

No. 10128.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

1. Name of Applicant: Jos. B. Wright, L. Sumner Pond, James Herd, Al. S. Stalker, David Coombs, Wm. H. Mendenhall and Rais Cahoon.

Postoffice address: Thatcher

County: Bannock State Idaho.

2. The quantity of water claimed is $1/5$ cubic feet per second.

3. Source of water supply: Twin Springs

County of Bannock

4. Location of point of diversion: Two springs So. side SE4 NW4 North side of NE4 SW4, Sec. 1 Tp. 12^S, Range 40 East B.M.

5. To be used for:

1. Irrigation and domestic use: Domestic use, and watering gardens and lawns.

(a) Amount of land to be irrigated: ten acres.

(b) In the following legal subdivisions: NW4 SE4, SW4 & SE4 of NE4 of Section 1, Township 12, Range 40 east B.M.

6. Estimated cost of works: Five hundred Dollars.

7. Description of works for diversion: 2 in. pipe to ram, 1 in. from ram to tank, size of tank 10 x 12 x 5 feet.

1. Kind of works: Pipe from spring to ram which forces water through a pipe to a tank on a hill from there conveyed by pipe to places of use.

11. Dimension of works:

(d) Conduit pipe, Diameter of pipe 1, 2 and 3 inches. Length of conduit is $3/4$ miles and it crosses the following quarter sections: NE4 SW4, NW4 SE4, SW4 & SE4 NE4 of Section One in Township Twelve South of range forty East B.M., to land described in 5 I (b) above which is the point of intended use.

8. The time required for the completion of the construction of such work is One year.

9. Time required for the complete application of the water to the proposed use is one additional year.

BE IT KNOWN That the undersigned hereby makes application for a permit to appropriate the public waters of the State of Idaho as herein set forth.

Wm. H. Mendenhall,

Applicant.

Remarks: The water from said springs is to be conveyed by means of pipe and a ram which forces the water to the top of a hill and stored there in a tank, and conveyed from the tank by means of pipes running to places of intended use as shown on maps. Water will be used principally for domestic use, and for watering gardens and lawns. The springs are located at the edge of Bear River. The ram will only deliver one seventh of the water that it takes to run it. The water not delivered will run into the river as at present.

 APPROVAL OF STATE ENGINEER.

The number of this permit is 7007.

Date of first receipt of application 9.00 a.m. January 2, 1911.

Recorded in Book 21 Page 7007 Approved January 21, 1911.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho and hereby grant the same, subject to the following limitations and conditions:

Work to begin on or before March 22, 1911 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before July 21, 1911.

The whole of said work to be completed on or before January 21, 1913.

The time for proof of beneficial use of water appropriated in accordance herewith, extended to January 21, 1915.

Witness my hand this twenty-first day of January, 1911.

D. G. Martin,

State Engineer.

Both Notices received November 13th, 1911, fixing January 20th, 1912, as date and Thatcher as place of proof.

Deposition blanks mailed December 5th, 1911 to Wm. H. Mendenhall, U. S. P.

Publication Notice mailed December 5th, 1911, to the Tribune Co.

Depositions and affidavit received January 29th, 1912.

Fees received February 19th, 1912.

Henry Seomans of Perry, authorized October 15th, 1912 to make the required examination.

Report received October 30th, 1912.

Certificate and License issued November 2nd, 1912.

License issued for 1/5th second-foot.

Permit No. 7007.

CERTIFICATE OF COMPLETION OF WORKS.

To All Whom it May Concern:

This is to certify that Joe. B. Wright, L. Sumner Pond, James Herd, Al. S. Stalker, David Coombs, W. H. Mendenhall and Rais Cahoon, of Thatcher, County of Bannock and State of Idaho, the holders of Permit No. 7007, issued upon Application No. 10128, bearing date of priority of January 2nd, 1911, authorizing the diversion of 1/5th of one second foot of the waters of TWIN SPRINGS, County of Bannock, State of Idaho, for irrigation and domestic purposes, have fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 1/5th of one second-foot of the waters of Twin Springs; that the point of diversion of said waters is at a point, first, on the South side of the SE $\frac{1}{4}$ NW $\frac{1}{4}$, and, second, at a point on the North side of the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 1, Township 12 South, Range 40, East of the Boise Meridian, and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: NW $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 1, Township 12 South, Range 40, East of the Boise Meridian.

Witness my hand this 2nd day of November, A. D. 1912.

A. E. Robinson,

State Engineer.

License issued for 2/10 second feet
Page 122

STATE OF IDAHO,)
) ss.
County of Ada)

Warren G. Swendsen being first duly sworn, upon his oath deposes and says:

That he is the agent for the owner and holder of Permit to appropriate the Public Waters of the State of Idaho No. 7007.

