such engineer shall order its publication in some newspaper designated by such user and published in the county in which the major portion of such land is situated, for a period of four weeks, and shall fix a date when such proof shall be submitted and name a place where such proof will be received.

Such date shall be subsequent to the completion of such publication, and such engineer shall, on or before the date set for such final proof, examine, or cause to be examined (1) the place where such water is used, and if the use is for irrigation, shall ascertain the area and location of the land irrigated and the nature of all the improvements which have been made as a direct result of such use, (2) the capacities of the ditches or canals or other means by which such water is conducted to such place of use and the quantity of water which has been beneficially applied for irrigation or other purposes. And the State Engineer or the person making such examination under the direction of such engineer shall also, on the date set for such final proof, receive the written statements made by the person or persons submitting such proof and the affidavits of the witnesses, which statements and affidavits, together with a report of the investigation which he is instructed to make, shall be forwarded at once to the State Engineer: Provided, That whenever several of such final proofs shall be offered from the same locality, such engineer shall arrange, whenever practicable, to have such notices for publication combined, and to have such examinations made by the same person and on the same date as near as may be with a view of minimizing the expense of taking such proofs, and such publication shall be at the expense of the person or persons submitting such proof.

Section 8. Upon receipt by the State Engineer of all the evidence in relation to such final proof, it shall be his duty to carefully examine the same, and if he is satisfied that the law has been fully complied with and that the water is being used at the place claimed and for the purpose for which it was originally intended, he shall issue to such user or users a license confirming such use. Such license shall be issued under the seal of the office of the State Engineer and such license shall state the name and postoffice address of such user, the purpose for which such water is used, the quantity of water which may be used, which in no case shall be an amount in excess of the amount that has been beneficially applied. If such use is for irrigation, such license shall give a description by legal subdivisions of the land which is irrigated by such water.

Section 10. For examining the ditches and lands of the user at the time of making final proof of the application of water, a fee of two (2) dollars shall be paid to the State engineer at the time of making such proof for each legal subdivision of forty (40) acres or fraction thereof to which such water may have been applied. For examining the ditches or other works and the place where such water is used, when such use is not for irrigation, a fee of five (5) dollars shall be paid the State Engineer at the time of making such examination and taking the proof of such use: Provided, That in the case of water used for irrigation where two or more users, whose lands join or who take water from the same common lateral, join in the publication of the notice of their intention to make such proof of application, a fee of one (1) dollar for each legal subdivision of forty (40) acres or fraction thereof receiving such water shall be paid to the State Engineer at the time of making such proof.

INSTRUCTIONS.

Proof of Beneficial Use.

Boise, Idaho, April 29, 1908

Catherine Coranson
Lago, Idaho

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under your permit No. 693.

Deposition of Permit Holder,
Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On June 27, 1908, the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and two each for two witnesses) should be filled out and sworn to, at Bancroft, Idaho, before Fred G. Caldwell.

2. To complete the proof, it is also necessary that an examination be made of the works as constructed, which examination must be under the authority of the State Engineer. It is the desire to make this expense as light as possible to the permit holder. Will you therefore give me the name of a competent engineer, or surveyor, in your neighborhood who could do this work with as little expense as possible to you. Upon receipt of name of such engineer or surveyor I will authorize him to do the work. The examination should be made on or before the date set for the proof.

3. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$2.00 for each 40-acre tract, or fraction, to which water has been applied. When these have been received, together with report of examining engineer, if everything is properly executed, License will issue.

Yours truly,

JAS. STEPHENSON, Jr.,

State Engineer.

693

NOTICE FOR PUBLICATION.

Notice of Proof of Application of Water to Beneficial Use.

Notice is hereby given that on the 27th day of June, 1908, at Bancroft, County of Bannock, State of Idaho, proof will be submitted of the application to beneficial use of 1.2 cubic feet per second of the waters of unnamed spring in accordance with the terms and conditions of Permit No. 693, heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are XXXXXXXXXX
Catherine Coranson, Lago, Idaho
2. The use to which said water has been applied is irrigation and domestic use
3. The amount applied to beneficial use is 1.2 cubic feet per second
4. The place where said water is used is (if for irrigation, give full and accurate description of the lands irrigated) N24-S24, N24-S74, S2-N24, S24-N24 Sec. 28, Tp. 11 N., R. 41 E. S. 2.
5. The name of the canal or ditch or other works by which said water is conducted to such place of use is South Fork Ditch
6. The right to take the water from such works is based upon Permit No. 693
7. The source of supply from which such water is diverted is unnamed spring
8. The date of the priority which said user is prepared to establish is June 24, 1904.

