State Engineer.

Remarks:

The reservoir of the Oxford Reservoir and Irrigation Co. with a height of levees of 8 feet has been constructed and Final Proof for completion of the works was made in 1912. A new permit for raising the water level of the reservoir 5 additional feet has been approved in April 1914. The water supply for the reservoir consists altogether of surplus water and the reservoir has to be filled two or three times during the winter season and the early summer season to furnish sufficient water for the amount of acreage to be irrigated. It has been found that winter seasons of light snowfall do not furnish sufficient surplus water from Gooseberry Creek and its tributary ravines, which now has been used for the supply of the reservoir and that therefore an additional supply should be secured. The surplus water of Oxford Creek is not used by the settlers and can only be made profitable to the farmers, by impounding it in a reservoir.

EXTENSION OF TIME

Upon proper request of Oxford Reservoir & Irrigation Company, holder of Permit No. 11273, I have this 11th day of May, 1918, extended the time for completion of works thereunder, to November 2d, 1920.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 11273

Comes now Walter Hatch, President of the Oxford Reservoir and Irrigation Company, and represents to the Commissioner of Reclamation of the State of Idaho, That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 11273, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

The S $\frac{1}{4}$ of NW $\frac{1}{4}$ SW $\frac{1}{4}$ and S $\frac{1}{4}$ of NE $\frac{1}{4}$ SW $\frac{1}{4}$ and N $\frac{1}{4}$ of SW $\frac{1}{4}$ SW $\frac{1}{4}$ and N $\frac{1}{4}$ of SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 15, T. 13 S., R. 38 E. of B. M., also the S $\frac{1}{4}$ of SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 23, T. 13 S., R. 38 E. of B. M. also SW $\frac{1}{4}$ NE $\frac{1}{4}$ and N $\frac{1}{4}$ of SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 27, T. 13 S., R. 38 E. of B. M., making a total of 160 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Oxford, this 6th day of May, 1921.

Walter Hatch.

Date of receipt at Office of Department of Reclamation May 9, 1921.

APPROVAL OF COMMISSIONER OF RECLAMATION.

I, W. G. Swendsen, Commissioner of Reclamation of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 11273. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Dear Sir:

Please, find enclosed "Application of the Oxford Reservoir and Irrigation Company for Permit to appropriate Surplus Water from Oxford Creek for the Reservoir of the Company," which I have corrected as to the figure of the given acre feet. Such figure should have been "1200" and not "12000" and I regret that I overlooked this clerical error before sending the papers to your office.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Oxford Res. & Irrg. Co.
Oxford, Idaho

Boise, Idaho,

Dear Sir:—

Under the terms of your Permit No. 11273, you are required to complete your diversion works on or before June 19, 1918. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

Fred A. Wilkie

FOR COMPLETION OF WORKS

Walter Hatch President of the _____, of Oxford
 State of Idaho _____, being first duly sworn, upon his oath deposes and says:

He is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho
 No. 11273

Under the terms and conditions of said permit, construction work thereunder was required to be completed by June 19, 1918.

That he has heretofore performed the following work described under said permit:

we have the ditch almost finished
 but feel that we can not complete it
 at this time because we have to put all of
 our time in farming, we have done work
 in the following amount
 costing \$1,000.00

THAT he is unable to complete the remainder of the work within the required time, for the following reasons, to-wit:

that the farmers have more important
 work to do in raising grain at this time

WHEREFORE, He asks that the State Engineer extend the time for the completion of construction work under said permit, to November, 1918.

POCATELLO, IDAHO. June 18/ 20

Hon. W.G. Swendsen

Commissioner of Reclamation Boise, Idaho.

Dear Sir:

Enclosed, please, find: Proof of Completion of Works for Permit # 11273, by "Affidavit of Holder", viz: The Oxford Reservoir and Irrigation Company, subscribed and sworn to by Walter Hatch, the President of the Company; also Relinquishment by above Company of all the Right, Title and Interest in and to Permit # 11076, to raise the water level of the reservoir of their Company five additional feet. The Company requested me to inspect the works of Permit # 11273 before submitting their Final Proof of Completion, which I have done, and I herewith corroborate all the Statements made in the Affidavit of Holder of the Permit.

Regarding the enclosed Relinquishment of the rights to raise the level of the Reservoir it has been found that during the seven years last past, the Quantity of water furnished by the different sources for storage has been considerably less than was anticipated when application for Permit # 11076 was made and that, after storage from the surplus water of Oxford creek had been added for several years, the present height of the dam and the levees will insure perfect safety for future increased quantities of surplus water from the present sources, which may be caused by exceptionally spring floods.

The quantity of water claimed being only five second feet, I hope that you will accept the final proof in the submitted form, without the expense which the publication in a newspaper would cause.

Very respectfully

yours

Oscar Sonnenkalb.

Re Permit 11273.

Mr. W. Hatch, President,
Oxford Reservoir & Irrigation Co.,
Oxford, Idaho.

Dear Sir:-

In checking the notices for proof of beneficial use of water under the above permit I find that the description of the lands to be irrigated does not agree with the permit. The permit gives the following described lands: NW $\frac{1}{4}$ Sec. 26; N $\frac{1}{2}$ and SW $\frac{1}{4}$ Sec. 27; E $\frac{1}{2}$ Sec. 28; W $\frac{1}{2}$ & NE $\frac{1}{4}$ Sec. 33, all in Twp. 13 S., R. 38 E., B.M.

The notices for proof are accordingly herewith returned for correction of the lands. If the description in the notices is correct, an application for amendment of the permit should be filed upon the blank enclosed, such application to be accompanied by duplicate maps showing the new lands.

These papers should be returned to us as soon as possible in order that publication may be made before June 19th.