That he intends to change the point of diversion, as described in said permit, to the following point: At a point north 67° 20' west 420 feet from the center of Section 1, Township 12 South, Range 40 East, B. B. & M.

That such change will be made for the following reasons, to-wit: The source of supply for this appropriation, Twin Springs, have been located and tapped at higher level, thus making it possible to divert the flow therefrom into the storage tank shown on the attached plat by gravity, thereby eliminating the necessity for using hydraulic rams as are provided in the original permit.

That no one will be injured by such change and that deponent will make such change at his own risk.

And further deponent saith not.

Warren G. Swendsen.

Subscribed and sworn to before me this 3d day of January, 1918.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Jos. B. Wright, et al,
Thatcher, Idaho.

Boise, Idaho, October 1st, 1911.

Dear Sir:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 7007.

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which it is to be submitted, which proof MUST be on or before January 21, 1912.

Upon receipt of this blank properly filled out, notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

A. E. ROBINSON
State Engineer.

A. E. Robinson

State Engineer

Boise City

Dear Sir:-

If you will permit it, we would like to make proof of the Completion of Works, also appropriation of water to beneficial use at the same time. in January 1912.

If this can be done kindly advise me, and send the necessary blanks with instructions. In case we can make the proof as stated

above, would the same witnesses do in both cases?

Thanking you in advance for an early reply.

I am yours truly,

Geo. B. Knight

Notice of Proof of Completion of Works

(This blank must be filled out by holder of permit and forwarded by registered mail to the State Engineer at least 60 days before the time set for completion of works.)

(P.O.) Thatcher Idaho

(Date) Nov 10 1911

TO THE STATE ENGINEER OF THE STATE OF IDAHO, BOISE, IDAHO:

DEAR SIR: Notice is hereby given that at 2 P. M. on the 20 day of January, 1912, at Thatcher, County of Bannock, State of Idaho, before Wm H. Mendenhall Notary Public proof will be submitted of the completion of works for the diversion of 1/5 cubic feet per second of the waters of Twin Springs in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is Jos. B. Wright
L. Sumner Reed James Herd Al S. Stalker
David Coombs W. H. Mendenhall and Rais Cahoon
 2. The postoffice address of such person or the place of business of such corporation is Thatcher, County of Bannock, State of Idaho.

3. The number of such permit is 7007, and the date set for the completion of such work is January 20 1912

4. Said water to be used for Domestic & Watering gardens & Lawns purposes.

5. Said works of diversion will be fully completed on the day set for such completion, and the amount of water which said works are capable of conducting to the place of intended use in accordance with the plans accompanying the application for such permit is 1/5 cubic feet per second.

6. The amount of lands for which said water is available is 10 acres, particularly described as follows: NW 1/4, SE 1/4, S 1/4, & SE 1/4 of
NE 1/4 of Section 1 Township 12 Range 40 East B. M.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer.)

I hereby certify that the facts set forth in the above notice are true.

NOV 15 1911

Engineer.

OFFICE OF STATE ENGINEER

We desire that the above notice be published according to law, in the Pocatello Tribune County of Bannock, published in the county in which said works are situated; the expense of which publication will be borne by Jos B Wright

INSTRUCTIONS

Proof of Completion of Works

Joe. B. Wright, et al., and
c/o Wm. H. Mendenhall, of Beneficial Use of water.
Thatcher, Idaho.

Boise, Idaho, Dec. 5th, 1911.

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of completion of works and beneficial use of water under Permit No. 7007.

Deposition of Permit Holder,
Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On January 20th, 1912, the date set for proof, the enclosed forms (two for permit holder and two each for two disinterested witnesses) should be filled out and sworn to, at Thatcher, Idaho, before W. H. Mendenhall.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fees as follows: Fee for proof of completion of works is \$5.00 for ten second feet or less. Over ten second feet a charge of 30 cents a second foot is made. The fee for beneficial use of water, for power purposes is \$5.00; if for irrigation, \$2.00 for each 40-acre tract, or fraction, to which water has been beneficially applied.

When these have been received, together with report of the Water Commissioner, if everything is properly executed, Certificate of Completion of Works and License will issue.

Yours truly,

A. E. ROBINSON

State Engineer.

Depositions must be received in this office by Feb. 4th, 1912.

7007

December 5th, 1911.

Re: Permit 7007.

Hon. Charles H. DeCamp,
Water Commissioner,
St. Anthony, Idaho.