State Engineer, Boise, Idaho.

Dear Sir: MAY 5 1908

RECEIVED
OFFICE OF THE STATE ENGINEER

I have your letter of April - 29 - 08 enclosing Notice of
~~Completion of Works and Notice of~~ Application of Water to Beneficial
Use under Permit No. 693 which will be published as you request,
beginning with our issue of May - 6 - 08

693

Truburn Co. Box

Lago Idaho
May 5, 1908

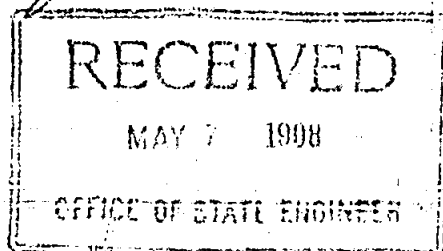

Mr Jas. Stephenson
Boise Idaho.

Dear Sir: I her by give you the name
of competent engineer Mr. F. P. Haveron.
who is one nearest and cheapest
man as near as we know

When you authorise him to do any
work ask him to let me know to
the earliest date he can't come down
and do this work.

Yours truly,
Caharin Louisen

P.S. Mr. Caldwell tell me I want have
to have an inspector inspect the land
That the government attends to that part of it
Just so come prepared to furnish evidence
of my water right on the day I make
my proof.

Boise, Idaho, ~~May 7~~, 1908~~Mr. W. P. Havenor~~~~Pocatello, Idaho~~

DEAR SIR:

The holder of Permit No. ~~593~~, ~~Catherine Serensen~~, residing at ~~Lago, Idaho~~, which permit authorizes the diversion of ~~1.2~~ second-feet of the waters of ~~Unserd Spring~~ at _____, desire to make proof of the completion of works of diversion, at _____, on ~~June 27, 1908~~.

Will you therefore please arrange with the holder of said permit for an examination of the works of diversion, ascertain whether or not they comply fully with the terms of said permit, and render me a report on the condition of such works before the date fixed for said proof of completion, in accordance with the provisions of Sections 4 and 5 of House Bill No. 146, passed by the Seventh Session of the Legislature, approved March 11, 1903.

Your report should be of sufficient detail to enable me to determine the amount of water the works are capable of diverting and conveying to the place of use; giving also the description of the location of point of diversion, and, in case of irrigation, the legal description of the land to be irrigated.

Will you also make a map on the enclosed plat, giving all the essential features of the works, such as point of diversion, route of ditch, place of use, etc. Also give the number of acres in each 40 to which water has been beneficially applied.

You should also arrange with the holder of said permit for the payment of your fee for this service and such proper expenses as you will incur in making this examination and report.

Please advise me promptly of your receipt of this communication, and whether or not you will be able to make the examination and report requested.

The holder asks to have you write her Yours, truly,
the earliest date upon which you can do
this work.

...PROOF ON WATER - MRS. SORENSON...

Mr. Jas. Stephenson, JR.,
State Engineer,
Boise, Idaho.

Dear Sir:

In accordance with your commission we have made examination for beneficial use under permit No. 693, authorizing diversion of 1.2 second feet of water in an unnamed spring by Mrs. Sorenson of Lago, Idaho. We find that the works of diversion have been completed as per report made you by Mr. G. H. Perry, and that the water has been diverted and applied to practically all the land for which it was appropriated. Upon land described in the permit there is at the present time under cultivation between five and six acres on each forty described. There is in all a total of thirty-two acres under cultivation, sown in wheat. This land has not been irrigated this season as there has been no necessity of it as yet. In addition to this about thirty acres was sown in brome grass last year and is being used as pasture.

I enclose a sketch showing lands irrigated and location of ditch, etc.

Yours truly,

693