Sir:

On January 20th, 1912, Jos.
B. Wright, et al., of Thatcher,
Idaho, the holders of the above
numbered permit, desire to make
proof of completion of works and
of application of water to bene-
ficial use on 1/5 of one cubic
foot per second of the waters of
Twin Springs.

Very truly yours,

State Engineer.

Proof of Application of Water to Beneficial Use

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Joseph B. Wright, 49 years old, Thatcher

Bellevue Co. Idaho. Farmer Thatcher 2da

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting in behalf of J. B. Wright et al by appointment from them at a meeting held for that purpose

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. * 7007 date Jan 2, 1911, Nov 1 - 1910

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Twin Springs to side SE⁴ NW⁴ & north side of NE⁴ SW⁴ sec 2 & 12 R 40 East B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. 2 in & 1 1/2 in pipe from spring to rains. 1 in pipe from rain to tank. Size of tank 10 x 12 x 5 feet. From tank to place of use water conveyed by pipe 2 in to 3/4 in. Can convey 1/2 of one cusec.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Place of use is around dwelling houses. Used principally for domestic use. Lawns & gardens are sprinkled to the amount of about 1/2 in NW⁴ SE⁴ & acres SW⁴ NE⁴ 5 acres SE⁴ NE⁴ 2 acres. Shade trees have been planted & gardens have been cultivated & watered & other shrubbery grown

Ques. 7. If for other than irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. irrigation of lawns & gardens & domestic use

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. *has been used since July 1, 1911 conveyed to the several homes by means of pipe. The full amount of water in spring have been diverted & has been used in homes and for watering gardens lawns & trees.*

Ques. 11 State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. *none.*

Received and filed

THE TRIBUNE POCATELLO, IDAHO

Permit No. 7007

Proof of Application of Water to Beneficial Use

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Calvin W. Bennett, age 30, Lago Barrow
Idaho Farmer, Lago IdahoQues. 2. Are you acquainted with Joseph B. Wright et al, the
holder of Permit No. 7007? How long have you known him and where does he reside?Ans. Twenty years, & resided as Thatcher
Barrow Co Idaho

Ques. 3. Have you read or heard read said Permit No. 7007, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Two springs on side SE⁴ NW⁴ & north side NE⁴ SW⁴ Sec 1
T²P¹², Range 40 E. B.M. Water conveyed by 2 in 1/4 in pipe from spring
to runs from runs to storage tank by 1 in pipe, and from tank to
places of use by pipe from 2 in to 3/4 in

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed.

Ans. 1/2 of 1 c.f.s. Have seen all of the water so conveyed

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Principally for domestic use. Trees & gardens are watered
from the works. In NW⁴ SE⁴ 3 acres, SW⁴ NE⁴ 5 acres, SE⁴ NE⁴
2 acres. shade trees, shrubbery, & gardens have been grown
as a result of the water.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is a sandy loam & would require at least
one inch to the acres

7007

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10 State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. at various times since July - 1911, have witnessed
the water used in houses for domestic uses and
have seen it used for irrigating gardens etc. at
different times during summer of 1911.

(Sign Calvin W. Bennett)

Re: Permit #7007.

Joe. B. Wright,
Thatcher, Idaho.

Sir:

Owing to the increased amount of work required of the water commissioners, it will be impossible for them to make the examinations in the matter of proof under the small water rights. It will, therefore, be necessary for you to have this work done by some one whom you know to be competent to make such examination and report. If you will send the name of such a party, instructions and blanks will be furnished him. A licensed surveyor is preferred where one can be conveniently obtained.

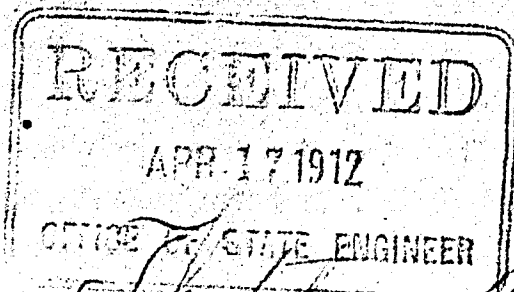

Very truly yours,

State Engineer.

DEAR SIR:

J.B. Wright, et al, residing at Thatcher
County of _____, State of Idaho, has requested that
you make examination required under Permit No. 7007. Will you
therefore, arrange with the holder of said Permit to make such examination as will
enable you to answer the questions on the enclosed blank? Also, make a sketch on
the enclosed blank plat showing source of supply, point of diversion, route of ditch
and place of use. You should, also, arrange with the holder of said Permit for the
payment of your fee for your services, and such proper expenses as you will incur in
making this examination and report.

Please advise me promptly of receipt of this communication, and whether or not
you will be able to make the examination and report as required.

Very truly yours,

A. E. ROBINSON,

State Engineer.

7007

REPORT OF ENGINEER.

1. State name of applicant and number of permit: *J. B. Wright et al 7007*
2. State source of water supply: *Twine springs*
3. Location of point of diversion: *On the N.E. quarter of the S.W. quarter section sec 1 Tp 12 So R 40 E B. M.*
4. State whether or not the works of diversion are fully completed and in accordance with the terms of permit: *yes*
5. Describe works as they exist, giving dimensions of same as follows:
 - (a) Width of conduit at bottom: *1:2 in pipe & 1:1 1/2 in pipe*
 - (b) Width at water line: *which feed one no 5 & one no*
 - (c) Depth of water: *4. same Hydraulic ram*
 - (d) Grade per mile:
 - (e) Capacity of ditch: second feet.
6. State whether or not water has been turned into works of diversion, and if so, to what extent: *yes to full capacity*
7. Give exact location of lands to be irrigated. Give exact number of acres under cultivation in each forty-acre tract: *Said water is used only for domestic purposes - each share holder using Hydrants*
8. Submit map on enclosed plat, showing source of supply, point of diversion, route of ditch or ditches and cross-hatch lands to be irrigated.

Enc: APD-M.

7007

Handwritten: 7007

Wm. H. Mendenhall
NOTARY PUBLIC
JUSTICE OF PEACE
THATCHER, IDAHO

June 17, 1942

Department of Reclamation

Boise, City, Idaho.

Dear Sirs:-

In the year 1911 we, Joseph B. Wright, L. Sumner Pond, James Herd, Al S. Stalker, David Coombs, Wm. H. Mendenhall and Rais Cahoon made application for permit to the use of TWIN SPRINGS in Thatcher, Idaho for domestic purposes to supply the applicants with a water system for their homes.

On Nov. 2 1912 water license No, 7007 was issued to us from your office.

We used the ram system as provided in our application until 1918 when we made application to move our point of diversion at a higher level so that we could use a gravity system and eliminate the use of the ram as was provided for in the permit.

The spring is developed in the lava rock which results in the loss of water through crevices etc.

We have used this water from this point since 1918 but in recent years the flow has been decreasing and it may be we may be compelled to move back to our old system if we get our water.

Just now the Gem Valley Dairymans Association Inc. is installing a pump at about our old location and upon the same twin springs. to supply their plant with water.

While they did not consult us in the matter we have no objection so long as there is sufficient water.

They will no doubt file an application with you for the water. Will this interfere in any way with our right to the springs in case it becomes necessary for us to drop back to our former location in order to get our water.

We contend for a prior right to them under your permit and the continuous use of the water for the past 30 years.

In case they file on the springs will it be subject to our filing or will it be necessary for us to file with you a counter claim at the time of filing or at any other time during the course of their proof?

We have no objection to their using the water so long as the supply is ample, but we do not want to lose our rights to the Twin Springs to them. Neither do we want to be barred from diverting the water at a point where we can serve our needs.

The springs came out of the lava rocks and flow directly into Bear River and there is no other persons interested.

An early reply will be greatly appreciated.

Yours very truly.

Wm. H. Mendenhall

7007

June 20, 1942

Mr. Wm. H. Mendenhall
Thatcher, Idaho

Dear Mr. Mendenhall:-

Your letter received regarding the status of the water rights on Twin Springs, in Thatcher, Idaho.

You are making a rather unusual request in asking that water rights be retained at two locations at the same time, and in order to answer your questions more intelligently require a little more information as to the condition of the springs themselves.

Please state whether the flow in the springs decreased when you developed the water at a higher elevation?

Your filing is for 1/5 sec.ft. i.e. 10 miners inches- state whether this is more or less than the amount actually used?

Beginning in 1918, state how long thereafter your present water supply ran full, i.e. without change; also when the decrease began and about how much water there is at the present time.

During the period of decrease of the upper springs has there been a noticeable increase in the lower or original springs? How much water is in the lower springs at this time?

Do you think that if the upper development were stopped or plugged up that the water would appear in the lower spring?

Please state, if you know, how much water the Dairymans Association are expecting to pump, and whether it will take practically all the springs.

We cannot tell you definitely at this time what would be your best course in the matter, however you will have to decide which source you expect to hold. You might transfer all or part of your water back to the springs or you might hold your present location and make a new filing for additional water at the lower springs. However our final recommendation to you will depend largely on the answers to the above questions

Very truly yours,

E. V. Berg
Commissioner of Reclamation

EVB:lap

7007

7007
Wm. H. Hendenhall

NOTARY PUBLIC
JUSTICE OF PEACE

THATCHER, IDAHO

June 30, 1942

RECEIVED

JUL 2 1942

Department of Reclamation

E. V. Berg
Commissioner of Reclamation.
Boise, City, Idaho.

My Dear Mr. Berg:-

Answering your letter of the 20th inst. regarding the Twin Springs water rights at Thatcher, Idaho I will answer each paragraph separately as best I can from my connection with the works from the beginning. The springs appear to no longer twin springs since the decrease of the water as the North spring no longer runs and it seems ~~to~~ but one spring and evidently separated into two streams when the water was more plentiful than it is now.

You say "we are making rather unusual request in asking that water rights be retained at two locations at the same time." In the Bear river water decree at page 75 right No. 322 and NO 323 at page 35, No 371 and 377 the Federal court did that very thing and its more complicated because there are others diverting from the same streams while in this one the water runs from the spring through a great lava bed into the Bear river.

When the water was developed at the higher level, it was done by one of the permittees and his brothers aimed to be on the quiet to take water around the hill to a small tract of land they then owned, but it was discovered then that it decreased the water used in operating the ram and so they abandoned it. ~~at~~ together we moved up on that site to get gravity but it was never high enough to cover the land they had in mind. Gradually all the years, the stream has decreased as you know it has done every where, I once had a well dug on my ranch on the flat above this spring. We got the water in the lava rock at about 166 feet and plenty of it but after about 10 years the well dried up and I had to abandon it.

When we tapped the spring at the higher level all we had to do was lay our 3 inch pipe in the rock and it ran full. A few years later we had to build a small tank to pool the water to get enough to fill our pipe. At that time the tank filled and ran over the top but now it never gets so high and at times some of the water uses are shut off your hydrant I can't get any water.

In our original permit we asked for 5/10 cu. ft. but was cut to 1/5 sec. ft.. I think this is more than we actually use now but would not be if we could get it into our line.

The Bear river decree was made in 1920 and it was probably 10 years later when we noticed material difference and it has been on the decrease ever since until now the water fails to run out above the rocks at the side of the road as it used to. I have asked several parties to look at the water at the spring and they all say we have less than 10 inches.

There is no lower and upper spring. There is but one spring and it runs down through the loose lava rocks and when the water was high evidently divided into two and we called the two streams the twin springs. At that time there was so much water we had no occasion to make any investigation, Now it is evident there is one spring but not enough water

to rise above the rocks.. There has been no noticeable increase in the stream below, but it has decreased so that you would not know by observation that there was water there.

We have talked for some time in trying to plug the the spring to raise the water in our tank , but there has been a fear that we might loose all the water some other road that we havent done it. I am of the opinion that should we plug the spring there would be a very material decrease in the amount of water below, and others have made the same observation.

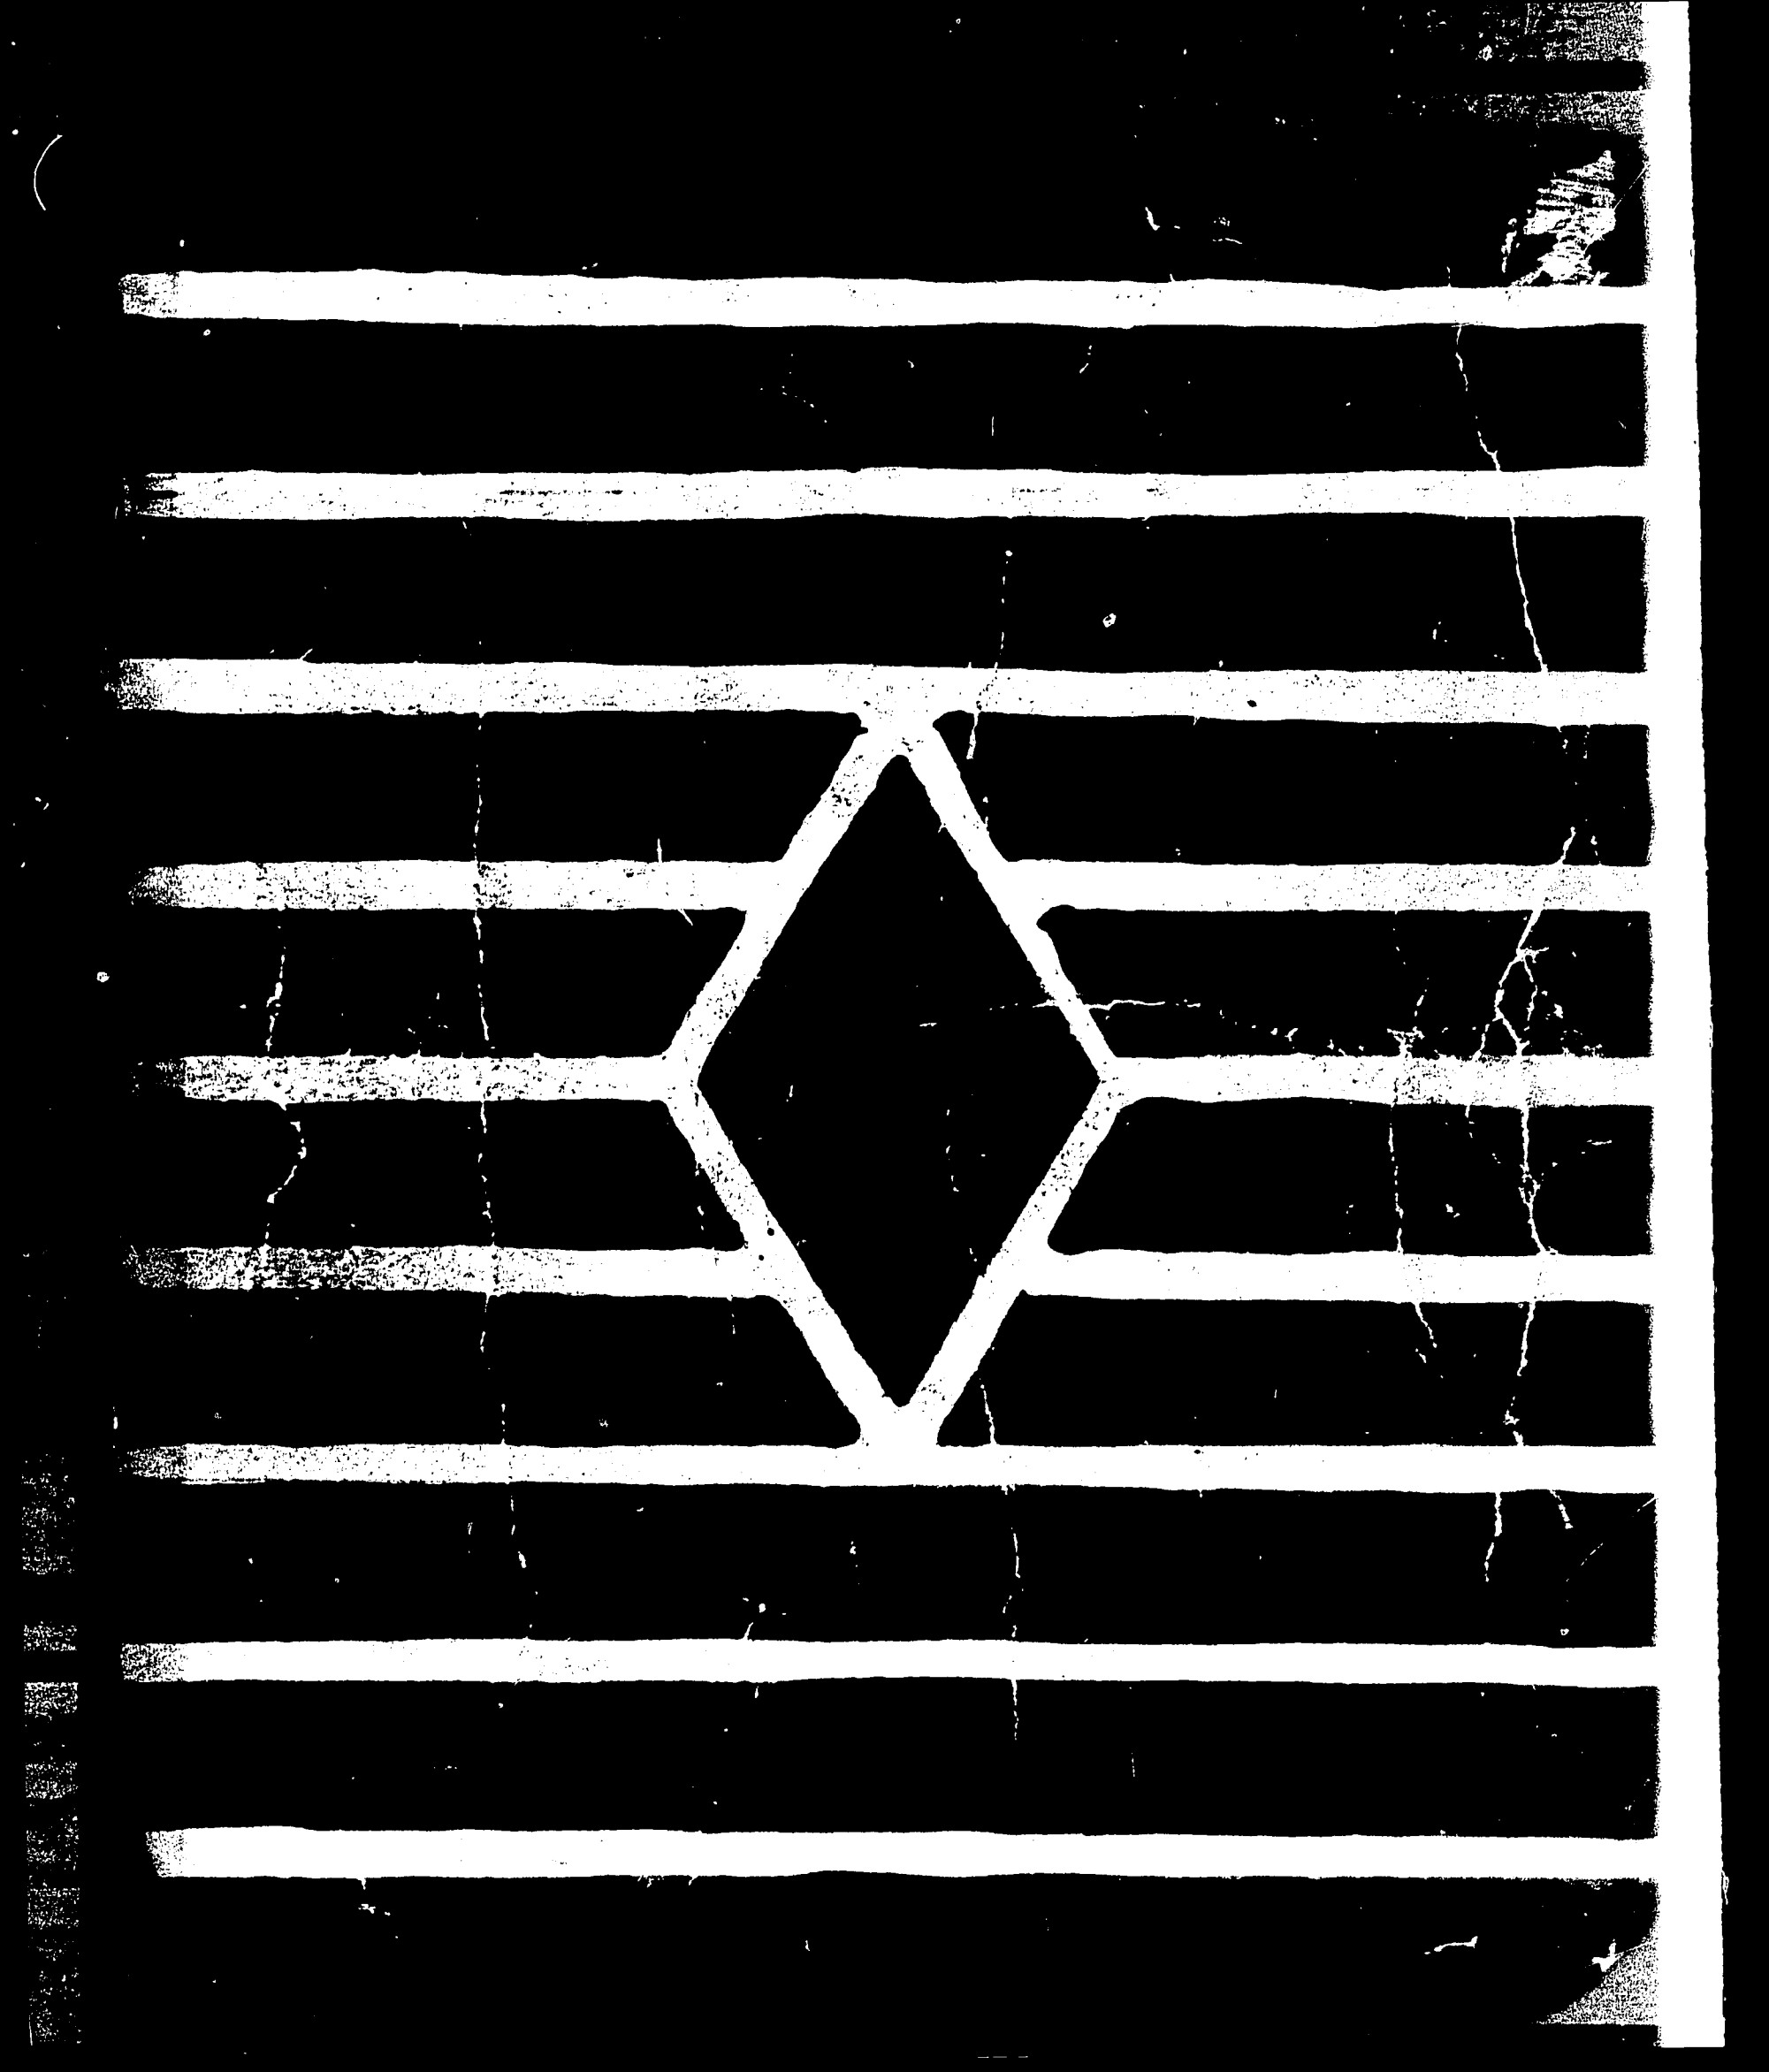

I do not know how much water the dairy association expects to pump, but they are laying 2 inch pipe from the pump to the building. They have moved the rock down to the water and built a cement poolish tank over which they will set their pump. The pump is not yet installed. I heard one mechanic there was not enough water there to supply their pump , but that remains to be proven. I am quite sure it will take all the water they can gather to supply the *m*.

For the reasons set forth above we feel that we are entitled to first right on the stream and that our locations for diversion should be recognized , And if necessary to be able to make the right claims and at the right time to guard our priority right to the springs, and thus save any expensive litigation should it come.

If we should file again on the stream where we origionally started from we would hafto build the works all over again in order to make prooff this we do not want to do unless compelled to do so to get our water. We have not raised any objection to the dairy putting in their system nor using the water so long as it is there, but we do want to protect our rights of 30 years.

Yours very truly.

S T A T E O F I D A H O

Water License No. 7007.

WHEREAS, On the 2nd day of January, A. D. 1911, Jos. B. Wright, L. Sumner Pond, James Herd, Al. S. Stalker, David Coombs, W. H. Mendenhall and Rais Cahoon, of Thatcher, County of Bannock State of Idaho, duly made application (No. 10128) to me for a permit to use 1/5th of one cubic foot per second of the waters of TWIN SPRINGS, County of Bannock, State of Idaho, for irrigation and domestic purposes, and,

WHEREAS, On the 21st day of January, A. D. 1911, Permit No. 7007 was issued to said applicants for the diversion of said water, and providing for the completion of the works of diversion therein described on or before the 21st day of January, A. D. 1912, and for the application to beneficial use of said water on or before the 21st day of January, A. D. 1913, and,

WHEREAS, On the 20th day of January, A. D. 1912, Jos. B. Wright, L. Sumner Pond, James Herd, Al. S. Stalker, David Coombs, W. H. Mendenhall and Rais Cahoon, the holders of said permit, duly made proof of the completion of adequate works for the diversion of 1/5th of one cubic foot per second of said waters, as evidenced by my Certificate No. 7007, dated November 2nd, 1912, confirming the completion of works of sufficient capacity for diverting and conveying to the place of intended use 1/5th of one cubic foot per second of water, with date of priority of January 2nd, 1911, and,

WHEREAS, On the 20th day of January, A. D. 1912, Jos. B. Wright, L. Sumner Pond, James Herd, Al. S. Stalker, David Coombs, W. H. Mendenhall and Rais Cahoon, the holders of said permit, duly made proof of the application to beneficial use of 1/5th of one cubic foot per second of said water:

NOW, THEREFORE, BY virtue of authority vested in me by the laws of the State of Idaho, I hereby grant and confirm to Jos. B. Wright, L. Sumner Pond, James Herd, Al. S. Stalker, David Coombs, W. H. Mendenhall and Rais Cahoon, of Thatcher, County of Bannock, State of Idaho, the holders and owners of said Permit No. 7007, a perpetual right, dating from January 2nd, 1911, to the use of 1/5th of one cubic foot per second of the waters of TWIN SPRINGS, in the County of Bannock and State of Idaho, or so much thereof as may be necessary for the purposes hereinbelow mentioned, to be diverted at a point on the South side of the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$, and on the North Side of the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 1, Township 12 South, Range 40, East of the Boise Meridian, and the place of use of said water is at a point in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 1, Township 12 South, Range 40, East of the Boise Meridian, for the purpose of domestic use, and watering gardens and lawns, subject, however, to the laws of the State of Idaho, applicable to a license for the use of the waters of the State, and subject, also, to the local or community customs, rules and regulations which have been or may be adopted from time to time by a majority of the users from a common source of supply, canal or lateral from which such water may be taken, when such rules and regulations have for their object the economical use of such water.

WITNESS, My hand and the seal of my office at Boise, Idaho, this 2nd day of November, A. D. Nineteen hundred and twelve.

(SEAL)

A. E. Robinson,
 State Engineer.
